DEMOCRATIC STATE CONVENTION.

The Democratic voters of the State of New Jersey, and all others desirous of uniting with them in the effort for pure, economical and constitutional government, are requested to meet at such times and places as may be designated by the several County and City Executive Committees, to elect Delegates to the Democratic State Convention, to be held at TAYLOR OPERA HOUSE, in the CITY OF TRENTON,

On THURSDAY, the 20th Day May, 1880,

at 11 o'clock, M., for the purpose of electing four Senatorial and fourteen District Delegates to the Democratic National Convention, to be held at the city of Cincinnati, on Tuesday, the 22d day of June next, to nominate candidates for President and Vice President of the United States, such delegates to be instructed as to the desirability of continuing the two-thirds rule any longer in National Conventions.

The basis of representation will be one Delegate for each one hundred Democratic votes, and one for each fraction of the same over fifty, cast at the last Gubernatorial election in this State; but each Ward and Township shall be entitled to at least one Delegate.

GAMBLING.

A member has been expelled from the New York Produce Exchange because, failing in business and then being unable to meet his compromise notes, he by word of mouth charged misfortune to losses caused by "gambling" on the Exchange. That the Board of Managers, with assumed indignation, officially proclaimed to be a slander and therefor thrust the offending gentleman out of doors.

Such a decision won't bear the investigation of truth. To gamble is to bet money or any other valuable consideration on something that may by chance happen, and the law very properly withholds from certain defined species of it the protection of legality.

The prohibition ought to be universal. A man may ruin himself by betting on the throw of cards, or running of a horse, or result of an election, or on many other kinds of chances, as thousands have done and continue to do on the rise or fall of stocks.

In the name of common sense and honesty, where is the difference between a gaming table or race course and the Stock and Produce Exchanges, as at present conducted.

Gambling sits Empress over all.

We believe it to be a fact, that a large portion of the engagements daily made on both the Exchanges named, consist in agreeing to buy or sell without being in possession of the articles professedly bought or sold.

If that is not betting on chances, chalk is cheese.

The whole system is destructive to good morals and sound business, and the sooner it is abolished, better will it be for the general welfare.

If a man wants to purchase wheat or pork, stocks or bonds, in large or small quantities, oblige him to pay the money for the total cost and actually receive the commodities or certificates bought, and selling, let him in like manner make bona-fide delivery at the time.

That would be legitimate trading, and for such purpose, as a means of bringing traders, not gamblers, together, Exchanges were established.

FOR PRESIDENT,
JOEL PARKER.

Among the several Democratic names that have been mentioned in connection with the forthcoming nomination for President, there is no one more eminently fitted for that high and responsible position, both as regards executive skill and personal merit, than our honored fellow citizen of New Jersey, ex-Governor Joel Parker.

His record is unblemished. Nothing can be truthfully said against him, but volumes in his favor. He has been abundantly tested and found in every particular competent and trustworthy.

As Governor for two terms, he displayed administrative ability of the highest order.

He is an honest man.

He is an intelligent statesman.

He is a plain unassuming man of the people.

He believes in popular rights.

He knows public duty and fearlessly performs it.

As a loyal defender of the Constitution and Union, in war and in peace, he has ever stood conspicuous and firm.

We hope the Cincinnati National Convention will wisely make Governor Parker the standard bearer of Democracy in the approaching Presidential contest.

He can carry it to victory.

A writer in the New York *Sun* thus discourses:

"It is now almost certain that Grant is to be again the candidate of the Republican party for the Presidency.

The danger startles patriots, arouses their zeal, and multiplies opposition all over the country. The mass of the people are not besotted nor insane.—They are not ready to be wheedled into that most deplorable of all human degradations—self-enslavement.

The opposition, if cordially united, has ample strength to crush this conspiracy against liberty. The great need of the hour, then, is a cordial union of the opposition; and the way to effect it is for the Democratic party to present to the people a candidate who is a pure and patriotic man, with such warmth of character as excites sympathy and enthusiasm. If there are no such men among the most prominent of the party they can yet be found. Ex-Gov. Joel Parker, of New Jersey, is one such. His popularity is singular. His State has tried him fully in public life, and with so much satisfaction that she is ever ready to try him again. Lofty in patriotism, noble in ambition, untainted with corruption, a man of the people who believes in the people, with warmth of heart to feel most for the most humble, with breadth of soul to compass the whole land, he is such a man as we need. With him we can crush the conspiracy and sink the arch knaves into eternal infamy.

The opportunity now of the Democratic party is grand. Liberty appeals to it for rescue. The service it can now do the country is vital."

The act creating the Pleuro-Pneumonia Bureau has been repealed by both branches of the Legislature.—Another bill, with like provisions as to the one repealed, is now on its final passage, which gives the same power to the State Board of Health, as that vested in the Bureau of last year. Gov. Wm. H. Sterling, Chief of the Bureau, issued a card in the New York *Herald* of Sunday last, raising the quarantine against the exporting of cattle between the States of New York and New Jersey.

Judge Magie's circuit will include Somerset, Morris and Essex Counties, lately presided over by Judge Dalrymple.

Hon. George Sykes died at his residence in Burlington County, Wednesday of last week.

TRUTH ABOUT THE SOUTH.

There has been an immense amount of falsification and abuse heaped upon Southern white people by unprincipled journals, for the purpose of creating prejudice and political capital at the North.

In answer to such partisan fiction, we make lengthened extract from an interesting address recently delivered to the citizens of Cherry Valley, New York, his birthplace, by Doctor William H. White, now and since the close of the war a resident of Atlanta, Georgia.

Doctor White went to the war a *strong Republican*, being the first surgeon appointed from the State of Iowa where he then lived. When peace was attained, in consideration of health he remained at the South.

Read the testimony of an honest Republican eye-witness. It will repay attentive perusal:

"Our State School Commissioner has the universal respect of the colored preachers and teachers all over the State, (as they think and act so do the masses of this people), and of the whites everywhere, because of his care of this public charge. Aside from the good feeling entertained, it is the best of policy to educate and elevate the colored race. It is cheaper to pay for schooling than crime caused by ignorance. This is understood and being promulgated. The thinking, reasoning planter as well as others who employ labor, realize that intelligent labor is better than ignorant labor. They also realize that they will always have the negroes among them, that it is best for both races that they should stay in the Southern States. I proclaim it to be the teaching of our leading Southern statesmen that this people should be given the same common school advantages as are given to white children. If this people get into trouble or need advice or are sick, they universally go to their old masters and mistresses feeling they will be helped. Their surplus funds they give to them to take care of; in a word, in every way they trust them, and while sometimes they are met with a coarse rebuff, they are generally pretty apt to get what they want. The truth is, the former links which bound them together are often thought of, and a sympathy aroused which could but gratify you all as it has me. I never saw more patience, more generous kindness, a better appreciation of the wants of those needing assistance than I have seen exhibited by the whites of the South towards the colored people. Northern people do not know how to get along with the blacks of the South; they have not the patience to put up with their thoughtless, inefficient, thriftless ways. I have become convinced they are best off in the hands of their old owners.

No Southern gentleman or lady hesitates to speak to them when they are recognized by them, and generally a kind word is returned. The war left very much of the South a desolate waste. Great armies had marched over the country; plantation fences, gin-houses and cotton-gins, family residences, as well as many of the old slave tenement-houses, were, with villages and cities, left in ruins, and the dependent, truly helpless, ignorant and generally homeless colored race in the first days of their liberty were in a frightful condition. Many for a time followed the Union army; others fell into the hands of new-comers, designing men, and were scattered like leaves before the fall winds. Those who remained with their old masters, like them were without provisions. Cattle, sheep and hogs had been taken to supply the demands of the armies. They were also without money, and had they had it for a time they could not have procured the common comforts of life. Still they by untold and many laughable but commendable dodges kept their heads above water. It was about the year 1872 that the present system of working this people was generally adopted by the land-owners. Briefly, this is done on one of three different plans, viz: One mule and food for it, with working tools, a small house and a certain number of acres of land are given to a family with the understanding that one-half of the cotton, one-half of the corn, and whatever else raised, except on the acre garden patch, belongs to the landlord. Where the colored man owns everything save the land, and feeds his own mule, then one-third of everything raised is the landlord's part. Others hire a certain number of hands and supply them weekly with rations of meal, meat, flour and molasses, and pay them on an average $10 per month. Under these systems the best of feeling has been developed, and it is to the interest of the employer to deal justly, and of the laborer to work faithfully. There certainly has been, and is, a growing feeling of mutual interest. It is very rare that marked injustice is done at this time by either party. When tramps and those who had everything to gain and nothing to lose had possession of leased ground, or a large proportion of the planting lands of the South, I heard of much injustice having been done to the poor ignorant blacks.

On the 1st of last January the colored people owned in Georgia 502,000 acres of land; town and city property, assessed at $1,110,147; horses, mules, hogs and cattle, at $1,641,367; mechanical tools and farming implements, at $520,000; had out at interest, $76,658; or paid taxes on an aggregate of $5,124,875 worth of property at its assessed valuation or two-thirds of its real value and which was about 15 per cent. below that of the previous year. I have taken some pains to gather like statistics from other Southern States and the general result has been alike favorable—in some of the States, all things considered, even more favorable. I hold the reports of the Comptroller-General of Georgia and that of the State School Commissioner for 1878, and the facts as above given are just as they reported them to the Governor and Legislature. I shall be glad to show them to any one who may desire to examine them. Vanderbilt once said he found it harder to make the first $5,000 of his fortune than the next $5,000,000. When it is considered that the negroes of Georgia have made this start within the past seven years, and that they had to purchase the implements to work with and supplies on credit at gamblers' prices, what may not be expected of their showing at the end of the next ten years? They have their churches, Masonic lodges and any number of benevolent societies. The latter are composed of both sexes, and when they, with their clean white aprons and badges, appear upon the street they attract attention. They are fond of making a display and are extravagant in this respect. We also have in the State several colored military and fire companies. In Atlanta four of the former are splendidly uniformed, the gift mostly of the white citizens. Their fine guns were furnished by the State.

Before entering upon matters in the every-day life of this race as seen by me, I will try, in part, to correct what I grant may have appeared strange as to their political rights and the large dropping off of the colored vote since the five years succeeding the war. This seeming dark cloud has caused a vast amount of food for a certain class of Northern political speakers and writers.

It has been assumed that all this people would have voted a Republican ticket if they could and dared. As well might it be said of all white men in the North. For a time, I grant, they believed nothing of a political nature save it was told them by white Republicans; but it is not so now. They learned these practical lessons—that the pomp and display inside and outside of loyal leagues meant office and power to worthless men and no good to them.

Our elective franchise laws as I see their operation are made to fall equally upon both races. Three years ago all male citizens in Georgia were required to pay their poll and other taxes before they could use this privilege. Its justice has been questioned, but a glance will show that the delinquent white tax-payer is at least as five to one of the blacks. People South see the advantage they now hold in this colored citizenship, and they will not lose the large increased Congressional representation it gives them. They also believe in an intelligent use of the ballot, and thus favor the educating of the colored children. The intimidation of colored men at the polls is only in the imagination and the preaching of interested politicians. We have read of how they have been shot, deliberately murdered and otherwise outrageously maltreated.

Yes, I know you have. I admit there are some barbarians in the South, some drunkards and some thoughtless, reckless men, as well as in your State, the world over. I lately picked up a newspaper and counted five murders, three burglaries and other crimes committed in this good State of New York, and a few days afterwards called and examined the exchanges of a certain newspaper. I found no savage comments as to the barbarous, terrible condition of your society, but nearly all of the papers examined raged and waxed wild over the condition of things in the South, of the poor blacks, thus magnifying and turning the unfortunate private fights, murders and acts of desperadoes here and there in that section into a general lawlessness, a propensity to bloodshed, and insisting that there is a lack of proper administration of the laws. I pronounce unqualifiedly such a general arraignment of the Southern people as undeserved and ungenerous. It evinces to me a want of magnanimity not in accordance with my notions of the intelligence and candor of Northern men and women.

This altered relationship between the whites and negroes has resulted in material advancement to both, as is conclusively shown by the fact that in the great Southern staple of cotton there has been raised during the last ten years largely more bales than during the ten years just preceding the war. I think I am right in giving the number in excess to be 11,342,000 bales, which at the present prices would be worth $567,000,000. The increase of grains, the grasses and fruits has been equally as great. At the same time both races are more independent, while in a business point of view both feel dependent, and stand ready as a whole to do right, to work for the interest of each other.

I grant that when this people largely forsook their old masters for a time after the close of the war the unexpected treatment caused with many whites unpleasant feelings, but it is forgotten. In the last Legislature of Georgia, a Democratic body, an issue arose as to which of two parties, a colored Republican or a white Democrat (a nephew of a former Governor of the State), McDonald, was entitled to a seat. The vote was close, and the white applicant had the certificate, but it was decided that the colored man was elected, and the white man was unseated and the colored man given his place.

My friends, I close with a word as to the social relations of the Southern people. This relation is a delicate matter for regulation by arbitrary law, even where the natural distinctions are less marked than they are between the whites and blacks of the South. In no part of the country would such an attempt by government, either Federal or State, be sooner resented than in your own section. I repeat I know the people of the whole South are heartily willing to abide by and respect the political rights conferred on the colored race by the amendments to the Constitution. Yet, while this is true, they felt and still feel that much of the "reconstruction" legislation of Congress was an attempt to interfere with their social customs and needlessly to humble their pride; that the legislation aimed, or seemingly so, to give advantage to the colored people in the struggle for political power; to exalt the ignorant classes of that section above the intelligent; to confer special immunities and protection of the late slave. Now I ask, could any sensitive, brave, high-minded people, no matter how sadly crushed by the adversities of war and the general derangement of their industries, no matter how great mistakes or wrongs they might have made, do otherwise than regard this as an indignity and humiliation? I did not fight them nearly four years for the pleasure of mortifying them and continually trampling them under foot, but to keep our Government intact and to bring them back into the Union. Great injustice is done them when it is imputed to disloyalty or a continued spirit of rebellion. My best information and observation, obtained by listening to conversation in cars, hotels, reception-rooms, in private and public places where I was unknown, has convinced me that the earnest, anxious desire of that people at the close of the war was to resume quietly and dignifiedly their political relations in the Union. They accepted in good faith the results imposed upon them by the constitutional amendments and strove by accommodating themselves to the changed condition of labor to build up again their waste places and regain their lost prosperity. The solid South would soon thaw and party crust crumble if they were left to manage their domestic affairs unmolested. I feel that that people will not be correctly understood and a general, liberal, generous sentiment established over the North until Southern statesmen come here and meet the people on the stump, face to face, and make known their manly feelings and hopes of a grand future for our great and blessed Government.

RAILROAD MOVEMENTS.

It is stated that an agreement is proposed between the Pennsylvania and Lehigh Valley Railroad, to build a new road from Norristown to Bethlehem.—Soon after the North Pennsylvania Railroad passed under the control of the Philadelphia and Reading, the Lehigh Valley people found themselves almost entirely cut off from Philadelphia. Then it was only by the sufferance of Mr. Gowen that they were allowed any privileges. It is a fixed fact that the Pennsylvania Company will build a road to Norristown. That much is settled upon, whether the line is extended any further or not. The rest is left for the Lehigh Valley Company, and that concern has not given a decided answer, although the indications are that it will go into the scheme. Even the short road to Norristown will be one of the most important feeders the Pennsylvania Company has in that section, both in freight and passenger traffic. A report is also current that President Gowen, of the Reading Road, has effected a lease of the New Jersey Central Road with the object of securing an outlet at New York for its supplies, and of cutting off the Lehigh Valley Company from that market.

ON RECORD.

The bill to repeal the act authorizing the publication of the public laws in the newspapers, also all bills designing to cut down the prices of legal advertising, which passed the Senate week before last, were reported adversely upon by the Printing Committee in the House last week. A vote to sustain the report of the Committee resulted in 44 members voting for sustainment of the Committee's Report, to 12 against it. The twelve voting against the newspapers were Messrs. Beekman, Conkling, Craft, Ewing, Fritts, Gill, Hence, Lufberrow, Oviatt, Parsons, Van Duyne and Vernon, the latter from the Third District, Union County. Messrs. Stiles and Dunn, our other two representatives voted for the newspapers. When the bill passed the Senate, Messrs. Gen. Sewell, Cooper, Deacon and Martin voted against it.

The Bucks County, Penn., Temperance Alliance has adopted the following resolutions:

Resolved, That druggists should not be allowed to sell any liquor without a prescription from a practicing physician, as it is at drug-stores that women, and men who are ashamed to be seen at a tavern, principally purchase their liquor.

Resolved, That the liquor sellers should be required to pay the poor tax.

Resolved, That the venders of intoxicating drinks and the owners of the property where sales are made, should be held responsible for all damages resulting from the business.

Resolved, That in the purchase of oysters and other articles of domestic convenience, where spirituous liquors are sold, we give a moral support to such places that largely counteracts our influence on the temperance work.—Therefore, we will sacrifice personal convenience by withholding our patronage from them, as far as possible.

Resolved, That as the taste for liquors is often formed in youth by the use of stimulants in food, we, as consistent temperance workers, must refrain from the use of all spirituous liquors for culinary purposes.

Assemblyman Ringleman, of Somerset County, has introduced a bill before the House of the State Legislature, asking for an appropriation of $5,000 for the purpose of defending the suits in equity now instituted by Green, Andrews and others for the recovery of alleged royalty on the Green and other patents for the use of driven wells, to be paid to Jacob R. Van Deventer, of North Plainfield, Treasurer of the Anti-Driven Well Association.

It is stated that Messrs. Leggett, Leeds, Meeker, Brown and Wheelwright, recently indicted by the Grand Jury for malfeasance in office and illegal transaction of public affairs of the City of Elizabeth, will be tried at the present term of Court, commencing on the 15th inst.

DEMOCRATIC STATE CONVENTION.

At a meeting of the Democratic State Committee of this State, held at Trenton; on Tuesday, it was determined to call the State Convention for the appointment of delegates to the National Convention, to meet in this city on Thursday, the 20th of May next. The call is published at the head of our columns in this issue.

NORTH PLAINFIELD PARAGRAPHS.

Application has been made to the Supreme Court, on behalf of property owners of Somerset Street, for a writ of certiorari to take the case of the Somerset Street assessment to that body.

George Wright, a well-known personage of this township, who came here a few years since, with a fortune of nearly $30,000, and speedily lost it in unwise real estate speculations and dissipation, died on Sunday afternoon last.

WESTFIELD WISPS.

Next to the election, there has not been anything to stir up the people so much as that bridge muddle of District No. 14, as stated a few week's since in THE CONSTITUTIONALIST. Mr. Beller, the Road Overseer, was sued before Justice of the Peace J. D. Jaques, and the trial came off on Wednesday, March 10th, Mr. J. C. Bolton, of Plainfield, for complainant, and Mr. L. V. Clark and Mr. English for the defendant. The Court was held in Brocksmith's Hall, and the room was filled. A great many witnesses were examined for both sides. The Court reserved its decision until next week Wednesday, at 2 o'clock.

At the Annual Meeting of B. & L. Co. No. 1, the following officers were re-elected: C. W. Harding, Foreman; Wm. Gale, 1st Ass't.; A. Chambers, 2d Ass't.; Jos. R. Connoly, Sec'y; G. W. Tice, Treas.

Prof. George H. Wilson, the blind lecturer of N. Y., was with us on Monday evening, but owing to the great excitement over the township election, the attendance was slim.

STIRLING ITEMS.

We are glad to notice this little town growing so rapidly since the Button Factory of Messrs. Jos. Naylor & Co. took its stand there. These gentlemen we must heartily congratulate for the way in which they carry on a business so enterprising that we cannot speak too highly of their qualifications. Messrs. Naylor & Co. are still enlarging their premises to about twice the size. The people of Stirling are not only proud of the Factory but of the proprietors, and are thankful to them for the progress of this rising little town, with its beautiful new sidewalks of which we have also to thank Messrs. Naylor & Co. for.

A meeting was held on Friday evening last for the purpose of commencing a Co-operative Store in connection with the Factory. Mr. Samuel Haigh was called to the chair, and that gentleman was supported heartily by his fellow-workers. Mr. Haigh, in a lengthy speech, showed very clearly the benefits to be derived from an Institution of this kind, and characterized the proceedings as a step in the proper direction, especially advising young men to co-operate in this way if they wished to become, not only beneficial to themselves, but to the country generally. Mr. Gumshaw, Mr. Blagborough and Mr. Wray fully endorsed the sentiments of the Chairman. A committee was formed to make necessary arrangements for carrying on the Society and making it a success.

From 20 to 30 new houses are in course of erection, which is a foregone conclusion that Stirling is a thriving and prospering town, and its inhabitants take pride in its rapid growth. This is a very quiet place, and the beauty of its surroundings are attracting many strangers to take up their residence here.

A pleasant sociable was indulged in at the residence of Mr. Jos. Blagborough on Friday evening, 27th ult., and about 25 couple, the employees of Messrs. Naylor & Co., of Stirling, assembled there for the purpose of giving Mr. B. a surprise, and to enjoy a merry dance, which they did to their heart's content until the "wee sma' hours." E. Dalrymple and lady, of Morristown, Wm. Peer and lady, of N. Y., L. B. Mulford and lady, of Plainfield, were among the many guests assembled at this grand surprise. Music was furnished by the Basking Ridge Orchestra.

SPORTSMEN'S CORNER.

Senator Hobart has introduced a bill before the Senate, (No. 200) which imposes a fine of $20, or ten day's imprisonment on any person who shall shoot any live pigeon, fowl or other bird for amusement.

The bill prohibiting the shooting of woodcock between the 14th day of January and September 1st, in this State, has passed both branches of the Legislature.

English Snipe were seen on the meadows near Dunellen, also along Passaic River last week. Where are they now? Snowed under. Vennor, you know more than the birds do.

LIVER DISEASE and Indigestion prevail to a greater extent than probably any other malady and relief is always anxiously sought after. If the Liver is regulated in its action health is almost invariably secured. Indigestion or want of action in the Liver causes Headache, Constipation, Jaundice, Pain in the Shoulders, Cough, Dizziness, Sour Stomach, bad taste in the mouth, bilious attacks, palpitation of the heart, depression of spirits or the blues, and a hundred other symptoms. SIMMONS' LIVER REGULATOR is the best remedy that has ever been discovered for these ailments. It acts mildly, effectually, and being a simple vegetable compound, can do no injury in any quantities that it may be taken. It is harmless in every way. It has been used for forty years, and hundreds from all parts of the country will vouch for its virtues, viz: Hon. Alexander H. Stephens, of Georgia; John Gill Shorter, of Alabama; Gen. John B. Gordon, R. L. Mott, of Columbus, Ga., Bishop Pierce, of Georgia, are among the hundreds to whom we can refer. Extract of a letter from Hon. Alexander H. Stephens, dated March 8, 1872: "I occasionally use when my condition requires it, Dr. Simmons' Liver Regulator, with good effect. It is mild, and suits me better than more active medicines."

It is not the quantity eaten that gives strength, life, blood and health. It is the thorough digestion of the food taken let it be much or little. Therefore, do not stimulate up the stomach to crave food, but rather assist digestion after eating by taking

ACCORDING to the provisions of a new law, hereafter ballot boxes will be retained in the hands of the Township and City Clerks, instead of sending them to the County Clerk's office.

MR. John L. Ludlum, a retired New York merchant, has purchased the handsome residence of the late Horace Hotchkiss, on Front Street, and will occupy it as his future home, about April 1st.

THE "cuckoo" woman, a notorious character with many aliases, was arrested on Friday last by officer Dodd for disorderly conduct. Judge Runyon gave her thirty days in the county jail. She has been there before.

WHILE assisting in piling up a lot of bags of meal in French Bros'. Mills, last Saturday morning, a number of them fell upon a workman named Wm. J. Kerly, breaking one of his legs in two places. Dr. Probasco set the injured limb.

WATSON & Co., the famous Newark Clothiers are out in this issue with their Spring advertisement. They are selling elegant Spring suits from $10 to $25. They are reliable. What they say they will do in their advertisement may be depended upon.

A LARGE crowd followed officer Tingley and a "captive" to the Station House Monday afternoon last. The woman was a biter, hitter, scratcher, etc., but that made no difference. The officer succeeded in safely caging his prisoner in the lock-up.

PROF. Doolittle, D. D., (reformed) of Rutger's College, will occupy the pulpit of the First Congregational Church, this city, next Sunday morning and evening, 14th inst. The Sabbath School will meet at the usual hour, 2:45 p. m. A general invitation is extended to all the services of the day.

THE members of The Congregational Church, who last week by a unanimous vote decided to dissolve their connection with the "First Congregational Church," will worship for the first time in their new church edifice, corner of Central Avenue and Second Street, next Sunday, Rev. Mr. Manchee delivering the initiatory sermon.

EXPERTS have examined the rear gable wall of the new Baptist Church, on Park Avenue, and decided that it must come down and be rebuilt, as the foundation is not strong enough to support the wall, which has bulged inward. The contractor built according to plan, and claims the fault lies with the architect.

THROUGH the efforts of Mr. Alex. B. Bates, another prominent personage has been captivated with Plainfield's beauty. Mr. Homer D. Cope, the distinguished elocutionist and well-known member of the Knights of Pithias fraternity, has leased a property in this city and will take up his residence here, with a view of ultimately purchasing.

THE young people of the Crescent Ave. Church will hold a sociable in the parlors of the same next Tuesday evening. Miss Belle Foster of St. Louis will be the pianist of the occasion and Miss Hattie Smith the elocutionist; while other talent will contribute to the entertainment. The material refreshments are in charge of a committee composed of the Misses Demarest, and in consequence will not be the least pleasurable portion of the evening's enjoyment.

BY an almost unanimous vote last Sabbath the Sunday School connected with the First Congregational Church changed its name to "The Congregational Sunday School," and will hereafter worship in the old Baptist Church corner of Central Avenue and Second Street. This church property has been re-fitted up as a place of worship for the members of "The Congregational Church" who recently dissolved their connection with the "First Congregational Church Society."

It has not as yet been determined in what building the Concert will be held.

Union and Middlesex Counties' Fair.

At a meeting of the Board of Directors of the "Union and Middlesex Counties' Mutual Agricultural Association," held at the Mansion House, this city, last Thursday evening, it was resolved to hold the next Fair of the Association the week following the State Fair at Waverly, commencing Sept. 27th, and continuing four days. Wiping Out the Debt.

The work of wiping out the debt against the First Baptist Church congregation, was initiated last Sunday evening by the raising of some $10,000 of the $25,000 against them, Dr. Kimball, Chicago's celebrated "debt raiser" was present and made stirring appeals to the audience present. Five gentlemen immediately subscribed $1,000 each and others made donations which made the sum realized amount to $10,000.

The Deliber Course.

The second lecture of the course given under the auspices of the Deliber Society P. H. S., was delivered at Assembly Hall last Tuesday evening by Dr. C. H. Fowler on "The Bible, the Prophet of Science." The large attendance that was present were held admiring listeners of the lecturer's powers and remained intensely interested throughout the discourse. The new and wonderful truths that were brought to notice were heard by the audience with amazement, and the benefits of the instructive lecture thoroughly appreciated.

St. Patrick's Day.

Next Wednesday, St. Patrick's Day, will be generally observed by our Irish fellow citizens throughout the country, in honor of their patron saint. Instead of the usual parades, strenuous efforts will be made to raise funds, through entertainments, balls, &c., for the relief of their starving fellow countrymen in Ireland. In this city, St. Mary's T. A. B. Society will hold a Grand Hop at Laing's Hall, the proceeds to be devoted to the above mentioned object. It is to be hoped that all classes of citizens will aid and assist them in their laudable efforts by purchasing tickets, which are placed at the low figure of $1.

A New Livery Firm.

Mr. Roberts, the Livery Merchant, has taken unto himself a new partner, Mr. Jasper G. Cadmus having associated himself with "Uncle Dan." The firm name will hereafter be known as Roberts & Cadmus. Mr. Cadmus is well-known among our citizens as an old resident. Mr. Roberts came to our city highly recommended from his native town, Scranton, Pa. He has made many friends and built up a fine business since his advent here. The new combination ought to increase business in their line. Go to Roberts & Cadmus, corner of Park Avenue and Second Street, and try their horses and carriages.

The Brunswick Club.

The endeavors of the Plainfield Athletic Club to afford their friends an opportunity of witnessing a first-class Minstrel entertainment without the usual adjuncts of a "gallery-crowd" with all that the name implies, have already been conducive of most agreeable results. A large number of tickets have been sold by the members to their friends, and there is every prospect of a "full house" at Van Deventer Hall, next Saturday evening. The gentlemen of The Brunswick Club, who will take part in the entertainment, are all well-known members of Brooklyn society, and it is believed that a large number of ladies and gentlemen will attend from that city.

Overseers of Roads.

A bill has passed both branches of the Legislature which changes the time for electing Overseers of Roads in the several townships of this State. The new law reads as follows:

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That in all townships in this State wherein the qualified voters of each road district for the time being are authorized to elect overseers of the highways for said districts respectively, such elections shall be held on the Thursday next succeeding the regular annual town meeting in each and every year and the overseer in each road district shall set up two notices in writing in two public places in each road district, of elections of overseers, five days before the day herein fixed for such elections, and in case of the failure of any overseer to give such notice, then the township committee shall appoint some suitable person to fill the vacancy.

2. And be it enacted, That this act shall take effect immediately.

The bill is now a law, in full force and effect, and will govern the election of Road Masters the present Spring.—*Trenton True American.*

National Democratic Convention.

The National Democratic Committee having met in the city of Washington on the 23d day of February, 1880, has appointed Tuesday, the 22d day of June next, as the time, and chosen the city of Cincinnati as the place of holding the National Democratic Convention. Each State is entitled to representation therein equal to double the number of its Senators and Representatives in the Congress of the United States. All Democratic, Conservative, and other citizens of the United States, irrespective of past political associations or differences, who can unite with us in the effort for pure, economical and constitutional government, are cordially invited to join in sending delegates to the convention. At the last National Democratic Convention, held in the city of St. Louis in 1876, the following resolution was adopted:

Resolved, That the States be requested to instruct their delegates to the National Democratic Convention to be held in 1880, whether it be desirable to continue the two-thirds rule longer in force in National Conventions, and that the National Committee insert such request in the call for the next convention.

WILLIAM H. BARNUM, of Conn., Chairman.
FREDERICK O. PRINCE, of Mass., Secretary.

Attention, Democrats!

As will be seen by a call at the head of our local page, the Democrats of Plainfield are invited to assemble in their new headquarters on Front Street next Thursday night, for the purpose of re-organization. It is earnestly hoped that there will be a full attendance.

An Improvement to Plainfield's Scenery.

Among the many improvements that are being daily carried forward in this city, there are none that will add more in the way of out-door attractiveness than those now being made back of the residences of Messrs. Chas. Hyde, John L. Everitt and Weir R. Clarkson. These gentlemen under their own personal supervision and at great expense, are widening the brook where it passes through their grounds; and by taking from the banks at the sides and, digging away, a large island that has formerly parted the streams into two narrow rivulets, are making a broad and handsome stretch of water. When finished, this portion of the brook will be, with its high and green turfed banks, its deep, clear and wide stream, and the gay boats upon it, one of the most attractive spots in Plainfield.

Personalia.

Thanks to Senator Randolph for favors received.

Gen. R. F. Stockton, late Comptroller of the State, was appointed one of the Committee to call the State Democratic Convention at Trenton, which met last Tuesday, in place of Jacob Vannatta, dec'd. The selection to fill such vacancy could not have been a better one.

We return thanks to Assemblyman Kingleman, of Somerset, for a copy of the bill known as Senate 157, a general act in reference to the government of cities. The bill may be seen at our office by all who desire to peruse its provisions.

The cares and complications incident to being a married man and holder of a public office, has again been illustrated. This time it is County Clerk Vosseller. The sex is of the female persuasion. Date of advent, Saturday last. Our usual congratulations are extended.

Mr. Anastacio C. M. Azoy, of this city, who recently returned from his fifth voyage to Rio Janiero, on the sailing vessel James L. Pendagast, on Wednesday last, passed a satisfactory examination before the American Ship Masters' Association of N. Y., and received his papers as approved *shipmaster and mate. He will* make his next voyage in the same vessel as mate, in a few weeks.

The First Baptist Young Peoples Association.

Last Tuesday evening another of the First Baptist Y. P. A.'s receptions was given in the Sunday School room of that church under the same efficient and competent management. A large gathering was assembled and a most enjoyable programme of entertaining events was furnished. The Misses Dewey and Gavett repeated a duett that had gained for them so much appreciation at a former Recital, and the latter lady favored the audience with a piano solo later in the evening. Mrs. Chapman sang the always pleasing "Kerry Dance" and other vocal selections, accompanied by Miss Burr. Miss Annie Titsworth, a welcome entertainer of those who appreciate the beauties of fine elocution, was of course one of the most acceptable additions to the talent presented. Mr. Ed. Burr's flute solos were most flatteringly received as were also Mr. Howland's renditions of "Rocked in the Cradle of the Deep" and other songs; while Mr. Walter Magee's german dialect was not missing from one of the most varied and interesting programmes ever offered by this association. During the evening's progress, refreshments were furnished by "the ladies" and of course accepted, adding greatly to the enjoyment of the occasion.

Bodily Culture.

The interest in the P. A. C. classes for physical exercise remains unabated, and has in fact greatly increased since their formation. The ladies recognizing the benefits they were receiving from Prof. Burnham's method, have engaged at their own expense Miss Camp, the assistant instructor in his New York Academy, who is a most capable and thorough tutor of Light Gymnastics and who is present at the Gymnasium on Tuesday afternoon for the especial purpose of continuing the class exercises.

The Masters have the afternoons of Monday and Wednesday of each week set apart for them, and under the leadership of Corydon Tyler, Robert Lowry, Foster Milliken, Roger Murray and Seymour Bonsall, are fast casting older gymnasts in the shade as regards ability as workers on the apparatus. These young leaders were appointed by Prof. Burnham some weeks ago, since which they have held the positions, although many under them are fast becoming as proficient.

The Adult class has been so very fortunate as to secure as a member Mr. John Myer, a wonderfully capable gymnast, whom Prof. Burnham has placed the members in charge of during his absence. This gentleman possesses abilities most remarkable, and is a great addition to the Gymnasium.

A Scandal.

The citizens of Scotch Plains and vicinity are excited to a high pitch over a recent scandal in high life. A young and rising physician of the place, named H. C. Fithian, a well-known widow lady, and a Miss Lillie Ritchie, daughter of James Ritchie, Esq., are the principals in the scene. Dr. Fithian located in Scotch Plains about two years ago, coming from Bridgeton, South Jersey, where his father, a wealthy and noted physician, is a resident. Dr. Fithian, Sr's second wife was a daughter of Mr. Ritchie, therefore Dr. F., Jr., was on intimate terms with the family. Miss Lillie Ritchie another younger daughter was frequently seen riding out with the Dr. and dame rumor soon spread the report that a marriage between the young couple was to follow. Other rumors were also current that the Dr. was soon to marry the widow and that report was strengthened when the announcement was made in the latter named lady's circle of acquaintances that the auspicious event would occur about the 10th of March, and that she was making active preparations for the same, sending out invitations and preparing the wedding feast. The good people of the Plains were astonished, however, at the appearance of a notice in the *Examiner and Chronicle*, a Baptist paper of New York that Dr. H. C. Fithian and Miss Lillie Ritchie were married on the 24th of Feb. Upon being shown this notice the Dr. announced it as a base calumny, and stated his intention of at once going to New York to investigate the matter.—He started—and has not returned to business since, although it is a well-known fact that he has been seen and conversed with on the subject several times by some of his intimate friends in New York city. His business affairs are being settled up by a friend in Scotch Plains. Mrs. Fithian nee Ritchie, admits of the marriage, and the mystery is deepened by the assertion that she congratulated the widow upon that lady's approaching nuptials after she was herself married to the Dr. The lady is highly respected by the community in which she lives, and was utterly prostrated by the denouement made. She has the sympathy of the entire village. What induced the Dr. to make such a move is beyond the minds of the public. His most intimate friends are even mystified. He had made many warm friends since he came to this section and built up a fine practice. It is a duty due his friends, the lady in question and himself that he give an explanation of his action.

Township Elections.

Gains for the Democracy!

Oh! Westfield!

AH! FANWOOD!

Good for North Plainfield!

BOOM ENOUGH!

The Spring elections in the various townships of the State passed off quietly on Tuesday last, and as a rule the Democrats made gains in Freeholders.

In Fanwood Township the Democracy *made a gallant fight. The old adage of* "United we stand, divided we fall," was well illustrated in this precinct, and by it, the Democracy have gained a handsome victory. Mr. G. W. L. Martine, a staunch and true Democrat, as well as a true and tried friend of his constituents and the County, was returned as a member of the Board of Chosen Freeholders, after an absence of one year as member of that body. The election of Mr. Geo. R. Nicholl, Democrat, as Justice of the Peace gives universal satisfaction. He will prove a terror to all evil-doers who are brought before him for administration of justice. We dislike to record the defeat of Mr. Thos. J. Nicholl as Town Clerk, but Mr. James A. Baker, the successful candidate, will undoubtedly fill the office most satisfactory. Well done, Fanwood.

Our neighbors of Westfield were not fortunate enough to secure the Freeholder, although strenuous efforts were said to have been made in that direction. The Democratic candidate, Mr. Wash. Pierson, is a good old-fashioned Democrat, and would have creditably filled the office of Freeholder, but it seems he was not destined to do so this year. Although the Town Committee elected is Republican, Mr. J. M. C. Marsh, Democrat, is elected Assessor, and Chas. R. Clark, Dem., Town Clerk, by large majorities.

In North Plainfield, there was a very lively fight, and the Democrats never had a better opportunity to win their whole ticket than at this election, the Republicans being divided on the nominations made at their Convention. Nevertheless, the Republican ticket is elected by an increased majority, with the exception of Chosen Freeholder. At the Republican caucus, Mr. W. R. Jones, who has served several years as Freeholder, declined a re-nomination at the solicitation of his friends, who were well aware that to nominate him would mean defeat, as Mr. Jones' name is mixed up with that of other County officials in the investigation of affairs of Somerset County now in progress. In consequence the names of two prominent men were put in nomination for the office, Mr. Jacob Long and Martin W. Schenck. The former has served as Freeholder in the County in years past. Mr. Schenck is a well-known builder of North Plainfield, and has many friends in both parties. Both gentlemen were well capable of filling the office. But it was not to be. The Democrats, in Convention, nominated Mr. Charles Shepherd, of the firm of Shepherd, Johnson & Godown, a well-known building firm of North Plainfield. Capt. Shepherd also had many friends. At the election, the disappointed friends of Mr. Long, who failed to receive the nomination at his party caucus, made it "hot" for Mr. Schenck, and by the solid vote of the Democracy, Mr. Shepherd was declared elected by the handsome vote of 24 when the entire Republican ticket, outside of his name was elected by an average of 76 votes. Mr. Shepherd is a gentleman calculated to fill the office of freeholder with credit alike to himself and constituents. He is no tool or friend of Rings. The Board of Freeholders of Somerset County will be honored by his admission to their counsels.

In Union County the Board of Freeholders will stand 9 Democrats to 7 Republicans.

Below we give the number of votes cast for and majorities received by candidates in North Plainfield, Fanwood and Westfield Townships:

In Somerset County the Board of Freeholders has a Democratic majority of one. It stands as follows:

Bridgewater—*John D. Voorhees.*
Branchburgh—*Hugh Gaston.*
Bedminster—Isaac Voorhees.
Bernards—Wm. B. McMurtry.
North Plainfield—*Chas. Shepherd.*
Warren—Daniel Cory.

Republicans in italics.

In Warren Township the Democratic ticket received 151 votes to 98 cast for a "Union" and a "Republican" ticket. Daniel Cory was elected Freeholder by 113 majority.

In Bridgewater Township the Republicans elect a Freeholder and Collector. They also have a majority in Town Committee. The Democrats carry Hillsborough, Bernards, Bedminster, and Warren Townships. Franklin and Montgomery Townships go Republican.

The Board of Freeholders of Middlesex County will stand twelve Democrats to seven Republicans, allowing of the chances of two Democrats to be elected in Perth Amboy and three of the six in New Brunswick at the April election. The Democrats carried the Republican Townships of Monroe and North Brunswick, and regained their Freeholder in South Amboy.

FIRE MATTERS.

We are authorized by Mr. Theo. F. French to state that he is not a candidate for the office of Fire Commissioner, and refuses to serve in such capacity if elected.

Does the Street Commissioner know that he has covered the opening to the Fire Well on Second Street, near Park Avenue, with about six inches of gravel, in his efforts to grade that thoroughfare; If he does he ought to speak to the Committee on Wells about the matter, so they may order him to uncover it.

How long is it since the Board of Fire Commissioners have discovered that an expelled member of a Fire Company is ineligible to re-election? We can point to several cases where members were expelled from their Companies and re-elected again to other Companies, with the sanction of the Board, on far greater charges than "non payment of dues" as was the only charge brought against the name of a worthy and efficient candidate for re-election at their meeting last Wednesday evening. "Consistency, &c."

As the time for election of members of the Board of Fire Commissioners approaches, Monday, April 12, the members of the Fire Department and other voters, begin to look after suitable candidates for the office. This year there are to be two Commissioners elected to serve terms of three years each, and two vacancies to be filled on account of resignation. The Commissioners whose terms expire, are Wm. E. Jones and E. R. Pope.—The resigning members are John W. Murray and R. K. Case. A Committee of three from each fire company, met in Alert Hose Co's house last Saturday evening to confer together as to nominating suitable candidates. All the companies were represented. The names of Messrs. Wm. E. Jones, J. W. Murray, Theodore F. French, E. L. Morris, Ephriam Depew and Jacob Adams were mentioned in connection with the candidacy, and it was finally resolved to put in nomination the names of Messrs. French, Morris, Depew, and Adams, if the same should be endorsed by the Companies at special meetings to be held by them. The convention then adjourned to meet again Thursday evening, March 11th.

The Fire Board met pursuant to adjournment last Wednesday evening; President Pope in the Chair and Messrs. Jones, Nelson, French and Pope present.

Mr. Rufus K. Case having left the city, communicated his resignation which was accepted.

The Committee on Wells reported that the Jackson Avenue well was completed and that the top would be put on as soon as it arrived.

The following propositions were received as new members: Zephyr H. & L. Co., Chas. Thiene, James Acor. Alert Hose Co., H. M. Stockton. No. 2, Co., Robert Ethinger, John Barns, Horace Shoresin.

The following bills were ordered paid: N. Rogers rent of Alert house, $150; David Martin, Jackson Avenue well, $135; L. A. Bhenome, coal, $31.32; Street & Preston, balance of hose, $16.59; J. N. Schenck, Engineer of No. 3, $25.

Upon the election of members, the name of Frank Hand was withdrawn by Engine Co. No. 2, and T. F. Wright was declared not eligible as he had been previously expelled from the Department, for non-payment of dues. The following were elected: Frederic Swingler, Warren, No. 3; Newton Smalley and James O. Irish, Gazelle, No 1; Andrew Jennings, Engine Co., No. 2.

Petitions were received from Alert Hose Co., Zephyr H. & L. Co., and Engine Co., No. 2, for a change in the manner of holding the election of Chief and Assistant Engineers. The following was adopted, amending Article 3 so as to read as follows:

Art. 3, Sec. 1. The election for Chief Engineer and Assistants shall be held on the first Monday evening in May of each year at such place as the Board of Managers may designate between the hours of 7 and 9, P. M.

Sec. 2. Every person who shall have been confirmed by the Board at least two months previous to an election, shall be entitled to vote for Chief Engineer and Assistants.

Sec. 3. The Secretary of each Company shall furnish to the Secretary of the Board a complete list transcribed from the records of the Company, and certified to by the Foreman or Assistant Foreman and the Secretary of the said Company, of all members of such Company who are entitled to vote for Chief Engineer and his Assistants, twenty days before such election.

Sec. 4. All elections for Chief Engineer and his Assistants shall be held by the Board of Managers and at such place as the Board may designate. The President of the Board shall receive all ballots, and the Secretary of the Board shall act as Secretary at said election. In case of absence of the President or Secretary, the Board shall have power to appoint some one of their members to sit in their places. The voting shall be by ballot, and the different Companies may appoint one member from each Company to act as challengers. A complete alphabetical roll of members shall be made out by Secretary of Board, ten days before election, and the Foreman or Assistant Foreman and the Secretary may inspect the said list and correct the same if necessary.—All By-laws or Regulations conflicting with these regulations are hereby repealed.

A resolution was also adopted to the effect that the next election of members of the Fire Board shall be held at Laing's Hall, on Monday, April 12th, and the polls shall be kept open from 2 to 7, P. M.

Mr. Jones moved that as the policies of insurance in the Plainfield Mutual Company had expired, the President and Secretary be authorized to have the buildings of the Department re-insured in some good and reliable Company. Carried.

Mr. Gillies, from Engine Co., No. 2, presented the claim of John Williams and Wm. Rose for watching No. 2's House; referred to the Treasurer.

A communication was received from Mr. Howatt in reference to the broken fence between Gazelle's Engine House and his lot; referred to Com. on Supplies and Repairs.

The President called the attention of the Board to the fact that the Street Commissioner had covered several of the fire wells with gravel. The Committee on Wells and the Chief Engineer were instructed to look after the same so that they could be used in case of a fire.

The Board then adjourned.

Notice is hereby given that there will be a "wash" on Thursday evening, March 18th, at 7:30 "sharp"

HARDLY to be credited, but it is nevertheless true, that a sick horse or a bad-conditioned cow can be brought up in a few days by the use of Simmons' Liver Regulator. The powders should be mixed with the food and they will eat it readily; and it is surprising to see what improvement immediately takes place. It opens the bowels, strengthening them, and does all and even more than the best Condition Powders. A small quantity in the food for hogs will cure cholera, and keep the poultry healthy. mch12m1

Warm Weather and its Effects.

Many people, especially ladies, complain at this season of the year of a general weakness or debility. The use of Speer's Port Grape Wine prevents this. The wine is said to have a most wonderful effect in giving strength, vigor and tone to the whole system. It is extensively used by ladies nursing, or about to nurse infants. This wine is not a manufactured article—no liquor is added to it. It is no patent medicine or cordial humbug, but a superior wine of the Oporto grape. It is pure, old, unadulterated wine, nothing more or less. Mr. Speer has been supplying hospitals with his wine for many years past. It is said to be unsurpassed for summer complaints, and for weakly persons. The price is low for so excellent a wine, and no family need be without it. For sale by all druggists.

CHAPTER XIX.

An act to provide for the filing of a lis pendens in actions, either at law or in equity, relating to or affecting the possession or title of lands or real estate.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That neither the issuing of a summons or subpœna, or other process or writ, nor the filing of a declaration or bill in any suit relating to or affecting the possession of or title to lands or real estate, nor any proceedings had or to be had thereon, either at law or in equity, before a final judgment or decree, shall be deemed or taken to be constructive notice to any bona fide purchaser or mortgagee of any lands or real estate to be affected thereby, until the plaintiff or complainant in such action, or his attorney or solicitor shall have first filed, in the office of the clerk of the court of common pleas, but in counties where there is a register of deeds and mortgages, in the office of the register of deeds and mortgages of the county in which such lands or real estate lie, a written notice of the pendency of such suit, setting forth the title of the cause and the general object thereof, together with a description of the lands or real estate to be affected thereby; provided, that nothing in this act contained shall be construed or taken to apply to any bill filed or to be filed for the satisfaction or foreclosure of any duly registered or recorded mortgage.

2. And be it enacted, That it shall be the duty of the clerk or register with whom any such notice shall be filed, forthwith to record the same, together with the time of filing thereof, in a proper book to be by him provided and kept in his office for that purpose; which book shall be properly indexed by the said clerk or register, and be a public record to which all persons desirous of examining the same shall have access.

3. And be it enacted, That the following and no other fees shall be allowed for the services required by the last two preceding sections of this act, viz.: to the county clerk or register, for filing and recording each notice, ten cents per folio; which fees shall be included with the other costs in the cause, and taxed therewith by the clerk of the court in which such action shall be brought.

4. And be it enacted, That whenever a final decree or judgment shall be made in favor of the defendant or defendants, in any cause relating to or affecting the possession of or title to any lands or real estate, notice of the pendency of which has been filed in the office of any county clerk or clerks, or register or registers, it shall be the duty of the said clerk or clerks, register or registers, to enter upon the margin of the record of such notice a statement of the substance of such decree or judgment, upon a copy thereof, certified under the seal of the court in which such decree or judgment shall have been obtained, being filed in his office, and thereafter the lands and real estate mentioned in the said notice shall be and remain discharged of all equities or claims set up in the bill of complaint or declaration in said suit, notwithstanding the said suit be thereafter revived.

5. And be it enacted, That in all suits for the enforcement of any claim for the payment of money upon any lands and real estate, except for the foreclosure of a mortgage, and notice of the pendency of which shall be filed in the office of any county clerk or clerks, register or registers, it shall be lawful for the chancellor or any justice of the supreme court of this state, and they are hereby empowered to make an order discharging the said lands and real estate from such claim, upon the defendant or defendants giving sufficient and satisfactory security, in such sum and manner as such chancellor or justice may direct, for the payment of such sum or sums of money as may, by the final determination of the said cause, be ascertained to be chargeable upon the said lands and real estate; and upon filing a copy of the said order, certified under the seal of the court out of which such order may issue, with the said county clerk or clerks, register or registers, he or they shall make an entry of said discharge, by reason of said order, on the margin of the record of said notice, and the lands and real estate shall be thereafter discharged from any claim which may be made in the said suit, except such as may be covered by the security given for the payment of such claim.

6. And be it enacted, That the county clerk or register shall be entitled to receive the sum of fifty cents for each service required in the last two preceding sections.

7. And be it enacted, That this act shall take effect on the fourth day of July next.

Approved February 16, 1880.

MISCELLANEOUS READING.

SPRING.

The first of March has come to us again, but not in the attitude of the lion, and although Winter may not end according to the Farmers' Almanac, for a few days yet, the coldest weather has passed, the deepest snows have fallen, and the shortest days have gone. The Winter has been a peculiar one in many respects, and the youngest readers of THE CONSTITUTIONALIST do not remember a milder one. Crows have flitted across the country during the entire season, one of the evidences, if any was needed, that the weather was not to be of a continued severe character. There is no frost in the ground, nor ice on the ponds, but the roads in the country are in a horrible condition, and scarcely passable. Housekeepers are in a stew on account of the approach of the annual moving day, and real estate agents rise early and remain up late in order to strike bargains with those who are desirous of buying or renting, although there are more of the latter than of the former class. March, however, is a month to be dreaded, especially when Winter, as is too often the case, transcends its proper bounds, and administers specimens of weather which would be more in keeping with February. But the bitter is usually administered with the sweet, and the combined doses must be taken as they are prepared, without wry faces being made. An early season is desirable, and to be desired, if it only comes to stay, and does not experience a desire to return before the completion of its legitimate reign. It suits the farmer and gardener, while the merchant and manufacturer have no desire to keep back its coming or prevent its stay. Patches of bright green grass here and there appear, which will soon spread out and cover field and glen like a beautiful carpet, and trees are budding. Some disagreeable days may yet be before us and in store for us, and in the winds which may howl about our dwelling, and in the dust which may be blown in our eyes from streets paved and unpaved, we may wish we had not had a thought of that Spring, gentle Spring, whose approach in its ethereal mildness the poet sighed for, and which children look forward to with anxious expectancy.—The Spring of 1880 opens up well, all matters taken into consideration, and although in some sections of the Union there are serious differences of opinion existing and fomenting between the employer and employe, and a feeling of distrust exists in some communities because industries do not prosper as extensively as all might wish, the business outlook has been much gloomier in the years that are past, and it should be far from our thoughts to believe that Spring will delay its coming beyond the proper time.

THE INDICTED OFFICIALS.

The following is a list of the indictments against the officials of Elizabeth, whose trials come off shortly before the Union County Courts:

Indictment No. 49, State vs. Thomas B. Leggett and Daniel W. Leeds," being called, the Prosecutor took up the top document from the pile on the desk before him, and Messrs Leggett and Leeds advanced inside the bar enclosure. The indictment was drawn in three counts, and charged them with being evil disposed persons, with having conspired among themselves, and other persons unknown to the grand jurors, to cheat and defraud the city of Elizabeth, by purchasing three bonds, at market prices, turning them into the city treasury at a higher value, and dividing the proceeds. One of the counts charges them with buying bonds with their own money, and, in another count, charges them with using the city's money. By the transaction they are charged with defrauding the city of $637.96. Both defendants pleaded not guilty.

Indictment No. 50 was also against Thomas B. Leggett and Daniel W. Leeds, and was for a similar offense, charging them with purchasing on 6th of July, 1878, one bond for $800 and depositing it in the treasury at $1,018, and as in the other indictments dividing the proceeds. Both pleaded not guilty.

No. 51 was a similar indictment, charging them with purchasing two bonds at market price, and depositing them in the treasury at a higher rate.

Indictment No. 52 was drawn against Thomas B. Leggett, David J. Meeker and Daniel W. Leeds, charging them with having on the 3rd of July purchased six bonds of the Germania Insurance Company, and depositing at higher rate with intent to defraud the city of $1,214. Each of the defendants pleaded not guilty.

Indictment No. 53 was against the three defendants, and was for a similar offense. Each defendant pleaded not guilty.

Indictment No. 54, for similar offense against same defendants, and one other as a co-conspirator, whose name the Prosecutor did not mention. Each pleaded not guilty.

Indictment No. 55 was against same defendants and was for similar offense. Each pleaded not guilty.

Indictments No. 56, 57 and 59 were against Comptroller Leggett and Daniel W. Leeds only, and were for similar offenses as the others. They pleaded not guilty to each.

Indictment No. 60 was drawn against Comptroller Leggett alone. It was drawn in three counts. The first charging him with unlawfully aiding and assisting in obtaining $130 for one of the city counsel, when said sum was not lawfully due the said counsel. The second count charged him with not auditing a bill for the amount, or transmitting it to the City Council for sanction, and fraudulently procuring the signature of Mayor Robert W. Townley to the warrant.

The third count charged him with on the 21st of July, 1875, unlawfully aiding and assisting the National Bank Note Company, of New York, to obtain $1,500 not lawfully and justly due them, and as in the second count with not auditing the bill or transmitting it to the City Council, and fraudulently procuring the signature of the Mayor to the warrant.

The indictment also charges that he took unlawfully $42 from the city which was not due him, and that he made no bill and made no warrant. He pleaded not guilty.

Indictment No. 59 was also against Mr. Leggett, charging him with unlawfully paying out $148 in the same way as in the other cases mentioned in the other indictment.

Indictment No. 61 was against Mr. Leggett for similar offense, in unlawfully paying $125 on the 26th of Nov., 1878, and $650 on the 26th of April, 1875.

Indictment No. 62 charges Mr. Leggett with paying the National Bank Note Co. $488.83, when they had no lawful claim, and in the same way as in the other cases; also, in payment of money in advance to City Councilmen.

Indictments Nos. 64, 65 and 66 were similar to 62, and charged unlawful paying of salaries to Councilmen.

Indictment No. 67 charges Mr. Leggett with unlawfully paying the National Bank Note Co. $459.50. This indictment differed from the others in that it charges the Company presented a bill to the Comptroller which he failed to audit and transmit to the Council for their approval or disapproval, but paid on a warrant to which the signature of Mayor Townley was fraudulently obtained.

Indictment No. 68 was for unlawfully paying money on salaries of Councilmen in advance.

To all of these indictments Mr. Leggett pleaded not guilty. The bail was fixed at $1,000 on each indictment, making $20,000 in aggregate. The amount of bail on each indictment against Messrs. Leeds and Meeker was also fixed at $1,000, making the aggregate amount for Mr. Leeds $10,000, and for Mr. Meeker $4,000.

The trials of all the indictments were set down for Monday, March 15th, but the Prosecutor said he could not at present elect which cases he would try, but would give defendants notice on Saturday next.

The defendants were called up, and their recognizances taken. Mr. John N. Meeker, a brother of defendant, became the bondsman for Mr. David J. Meeker.

Ex-Sheriff Thompson, Patrick Sheridan and Chief of Police J. J. Yates became bondsmen for Mr. Leeds.

Mr. Leggett stated to the Court that ex-Mayor Robert W. Townley was to become his bondsman, but was too ill to appear in Court, and asked if there was any way in which the recognizance might be taken without Mr. Townley's presence.

Judge Van Syckel said Mr. Townley would have to appear in Court.

After consultation with his friends Mr. Leggett secured as his bondsmen John Kean, Jr., Thomas B. Budd, Councilman M. W. Reeve and Wm. Kinley.

An Ohio newspaper speaks of a man being bruised by "emphatic gestures of a mule."

A Nebraska monument to a horse-thief is simply a stake at the head of a grave and a sign reading: "It would have been cheaper for him to go a-foot."

Young man, if it is 11 o'clock and she goes to the piano and plays a few bars of "The Sweet Bye and Bye," you may consider the season over for the night.

HATLINGER'S
CHAMPION
CARPET SWEEPER!
Pat. June 25th, 1872, and July 30th, 1878.
No cogs to get out of order! No wear to carpets! A Clean Sweeper! And no dust!
This new and improved carpet sweeper has been contrived to meet a want which the old sweepers only partially supplied. Instead of cog wheels it is operated by belts running on pulleys, which, while revolving so rapidly and evenly as to take up everything in the shape of lint, hair, thread or dust, is never liable to get out of order, and can at any time be set and operated by any housewife. While being superior to any of the old styles as a carpet cleaner, it has the advantage that its metal bearings in which the brush revolves can be lowered as the brush wears off. The brush is in front of the box instead of the middle, it acts by hand power, not by the motion of the machine. The box is so placed on the handle as to reach any angle of a room, under a sofa, around piano legs, or chairs and tables. It only needs a trial to be appreciated. Price $0.

AMERICAN MOTHERHOOD.

No woman under the sun, be they civilized or uncivilized, take maternity so hard as our American women. Maternal duties are, if fully and efficiently discharged, engrossing and onerous under the most favorable circumstances; but they may be made by over-conscientiousness much more wistful and wearing than they need be, as is hourly evinced by the mothers of this country. The women of any other nation do not begin to be such slaves to their children, and it is altogether desirable that this slavery should be mitigated, if not abolished. In the first place, it does the mothers harm; secondly, it does the children no good; so that it is a waste of force and affection, and unproductive, besides, of any beneficial result.

Where a family is so very poor that a nurse cannot be employed, a mother's cares are necessarily increased and her time absorbed. But such poverty is not common here among educated persons, and an American father must needs be in great penury to expect his wife to look after her babies exclusively. Whether the mother have a nurse or not, whether her conditions be severe or easy, she is seldom free from excessive anxiety and undue exertion in behalf of her offspring. She is inclined to think that a nurse, however faithful, must be continually supervised and directed, and plentifully assisted to earn her wages. In fact, she is the actual nurse, and the nurse, more nominal than real, seems to be engaged mainly for the sake of appearance. She is forever uneasy about her child or children; she incessantly worries them, herself, and her nurse in her effort to see that everything should be done exactly as it should be. Who has ever known an American mother content to allow a nurse to render service without perpetual interference, and without performing the bulk of the service herself?

In a democracy like ours, where freedom of the individuals is so much insisted on, it might be natural to think that children would be allowed to run wild. They are so allowed, to a certain extent, after they have reached a given age; but while they are very young they are attended to with unending superfluity. The native mother, plainly, has no confidence in the beneficent forces of nature. She is prone to believe that all the powers of evil are leagued against her child; that mumps, measles, whooping cough, chicken-pox, scarlet fever, and all other infantile disease ar lying in wait for the darling of her heart in every nook and corner of the neighborhood. If the little thing has contended successfully with these, she is not a jot relieved; she feels sure that foes equally formidable are ambushed near that peerless, precious life, so late begun, and fated, as she often apprehends, to be so early lost. Buildings are waiting for an opportunity to tumble on the boy's or girl's devoted head as he, or she, passes; malignant dogs are standing on corners eager to rend him at sight; ferocious kidnappers prowl about her house, resolved to carry him off; horses and carriages dash through the street searching for a catastrophe, of which he is to be the victim. There is no security for her beloved anywhere. She may believe in special providences, but she cannot trust them in respect to her gifted boy, whom envious heaven may at any moment snatch away. If he sneezes, he is in peril; if he have the slightest approach to colic, his hours are numbered; if his food disagrees with him, the end of earthly peace if very nigh. He is the source and centre of innumerable consuming anxieties; the key-note of every direful tragedy is set to his slightest cry. Oh, the countless and distressing woes which an American mother is invaribly imagining for her children! How delightfully disappointed she appears when the earth fails to open and swallow them up, or when the law of gravitation is not reversed to dash their brains against the over-yawning sky!

No inhabitant of this planet, outside of an insane asylum, can be more hopelessly unreasonable than the average American mother on the subject of her child. She is a little less than a monomaniac, and her distemper is incurable until the child absolutely refuses to be longer kept in leading strings. She wonders every time he returns home that *he has not been permanently disabled,* and she fancies that every Coroner regards him with jealous eyes. The American mother, from the birth of her child until it is at least four or five years old, is virtually deranged. She has no eyes, no ears, no thought, no wish, no hope, no feeling for anything but her offspring. A young mother is said to be a very attractive object, and she has been so represented by artists from time immemorial. But, in reality, she can hardly be called attractive, unless to her husband, because she is dominated and engulfed by her baby. She will talk about it from dawn to dawn; but on any other theme, be her knowledge and fluency what they may, she has not a word to offer. Presentation of topics once deemed fascinating are unavailing. She cannot be moved nor reached by aught that does not relate to her baby—the small mass of crimson flesh and abundant scream about which she incessantly revolves. Those who have been her dearest, most intimate friends find neither charm nor companionship in her during the efflorescence of her motherhood. She has grown to be an intolerable autocrat, who *will listen to nothing, who has no sympathy* with anything but that eternal child. A woman bound on every side by, and permeating and overflowing with, an infant cannot be alluring to any one except the infant's begettor, driven by the same egotism into a crevice of common-place.

European mothers are not like ours; they have some freedom, some mental ease; they can believe that their children will grow up and prosper, if they do not fret about and toil for them continually and continuedly. Children are, no doubt, better for not seeing so much of their mothers, for understanding that they cannot tyrannize over them. It is the American woman's unregulated nerves that are culpable herein. She acts unfavorably on her young, and the young act in turn, unfavorably on her. They injure one another by excess of intimacy. Considering the quality of American children, universally conceded to be the worst-behaved on earth, the wisdom of their mothers' management may well be questioned. The American mother of the future will be pretty certain to abate her motherhood, and with less unhappy consequences.

HUSBAND.

A Detroiter who was out in the country the other day to look after some poultry got stuck in a mudhole, although having a light buggy and a strong horse. He got out, took a rail off the fence, and was trying to pry the vehicle out, when along came a strapping young woman, about 26 years of age. She halted, surveyed the situation, and said:

"You stand by the horse while I heave on the rail, and don't be afraid of getting mud on your hands and boots."

Their united efforts released the vehicle and the Detroiter returned thanks and asked her to get in and ride. She hesitated, looked up and down the road, and finally said:

"Stranger, I'm blunt spoken. Who are you?"

He gave his name and residence, and she continued:

"I'm over 25, worth $900 in cash, know all about housework and this is leap year."

"Yes, I know, but for heaven's sake don't ask me to marry you!" he replied as he saw the drift.

"See here," she continued, looking him square in the eye. "I'm a straight girl, wear a No. 7 shoe and I like the looks of you."

"Yes, but don't—don't talk that way to me!"

"Stranger, it's leap year and I'm going to pop! Will you have me or not?"

"I—I'm already married!" he faltered.

"Honest Injun?"

"Yes."

"Well, that settles me and I won't ride. I'll take a cut across the field over to old Spooner's. He's got four sons and fool nephew, and I'll begin on the old man and pop the crowd clear down to the idiot, for I've slummixed around this world just as long as I'm going to! Good-by, sir—no harm done?"

AN ESSAY ON MAN.

Man was made in dry weather.

He was made of dust.

Quite a number have never recovered from their creation; they are still dry.

It's a man's nature to be discontented.

Adam had a monopoly, but he could not be happy without some one to crow over.

For a while he knocked around over the Garden of Eden, and then went to the house; but he had to cook his own supper, there was no stove-wood chopped and things went on in a bad shape generally.

The next morning it was the same way. He had to make his own bed and sweep out. His socks were dirty and his arms would run through a hole in his sleeve. So he was dissatisfied.

The next night when he went to sleep the creator punished him by making one of his ribs into a woman, a great misfortune to the race.

Golliah was a man.

A fop is a male who is ashamed of his sex, and attempts to conceal the fact that he is a man.

Concealment in such cases is attended with but little trouble. It is only necessary to part his hair in the middle.

The family man resembles an oyster on the half shell.

The shell is known at home—the soft side abroad.

Some men carry this resemblance in their faces. A great many men have countenances like oysters.

Job is said to have been a very patient man.

He had boils all over him.

Many a man now boils all over himself when the preacher reaches "thirteenthly" on a hot summer day, and never thinks of the grandeur of Job's example.

FAMILY MATTERS.

The truest happiness is in a pleasant home.

Prejudice squints when it looks, and lies when it talks.

Selfishness mars the loviest action; it stains the fairest beauty; it dims the brightest lustre.

Help somebody worse off than yourself, and you will find that you are better off than you fancied.

Hannah Moore says that there is one single fact that any one may oppose to all the wit and argument of infidelity; and that is that no man ever repented of Christianity on his death-bed.

Pleasant recollections promote cheerfulness and hopefulness, and painful ones despondency and gloom. Thus the happiness that flows from the right regulation of the feelings tends to perpetuate itself.

More than once has it chanced that into a tumultuous and quarrelsome household a little child has brought peace and harmony, and love too, not only for itself, but for all around it, till it has made lives dear and desirable that before it came seemed almost impossible to live.

FOR GOVERNOR,
JOHN T. BIRD.

The voters of New Jersey will in November next be called upon to elect a successor to Governor McClellan.

Who can suggest a better Democratic nominee for that position than the Honorable John T. Bird, of Hunterdon County?

He has all the Jeffersonian qualifications and they are what the times demand.

As Governor he would faithfully uphold public honor and the welfare of all the people.

He belongs to a section of the State now justly entitled to the nomination.

Pass round the names and claims of BIRD!

WHY.

A Chicago Republican, as a public lecturer, propounds this question—"Why on Earth are Irishmen Democrats?"

It is not necessary to spend much time and breath in answering that.

The reason "why" is plain and positive.

In the first place, they support Democracy because that party is directly of the people, and being rigidly obedient to free government in every particular, it recognizes equity in American citizenship, and ignores the *slurring distinctions of Irishmen,* Germans and the like. Democracy cordially greets as loyal Americans all who have of their own free will solemnly renounced allegiance to foreign governments, and swearing fidelity to the Constitution of the United States, are thereby justly entitled to the privileges and protection it confers.

In the next place, coming as they do from the heartless exactions of monarchy in the old country, and from under the galling yoke of aristocratic task-masters, to inhale the atmosphere and enjoy the benefits of civil and religious liberty in the new, they at once discover, and however much they may *be despised by certain classes, no people* are quicker to discern the truth than they, that Democrats are the especial and fearless advocates and defenders of those vital and fundamental principles of the American Republic.

And again, *history* is not a dead and forgotten medium of instruction. They have heard its teachings and know well that Democracy has ever battled for the rights and dignity of freemen.

That in the early days of national independence, when Federalism strove to drive as aliens from these shores citizens of foreign birth, and to imprison others for exercising the heaven approved prerogative of thought and speech—

Democracy arose like a giant and hurled the tyrant crew from power.

That later, when England refused to admit the right of naturalization, and searched American vessels in furtherance of her arrogant claim—"that once a British subject always one"—

Democracy, with Madison as President and Jackson a military commander, let slip the dogs of war and forever squelched that impious pretension.

And still later, when Know Nothingism, with dark lantern and midnight conclave, sought to pervert free institutions by ostracising worthy citizens because of their religious belief—

Democracy boldly came to the rescue of the Constitution and foiled the arch conspiracy.

And now, when the same spirit of intolerance lurks abroad, and the self *same monarchal idea of concentrating* authority in the hands of the "rich and well born" still exists—

Democracy stands prepared and determined to fight on and fight ever for the people, irrespective of birth, creed or condition.

Such are some of the reasons why adopted citizens, as a general rule, are Democrats. They cannot honestly be aught else, and with propriety might they query—How on earth can that Chicago or any other sane person imagine the contrary possible?

There was a man out West
So wondrous brave and wise,
He sat upon a hornet's nest,
And screamed—"why ain't you flies?"

CHANGE IN THE CHATTEL MORTGAGE ACT.

The Governor having signed the bill relative to chattel mortgages, the act goes into effect *immediately.* Under it, in all chattel mortgages, hereafter issued, the mortgagee makes affidavit as to the amount due, and the mortgagor acknowledges the same before a Commissioner of Deeds or Master in Chancery, and the same is then to be recorded in proper books in the County Clerk's office and the mortgage taken away (not filed, as heretofore). When a mortgage is paid, it is to be cancelled of record, the same as is a mortgage on real estate. Neither the recording nor the filing is required to be renewed.

ST. PATRICK'S DAY.

Our Irish fellow citizens, all over the country, showed their good sense last Wednesday, by celebrating the anniversary of their patron saint's birth, in abstaining from street parades, and holding entertainments instead, the proceeds of which is to be forwarded to Ireland to assist in the alleviation of the starving people there. This action is wise and noble, and reflects credit upon that class of our citizens who have sought a refuge in a free country from the oppression of monarchial rulers. Let us hope that they, as well as our native born citizens, will look to the ballot box next November, and see that no man with monarchial ideas is elected ruler over these glorious United States, their adopted country.

OUR CITY'S WISEACRES.

It is possible (but hardly probable) that the License question, which has so long been a "bone of contention" in the deliberations of Plainfield's Councilmanic body, has at last assumed a "shape." For years past, the matter of licensing Hotels and Saloons in the city, has been the "bone" on which our learned and wise City Fathers have gnawed upon as they successively became inducted into office. First, licenses were granted on a "limited" scale; then came "total prohibition," and old established and well-known hotels, as well as all saloons, were refused a license; and fences were erected in front of hotels, bars closed, and—liquor sold as usual, only moreso. Then came a Council who granted license to all applicants who came before them with recommendations properly signed by reputable and respectable freeholders as the law required. This was in the day of "non-partizan" Councilmanic bodies, composed of men of both the great political parties of the day, the Democrats, unfortunately being in the minority, in consequence of the preponderance of the Republican voters of this city. The city's exchequer was replete with funds to carry on the affairs of the city government, in consequence of the revenue derived from the large amount of monies received in granting licenses, and the news went abroad, and was heralded in the State Press and even in the Report of the Comptroller of the State, that Plainfield was one of the three cities and boroughs of New Jersey that had no debt. This came about because the revenue derived from such licenses added very materially toward paying the running expenses of the city, and the Police Records proved that there was less crime and drunkenness in the city than when "limited" and "no licenses" were the order of the day. Now, however, the order of things have changed. A Republican Council was elected last December. The majority said to the minority, "you shall not *have a representation.*" Then this Council of "moral ideas" raised the usual cry of "No License to the rum-sellers," but by the oratorical efforts of certain of the body, they granted all applications for license coming before them up to date of the last meeting. Of the number were those classed by many as disreputable.—The criminal records of our city shows that the proprietors of certain of these places had been before the city Courts for violation of the license ordinance. Still, renewals of license was granted. Last Monday evening (March 15th) the applications for licenses of two proprietors of respectable and well-known *Hotels came up before this august body* of officials for confirmation, the result being that a silly communication in the shape of a "remonstrance," signed by one person, was made the occasion of an hour's debate, in which endeavors were made to show that Mr. E. P. Thorn, of the Mansion House, had sold, through his bar-tenders, a bottle of rum to a minor, who afterwards accidentally shot himself. After a full ventilation of feeling among nearly all the members, Mr. Thorn's request for a license was laid over for further investigation and Mr. James H. Force's application rejected. Now what will this great moral and Republican body do next? Will they grant Mr. Miller a license when he applies for it, because he is a Republican, and the two rejected applicants were Democrats? Or will they also refuse him a license, as well as Mr. Dean, who has also applied, and let the few *places they have already granted licenses* to, have a "bonanza." Netherwood Hotel also, will soon apply for a license. Perhaps Mr. Edgar will present his memorable remonstrance against that place also.

Seriously, speaking for the good of the City of Plainfield and its continuance of good morals, we think the Republican Council of our city have made a great error in granting and refusing licenses thus far. In the face of their action last Monday night, they have the effrontery to ask the taxpayers of the city to go to the polls on the 12th of April next and vote them $5,000 extra to improve roads (in their sections, *probably*) *when by granting licenses* they would receive the necessary revenue to keep our streets in good repair, give us light, and have less work for our police force. Better far that these champions of prohibition, as servants of the people, exert their influence in a different direction, tending toward the suppression of rum drinking, than that exercised last Monday night.

We challenge the Council to produce a remonstrance against granting a license to either Mr. Thorn or Mr. Force, signed by any number of respectable citizens, for violation of the license law. They cannot do it, although they *could* procure such remonstrance against *certain places they have already* licensed. We await future developments, when the recommendation of other respectable applicants for the same been come before them for confirmation. We shall then see whether it is politics, personal motives or prejudice that controls their action. Meantime the "people" of Plainfield should ponder and reflect. A "money election" is called for.

"Well, done, Democrats of New Jersey!—*N. Y. World.*

The 104th Legislature. And glad are the people. For of all past Legislatures of this State, the 104th was the weakest.—*Requiescat in pace.*

Warning.

Parties who are polluting the streams passing through this city, will do well to read Chap. LII of the public laws. We publish the law in this issue of THE CONSTITUTIONALIST. Its provisions will be enforced by the Game and Fish Protective Societies of this State, should our Council fail to enforce an Ordinance passed by a previous Council on same subject.

Judge Parker.

The late Republican Legislature, failing to bulldoze or intimidate the hero of Antietam, Gov. Geo. B. McClellan, finally concluded to confirm the nomination of ex-Gov. Joel Parker as Supreme Court Judge. The [illegible] upon good, capable and responsible shoulders. We congratulate our plucky Governor upon his wise appointment, and his determination that his appointment should be confirmed.

More Money Wanted.

The Common Council of the city of Plainfield ask the tax-payers to grant them the privilege of raising an additional $5,000, besides the $10,000 now granted them, to be used, as they say, for the repairs of streets. It is somewhat singular that they should ask for such a boon, when they can raise that sum in another legitimate direction. The ballots are yet to be counted, however, and the March winds will dry up the mud.

Building and Loan Association.

The regular monthly meeting of the above Association was held on Monday last, the attendance of stockholders *being small; no business was transacted* outside of the sale of three shares of first series stock to G. Bachman (for Mrs. Anna Stillman) at 10 per cent. premium. Also one share to Mrs. Bachman at 7 per cent. premium. Also five shares of the second series stock to Mrs. Bachman at a premium of 1 per cent. No further business appearing the meeting adjourned.

The T. A. B. Ball.

The Ball of the St. Mary's T. A. B. Society, for the benefit of the Irish Relief Fund, and which was held by special dispensation right in the midst of the penances of Lent, came off last Wednesday evening at Laing's Hall. The sun of St. Patrick's day had not been long set when the young people of Father Morris' parish—and the old people too, with young hearts—began to gather in the rooms of the hotel that had been provided for the convenience of dressing. By ten o'clock when the opening promenade started, the largest crowd that the Hall ever held on like occasions, had assembled. The room was literally packed and it was with the utmost difficulty that the lookers-on were kept back from the centre of the floor sufficiently to allow comfortable marching. But this great gathering was but the forerunner of a greater one; an hour later and the jam made dancing almost unenjoyable. The music of five pieces under Prof. Frazee, however, could not be resisted, and in spite of the contracted space many couple joined in the fascinating and graceful pastime.

Upon the stage at the head of the room sat (beside the musicians) Father Morris, his face every moment breaking into a *smile of sincere pleasure as his keen and* never resting glance fell upon some happy young pair who seemed to be thoroughly enjoying themselves. At his right hand and left, members of the press found resting places and points of *observation, from which to gather* welcome "items." The observed of all observers, however, was his Reverence's protege, who was attending his ball in all the glory of party costume; many a young lamb of St. Mary's (for she had many little ones last night) cast soft glances towards the "butterfly" and one in particular was seen to wink at him. Towards morning nature began to assert itself, and after the "intermission" the younger folk began to have the Hall more to themselves and could enter into the pleasure of the evening more completely. This they did, and the night had passed in thorough enjoyment and the morning arrived, before this most successful of all Balls came to an end.

We herewith publish a law passed by the last Legislature affecting Townships. Read it. Here it is:

CHAPTER XCIV.

Be it enacted by the Senate and General Assembly of the State of New Jersey, That hereafter in all townships in this state in which overseers of the highways are elected at the annual town meetings, each person qualified to vote at town meeting shall, at their respective annual meetings hereafter to be held, vote for but one person to be overseer of the highways, in the road district in which such voter resides, which overseer of the highways, shall be a resident of the road district for which he is elected.

2. And be it enacted, That in case of a vacancy in any of said road districts, by a tie vote, failure to elect, or from any other cause whatever, the township committee shall, within five days after said annual town meeting, or such vacancy occurring, appoint some suitable person, who shall be a resident of the road district wherein *said vacancy occurs, to fill such vacancy* until next annual town meeting.

3. And be it enacted, That this act shall take effect immediately.

Approved March 4, 1880.

Erb killed 93 and the Capt. 83 out of 100 birds. The former shot at 28 yds rise and the latter at 30 yds. Bogardus used a 12 guage choke Scott gun, 5 drachms of Orange Lightning powder, 1¼ oz shot. Erb, used a Purdy gun, 4½ drachms Hazard's Duck powder, 1¼ oz shot.

Here is a law which pot hunters and boys should carefully read:

No person shall rob or destroy the eggs or nests of any wild birds whatever, only those of such predatory birds as are destructive of game or innocuous birds under a penalty of ten dollars.

One-half the penalty recovered shall belong to the person giving information, the other half to the treasurer of the county in which the offence is committed.

These penalties recoverable before any Justice of the Peace.

WHY was there no snow or rain on the 17th of March? Because there was 29 days in February last, and the disagreeable weather occurred on the 16th. Fact.

COLLIER, the Tiffany of Plainfield, has placed a most attractive and handsome sign on his side-walk. Its beauty and style, however, falls far below that of his goods.

FRENCH, the Clothier, has removed to his new quarters next to Force's Hotel, and opposite the Post Office, Front Street. He will open with a fine Spring stock of goods.

THE handsome new residence of Mr. W. P. Scott, on Ninth Street, near Broadway, is nearly enclosed. Messrs. Melbourn, mason, and M. W. Schenck, carpenter, are the contractors.

THE Republican Council of the City of Plainfield ask our citizens to grant them $5,000 additional funds. Previous Councils have asked the same boon and been refused. There is a good reason.

PROF. Campbell, President of Rutgers College, (Reformed) will occupy the pulpit in the First Congregational Church next Sunday morning and evening, Mch 21. All are cordially invited. Sabbath School at 2:45 P. M.

WM. DOYLE, tonsorial artist, of Front Street, has gained a victory. Robert Maynard promised to shoot, cut and demolish William. The Court at Elizabeth has given Robert a sentence of five days' imprisonment.

ACCORDING to the provisions of a law passed by the last Legislature, a paper in Rahway, in this county, is entitled to publish the State Laws. The act is a just one, and should have been made a law two years ago.

MR. JOHN TAYLOR, in our advertising columns, offers inducements to all desiring horses. As will be seen by the advertisement, every animal is sold with a written guarantee, and fair and honorable dealings are promised.

REV. Mr. Day closes his pastorate of the M. E. Church, next Sunday. He is expected to preach morning and evening.—The Rev. gentleman goes from this city to a pastorate at Nyack, on the Hudson. We wish him God speed in his new field of labor.

WILSON & SIMPSON, Ice Merchants and contractors, have dissolved co-partnership. The business hereafter, will be conducted by Simpson & Co. Mr. Wilson has leased Johnston's Farm, North Plainfield, and will reside their hereafter with his family.

THE excursion train over the Central Railroad, conveying passengers to New York to witness a theatrical performance at the Fifth Avenue Theatre, on Friday last, failed to prove a grand success financially. About fifteen persons from this city were passengers.

THE owners of drive wells have gained another victory over Green, the extortionist. In the Trenton Courts, on Monday last, permission was given to re-open testimony in behalf of certain defendants in driven-well suits. Green's attorney, M. Clayton, opposed the motion.

WILL the Street Committee, or Street Commissioner, (we don't care which) clean the mud off Park and North Avenues, macadamized roads. Somebody put it there by somebody's order, and ruined the road bed. The verdict of the jury in the case will be given next December.

THE members of the Central Baptist Church celebrated the fourth anniversary of their organization last Monday evening in the 7th Day Baptist Church. There was a very large attendance. Mr. Melbourn the builder, will soon have a new structure ready for them to worship in and to hold their next anniversary.

WOOLSTON & BUCKLE is the name of a new firm of painters, who have located and hung out their shingle on North Avenue, near the depot, next to Jenning's smithy. They are capable workmen, and ask a trial, having had long experience in the business in Plainfield, under another firm name. Read their advertisement.

THE Seventh Anniversary of the Woman's Baptist Missionary Society, of Plainfield, will be held in the 1st Baptist Church, on Tuesday next, March 23rd. Afternoon service at half-past 2 o'clock. Reports of Sec. & Treas. will be presented. Addresses will be delivered by Mrs. Robert Harris, Mrs. J. H. Arthur, and others.

MR. John W. Morris, the well-known horseman of Middlesex County, started on Monday for Canada, to purchase a couple of car loads of horses, and will return about the 25th of this month. He will then offer the stock purchased by him at low prices. Every one who has ever purchased of Mr. M. knows full well that he will offer for sale none but good stock.

BOB McCloud, of Elizabeth, had a narrow escape a few days since. He, in his capacity of constable, went to a certain residence to collect a bill. He was told by the irate wife of the party interested, that she had thrown her old man down the stairs the day before, and if he did not leave the premises he would share the same fate. He left. So the Colonel says.

IN looking over our advertising columns to-day we find that our fellow townsman, Harry Barnes, has succeeded to the business formerly carried on by Martin Giles, on Front Street, and is fully prepared to attend to all orders in the painting or papering line required. He cordially invites everybody who wishes to do so to call in and look at his stock, though not wishing to purchase. He has our best wishes for his success.

WE are aware of a case where the Street Committee, or Commissioner, (we don't care which) should look after the sanitary condition of the city. The case in point is at the intersection of Peace and Second Streets, where, on Tuesday last, the water overflowed the sidewalks, after the rains on that day, so that when a doctor's gig was driven in front of a patient's residence in that locality, his horse had to stand nearly knee deep in water. The cause was—drains not open. The detriment was—continued ill health to the patient.

R. S. LITTLE, Esq., offers for sale some fine blooded stock. See adv.

THERE seems to be but few auction sales in this vicinity this Spring. Is it not indicative that "once a resident of Plainfield, always so?"

THE next Lecture under the auspices of the Deliber Society of the High School will be delivered at Assembly Hall, March 23rd by Dr. J. M. Buckley.

G. L. WHITFORD, Merchant Tailor, has taken the stand recently occupied by Drake, No. 12 Park Avenue, and will open in a few days with a fine stock of Furnishing Goods, Cloths and everything pertaining to a first-class Merchant Tailoring establishment. "Nobby" fits warranted. Orders received next Saturday evening.

THERE has been a rush to the Fancy Goods Store of Mrs. W. L. Force, No. 8 Park Avenue, by the ladies, in consequence of the rumor that she had for disposal catalogues containing the highly prized patterns of dresses issued by Smith, of New York city. A few more copies are to be found on her counters for distribution.

THE services of the Congregational Church Society in their new place of worship corner of Central Ave. and 2d Street, last Sabbath, were of an encouraging nature, Rev. Mr. Manchee, the pastor, occupying the pulpit morning and evening. The Sabbath School was also organized under favorable auspices. Next Sabbath morning Rev. Dr. Vincent will occupy the pulpit, and in the evening Revs. Hurlbut, Ketcham, and probably Dr. Vincent, will make short addresses.

To the Housewife.

Voehl, the Baker, North Plainfield, is now producing from his establishment the finest bread ever eaten. It is called "Voehl's Genuine New England Bread." Try it. We have—and pronounce it the best we ever ate.

Election Notes.

The votes cast for candidates in the Township election of Piscataway Township, held at New Market, Monday of last week, were deposited in a soap box, the Inspectors of Election, or proper authorities failing to furnish a ballot box. The Republican Coriell Ticket was of course elected.

Y. M. C. A. Reception.

The next Monthly Reception of the Y. M. C. A. will be held in Vandeventer Hall, Tuesday evening, March 23d. The programme on the occasion will be an interesting one. Mr. C. W. Muzio, a reader of renown in New York and Brooklyn, will give some fine selections on the occasion. The price of admission is only ten cents. The entertainment is worth ten times that amount.

The Work of the Legislature.

The one hundred and fourth session of the Legislature was adjourned *sine die* on Friday last, at noon, after nine weeks' labor. It was one of the shortest sessions on record in this State. The aggregate number of bills introduced was 629—in the Senate 256 and House 373; the number of joint resolutions 16. Out of the whole number 248 bills passed both branches—197 of which the Governor signed. The Governor vetoed 20, and filed 3 in the Secretary of State's office without his signature.

Another Change of Base.

Mr. Geo. Miller, former proprietor of the City Hotel, has leased the old and favorably known hotel property—"Laing's Hotel" in this city for a term of years, and will enter upon his duties as proprietor about April 1st. Mr. Chamberlain, the present proprietor, goes to Bergen Point, as proprietor of the "Shore House," a favorite resort of yachtmen. Many decided and necessary improvements will be made in the interior of this well-known hostelry when Mr Miller takes possession.

The Charity Concert.

The most decided and marked success of the season in the concert line was that given by the Vocal Society, of this city, in aid of the "Children's Home," on the evening of the 11th inst., in the Congregational Church. Despite the unpleasantness of the weather the managers were agreeably disappointed in their expectations of a small attendance, and were favored by a gathering that, both in its quantity and quality, witnessed the appreciation of the better class of the public of Plainfield for the entertainment and the cause it was to aid.

Of the singing of the Society itself, too much in praise can not be said. Having been strengthened in its Tenor part by the addition of a member of Mr. Fitzhugh's Choir, its renditions of the Madrigals and Glees in particular, were remarkably perfect and well deserving of the enthusiastic *encores* they received. In fact the entire selections were universally praiseworthy and showed careful practice and efficient leadership.

The vocal and instrumental solos of the ladies and gentlemen, who had kindly volunteered their services to add to the programme's attractiveness, were, likewise most acceptable, notwithstanding the fact that such verdict may conflict, with the criticisms of youthful judges, possessed of more self-sufficiency than good taste. The playing of Miss Belle Foster was thoroughly enjoyable, and the sincere and hearty applause of the audience showed their appreciative judgment. An instrument in bad order was a drawback almost impossible to overcome, and the chilling process the artist was compelled to go through in the uncomfortable waiting room before her appearance, was not conducive to perfect execution; yet in spite of both these inconveniences her playing was truly commendable.

Miss Henson, the Soprano Soloist of the occasion, was so unfortunate as to be compelled to fulfill the reputation others had given her, instead of being allowed to achieve such a success as her talents permitted her the capability of attaining.—Her praises had been sounded to such an extent that the majority of her listeners seriously felt alone the disappointment of her failure to reach *their expectations*, when they should have admired the powers she possessed and which were so worthy of their approval. The clearness of her voice and the wonderful ease with which she sang, challenged adverse criticism.

Mr. Marckwald, the Tenor, claimed and received his justly deserved share of the evening's applause. Although apparently affected in his singing and deficient in his pronunciation, his tones and notes could not but be admired. His failure to bring with him the score of one of his songs was a mistake that threw undeserved blame upon Mr. Fitzhugh who was compelled to manufacture an accompaniment. These little drawbacks, however, only show how nearly perfect was the Concert that had no greater faults.

The Debt Paid.

Last Sabbath the congregation of the First Baptist Church, Rev. D. J. Yerkes, pastor, succeeded in raising a sufficient sum to liquidate the debt against that church body. We are glad to record the fact. We wish all our church Societies were out of debt.

Hotel Furniture for Sale.

The entire furniture and fixtures of Chamberlain & Co., proprietors of "Laing's Hotel," this city, will be sold at public auction, commencing March 24th, in consequence of change of proprietorship. The furniture is all new and in first-class condition. A fine chance is here offered to those in want of such goods. See advertisement.

The Last of the Y. M. C. A. Course.

The reputation of the Hon. Wm. Parsons, was sufficient guarantee of the excellence of the lecture he delivered at the Congregational Church, Wednesday evening last—the last entertainment of the Y. M. C. A. Course. The subject chosen, "Victorious Lives," was handled in a masterly manner, showing careful study and diligent research; interesting the hearers throughout with its skillfully told biographies of the inventing geniuses and self-made men of the old and new world, of the past and present time, living and dead. It was considered by the majority of the attendants of the Course to have been the best lecture of the season, and is greatly to the credit of the Association that their series which has been so unusually interesting, should close thus auspiciously.

Serious Runaway.

Wednesday morning last, the horse attached to a milk wagon of Mr. Ed. Terry, of Short Hills, became frightened on Front Street, in consequence of a bolt breaking and letting one end of the shafts down upon the ground. The driver did everything to stop the runaway, but without effect. The beast took Park Avenue as his race course. At the corner of Second Street, the hind wheel of the milk wagon struck the carriage of Dr. Fritz, by which no damage was done to his vehicle, but a sudden shy of the runaway upset the milk wagon on the corner adjoining Roberts & Cadmus' Livery. The wagon was upset, broken to pieces, the driver thrown out and seriously bruised, while the horse kept on until he came to Caspar's saloon (he has a license) where the animal, failing to gain an entrance, fell over the fence into the door yard of Mr. John L. Laing, where he was speedily captured by Billy Hedden and others.

The Crescent Avenue Church Sociable.

The Young People's Association of this church gave one of their pleasant sociables in their parlors last Tuesday evening, at which was gathered together the majority of the young folk of the society and many of the older ones too. The evening passed most pleasantly in social intercourse and in listening to the vocal music of Mr. David Titsworth and the instrumental performances of Miss Belle Foster. Both of these contributors to the entertainment were so enthusiastically appreciated that a rest was hardly allowed them, and during the greater part of the time their truly admirable music held the assemblage interested listeners. Miss Hattie Smith, who was to furnish the elocutionary portion of the programme, was unfortunately detained at home by ill health, but her place was most satisfactorily and successfully filled by Mr. Bliss. Refreshments, consisting of cake and coffee, were also a part of the evening's attractions.

Upon the election of officers, it being the annual meeting, the following were chosen to serve for the coming year. President, Mr. J. K. Myers; Vice President, Mr. J. D. Carey; Secretary, Mr. T. J. Miller, and Treasurer Mr. H. B. Kaufman.

Personalia.

Recent letters from our former townsmen, Messrs. Wm. H. Brower and Gershom Frazee, who are now prospecting gold and silver mines in Arizona, claim that they are delighted with the country and prospects of suddenly becoming rich. "Gep" intends to start a printing office, so that his poetical effusions, such as he recently sent home may not cost him too much to publish them.

We rejoice to learn that our friend and former townsman, Wm. McNabb, is doing a successful business in the telephone line. A late letter from him informs the writer that he is in the employ of the "Consolidated Telephone Co., of France," and that he has been appointed Electrical Engineer of the Company, with his headquarters in Paris. Good for "Billy."

We received a call from Hon. John T. Dunn, of the 2d Assembly District, of this County, on Monday last, and spent a pleasant chat of an hour's duration with him. He has been a terror to the "Reps" in the House of Assembly the past session.

Will Stanbery, of Scotch Plains, is home on a visit to his parents, in consequence of sickness. For some months past Will has been in the employ of a large mercantile house in Cleveland, Ohio.

As an evidence of the prosperity of the Messrs. Boehm Bros., Dry Goods Merchants, of this city, it is only necessary to say that the senior member of the firm has gone into another co-partnership; this time for life. Miss Rosa Lobitz will be his partner, under the firm name of D. Boehm and wife. See marriage column. We extend our congratulations to the new firm.

The Amateur Minstrels.

The endeavor of the Plainfield Athletic Club to keep the audience at their Minstrel Entertainment of Saturday evening, within the confines of the best class of this city's residents, resulted in reducing the number in attendance to about half the seating capacity of the hall.

The programme carried out by the artists in cork, was one replete with true wit without vulgarity, sharp hits without offensive personalities, and clever impersonations without objectionable attributes. The first part was the usual medly of minstrel vocalizations interspersed with local and general satire; the singing of Messrs. Jones, Smith and Wheeler being noticeable as especially admirable. Part second included some finely rendered "plantation melodies;" some character imitations by Mr. Frank Bowne that were mostly clever; the famous march and chorus of the Skidmore Guards, and a song and dance by Mr. D. C. Sexton, whose admirable performance called forth a hearty encore. The performance closed with an "original farce" called "A Colored Ball," that gave the members of the Club an opportunity to display their remarkable talents as representers of the peculiarities of the race they imitated. So hearty and sincere had been the recalls that were universally and impartially accorded to all, that those of the company who appeared in the last scene were compelled to leave for the train unwashed, and would have passed through the dark streets unseen had not the escort of P. A. C. members, by a reckless discharge of stale roman-candles, rendered them visible. At the depot more singing was indulged in, as well as most wonderful imitations of banjo and bag-pipe music "by special request of the ladies." From this city the visitors took their departure for Westfield, where a midnight supper was awaiting them and where they were the guests of Mr. Otis G. Webb at Brocksmith's Hotel until the next morning.

It is to be hoped that the entertainment will be repeated, as there is now no doubt that the amount of its enjoyableness and deservedness will ensure to the financial benefit of the Plainfield Athletic Club upon a second representation.

Mr. Darling presented a petition from property owners and residents of Netherwood, stating that a large amount of money had been expended in macadamizing South Ave., and lately stones and dirt were taken from the gutters and strewn upon this thoroughfare, marring it somewhat, and asked that an appropriation be made by Council to again put it in order. The Pres. presented the following com'ns from His Honor, Mayor Harper:

To the Honorable the Common Council:

GENTLEMEN:—There having been so many complaints preferred against the practice of running Velocipedes on the sidewalks and Bicyles in the streets of our city, that I deem it a matter of duty to submit for your consideration the expediency of prohibiting their use, at least within defined limits, by Ordinance.

It is certainly both annoying and dangerous to have the sidewalks so obstructed, and I am assured the appearance of bicyles along the public thoroughfares is a source of great peril, causing, as they do, fright to horses.

NATHAN HARPER, Mayor.
Plainfield, March 15th, 1880.

On motion, referred to Law & Ord Com.

Also, the following from His Honor, the Mayor:

To the Honorable the Common Council:

GENTLEMEN:—Herewith please receive a communication from Geo. H. Burgess, Esq., asking that the width and grade of Central Avenue be legally ordained.

If, as alleged, the width and grade of said Avenue have not been established, I would respectfully suggest that the matter receive early attention on the part of your Street Committee, in order that the petitioner may perfect desired improvements in the fence line of his property.

NATHAN HARPER, Mayor.
Plainfield, March 15th, 1880.

Plainfield, N. J., March 9th, 1880.

HON. NATHAN HARPER, Mayor.

Dear Sir:—The undersigned, a property owner and resident on Central Avenue, would respectfully ask that you lay the matter before the Honorable the City Council of passing an Ordinance for determining and fixing the width and grade of said Avenue, in order that the undersigned may build a fence on the proper line of said property. The undersigned believes that this width and grade is not fixed, and that the interests of all concerned would be benefited by the action asked for.

Yours, very truly,
GEO. H. BURGESS.

On motion, ref'd to St. Com.

Also, the following from His Honor, the Mayor:

To the Honorable the Common Council:

GENTLEMEN:—Having as an official duty called the attention of John H. Tier, Esq., to the erection of a structure over the sidewalk fronting his property on Park Avenue, after an application for such purpose had been refused by a vote of the Common Council, that gentleman at once made personal response, and, subsequently presented a written communication in regard to the matter, copy of which is herewith laid before you.

As Mr. Tier positively disclaims any intended disrespect for law and the authority of Council, and as the structure in question is unobjectionable in character and a decided improvement, I would respectfully recommend that you formally sanction its erection.

NATHAN HARPER, Mayor.
Plainfield, March 15th, 1880.

Plainfield, March 8th, 1880.

HON. NATHAN HARPER,
Mayor of the City of Plainfield.

Dear Sir:—Sometime since I presented to the Common Council a communication petitioning that Honorable Body to grant me the privilege of erecting a wooden awning, to extend to the curb line, in front of my property on Park Avenue, said awning to take the place of one already there, (but not extending more than half-way to the curb line.) The petition was referred to a Committee and finally rejected by the Council. Since then I have erected a *corrugated iron awning*, which is considered not only an improvement, but does not, as far as I can learn, conflict with any Ordinances of the City. I would respectfully ask that you confer with the Common Council regarding the matter, and take such action as you deem right in the premises, for which your petitioner will ever pray, &c.

I regret that my action has caused any member of the Council to think that I would usurp any powers belonging to them, but thought that in removing the obstructions in front of the property, I was not only benefitting the property, but certainly abating a nuisance which had existed for a long time.

Most respectfully,
[Signed] JOHN H. TIER.

Mr. Coriell moved that it be received and placed on file.

The Pres. thought that the matter should be acted upon, per the Mayor's request.

Mr. Rushmore moved that the com'n be received and the request of the Mayor's acceded to. Carried.

Mr. Whiton presented bond of Collector L. E. Clark, in the sum of $10,000, with John H. French, Elias R. Pope and Mulford Cole as sureties. Also, bond of Constable Amos Moffett, for $1,000, with John Simpson and Wm. Wooden as sureties. Ref'd to Finance Com.

Mr. Redfield, from Alms Com., reported the following claims as correct: Alex. Willett, $2.50; Henry Garbs, $4; Women's Temperance Union, $5.20; Alex. M. Runyon, $17; Township of Westfield, $15.90. Ref'd to Aud. Com.

Mr. Darling, as correct, from Lamp Com., claim of John H. French, globes, &c., $3. Ref'd to Aud. Com.

By the same—As not correct, claim of Berry & Thorn, part of the bill being for supplies to station house, Ref'd to Police Com.

By the same—That he was in receipt of com'n's from the Plainfield Gaslight Co. and the N. Y. & N. J. Globe Gaslight Co. in reference to lighting, by contract, the street lamps for the present year. The Com. on Lamps were instructed to make the necessary contracts with the above Companies at their lowest figures, provided permission be given Council to discontinue the lights at any time.

Mr. Lithgow, from Law & Ord. Com., reported relative to judgment of J. H. Platt, $286.86, as being correct, and recommended that a warrant be drawn for amount of judgment, with interest. Report received and recommendation adopted, and warrant ordered drawn. All aye.

By the same—The following relative to amendment to Hack license:

To the Honorable the Common Council:

The petition of the hackmen, to have the hack ordinance amended so as to allow them to transport baggage, which was referred to your Committee on Law and Ordinance, we beg leave to report that it would interfere with the business of the expressmen, and would recommend that the prayer of the petitioners be not granted.

[Signed] W. LITHGOW,
L. W. RUSHMORE,
HENRY REDFIELD,
Com. on Law and Ord.

Rec'd and recom'n of Com. adopted.

A report was asked from the Law & Ord. Com. by Mr. Flanders, as to the amendment to the License Ord. now in their hands.

Mr. Lithgow stated that the Com. were not ready to report.

Mr. Rushmore, from License Com., presented the following remonstrance against granting license to E. P. Thorn and James H. Force:

To Messrs. L. Rushmore, W. S. Darling and W. Lithgow, License Com. of the Common Council, Plainfield, N. J.:

GENTLEMEN:—The undersigned beg leave to present the following "good reasons" why a license to sell spirituous and fermented liquors should not be granted to either Ed. P. Thorn or James H. Force:

1st. If these applicants are not men of "good moral character" the license law provides that they shall not engage in this traffic—If they are men of "good moral character" the interest of the community, as well as their own, demands that they should not injure that character by engaging in a traffic that inevitably demoralizes the best of men.

2d. Their saloons will increase the number of drunkards, impoverish many families, corrupt our youth, open the door to enlarged temptation, increase the poor tax and add to the police expenses—for all which they will make no adequate return.

3rd. The city is already well supplied with licensed hotels and saloons, and this is unquestionably so in that part of it where these two applicants propose to locate. If street lamps may not be placed too closely lest our eyes be dazzled by excess of light, should not care be taken that liquor shops shall not be located too near to each other lest we have "the eyes of our understandings" dazzled, yes, even "darkened" by too much beer and rum! I greatly fear that we are upon the verge of so great a calamity!

4th. The moral sense of a large part of our population will be needlessly offended by granting licenses to these two applicants. This is entitled to careful consideration. As soon as we have an adequate supply, for the convenience of those who frequent saloons, every additional license only intensifies this offence. If those who use liquor are to be gratified, surely those who do not use it, and who regard its use by others as a fearful curse upon our city, ought to be respected.

As the value of the above reasons would not be enhanced by the number of names subscribed to them I take the liberty of presenting them upon my sole responsibility. I am with much respect,

Yours,
E. B. EDGAR
Plainfield, N. J., Feb. 23d, 1880.

Mr. Rushmore arose and said that no charges are made in the above remonstrance against the character of Mr. Thorn or Mr. Force, and the Com. find that the petition of Mr. Thorn complies with the License Ord., and would recommend that the license be granted.

At this juncture, Mr. Ryder arose and cited the case of young Wolf who shot himself about two months ago. Mr. Ryder stated he was informed that the boy said he procured the liquor at the Mansion House, this city. He thought that the License Com. should look into the matter thoroughly.

Mr. Rushmore said the License Com. had examined into the matter and could find nothing to substantiate the charge.

Mr. Flanders arose and said that he was informed pretty directly that the young man said on his dying bed that he procured the liquor at Thorn's. He had no doubt but what the License Com. had done their duty, but thought it would bear further investigation.

Mr. Coriell said that no doubt existed in his mind but what the liquor was procured at the Mansion House. The young man on his dying bed, had told him so.

Mr. Lithgow arose and addressed the Council at some length in a straightforward manner. He made earnest and some telling remarks of the course pursued by the temperance men in this city, at the election held last year for an extra $5,000. He said they had the cheek to charge him *Ten Dollars per day* to distribute "Money" tickets, that amount being thought about right for the work they had to perform. He finally got them down to *Five Dollars*, and paid the money out of his own pocket. What was the result? We were beaten *three* to *one*. It can be readily seen, he continued, that a majority of the people are in favor of granting licenses. He was astonished, surprised and mortified to think that this Wolf case was not brought up at the time of the shooting, and not wait at this late day, and then find out that the liquor was procured at the Mansion House. Steps should have at once been taken to prove the charges, and Mr. Thorn's license taken from him.

Mr. Flanders said that Mr. Lithgow had had a glorious record in the temperance cause; he was sorry that the gentleman should retrace his steps, &c.

Mr. Coriell stated that it was impossible to prosecute Mr. Thorn at the time of the shooting, for want of corroborative evidence. Mr. Coriell also stated in regard to the late money election, that the people were burdened with taxes, and did not feel like voting for the extra $5,000, and so increase their taxes.

Mr. Whiton asked of Mr. Coriell if the boy told him on his dying bed, that he procured the liquor at Mr. Thorn's? On being answered in the affirmative, Mr. Whiton said, "I believe then what the boy said was true; I do not think he would have told a lie on his dying bed."

Mr. Lithgow said that the day was not far distant, in Plainfield, when his fellow-Councilmen on the other side would find him standing just as he now stands on the Temperance question. He had worked harder he said for the prohibition movement than any member of the Council. In regard to the raising of the $5,000 last year, it would only have been, he said, about 75 cents on a $1,000, so estimated by an expert of our city.

Mr. Flanders said that he thought Mr. Lithgow had gone back on his glorious record and himself. I will not vote for licenses; I cannot sacrifice my Christian principles.

Mr. Lithgow replied that he was conscientious in what he was doing. I will do my duty "though the Heaven's fall!"

Mr. Ryder moved that the application of Mr. Thorn be referred back to the License Com. for further investigation.

The Pres. informed Mr. Ryder that a motion was already before the Council to grant Mr. Thorn his license.

Mr. Rushmore said that he had always been a strong temperance man, and was yet, but he thought this question should be settled at the polls before action could be taken by the Council. If it is the wish of the Council that the License Com. investigate the Wolf case still further, I will withdraw my motion.

Mr. Lithgow moved that the petition of E. P. Thorn be referred back to the License Com. for further investigation. So agreed to.

Mr. Rushmore then presented petition of Jas. H. Force as conforming to the License Ord., and recommended that the same be granted.

Mr. Lithgow moved that the report be received and the license be granted. Lost, the vote being as follows: Ayes—Lithgow, Finch, Potts, Rushmore, Darling—5. Nays—Coriell, Flanders, Dunlap, Redfield, Ryder, Whiton—6.

Mr. Rushmore, still from License Com., reported the following truck licenses as conforming to the Ord.: Sam'l Hampton, S. C. Ryder and L. Kane. On motion, report received and licenses granted.

Mr. Flanders, from Printing Com., reported the following claims as correct: Runyon & Leonard, $57.30; E. O. Chamberlain, $6. Ref'd to Aud. Com.

Mr. Coriell, from Com. on Sts., reported correct claim of Geo. M. Angleman, $28.50; Wood & Hall, $8.12. Ref'd to Aud. Com.

By the same—That the petition for crosswalk on Fifth St., from E. C. Mulford and others, be granted. Adopted.

Mr. Dunlap, from Aud. Com., reported the following claims as correct: Chas. W. Dodd, $47.78; I. L. Tingley, $71.91; R. Hapsury, $41.67; Geo. W. Moore, $98.41; Plainfield Gaslight Co., $239.34; Geo. M. Angleman, $50; E. O. Chamberlain, $6.30; W. L. Force & Bro., $49.56. On motion, warrants ordered drawn for the several amounts. All aye.

By the same—As correct, claim of Westfield Township, $15.90. Tabled, no funds to the Poor account.

Mr. Lithgow offered the following resolutions:

Resolved, That in the opinion of this Common Council a greater sum of money than $10,000 is necessary to be raised for the uses of the city of Plainfield in the year 1880, and that for such uses it is necessary that the sum of $5,000, in addition to the said sum of $10,000, be so raised, which sum of $5,000, if voted by the inhabitants of the City of Plainfield shall be wholly expended for work and repairs to the public streets and highways of the city and for no other purpose.

Resolved, That an election be held between the hours of 7 o'clock a.m. and 7 o'clock p.m. on the 20th day of April, 1880, at the usual places for holding elections in this city, to vote the sum of $5,000 to be raised by tax in this city for the uses of the city in the year 1880, in addition to the specific sum of $10,000 authorized by the charter to be annually raised by tax; such sum of $5,000 to be assessed and collected at the time and in the manner directed by the charter, for the assessment and collection of annual city taxes; and that the City Clerk be and hereby is authorized and directed to give notice in the manner required by the charter, that such election will be held accordingly.

Resolved, That the Committee on Salaries, Offices and Elections be and they hereby are authorized and directed to make all necessary and proper arrangements for such election.

These resolutions caused considerable discussion.

Mr. Flanders thought it would be easier to raise $3,000 than $5,000. The people would be more apt to vote for a smaller amount, &c.

Mr. Ryder said that a prominent lawyer had told him that if the Council refuse to grant saloon licenses, the people would vote the money.

Mr. Whiton said in 1877 this same thing was tried and it did not work at all.

Mr. Flanders said, in reference to the streets, that owing to the open Winter it had made them very bad, and they need fixing up very much.

Mr. Coriell also remarked that the [illegible] and the Street Com. needed all the money they could get.

After some further discussion, the resolutions were adopted. All aye.

Mr. Lithgow moved that the claim of Wm. B. Manson, Esq., be referred to Finance Com., pointing to a settlement. Adopted.

Mr. Rushmore offered a res. that crosswalks be put down on 7th St. at Spooner and Grant Aves. Ref'd to Com. on Sts.

Mr. Lithgow moved that a warrant be drawn in favor of D. J. Marshall in settlement of his judgment against the city. Finding that the bill of Mr. Marshall was not in possession of the Council, it was ordered that the Corporation Counsel be instructed to procure the exact amount that a warrant may be drawn therefor.

On motion of Mr. Lithgow, an old claim of Wm. Swain was referred to the Finance Com.

Mr. Whiton called from the table the new Poor Ord. for its 3d reading. Read 3d time and passed. All aye. [Mr. Coriell was excused before the reading of the Ord., as he wished to catch the train.]

A letter was presented by Mr. Lithgow from City Counsel Suydam who states that the Ord. was legally drawn, &c.

Mr. Whiton stated that the Ord. was shown each member of the Law and Ord. Com., and with one or two changes made at their suggestion, they pronounced it correct.

Mr. Lithgow moved that the *Central Times*, THE CONSTITUTIONALIST, and the daily *Bulletin*, be the official papers of the city. Carried.

Mr. Finch moved that the nominations of the Mayor for Overseer of Poor and City Physician lie over until next meeting of Council, and that the nomination by the Mayor of Geo. M. Angleman for St. Com'r., be taken from the table and acted upon this evening. So agreed to.

Upon a ballot being taken, George M. Angleman received 8 votes for, and 2 against. The Pres. then declared Geo. M. Angleman duly elected as St. Com'r.

Council then adjourned.

WESTFIELD WISPS.

Mr. Amos C. Foster died on Thursday morning at 7 A. M., after a long illness; he had not been able to leave his room for the last month.

Mr. Chas. B. Peddie has purchased part of the old Silas Pierson property on Broad St., and he will now make our town his permanent home.

Mr. L. Hoberson has rented one of Mr. L. V. Clark's houses on Clark St., which he will occupy about the 1st of April.

Samuel E. Young, the newly elected Overseer of the Poor, received a delegation of 20 Hungarians, just landed, on Wednesday night of last week. As none of them could speak the English language he did not know what they wanted. A council was held on the corner of Broad & Elm Streets, and Charlie Wittke sent for as being the only one in our town that would be likely to talk to them—and such was the case. They wanted a place to sleep, had no money and walked from New York. Not having any place to put them, it was decided to let them sleep in the Town Rooms where there was a good fire, and after giving them some bread and hot coffee they were left to themselves.

Judge Jacques rendered his decision on Wednesday, March 17th, against the defendant Road Overseer Beller, and fined him $20 for keeping the water out of the vacant lots of Mr. E. G. Brown, when he was ordered to do so by some of the men of the District. Mr. B. has appealed from Justice Jacque's decision.

Our new Town Committee met for the first time on Tuesday, March 16th, at 4:30, P. M. They organized by electing Mr. Robert Sinclair Ch'mn and Mr. E. M. Pierson Treas. The road matter was brought up by Mr. Pierson, but upon motion was laid over until next meeting, Monday, March 22d, at 7:30, P. M., so as to get a better expression of the will of the people.

The School meeting, Tuesday evening last, passed off very quietly, and all the extra appropriations were accepted.

Rev. Charles A. Harris has been obliged to resign his charge of the Baptist Church. Ill health being the reason.

MESSRS. EDITORS:

The Democratic victory in Summit Township on Tuesday of last week you have heard of; but one most interesting feature of it you would scarcely learn by the reports. The candidates for Chosen Freeholder were William H. Briant, Democrat, and Philip H. Vernon (now member of Assembly from Third District, Union County) Republican. Briant received 189 votes and Vernon 110 votes! *Vernon the lowest of any name on his ticket*; Briant the highest of his. So much for an honest, true, unbiased expression of the estimation of the celebrated Assemblyman in the minds of his fellow townsmen.

SPEER'S PORT GRAPE WINE!
FOUR YEARS OLD.

This celebrated Native Wine is made from the juice of the Oporto Grape, raised in this Country. Its Invaluable

Tonic and Strengthening Properties

are unsurpassed by any other Native Wine. Being the pure juice of the Grape, produced under Mr. Speer's own personal supervision, its purity and genuineness are guaranteed. The youngest child may partake of its generous qualities, and the weakest invalid use it to advantage. It is particularly beneficial to the aged and debilitated, and suited to the various ailments that affect the weaker sex. It is in every respect A WINE TO BE RELIED ON.

SPEER'S
P. J. SHERRY,

The P. J. SHERRY is a Wine of Superior character, and partakes of the golden qualities of the grape from which it is made. For Purity, Richness, Flavor and Medicinal Properties, it will be found unexcelled.

SPEER'S
P. J. BRANDY.

HATLINGER'S
CHAMPION
CARPET SWEEPER!

Pat. June 24th, 1873, and July [illegible], 1880.

No cogs to get out of order! No wheel to carpets! A clean Sweeper! And no dust!

This new and improved carpet sweeper has been contrived to meet a want which the old sweepers only partially supplied. Instead of cog wheels it is operated by belts running on pulleys, which, while revolving so rapidly and evenly as to take up everything in the shape of lint, hair, thread or dust, is never liable to get out of order, and can at any time be set and operated by any housewife. While being superior to any of the old styles as a carpet cleaner, it has this advantage that the metal bearings in which the brush revolves can be lowered as the brush wears off. The brush is in front of the box instead of the middle, it acts by hand power, not by the motion of the machine. The box is so placed on the handle as to reach any angle of a room, under a sofa, around piano legs, or chairs and tables. It only needs a trial to be appreciated. Price $5.

THE WAY TO WIN.

Edward Stone stood impatiently upon the top step of his Uncle Dan's stately residence.

There was not the faintest sigh of life anywhere around—the whole front part of the house was closed and darkened; and having rang several times without eliciting any response, he was about to conclude that there was no one within hearing, when a head was thrust out of one of the upper story windows.

"Young man, go around to the side door."

Considerably startled by this unexpected address the young man obeyed. Upon the porch, brushing away the leaves that covered it, was a young girl of fifteen.

She looked very pretty as she stood there, the bright, Autumnal sunshine falling on the round white arms and uncovered head.

Setting down her broom, she ushered him into a medium-sized, plainly furnished room, which gave no indication of *the reputed worth of its owner.*

The young man took a seat, brushed a few flecks of dust from the lapel of his coat, ran his fingers through his carefully arranged hair, and said:

"Tell your master that his nephew, Edward Stone is here."

A faint smile touched the rosy lips, and with a demure "Yes, sir," the young girl vanished.

A few minutes later, an elderly gentleman entered, with intelligent, strongly marked features, and a shrewd look in the eyes, which took the mental measure of his visitor at a glance.

"Well, sir, and what is your business with me?"

"I am your nephew, Edward Stone."

"So my daughter told me. What do you want?"

"I was thinking of going into business, and I thought I would come and talk it over with you, and see if you would give me a lift."

"What better capital do you want than you already have? A strong, able bodied young man wanting a lift! You ought to be ashamed of yourself! What have you been doing?"

Edward's face flushed with anger at this unceremonious language; but feeling that he could not well afford to quarrel with his wealthy relative he gave no other indication of it.

"I've been in a store since I left school two years ago."

"Saved nothing from your salary, I suppose?"

"No; it's only five hundred; not more *than enough for my expenses.*"

"Hump! You are able to dress yourself out of it, I perceive. I have known men to rear and educate a large family on five hundred dollars a year; and if you have been unable to save anything, you certainly are not fit to go into business on your own account. When I was at your age, my income was less than three hundred dollars, and I saved half of it. What is the business you wish to engage in?"

"Stationery and books. Six hundred dollars will buy it, as the owner is obliged to sell. I don't ask you to give me the amount, only to lend it; I will give my note with interest."

"Young man, I have several such papers already. You can have all of them for five dollars; and I warn you it will prove a poor investment at that. I can give you some advice though, which if you'll follow will be worth to you more than the amount you ask. But you won't do it."

"How do you know that?" said Edward, with a smile, who began to feel more at home with his eccentric uncle. "I'd like to hear it, anyway."

"Well, here it is. Go back to your place in the store, and save three dollars a week from your salary, which you can easily do; learning in the meantime, all you possibly can in regard to the business you intend to pursue.

"At the end of four years you will have the capital you seek, together with sufficient experience and judgment to know how to use it. And, better still, it will be yours, earned by your own industry and self-denial, and worth more to you than ten times that amount in any other way. Then come here and see me again."

"You would rather have my money than my advice, I dare say," added Mr. Stone, as Edward rose to go; "but we'll be better friends four years from now than if I let you have it. Sit down, nephew; *the train you will have to take* won't leave until six in the evening. You must stay to tea; I want you to see what a complete housekeeper I have, and make you acquainted with her."

"Polly!" he cried out, opening the door into the hall.

In prompt obedience to his summons, a rosy cheeked, bright eyed girl tripped in. The neat print dress had been exchanged for a pretty merino, but our hero did not fail to recognize her, and his face flushed painfully as he did so.

"Polly," continued her father, "this is your cousin Edward. He leaves on the six o'clock train; I want you to make his stay pleasant as possible."

"Polly is my little housekeeper," he added, turning to his nephew; "I have a woman for the rough work, and she does all this sort. When she's eighteen she shall have all the servants she wants, but she must serve her apprenticeship first. It may stand her in good stead; she may take it into her head to marry a poor man, as her mother did. Eh! my girl?"

Mary's only reply was to smile and blush. Our hero was considerably *embarrassed by the recollection of the mistake* he had made; but the quiet, cordial greeting of his young hostess soon put him comparatively at his ease.

At her father's request—who was very proud of his daughter's varied accomplishments—Mary sang and played for her cousin; and his visit ended in singular contrast to the stormy way it commenced.

Edward refused a five-dollar note tendered to him by his uncle at parting for his expenses.

The old man smiled as he returned the note to his pocket book.

"He's a sensible young chap, after all," he remarked to his daughter, as the door closed after his guest. "It's in him, if it only can be brought out. We shall see, we shall see."

"A good deal for father to say," was Mary's inward comment, who thought her cousin the most agreeable young man she had ever met.

Three years later, Mr. Stone and his daughter passed in front of a small but neat and pleasant looking shop, on the door of which were the words: "Edward Stone, Stationery and Bookstore."

It being too early in the day for customers, they found the proprietor alone, whose face flushed with pride and pleasure as he greeted them.

"I got your card, nephew," said the old man, with a cordial grasp of the hand, "and called around to see how you were getting on. I thought it was about time I gave you the little lift you asked of me about three years ago. You don't look much as if you needed it, though."

"Not at present, thank you, uncle," was the cheerful response. "Curiously enough, it is the same business I wanted to buy then. The man who took it had to borrow money to purchase, getting so much involved that he had to sell at a sacrifice."

"Just what you wanted to do."

Edward smiled at the point made by his uncle.

"It isn't what I've done, though. I've saved four dollars a week from my salary for the last three years; and so was not only able to pay the money down, but had fifty dollars besides."

"Bravo! my boy," cried the delighted old man, with another grasp of the hand that made our hero wince. "I'm proud of you! You're bound to succeed, I see, and without anybody's help. I told your cousin Polly that when she was eighteen I'd buy her a house in the city; that she should furnish it to suit herself and have all the servants she wanted, and I've kept my word. Come round and see us often. You'll always find the latch-string out."

Edward did not fail to accept the invitation so strongly extended—a very pleasant intimacy growing up between the three during the twelve months that followed.

Our hero's business grew and prospered until he began to think of removing to a larger place.

His uncle had given him several liberal orders as well as sent him a number of customers, but said nothing about assisting him in any other way.

But on Christmas eve, entering the room where Edward and his daughter were sitting, he said:

"I mustn't delay any longer the little lift I promised you, nephew, and which you have well earned."

Edward glanced from the five thousand dollar check to the lovely face at his side, then to the speaker.

"You are very kind, uncle—far kinder than I deserve, but—"

"But what, lad? Speak out. Would you prefer it in some other way?"

Edward's fingers closed tenderly and strongly over the hand he had taken in his.

"Yes, uncle—in this."

The old man looked keenly from one to the other.

"You are asking a good deal, nephew. Polly, have you been encouraging this young man in his presumption?"

"I am afraid I have, father," was the smiling response.

"Then go, my daughter. I give you worthy keeping; and if you make your husband's heart as happy as your mother made mine during the few short years that she tarried by my side, he will be blessed indeed."

LAWS OF NEW JERSEY.

CHAPTER LV.

Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall be lawful for any railroad company organized under the laws of this state, to change their corporate name in the following manner: The board of directors, by resolution shall designate the name which it is proposed to adopt, and authorize the president of said board of directors to give notice to the stockholders, by publication in at least one newspaper published in each county through which said railroad is located, once a week for four weeks, of a meeting to be held for the purpose of considering said change of name, fixing a time and place of holding said meeting, and if at said meeting a majority in interest of the stockholders present shall vote in favor of the proposed name, it shall be the duty of the president of said board of directors, to file in the office of the secretary of state, a statement signed by the president and secretary of said company, containing all the proceedings of said meeting, and from and after the filing of said statement, the said name so adopted shall be the corporate name of said company, with the like effect for all purposes, as if the name had not been changed; provided, however, that said change of name shall in nowise impair or affect any existing contract to which said company is a party.

2. And be it enacted, That this act *shall be deemed and taken to be a public* act, and shall take effect immediately.

Approved March 2, 1880.

CHAPTER LVI.

An act respecting sewerage and drainage.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever a petition stating that any particular place, or district therein described, in any township of this state, is in a condition detrimental to the public *health, or likely to become so,* signed by property owners in said district, the assessed value of whose real estate within said district is one-tenth of the assessed value of the real estate within said district, shall be presented to the township committee of said township in which said district is situate, the said committee, if satisfied that said petition fairly represents the wishes of a *sufficiently* large proportion of the property owners of said district, shall employ a competent civil engineer to make plans and specifications for the building of a sewer or sewers, drain or drains, the erection or construction of pumps, dykes, dams, tidebanks and such other works, and such filling and excavating as may be necessary to secure a sufficient and proper drainage or sewerage, or both, of the place or district required to be drained or sewered.

2. And be it enacted, That if said district be located in more than one township, said petition shall be presented to the township committees of such townships, who, in acting thereon, and in carrying out the provisions of this act, shall act as one committee, or refer the matter to a sub-committee of their number.

3. And be it enacted, That the decision of such township committee or committees to appoint such engineer shall be conclusive as to the sufficiency of the petition.

4. And be it enacted, That the report of such engineer, with plans and specifications for properly draining and sewering *said district, shall be presented* to the said committee who shall thereupon consider the said report, and may in connection with said engineer, make such changes in said plans and specifications as they, or a majority of them, deem advisable; said plans and specifications, when completed, shall show the location and size of all main sewers and drains to empty into said main sewer, and other general features of the plan, and shall state what part of said plan it is proposed to carry out and construct immediately, and shall have annexed thereto an estimate, made by said engineer, of the probable cost of the work it is proposed to construct immediately, including damages and compensation for any lands which it may be necessary to take or use; and the said plans, specifications and estimate shall then be and remain open for public inspection at some convenient place, at reasonable hours, for four weeks, and notice thereof shall be given by publication once a week during said four weeks, in a newspaper published in or nearest to said district, and also by posting large and conspicuous notices in six public places in said district.

5. And be it enacted, That the said committee shall order an election to determine whether said plans, or the part thereof which it is proposed to carry out immediately, shall be adopted, and whether bonds shall be issued to procure money to pay for the same, and shall designate the time and place, or places for holding said election, and appoint inspectors thereof; and the notices required in the fourth section of this act shall contain a notice of such election, and of the time and place or places appointed therefor; at such election the polls shall be open from eight o'clock in the morning till five in the afternoon of the day on which it is held, and every freeholder residing in said township or townships in which said district is situate may vote, and the inspectors shall certify the results of said election to the clerk of the county in which said district is situate; should a majority of the votes, cast be against the plan proposed, or against issuing bonds, the said committee shall have power to submit the same or other plans to the electors at another election, to be ordered and held in the same manner as hereinbefore provided.

6. And be it enacted, That whenever at any election held in accordance with section five of this act, a majority of the votes cast shall be in favor of the adoption of any plan submitted as aforesaid, and the result of such election shall have been properly certified to the clerk of the county, the said committee shall proceed to construct and complete such works in accordance with said report, plans and specifications.

7. And be it enacted, That said *committee shall have power to issue certificates of indebtedness or improvement* certificates to the contractors for work done, to be paid out of moneys raised for the purposes specified in this act as hereinafter set forth; and in case an issue of bonds has been authorized as aforesaid to issue registered or coupon bonds of said township or townships for the purpose of providing funds to pay for said improvement; said bonds shall be made payable at times to be therein specified, but *more than twenty years thereafter, but so that* an equal amount of said bonds shall fall due each year after the first; such bonds shall be of the denominations of one thousand, five hundred and one hundred dollars, and shall bear interest at the rate of six per centum per annum; in case the said district lies in more than one township, the said committee shall determine the amount of bonds to be issued by each township in proportion to the amount of the assessment for such work likely to be assessed upon lands situate in each township respectively; said bonds shall be issued under the seal of the township, and be signed by the township committee and countersigned by the treasurer of the township, and shall be a lien upon all the real estate assessed as hereinafter provided.

8. And be it enacted, That the said committee shall have power to construct such sewers, drains, pumps, dikes, dams, tidebanks, and other works, in accordance with the plans adopted, through and across any road or street in the township or townships in which said district lies, and also through any private lands in such township or townships, in which latter case they shall award the owner or owners of such lands just compensation therefor, and shall add the amount of such compensation to the cost of constructing such works; such compensation shall be awarded and notice thereof given to the owner personally, if he be known and resident of the county, and if not a *resident of the county, then by mail,* according to the best information that can be obtained as to his address, before commencing such work; and such award shall be final, unless such committee shall reconsider the same and make a new award, or such owners shall appeal, as provided in section fifteen of this act; such award shall bear interest at the rate of six per centum per annum from the date of the making of the same till paid.

9. And be it enacted, That if the said committee shall find it necessary to construct and work through or upon any lands in a neighboring township, and are unable to agree with the owners of such lands upon the compensation to be paid therefor, they shall apply to the township committee of said township, who shall decide upon the necessity of entering said township with such work (subject to appeal as provided in section fifteen of this act), and if they, or the court of common pleas, on appeal, decide to allow such work in such township, the said township committee shall award compensation upon the same principles, and proceed in the same manner, and the same notice shall be given, and their action shall be subject to the same appeal as provided in the eighth section of this act.

10. And be it enacted, That the expense of such work shall be assessed upon lands specially benefited by such improvement, in proportion to the benefit received thereby, but not exceeding in any case the amount of such benefit; when such work is completed, the said committee *shall* apply to the court of common pleas of the county where said improvement is situate, for the appointment of commissioners to make such assessment; two weeks' notice of such application shall be given in one of the newspapers published in said county circulating in the neighborhood of said district, and the said court shall thereupon appoint three discreet and impartial freeholders, not property owners, taxpayers or residents within said district, or liable to be taxed or assessed for such improvements, as commissioners to make such assessment; the said commissioners shall, before entering upon the duties of their office, subscribe and file in the office of the clerk of the county, an oath, faithfully and impartially to discharge the duties devolving upon them as such commissioners; said commissioners shall thereupon give ten days' notice in a newspaper circulating in said district, that they will meet at a certain time and place to hear the views of all *persons interested in the matters referred* to them, at which time and place said commissioners shall meet and give full reasonable opportunity to all persons interested to express their views, and may adjourn from time to time, and shall thereupon proceed to make a just and equitable assessment of the costs and expenses of said improvement, including damages for lands or property taken or used, upon the lands specially benefited by such work in proportion to the benefits acquired by said lands, not exceeding in any case the special benefits so received; within ten days after making such assessment, a notice shall be sent through the post office to each owner of lands so assessed (as nearly in such case as the name and address of the owner can be ascertained), stating the amount assessed against said land, and that said assessment will be open for inspection during the next fifteen days, and that the said commissioners will then meet at a time and place, in said notice specified, to hear objections and to revise and correct and finally confirm said assessment; at which time and place the said commissioners shall meet and give all parties appearing before them an opportunity to be heard, and may adjourn from time to time, and shall reconsider said assessment, and shall make any alterations therein they may deem just, and thereupon they shall revise, correct and finally confirm the said assessment, and within ten days thereafter shall file said assessment in the office of the clerk of the county, and shall give notice of such filing by publication once a week for four weeks, in a newspaper published in or nearest to said district; and the determination of said commissioners, or a majority of them, shall be final and conclusive, unless an appeal be taken, as provided in section fifteen of this act.

11. And be it enacted, That from and after the filing of said assessment in the office of the clerk of the county, the said *assessment shall be and remain a first* and paramount lien upon each lot of land or property assessed for the amount of such assessment, with interest thereon, and all cost and fees thereon, until the same shall be paid and satisfied, notwithstanding any devise, descent or alienation of such land or any judgment, mortgage or encumbrance thereon, and notwithstanding any mistake in the name or names of the owner or owners, or any omission to name the owner, or owners thereof, and any assessment, in which such mistake or omission occurs shall nevertheless be a valid and effectual lien as aforesaid upon the lands assessed; and said assessment shall, in case bonds have been issued as aforesaid, be due and payable in equal annual installments concurrently with said bonds, and bear interest at the rate of six per centum per annum from the date of filing said assessment in the county clerk's office, but said bonds shall always be receivable in payment of such assessment, and if no bonds be issued, then all the said assessment shall be due immediately; and said assessment, and each installment as it falls due, shall be collected by the collector of the township and paid over to the treasurer thereof for the purposes specified in this act and no other; and if such assessment, or any installment thereof, with interest thereon, be not paid within one year from the time when the same is payable, then the land upon which the said assessment is a lien shall *be sold to pay the same, with interest* thereon at the rate of one per centum per month from the time when the same was payable, and all fees, charges, and expenses of collection and sale in the same manner as land is authorized to be sold for unpaid taxes in the township where such land lies.

12. And be it enacted, That in case the cost of constructing such sewer or sewers, and the erection of such other works as are deemed necessary for the purposes aforesaid, shall exceed the benefits to lands specially benefited thereby, such excess of costs and expenses shall be raised by general taxation in the township in which said districts is situate, to be assessed, levied and collected in the same manner as other taxes for township purposes are assessed, levied and collected.

13. And be it enacted, That the said committee shall have power to remove any civil engineer appointed as aforesaid and appoint another, and shall fix the compensation of such engineer; they shall also have power to appoint, employ, remove and discharge, from time to time such superintendents, surveyors and other employees as they may deem necessary to carry out the provisions and intentions of this act, and to pay them such compensation or wages as they may deem fair and reasonable.

14. And be it enacted, That the court of common pleas of the county shall fix the compensation of the commissioners making the assessment, upon application made to said court, after filing the same; and the collector, for collecting the said assessment, shall receive the same compensation or fees as for the collection of taxes, and shall be subject to the same liabilities, pains and penalties, but he shall be allowed to retain his compensation, or fees, out of the moneys collected.

15. And be it enacted, That any person or persons feeling aggrieved by the action of any committee in awarding compensation for lands or property taken or used for the purposes of such improvement, or by the action of the commissioners making the assessment, pursuant to section ten of this act, may within forty days after serving or mailing the last notice required to be given of such award or assessment, appeal to the court of common pleas of the county, by serving a notice in writing of such appeal upon one of the committee or commissioners, whose award or assessment it is intended to appeal from, and the said court shall have full power to review the proceedings of said committee or commissioners in the premises and the same, or any award, assessment or other action to confirm, alter, modify, set aside or reverse, in whole or in part, for errors either of fact or in law, and the said court shall have power to hear and try the same in a summary way, and may summon a jury to determine any question of fact, and the said court may proceed in due course, according to the power of the court in other cases; and the determination of the said court shall be final and conclusive in the premises, and the said court, or any judge thereof, may, until such determination, stay all proceedings in the matter, in reference to which the appeal may be taken, until such final determination; and the fees and costs shall be paid to the judges, jury, officers of the court and parties, as are allowed in other causes of which said court may have jurisdiction; and the said court shall have power to make and prescribe all necessary forms, rules and regulations in the conduct of any proceedings to be taken hereunder; if no such appeal shall be taken within the time and in the manner prescribed in this section of this act, the action of the said committee or commissioners shall *be final and take effect, and they may* proceed to carry the same into effect.

16. And be it enacted, That whenever any drains or sewers, or system of drains and sewers, or other works provided for in this act, shall have been constructed, the expense of maintaining and keeping the same in repair shall be borne by the township or townships in which the district benefited thereby is located.

17. And be it enacted, That the time within which anything is required to be done by this act may be extended by the court of common pleas of the county for good reasons shown, and on such terms and conditions as may be just, provided no rights are prejudiced thereby, and such extension may be granted after the time before limited has expired.

18. And be it enacted, That this act shall not apply to any incorporated city or village whose charter provides for works of the character specified in this act.

19. And be it enacted, That this act *shall take effect immediately.*

Approved March 2, 1880.

CHAPTER LXIX.

An act to authorize the issuing of bonds to fund the floating debt of incorporated towns.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall be lawful for the common council of any incorporated town now existing in this state, whose chief executive officer is a mayor, for the purpose of funding the floating debt that existed on the first day of January, one thousand eight hundred and eighty, in any such incorporated towns, for that purpose to issue bonds in the corporate name and under the corporate seal of any such town, signed by the mayor, countersigned by the chairman of the committee on finance and attested by the clerk of *such town, to be denominated on their* face "funding bonds," for an amount not exceeding the amount of the floating debt of any such town on the first day of January, one thousand eight hundred and eighty; such bonds may be registered or coupon bonds and shall bear a rate of interest not exceeding the legal rate at the time of issuing the same, payable half yearly, which bonds shall be of the denomination of not less than fifty nor more than five thousand dollars, and shall be redeemable at any time and in such installments, not exceeding fifteen years from their date, and at any place within this state that the common council shall direct, and may be sold at public or private sale for the best price that can be obtained for the same, but shall not be for less than par value; and all the real estate and property within any such incorporated town shall be liable for the payment of the principal and interest that may become due on the bonds to be issued by virtue of this act.

2. And be it enacted, That the common council or board of finance and taxation of any town that shall issue bonds under the provisions of this act, shall in order to redeem such bonds at their maturity, provide by taxation for the payment of said bonds and the interest thereon, and shall yearly and every year until the said bonds shall be redeemed and paid off, order and cause to be assessed and collected by tax at the same time and in the same manner that other taxes in any *such towns are assessed and collected,* a sum of money sufficient to pay the interest on the said bonds as the same shall become due and payable, and discharge the principal at the several times it shall become due and payable.

3. And be it enacted, That this act shall not apply to cities or townships nor shall it apply to any incorporated towns that do not have a mayor for the chief executive officer.

4. And be it enacted, That this act shall take effect immediately.

REFORM.

It is patriotic duty to sanction judicious and even liberal expenditures for all the legitimate wants of the public service, but it is equally incumbent to protest against every useless or extravagant outlay.

An enormous sum of money is yearly appropriated by Congress for military expenses, and the inquiry properly arises—why such prodigal disbursement of funds for war purposes in time of peace?

The country is on friendly terms with all foreign powers and likely to remain so.

There is no internal strife, or show of hostility, except on the part of a few tribes of roving Indians, and they would be peaceable, were they treated by the civil authorities and border white men with common honesty.

To keep up the costly machinery of a large standing army, amounting to more than all the ordinary expenses of government did under the Presidency of Jackson, now, when real military duty consists in garrisoning fortifications on a peace basis, and when active operations in the field appear to culminate in an unsuccessful chase here and there after a lot of beggarly savages, has certainly the semblance of public waste.

Then again there is the immense sum annually spent on naval affairs, and what has the country to show for that? Shades of Decatur and Stewart!

A parcel of worthless hulks tied up at Navy Yards, and a few medium class steamers cruising over tranquil seas, from port to port, like pleasure yachts.

American commerce has been almost entirely driven from the ocean and Congress makes no effort to restore it.

Nevertheless, the American people are year after year charged with many millions to support a navy that does not exist in fact, and if it did, would be without a merchant marine to protect.

The time has arrived, when the foremost consideration in selecting a candidate for Congress, should be his ability and determination to ferret out and expose the unnecessary expenditure of public money, and through the practical encouragement of every industrial pursuit, Commerce not excepted, to equalize and lessen the burden of taxation.

That is the duty of a true Representative of the people, and there comes in the crying need of Reform in each Congressional District.

CONSISTENCY.

Consistency is a great virtue and deserves approving comment, no matter by whom or under what circumstances shown.

Sumner in a straight-forward manner opposed the slave power, and Toombs in the same way upheld it. They were alike consistent and both earned respect therefor, notwithstanding the wide difference of sentiment and action between them.

We have Councilmen in Plainfield who appear ambitious to immortalize themselves on a contrary record. To those who are sincerely adverse to the granting of liquor licenses, revenue or no revenue, although the question did not enter into their choice by the people, and obedient to such convictions of duty uniformly vote against all applications, the jewel of consistency may belong; but what can be said of others who are first on one side of the fence and then on the other, voting to grant and then voting to reject, and entirely heedless of just claims.

The present Common Council exhibits in glaring colors gentlemen of that stripe, and their course is marked for judgment by that potent arbiter public opinion. The next election will tell.

AN APOLOGY.

We are sure our readers and advertisers will pardon us this week for lack of reading matter on Fourth page of THE CONSTITUTIONALIST, and for "doubling up" on advertisements. But the fact is we have had a surfeit of pie. In printers' parlance pie does not mean something good to eat, but something good to get rid of "cuss words" on. The whole fact of the matter is this—as the Fourth page "form" was being lifted to the edge of the elevator in use by us since we removed to our temporary quarters, last Monday afternoon, a portion of the framework of the "elevator" or "dumb waiter," or whatever it may be termed, gave way, and the "form," over 200 pounds in weight, got the best of "Burt" and "down she went into 'pie.'" To put the outside forms to press necessitated using the advertisements on the inside pages. This "luck" has happened to us only twice in our 13 years of journalism, and if our readers and advertisers are satisfied with our explanation, we are content with the surfeit of "pie" we have indulged in the past two days. With a rush of Job Work, and on the eve of removal to our new quarters in Vanderbeek's "Chatauqua" Building, such luck is not desirable.

A Chicago dispatch says: "W. F. Story advertises at the head of the editorial column of the *Times* for a practical papermaker, with a view to arrange for the joint purchase or construction of a paper mill with a capacity of eight to ten tons per day. This is a result of the recent advance in the price of printing paper, which has eaten up much of the profits of newspapers throughout the Union, and for which there seems no remedy but for the consumers also to become producers.

Union County will be entitled to 53 delegates in the Democratic State Convention to meet in Trenton, May 20th. Somerset has 27.

The terms of the following State Senators expired with the recent session: Gardner, of Atlantic; Cooper, of Bergen; Whitlock, of Cumberland; Rabe, of Hudson; Marsh, of Mercer; Canfield, of Morris, and Emson, of Ocean—five Democrats and two Republicans. Ten Republicans, three Democrats and one Independent Democrat hold over. With proper organized effort the Democrats can carry the seven counties that are to elect Senators.—Union County has no Senator to elect next Fall, but the election of Assemblymen are important, and it behooves every Democrat in the several Districts to see to it that there is a proper and efficient organization in their midst.—The Republicans will make bold and strong efforts to win. Plainfield, although a Republican stronghold, is not unmindful of that fact, and have perfected an organization, which will be ready for fight when the time comes.—Organize, Democrats. Do not wait until the last moment.

Governor McClellan has granted permission to Gatling Gun Company A, (Veteran Zouaves), of Elizabeth, to attend the Yorktown celebration next year. The command, composed exclusively of veterans of the last war, is commanded by General J. Madison Drake.

EDITORIAL REMARKS.

U. S. Senator Mc Pherson's speech before Congress in favor of the payment of back pay and re-instatement to military office of Gen. Fitz-John Porter, recently delivered, was a masterly effort and meets the views of the friends and admirers of Gen. Porter in this section, where he has been a resident and has relatives. We have always contended that the case of Gen. Porter would yet be settled satisfactorily to the country by an unbiassed jury, and we are glad to record that such fact is nearing consummation, thanks to the efforts of such true men as Senator Mc Pherson and a Congress who desire to undo a great wrong perpetrated by a partizan Republican Congress.

The following is published as the vote confirming ex-Gov. Parker as Judge:

AYES—Messrs. Gardner, Cooper, Deacon, Sewell, Miller, Rabe, Rosenbury, Marsh, Canfield, Emson, Lawrence and Cramer—12.

NAYS—Messrs. Whitlcar, Francis, Bodine, Martin, Hobart, Keasbey, Schenck and Vail.—8.

ABSENT—Mr. Beckman.

Messrs. Gardner, Sewell, Deacon and Cramer, who voted for confirmation, are Republicans.

The Concurrent Resolution to amend the State Constitution so as to provide for biennial sessions of the Legislature after 1882, senators to hold office for four years, and one-half to go out every session, passed both Houses. It will have to be approved by the next Legislature and then ratified by a popular vote before it becomes effective.

Edward R. Stoutenburgh, of Newark, convicted in the Essex Courts on a charge of larceny of a diamond and sentenced to two years in State Prison, also to pay a fine, is lying very sick at his home of hemorrhage of the lungs. The Sheriff of Essex has decided that it would endanger his life to remove him to the prison at present.

Conspirators Sentenced.

In the United States Supreme Court, at Trenton on Tuesday of last week, Judge Nixon proceeded to sentence the persons convicted of conspiracy in the Lewis will case. Mrs. Lewis, the alleged widow, was too ill to appear.

Judge Nixon, after briefly addressing the prisoners, laid over the sentence of Dr. Park for one week and then administered the following sentences on the others:

Marcus T. Sacia, two years' imprisonment in State Prison and $10,000 fine.

Frank Allison, two years' imprisonment and $10,000 fine.

George R. Bradford, one year and $1,000 fine.

Henry J. Bradford, one year and $1,000 fine.

In the case of Sacia and Allison the sentences were to the full extent of the law. They all took their sentences stolidly, though they looked haggard and careworn.

Thomas Somerville was sentenced to two years' imprisonment, for forging a name to a money order for $5, sent by a sister to a brother while the latter was a patient in a Jersey City Hospital under the charge of Somerville, who was acting nurse.

FIRE MATTERS.

The regular quarterly meeting of the Plainfield Fireman's Relief Association was held in the rooms of Alert Hose Co., on the evening of Monday the 22nd. inst. Present Messrs J. A. Hubbard, R. J. Shaw, D. W. Rogers, Wm. Krauser, W. R. Cook, and T. O. Doane, *ex-officio*. The Committee on Relief reported that during the last quarter relief to the amount of $10 had been given Stephen Davis. A resolution was passed to the effect that Steamer No. 2 be received back into the Association from the date of their reorganization, and that their dues commence from that date. The Treasurer reported a balance on hand of $1,853.63. A resolution was offered to be acted upon at the next regular meeting, amending the By-laws of the Association so that thereafter the Secretary or the Treasurer of each company must furnish the Treasurer of the Association a correct copy of the names of the members of their respective companies who are in good standing and recognized by them as members of the Association. Also that the Board of Trustees must be notified at once through the Secretary or the Treasurer, of the names of any persons who join the Association, between the regular quarterly reports. And in the event of any relief being granted to parties who are not "paid up" members at the time of their application, the Company, to which party belongs, shall remit to the association the full amount of the relief so given. The object of the above addition to the By-laws, is to prevent parties being made members of the Association by the payment of dues for one quarter after they have received injury, or in any way require relief. The case of Wm. Kerley, a member of No. 2 Engine Co., reported disabled from an accident, was referred to the Relief Committee with power. The meeting then adjourned.

The election for four members of the Fire Board occurs Monday, April 12th. As yet no full ticket has been made that will hold together, it being a difficult matter to find proper candidates who will serve. The office is a thankless one.

Warren Engine Company, No. 3 have accepted the invitation extended them by Washington Engine Co., of Elizabeth, to participate with the latter in the celebration of the centennial anniversary of the battle of Elizabethtown, which occurs at Elizabeth, June 8th. The Washington's will be honored by "Warren's" presence.

Charles A. Dana, editor of the New York *Sun*, receives $12,000 a year, Whitelaw Reid of the *Tribune*, gets $12,000. Charles Nordhoff writes when he pleases for the *Herald*, and receives $10,000. The editor of the Boston *Herald*, Mr. Haskell, draws $10,000. Henry Watterson of the Louisville *Courier-Journal*, earns $7,500. The editor of the Chicago *Times* gets $6,000. George W. Curtis of *Harpers' Weekly* draws $10,000, and Hulbert of the *World* a like amount.—*Exchange*. The editor of THE CONSTITUTIONALIST draws a very light salary and is thankful he is alive.

SPORTSMEN'S CORNER.

There was great preparations made for a grand cock fight in the Rink, at Rahway, Tuesday night of last week. The Mayor got wind of the affair, swore in about a hundred specials, who watched the place so closely that the "sport" did not come off.

The celebrated mare, "Maiden," another of P. Lorillard's famous "Parole," lately died at the Rancocas Stud Farm, Burlington Co., owned by Mr. Lorillard. The cause of her death was the bursting of a blood vessel. The last foal of Maiden is a beautiful bay filly, dropped March 10th.

Several new members were elected at the special meeting of the Board of Directors of "The New Jersey Game & Fish Protective Society," held in this city last Saturday evening. Other important business was transacted and the Board adjourned to meet next Saturday evening, at half-past 7 o'clock at the Mansion House.

Tuesday morning last, a gentleman residing in this city, was surprised to see a blue bird fly through an open window into a room in which he was sitting. He captured it without difficulty and placed it in a small wire cage. Shortly after another blue bird flew through the same window into the room. This he also secured and placed in the cage with the first captive. Placing some straw in the bottom of the cage he was still more surprised to note the pair making preparations to build a nest of the straw. He put canary seed in the cage and the birds eagerly partook of the seeds. Both captives are now thriving good and seem contented.

The State Board of Health.

A meeting of this body was held at the State House Thursday last.

The object of the meeting was to take into consideration the bills passed at the late session of the Legislature. Among these acts are the following: An act providing for a Board of Health in each township, to consist of the Assessor and Township Committee, and, where there is one, the Township Physician; also changing the Boards of Health in cities except when their number and duties are expressly specified in the city charter. In every city of 10,000 inhabitants and upwards there is to be an inspector appointed. Under the law the State Board of Health has charge of the pleuro pneumonia department, which was formerly administered by General Sterling. This subject occupied a great portion of the time of the meeting. It was ordered that an immediate inspection of all places which were in quarantine on March 8th, at which time there were about 100 cases of infected cattle quarantined be made. The guards will be maintained at the several points on the Delaware river as heretofore, to prevent the importation of the disease from Pennsylvania and Maryland, where it exists to a large extent. Dr. Miller, V. S., has been retained in charge of that coast.

The Board is of opinion that the disease needs careful guarding in our State. A well marked case is reported to have died at Camden on Thursday of the previous week. After the inspection ordered, is made, regulations will be made for such cases as admit of no doubt as to their being affected. The Board adjourned to meet early in April.

Vacant Places

In the dental ranks will never occur if you are particular with your teeth, and cleanse them every day with that famous tooth-wash, SOZODONT. From youth to old age it will keep the enamel spotless and unimpaired. The teeth of persons who use SOZODONT have a pearl-like whiteness, and the gums a roseate hue, while the breath is purified, and rendered sweet and fragrant. It is composed of rare antiseptic herbs and is entirely free from the objectionable and injurious ingredients of Tooth Pastes, &c.

The Best I Ever Knew Of.

J. G. Starey, a prominent and influential citizen of Iowa City, says: "I have had the Dyspepsia, and Liver Complaint for several years, and have used every Remedy I could hear of, without any relief whatever, until I saw your Shiloh's Vitalizer advertised in our paper, and was persuaded to try it. Attention Democrats!

The Democrats of this city are respectfully invited to meet at their new rooms upon the evening of Tuesday, April 6th, at 8 o'clock, to elect officers of the Association for the ensuing year.

J. E. MARTINE,
President.

COMMON Council meets Monday, April 5th.

IF Wednesday was not a March day, what was it?

THE Mayor does not approve of the new Poor Ordinance.

MESSRS. Suydam & Jackson have been re-appointed Township Attorneys for North Plainfield for the ensuing year.

WE have been overrun with orders for auction bills the past week. The sales principally are from sections outside our city.

WORKMEN are improving the exterior of Fred. Caspar's residence on Second Street, by erecting a roof over the front verandah of the building.

CONGRESSMAN Gilbert De La Matyr of Indiana will speak on finance and labor at Library Hall, Elizabeth, N. J., on Monday evening, March 29th, 1880.

OUR real estate agents report sales and exchanges as lively, and there is a vast amount of building going on in our beautiful city. So much for "No Bonds," etc.

PARTIES desiring bargains in the way of good young horses, also, carriages, wagons, harness, etc., etc., should attend the public auction of Werner Heidloff, in this city, April 8th. See adv.

A CORRESPONDENT desires us to remind the Street Commissioner that it is about time the scraper was put to work on the roads to smooth their surface. He says that the Railway roads were scraped a month ago.

SUBSCRIBERS who contemplate changing their residences on the first of April, and who wish to have their papers sent to new post-offices, will please be careful to advise us not only of the new office but of the old one.

THE singing of the choir of the Congregational Church was greatly admired at the opening services last Sunday. The tenor part of the morning was admirably sustained and praiseworthily rendered.

FOR future reference. Wednesday night last was the coldest night (with the exception of two) that we have had the past winter. The thermometer at half-past six o'clock on Thursday morning stood at 12 degrees above zero.

THE New Orleans Minstrels will give an entertainment in Vandeventer Hall Tuesday evening, April 6th. Judging from printed extracts before us, taken from prominent newspapers, the troupe is one of considerable merit and reputation.

WE learn that our old friend, Ben Rogers, who is now located near Jacksonville, Fla., on a fine farm, which contains a fine orange grove, is still as rank a Republican as ever, although it is stated that he came near being captured by the Greenbackers last Fall.

WHITNEY, Dry Goods merchant, on Front street, announces in our columns this week the fact that he has a large stock of fine mattings and carpets, which he is offering the public at low figures. Whitney's reputation for selling goods just as he advertises them is well known. Customers rely upon that and patronize him accordingly.

MR. Robert Perry, a former resident of Plainfield, who was severely injured a few weeks since by falling from a "sling" on which he sat painting an elevated railway structure in New York city is rapidly convalescing, and has written a letter to friends in this city. We are glad to record the fact that so good a man as "Bob" has yet more days to live and enjoy their pleasures.

SOMETHING new and neat in the line of Illuminated and Fancy business cards now to be had at THE CONSTITUTIONALIST Job Office. They are cheap. The ladies having dropped on the "15" puzzle are now going crazy over securing a collection of fancy business cards. Therefore every merchant should have some printed ones lying on his counter. Come and view samples.

THE sale of hotel furniture and fixtures of Laing's Hotel, at Public Auction (to make way for the new proprietor, Geo. Miller) which commenced on Wednesday, was not very largely attended on the opening day, in consequence of the extremely disagreeable weather. Thursday, the attendance was larger and better prices realized. The sale is still in progress.

WEDNESDAY must have been the day predicted by the Canadian prophet Vennor, as being a "disagreeable" one occurring in March. The eyes of the few pedestrians abroad were filled with the flying dust from the streets, which the very high wind blew into every crook, and cranny. Signs were blown down, fences put out of line, awnings torn into ribbons, and ridiculous pranks played upon gentlemen's tiles and lady's apparel. Better weather is in store for us however, in the near by and by.

PARK and South Avenue residents complain bitterly of the poor condition of those thoroughfares in consequence of the piles of mud left lying along the sides of the former avenue, after being scraped from the road bed where it never ought to have been thrown on, and in the latter case because the mud that was thrown on it has not been scraped off. Both Avenues are macadamized, and should have been differently treated to preserve their smooth and hard surface.

AT the Crescent Ave. Pres. Church next Sabbath morning the subject of the sermon by the pastor, Rev. J. C. Bliss, will be "The Resurrection of our Lord." The choir will consist of sixteen voices. The meeting of the Sunday School will be held in the Church at 4 o'clock, instead of the usual hour. The exercises will consist of an Easter service, "Christ's Resurrection." Rev. J. L. Hurlbut will address the School. Mrs. Emily Batman, recently Soprano at Dr. Storr's Church, Brooklyn, has kindly consented to sing "I know that my Redeemer liveth" from the Oratorio "The Messiah."

THE congregations of all the Churches were last Sunday especially favored. The Rev. John C. Bliss being absent in Philadelphia, the pulpit of the Crescent Ave. Church was occupied in the morning by the Rev. J. L. Hurlbut, and in the evening by the Rev. Chas. Newhall. At the M. E. and Seventh Day Churches their pastors the Rev's. Day and Lewis, preached their farewell sermons. The opening services of the Congregational Church, included a sermon by Dr. Vincent in the morning, and in the evening addresses by Rev. Mr. Manchee the pastor, Rev. J. L. Hurlbut, Rev. K. P. Ketcham and Dr. J. H. Vincent. The Dutch Reformed pulpit was occupied by the Rev. Dr. Campbell.

Must be Sold.

The entire furniture and fixtures of the Club House, adjoining the Fair Grounds, also large lot of live stock, will be sold at public auction on Tuesday, March 30th. Bargains will be offered. Read the adv. in another column.

Canada Horses.

The veteran dealer in Horses, Mr. J. W. Morris, of New Brunswick, has just returned from Canada with a large lot of fine horses, better stock than he had in a long time. He offers them for sale at bargains, or will exchange, at his tables, Peace Street, New Brunswick. See adv. in another column.

Y. M. C. A. Reception.

The regular monthly Reception of the Y. M. C. A. has been postponed to Tuesday evening, March 30th, at which time those attending will be entertained by fine readings by O. W. Muzio, also excellent music, etc. These Receptions are very popular. Go to the next one, March 30th, at Van Deventer Hall.

Ready for Business.

French, the Clothier, having removed to his new location on Front Street, in the store formerly occupied by the City National Bank, is now ready for the Spring trade, which will open as soon as some one shoots Vennor the weather prophet. On his counters are to be found elegant patterns of goods for Spring wear. A competent cutter will guarantee a perfect fit. He has also a large assortment of ready made Clothing, which he sells as low as any New York or Newark firm. He gives each customer a box of the famous "15" puzzle. Read his adv.

Success of a Former Resident.

About two years ago, Mr. Chas. Overbaugh, a young man in the employ of Mr. L. L. Compton, left Plainfield, in company with other young men, to try his fortune in Jacksonville, Fla. He alone, of the trio who went, remained there, the others returning home. Mr. O. engaged with a gentleman in Jacksonville, Mr. L. Warrock, to take charge of his confectionery manufactory and to-day he is doing well, with prospects of engaging in business himself, and is highly respected and well thought of by the citizens of the place. Through recent arrivals from Jacksonville, we are in receipt from him of a sample of orange marmalade, a delicacy of the South that can only be tasted to appreciate its worth and excellence. This marmalade is a staple upon which Mr. O. has built up a fine reputation in its manufacture. We wish him continued success in business and prosperity.

Netherwood.

The residents of Netherwood met last Saturday evening at the house of Mr. Walter S. Graham, Woodlawn Avenue, to inaugurate a movement tending to the erection, at an early date, of a Union Chapel and School in the vicinity of the "Hotel Netherwood."

Plans which had been prepared were exhibited, the total cost of the building being estimated not to exceed $5,000. After considerable discussion the following gentlemen, Mr. Henry E. Bowen, Mr. Walter S. Graham and Wm. G. Schmidt, were appointed a committee to procure the necessary funds.

It is said that the committee have already secured a building site, and have obtained pledges for nearly half of the amount needed for this undertaking, which if successfully carried through, will supply a long and much needed want to the residents and summer visitors of Netherwood.

The "Chautauqua" Building.

The name given Vanderbeek's beautiful new building, corner of Park and North avenues, is slowly approaching completion. Mr. H. P. Reynolds, druggist, who has leased the corner store, will open to the public on Saturday. The Chautauqua Literary Society, in whose honor the building is named, will occupy the entire second floor. On April 3d their rooms will be formally dedicated by appropriate ceremonies and services. It was our earnest desire to issue the next number of THE CONSTITUTIONALIST from our new quarters in that building, but, from present indications, we fear it is impossible. However, it will not be long before we shall be permanently located there, where, with increased facilities—steam power, etc.—we shall invite the public to an inspection of one of the finest appointed printing office in the State, and solicit a continuance of their patronage.

The Lady Gymnast's Reception.

The Ladies' Class of the P. A. C. Gymnasium, having made such progress in their exercises, postures, movements and marches, under the able tuition of Prof. Burnham assisted by Miss Camp, have decided to give a public exhibition and reception out of compliment to the Club. It will be held in the gymnasium hall on the evening of Thursday, April 1st, and will probably include, besides the regular exercises, music and other attractive features. Tickets have been issued to the full number that the hall will accommodate, and are for sale by the members at 50 cents for a gentleman with a lady and 25 cents for each lady. The increasing interest that is taken in these classes of light gymnastics, and the great results and good effects that have been developed by them, is especially noticeable among the ladies, and their first public exhibition will undoubtedly attract a full audience of friends and well-wishers.

All the Bills Disposed of.

On Monday Governor McClellan approved the only bill, remaining in his hands, of all that were passed by the last Legislature. It was Senate No. 114, "An act to facilitate judicial proceedings in the county of Hunterdon," providing for the appointing of a law judge, by the Governor, with the advice and consent of the Senate, at a salary of $1,500 per annum; the number of lay judges to continue the same until the expiration of the term, when it shall be reduced to two.

Governor McClellan has approved 221 bills and 4 joint resolutions—109 Senate bills and 2 Senate joint resolutions, and 112 Assembly bills and two Assembly joint resolutions. He sent 17 vetoes to the Legislature—four to the Senate and 13 to the Assembly, out of which number two were passed over his veto. Two bills were filed in the office of the Secretary of State and became laws without the Governor's signature, and seven bills failed to become laws—four Senate and three Assembly, they being filed in the State Library without the Governor's approval.

A Remarkable Ancestor.

Plainfield's Overseer of the Poor, T. J. Gillies Esq., celebrated the sixty-fifth anniversary of his birth on last Monday. The C. R. R. conveyed to this city such portion of his descendants as were able to attend the celebration at Mr. Gillies' house; and when gathered together they were a company of quantity and quality that any ancestor might be proud of. The Overseer has been married but twice in his long life, with an intermission of four years between the death of his "first" and the marriage of his "second". Nevertheless he rejoices with just pride in the possession of eighteen living children and children-in-law, and thirty-two grandchildren as far as reported as we go to press. On Monday a large number of these chips from the sturdy block gathered around the latter's frugal board and cheerful fireside, but not one of them could rejoice in the possession of better health or greater security of a lengthened future than T. J. Gillies.

A New Physician in Scotch Plains.

Dr. F. W. Westcott, a young and rising Physician, has located at Scotch Plains, at the residence of widow Martha Parse, on Front Street, where he is prepared to offer his professional services to the public at any time. Dr. Westcott comes highly recommended.

Election of Officers.

The Democrats of Plainfield are requested, in a call to be found at the head of one of our columns, to assemble in their new quarters on Front street, over French's Clothing Store, Tuesday evening, April 6th, for the purpose of electing officers of the newly-organized Democratic Association. Let all attend.

A Monster Concert Approaching.

The Plainfield Saenger-bund have decided to hold their Monster Concert in the 1st Baptist Church, the evening of April 13th, at which time there will be a chorus of 100 trained voices, the home society being assisted by the Arion Society of Newark. An orchestra of 20 pieces will support them. The entire proceeds of the Concert are to be devoted to the Ladies' Relief Association of this city. The admission will be 50 cents; reserved seats, 75 cents.

Easter.

Next Sunday, the closing day of Lent, will be universally celebrated in all the churches of Plainfield by unusual ceremonies and features. The floral decorations of the Holy Cross and Grace will be especially attractive and beautiful, while the singing of the boy-choir of the former and the general quartette of the latter will be more admirable than usual upon such occasions. The endeavors of the Crescent Avenue Church to make the day one to be remembered are noticed in another column, and the M. E. Church will also strive to sustain the interest it has already achieved by a service similar to that of last year. The ceremonies at the Baptist, First Presbyterian and Catholic churches will not be lacking in attractions appropriate to the day.

Shooting at a Brakeman.

Captain of Police Dodd, of this city, and Detective John Morris, of the Central Railroad force, on Tuesday night arrested William Coon, Peter Sneiderwind and Thomas Buckley, on a charge of shooting at a brakeman, who put them off a coal train near the "Tanks" on the 18th, on which they were stealing a ride. The brakeman identified two of them on Wednesday, and was positive that Coon was the one who fired at him, while Sneiderwind attempted also to draw a pistol. Both of them will be tried before Justice Vars at Dunellen, while Buckley was brought before Judge Runyon, on Thursday afternoon, on a charge of stealing a ride on trains, against which there is a State law. He was bailed.

Now Enforce the Law.

There is an Ordinance in effect, passed by a previous Common Council, prohibiting the erection of wooden extensions to buildings within certain limits of the bounds classed as Fire Department boundaries. Certain such "repairs" being in progress on an old residence on Front Street, opposite the City National Bank, and complaint having been made to His Honor, Mayor Harper, that functionary has notified the owner that such proceedings are illegal, and in consequence work on the building has been stopped until the Committee on Fire, Water and Lamps investigate and report the matter to Council, for their action. Mayor Harper *is to be congratulated upon his promptness* in enforcing the law on the subject.

Important Laws.

Among the important laws passed by the last Legislature, is one providing that all railroad tickets, excepting excursion tickets, are good until used, with, however, a proviso; another is Chapter LII, regarding the collection of premiums for the Firemen's Relief Funds—an important matter for our firemen to look after; another, Chapter LVI, respecting sewerage and drainage in Townships. Among laws already publish in THE CONSTITUTIONALIST is the act known as Speaker Oviatt's bill, which prohibits the sale of intoxicants to persons under twenty-one years, without permission of their parents or guardians, and prohibits saloon keepers from allowing minors to lounge in or frequent their saloons under a penalty of $60, to be recovered in an action of debt, two-thirds of the penalty to be paid to the informer.

A Sad Bereavement.

But few of our citizens were aware, *until they saw a funeral cortege upon the* streets on Friday last, that a sudden bereavement had befallen the family of our respected townsman, Mr. Daniel S. Roberts, the Liveryman. Coming so sudden, the death of a dear daughter, sister and wife, was comparatively unknown outside of the family circle. Carrie A. Roberts was born in Pittston, Pa., May 19th, 1855, and was married to Mr. C. H. Weberly, of N. Y. city, Sept 19, 1878, just eighteen months ago. She was ill scarcely a week previous to her death. She was the idol of doting parents and loving husband. The funeral was held from her late residence, No. 303 West 19th street, on the 19th inst., and the remains interred in the family burial plot in this city. The Rev. J. T. Walker, of Binghamton, who preached the funeral sermon, during the course of eulogistic remarks regarding deceased, paid the following just tribute to her memory: "Carrie Adelia Weberly was a precious spirit. Her character was symmetrical. She possessed a loving and confiding nature. There was kindness and benevolence. Better than all, she was a Christian, cheerful and full of life and royal feeling." The stricken family have the heartfelt sympathy of the host of friends they have made since they took up their residence in Plainfield a short year ago, in their sudden bereavement.

A Sad and Sudden Decease.

Never was a more forcible illustration of the firmness of the hand of death and the suddenness of its stroke, brought face to face with living mortals, than in the melancholy demise of the wife of ex-Mayor John H. Evans, of this city. A woman in the full vigor of life and health, who on Monday morning drove to the depot with her husband, and after attending to the usual marketing with kind words and bright smiles for friends and acquaintances, returned home to die suddenly and unconsciously. Sitting amid the comforts and luxuries of an abode of wealth, with knitting in hand and talking over plans with a friend which were to result in a trip to Europe and a visit to her well-beloved sons who were at college on the Continent—without premonition or preparation, the blood rushes through the lungs into the throat and carries life and existence from the body. The news was broken to the fond husband at the depot by the family physician, but to realize the terrible fact was an impossibility. Like one in a dream he sought to connect an identity between the happy wife with whom he had so recently parted, and the lifeless form that lay stretched before him with no kind word of welcome or bright smile at his return.

The funeral services took place yesterday (Thursday) morning at the late residence of departed, when her many sorrowing friends strove by sincere sympathy and attendance to but meagrely display their remembrance of her love and kindness for all.

Bachman's advertisement appears out of its usual position this week, on account of our "pie". It can be found on the fourth page. He has a full stock, and sells reasonable.

The Dollier Course.

The third of the annual course of lectures under the management of the Dollier Society P. H. S., was delivered last Tuesday evening in Assembly Hall by Dr. J. W. Buckley of Brooklyn. His subject, a "Comparison between the National Scenery of Europe and America," was handled in a manner not only most instructive to the audience present, but most flattering to their patriotic hearts. Dr. Buckley has not been a hurried traveller through the scenery of the United States and the Continent, but visited mountains, valleys, lakes and rivers to study and compare. A thorough review was given of the natural beauties that each country possessed unparalleled by the other, and a comparison of what each possessed of the same kind. The lecture was interspersed with amusing anecdotes, personal and selected, relating to the places spoken of, and added greatly to the enjoyment of the discourse.

The last of the course will be delivered by Dr. H. W. Warren on the evening of Tuesday, March 30th, and if the character of the preceding ones may be taken as a criterion of the coming one, it will repay its hearers.

Personalia.

DR. DEMAREST, of Rutger's College, will occupy the pulpit of the First Congregational *Church next Sunday morning* and evening.

Thanks to State Geologist, Geo. H. Cook, for his yearly Report, accompanied by a fine colored map of the State of New Jersey.

We are under obligations to Hon. Miles Ross for documentary and other favors.

U. S. Senator Randolph will please accept our thanks for copies of public documents, one of which is his great speech before Congress in favor of Gen. Fitz John Porter's claim.

Mrs. Lizzie King and daughter, Emma, who have been spending the past three months among friends in Jacksonville, Fla., returned to their home in this city on Tuesday last, taking passage on the City of Savannah, of the Savannah Steamship line, Capt. Fleetwood commanding. The passage was a smooth one, and the steamer is highly praised by them for the courteous attention shown by its officers and the comfort bestowed on passengers.

Who, of our oldest residents, does not remember Cornell Totten? He was in our city Wednesday, looking as young as ever.

John W. Laing, Esq., the veteran hotel proprietor of Plainfield, has been compelled, for the first time in his life, to seek new quarters, (while repairs are being made to his hotel building, recently leased by Mr. Geo. Miller.) Mr. Laing has taken up his temporary quarters at Force's Hotel.

Senator Vail, of Union County, has not been unmindful of his Democratic constituents, and has favored us with a bundle of pub. docs. Thanks, Senator.

Mrs. Fred. Knowland and daughters, Josie and Carry, also Mrs. Myers, returned home from their recent pleasure trip to the South last week, via railroad.

Mrs. Wm. Hand returned to her home in this city from a trip to Jacksonville, Fla., on Saturday last whither she went for her health. She returned by way of rail.

D. Boehm and his newly wedded wife are stopping at the Mansion House.

Again has one of Plainfield's fair maidens been wood and won by a "foreigner" —this time a Newarker. While our Plainfield youth relaxed their vigilence, Mr. Geo. E. Babbitt, of Newark, quietly stole into camp and bore away Miss Ida M. Laing to his home in the above-named city, but as the parents on both sides seem to be greatly pleased over the event, the captor and captive are to be congratulated. The marriage ceremony in the above instance was performed last Thursday evening, at the residence of Mrs. Avis L. Mosher, on Peace street, after the solemn manner adopted by the Society of Friends, each party binding themselves, in the presence of witnesses, to be true unto one another during life—until "death do separate us." There was a large attendance of guests from Newark, New York, Rahway, Elizabeth, and this city, to witness the ceremony and to partake of the wedding feast, which was an elegant one. The presents to the bride on the occasion were numerous and valuable. The happy couple have taken up their residence in Newark. Mrs. Babbitt is the youngest daughter of Edward Laing, Esq., of this city. Mr. Babbitt has a lucrative position in A. T. Stewart's dry goods store, New York city. *We extend our best wishes for their* future welfare. The cake we have eaten.

The "First Reformed Church" of Plainfield.

At three o'clock on the afternoon of last Monday, in the Congregational Church building, there met a Committee from the Classes of Newark, consisting of three clergymen and three laymen, to receive any documents or statements that might be laid before them in relation to the organization of a Reformed Church in this city.

The gathering numbered about fifty, and included those who desired the formation of the new sect, those who wished its failure and the usual sprinkling of curious spectators.

The Chairman appointed (the Rev. Dr. Taylor, of Jersey City), announced that the Committee, who were present, had been appointed by the Classes of Newark, upon the application of sixty or seventy residents of Plainfield who had petitioned for the formation of a Reformed Church. After a full conference of the Classes they (the Committee) had been directed to form such Church if the way was found to be clear. He then stated that they were ready to hear any statements that any one might desire to make in relation to the matter.

Mr. Wm. Swaim said—"As far as I have had any conversation with the citizens of Plainfield, they have expressed themselves as glad to hear that we are coming back to our old foundation stone, and that there is to be a Reformed Church in Plainfield."

Letters were then presented by members of other Churches desiring to connect themselves with the proposed organization; and the Chairman read such portion of the constitution as referred to the formation of the Church. It was provided that upon the intention to organize a Reformed Church, it was necessary that those who expressed themselves willing to join should meet with the clergyman of the nearest Reformed Church in the vicinity and hold an election of Elders and Deacons; and that a notice of the time and place of such election should be read from the pulpit upon both the Sundays preceding such time. He further stated that such notice had been read the day before and would be again on the *next Sunday; consequently the election* could be held on Monday, the 29th inst., as was intended. "We are here to-day merely to receive the letters and statements of parties interested, which will form the basis of further action."

To a question of Mr. Swaim—to the effect that there were ladies present, who had never taken their certificates of dismissal from the former Reformed Church of Plainfield, and who would like to know how to procure such, or whether their names might be transferred—the Chairman replied: "There was a question raised in our Newark Classes in regard to the relation of the former Reformed Church of this place with the Classes of Raritan. The name of the old Church still stands on the records, and consequently we feel a little delicacy about what might be intruding within the functions of the other body. I have, however, a letter here from a member of the Classes of [illegible] as the reconciliation of the old Church and his consent to its transfer to the Classes of Newark."

The Secretary then read the form of the certificates of dismissal and permission to join any other christian church, that had been presented, and also the names of those who wished to come into the proposed organization through such course. The number was twenty-seven from the former Congregational Church and five from Orange, N. J.

Mr. Mace stated that letters had been given to six or eight more, but as they included man and wife in the same certificate the latter was compelled to wait until their husbands, who were officers in the Congregational Church, were able to come in also.

Mr. Stewart said in explanation of the case, that the property of the Congregational Church was controlled by a body of Trustees. These officers thought it best to still remain in charge, but were anxious to present their letters in due time.

Mr. Mace expressed his disappointment that it was necessary to have another meeting before the Church would be completely organized. He had confidently expected, with others, that it was to be the "great day."

To this the Chairman replied: "A formal and official organization cannot take place until Elders and Deacons have been duly elected. To-day we can only take preliminary steps and receive these certificates as a foundation. Then, at the time set forth in the notice, the male communicants represented in the letters will meet and elect the officers; immediately after which election, the ordination can take place if so desired. We receive the names of those wishing to join the organization, which practically forms a Church thereby, but without officers. I would like to hear from any as to the outlook for its success."

To this Mr. Stewart said: "The statement made before the Classes is substantially the present aspect, and everything looks towards a favorable end. There are many who would like to join this Church but they feel that it has been a wild-cat organization heretofore, and as they have been through two or three campaigns they don't feel like another until they see a surety of success. Dr. Campbell preached here yesterday to a large number of people who are in sympathy with us, and he expressed to me his belief that there was nothing in the way of our prosperity. There is a letter here to-day given in 1869 by the old Reformed Church, *which the holder intends, under favorable* circumstances, to present. I am surprised to find so many who want the Church, and am surprised to see so many letters presented to-day. In three months, I am persuaded to believe, the number of members will run up to a hundred. I would like to ask the way that letters may be obtained from the old Consistory of the Central Reformed Church, which has been practically dead for eight or nine years."

Mr. Stiger informed the Committee that the records of the old Church were still in existence, and in charge of the old Elders who were still competent to issue certificates.

The Chairman said: "In such case I think the Classes of Raritan should disband the old organization, or rather that they should disband themselves at the proper time by the issuing of certificates of dismissal to such members whose names still remain on the records; so that the Classes of Raritan and Newark should not conflict with each other. I would also advise that the new organization should adopt a name, so that future letters might be issued to a certain church. May I suggest the title of "Plainfield Reformed Church?"

Mr. Swaim had thought of naming the organization the "First Reformed Church."

"That is left" continued the Chairman, "to the pleasure of the organization themselves. I would suggest as the public occasion to which these brethren look forward to, be when the Elders and Deacons are elected, and inducted into office. If they will make arrangements so that the election of officers can take place early next Monday evening, preaching and the services of ordination can be held at that time. The Constitution does not specify the number, but two Elders and two Deacons at least should be elected so that you have an equal division of those whose term of office expires. They then decide by lot who shall serve one year and who two, and thereafter one-half the number will be chosen annually. The most democratic way of electing is for the entire Church to meet and nominate who they choose. The *best* way, however, is for the Consistory to select double the number necessary, as they are supposed to select with the greatest care, best judgment *and reference to character and efficiency*. It does not make a 'close corporation' matter of it, but only acts as a safe-guard."

Mr. Stewart asked if the Committee would appoint one of their number to be present at the election and ordination, and the Chairman replied that they would not appoint only one but more to attend the services.

Mr. Mace wanted to know if a member of the proposed Reformed Church could also be an officer in the Congregational Church.

The Chairman replied: "A Trustee of the Congregational Church can be a member of the Reformed Church and still retain his Trusteeship. It is a matter entirely outside of this body. If the Trustees of the Congregational Churches are not required to be members in full communion with that Church, then there is no objection to their being members of the Reformed Church. If there is any object to be obtained by these gentlemen remaining officers of the other Society, let them retain such office until the purpose is assured and then take their dismissal, as it is only a matter of time when the First Congregational Church will dissolve."

Mr. Stewart said: "I think I might make the question plain to Mr. Mace. If he can see how a man can go to Europe on two ships, he can see how a man can be an Elder of this Church and a Trustee of the Congregational. It was decided at a meeting of the Trustees to do up their work, and when finished come into the new organization."

Mr. Mace explained that the Trustees would like to put their names in to show their sympathy with the Church, but they were debarred membership as they felt compelled to remain out of duty to their trust.

It being moved that all those present in favor of the new organization should stand up—the entire attendance arose.

The Secretary then moved that all those who had presented certificates be received into the membership of the Reformed Church, with a view to the organization of the Reformed Church of Plainfield, or such name as it may adopt. The Committee all voted aye.

The Chairman then said: "It is desirable that when this Committee meet with *you on Monday evening*, as many certificates as possible be presented, that the formation and vote be as large as can be."

Motions were passed to the effect that the entire Committee meet with the people on the evening of Monday, March 29th, to superintend the formation and ordination of the Church and the election of its officers; and the meeting adjourned.

The election will take place in the Lecture Room, at 7 o'clock, and the public service in the Church at 7½ 30. The Rev. Dr. Taylor will preach the ordination sermon.

The taking of testimony in the suit against the former Board of Directors of the Citizens' Building Loan Association, was begun before John H. Jackson at his office yesterday. After the direct examination of G. W. Appleton, the present Secretary, the case was adjourned until Thursday the 25th inst.

WESTFIELD WHIPS.

The new Town Committee met again on last Monday evening "to get a better expression of the will of the people" regarding the changing of the Road districts. The tax-payers present were much excited over the matter, and no action was taken except to adjourn for one week. They intend to seek legal advice as to their right to change the divisions.

Squire Jaques has been served with a writ of certiorari by M. Boller who was fined $20 for not removing road obstructions. The defendant will bring his case before the Union County Circuit Court, the first Tuesday in May.

A fire broke out last Sunday afternoon about 4:30, in the lower part of the building on the corner of Broad and Elm Streets occupied as a grocery and dry goods store by Mr. J. T. Pierson, with the offices of Mr. J. M. C. Marsh and others above. Upon the conflagration being arrested by the efficient working of a "Little Giant" chemical engine, belonging to the Westfield H. & L. Co. No. 1, an entrance was effected and it was discovered that the fire had originated under one end of a counter, from some cause undiscoverable. There seemed to have been but little flame, but the heat was intense and everything completely charred. $500 worth of new dry goods had been laid in the day before, and the loss on stock and fixtures was far above the amount of insurance, which included $3,000 in the Home of New York and $2,000 in the Jersey City. The building was owned by Mr. Hugh Gaston of North Branch, and was insured in the National Fire and Marine of Elizabeth $2,000 and Somerville Mutual; $2,000; loss about $1,500.

A Verdict of Guilty.

Judge Van Syckel concluded his charge to the jury in the trial of Comptroller Leggett and Treasurer's Clerk Leeds at ten minutes after four on Saturday, and when the jury had retired most of the great throng of spectators, believing no verdict would be rendered until to-day at least, left the court room. The crowd who lingered, however, were greatly surprised when, in about fifteen minutes, a constable informed the court that the jurors were ready to come in. The jurors, who had been taken to the Grand Jury room, were brought down through the corridor and up the rear entrance into the court-room. The defendants were visibly affected by the verdict, and there was a ripple of excitement in the court-room. Some of the jurors were very much affected. The jurors were discharged, and Judge Green, of counsel for defense, said that the two prisoners desired to retract their plea of not guilty to the other indictments and to enter a plea of non vult. They were arraigned on the new bills handed in by the Grand Jury on Monday, eleven of which were against Leggett—making thirteen in all against him, and five against Leeds and Leggett jointly, making fifteen against Leeds. Both defendants pleaded non vult on all these later indictments. The Court directed the entry of a nolle pros in the indictment against C. E. Brown and Alfred Wheelright, it had been admitted by the defendant, Leeds, that they have no connection with the conspiracy, and that he used their names to conceal his transactions. On application of Prosecutor Fay the amount of Mr. Leggett's bail was raised to $22,000, and Mr. Leeds to $15,000. Mr. Leggett's pretended friends deserted him and his relatives went in all directions searching in vain for bondsmen. Mr. Leggett's former bondsmen, Messrs. John Kean, Jr., Wm. McKinlay, M. W. Reeve and Thomas B. Budd, represented by counsel, formally withdrew their bonds. Judge Van Syckel consented to wait until 5:55 to take the bail. At that hour neither had procured bail, and Mr. Leggett's removal to the jail was ordered. Judge McCormick remained on the bench until ten o'clock to await the presentation of bondsmen for Mr. Leeds, but bail was not obtained, and he was also removed to jail. This afternoon both prisoners are confined in jail. Mr. Leggett this morning sent in his resignation as director of the State Bank. Petitions are being circulated in behalf of Mr. Leeds, appealing to the court for leniency.

It was rumored that Mr. Leggett was to be sentenced this morning, and at 10 o'clock every part of the court-room was crowded. Judge Van Syckel arrived early and expressed his readiness to pronounce the sentence, when Prosecutor Fay said that he had received a letter from Judge Green asking for a postponement. He (the Prosecutor) did not wish to add any pang to what the prisoners had already experienced, and would forbear calling for sentence until the family had somewhat recovered from their sudden sorrow. Judge Van Syckel said the sentence would be pronounced on Saturday next.

Mr. David H. Meeker was arraigned and charged on three additional indictments handed in by the Grand Jury on Monday last. He pleaded not guilty to each, and was bailed in the sum of $3,000, Mr. Jonas E. Marsh becoming his bondsman. In these indictments, as in the four others to which he had previously pleaded, he is charged with conspiracy jointly with Leggett and Leeds. The trial was fixed for April 20th.

Frederick Eggers, George Kimmell and George Alexander, proprietors of the Acid Works, indicted for maintaining a nuisance, retracted their former plea and pleaded non vult. Sentence was suspended.—*Elizabeth Herald*, March 20.

SIMMONS LIVER REGULATOR

Simmons' LIVER DISEASE and Indigestion prevail to a greater extent than probably any other malady, and relief is always anxiously sought after. If the Liver is regulated in its action health is almost invariably secured. Indigestion or want of action in the Liver causes Headache, Constipation, Jaundice, Pain in the shoulders, Cough, Dizziness, Sour Stomach, bad taste in the mouth, bilious attacks, palpitation of the heart, depression of spirits or the blues, and a hundred other symptoms. SIMMONS' LIVER REGULATOR is the best remedy that has ever been discovered for these ailments. It acts mildly, effectually, and being a simple vegetable compound, can do no injury in any quantities that it may be taken. It is harmless in every way; it has been used for forty years, and hundreds from all parts of the country will vouch for its virtues, viz: Hon. **LIVER** Alexander H. Stephens, of Georgia; Hon. John Gill Shorter, of Alabama; Gen. John B. Gordon, R. L. Mott, of Columbus, Ga.; Bishop Pierce, of Georgia, are among the hundreds to whom we can refer. Extract of a letter from Hon. Alexander H. Stephens, dated March 8, 1872: "I occasionally use when my condition requires it, Dr. Simmons' Liver Regulator, with good effect. It is mild, and suits me better than more active medicines." **REGULATOR.** It is not the quantity eaten that gives strength, life, blood and health. It is the thorough digestion of the food taken let it be much or little. Therefore, do not stimulate up the stomach to crave food, but rather assist digestion after eating by taking

U.S. Pension Agency
PLAINFIELD, N. J.

Under a recent act of Congress pensions will commence from the date of the discharge or death of a soldier; but only a few short months are allowed claimants in which to file their claims. Under this law a pensioner will now receive as a first payment the snug sum of $1,000 or more, and $8 per month thereafter. A pensioner on account of the death or disability of an officer will receive much larger amounts.

Pensions allowed all officers and soldiers who were in the Army or Navy of the late war, for wounds, disease, rupture, blindness, deafness or other injury; also to their widows and children; also to mothers and fathers, also to all 1812 soldiers and their widows. There are hundreds in this vicinity who are justly entitled and don't know it. If you are in doubt call on me at my office and I will cheerfully give you the necessary information without charge, and in any event I make no charge until the pension is allowed and you receive the money thereon, then only ten dollars as fixed by law.

Remember the law soon expires by limitation. Apply at once!

"1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the agent or agents of any foreign fire insurance company doing business in any city of this state having a fire department relief fund shall return to the treasurer of such fire department relief fund of the city in which he is doing business, on the thirty-first day of December and the thirtieth day of June of each year, a just and true account, verified by his oath that the same is a true account of all premiums which during the six months ending on the thirty-first day of December or the thirtieth day of June, as the case may be, next preceding such report, or such portion of said periods as he may have acted in the capacity as agent for such foreign insurance company, has been received by him, or by any other person for him, or agreed to be paid for any insurance or against loss or injury by fire upon property situate in such city, which shall have been effected for any individual or association not incorporated by the laws of this state," be amended so it shall read as follows:

"1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the agent or agents, broker or brokers, of any foreign fire insurance company doing business in any city, incorporated town, borough or township of this state having or may hereafter have a fire department relief fund shall return to the treasurer of such fire department relief fund of the city, incorporated town, borough or township in which he is doing business or effects an

DEMOCRATIC STATE CONVENTION.

The Democratic voters of the State of New Jersey, and all others desirous of uniting with them in the effort for pure, economical and constitutional government, are requested to meet at such times and places as may be designated by the several County and City Executive Committees, to elect Delegates to the Democratic State Convention, to be held at TAYLOR OPERA HOUSE, in the CITY OF TRENTON,

On THURSDAY, the 20th Day May, 1880.

at 12 O'CLOCK, M., for the purpose of electing FOUR Senatorial and FOURTEEN District Delegates to the Democratic National Convention, to be held at the city of Cincinnati, on Tuesday, the 22d day of June next, to nominate candidates for President and Vice President of the United States, such Delegates to be instructed as to the desirability of continuing the two-thirds rule any longer in National Conventions.

The basis of representation will be one Delegate for each one hundred Democratic votes, and one for each fraction of the same over fifty, cast at the last Gubernatorial election in this State; but each Ward and Township shall be entitled to at least one Delegate.

ATTENTION! DEMOCRATS!

Don't forget the meeting called for next *Tuesday evening* in the new rooms of the Democratic Association, over the former location of City National Bank, Front Street, opposite the Post Office, to elect officers for the ensuing year. A full attendance of Democratic voters is desired.

THE NATIONAL CONVENTION.

The Democratic National Convention which meets in Cincinnati for the purpose of selecting candidates for President and Vice President will have a responsible task to perform, and we hope wisdom will sway its action.

The permanent welfare of our country demands that Democracy should be at the helm of national affairs, and to realize that good fortune, it becomes vitally important to present for popular suffrage judicious nominations.

The gentlemen appointed to convene at Cincinnati as a nominating body, should go to the scene of their labor unfettered by instructions, and entirely free from either personal prejudice or favoritism, but with the firm resolve to choose candidates in every particular best qualified for the high positions named, and who are most acceptable to the people of all sections, even though it be the bringing forward of names as yet uncanvassed.

TRUE POLITICIANS.

"There is no profession more honorable, short of the ministry of Christ, than that of politician, in its truest, better sense. To devote great talents and lofty character to the common good, to *consecrate great powers to the State*, to stand up in her service unmoved alike by the fickle winds of favor or the storms of adversity, to act only for the common weal,—this is indeed to be a politician and a statesman; and there can be little hope for the future of America when such a career shall have ceased to be possible, and such an ideal to stir the ambition of her youth."

The foregoing is an extract from the published writings of a promising young American, recently deceased, and it justly portrays the character of a true politician.

We have before argued that every citizen should be a politician in the correct meaning of the term.

Political reputation, in these degenerate days, is generally associated with all that is unworthy, because, the indifference of honest voters has to a great extent, allowed the politics of the country to be converted from a dignified, intelligent and faithful conduct of public affairs, which is its legitimate province, into a dissolute scramble for place and power, regardless of ways and means to secure the form of an election.

Thence comes the odium attached to the name of politician, and with it, the seething mass of official corruption which the country now bemoans and the people have to suffer.

Public sentiment can correct the evil, if it will, and we are encouraged to believe that it is becoming aroused to the necessity.

The first efficient step to take is the nomination of men for every office, both high and humble, not because they are persistent seekers after position, not in view of their being rich and willing to spend money for the attainment of selfish ends, nor solely because of partisan services, but for the reason that they are rigidly honest, thoroughly capable, fearless in the discharge of duty, and of unsullied private repute.

If offices sought such nominees, and no other kind were tolerated by the voting masses of all political parties, the name of politician would become honorable and the public good be signally advanced.

There is no danger to be apprehended from any future attempt to sever the Union of States, as that question has been definitely and forever settled, and neither is there any well grounded fear of trouble in regard to financial matters however wildly they may be agitated, because, such things, if kept within the letter of the Constitution and subject to the legitimate rules of business, will regulate themselves, but there is imminent danger that the liberties of the country may be lost in CENTRALIZATION, and the personal rights and privileges of the citizen be dwarfed and deadened by MONOPOLY.

For sworn officials to purchase bonds at a heavy discount and then draw par value from a Sinking Fund, dividing the spoils between their own pockets, is not a mite less dishonest in principle than the bill raising plan of another batch of municipal robbers. When Tweed died, it was well remarked, "similar thieves survive him." One by one they are being ferreted out. May the work go on with vigor, until rascality pays its just penalty and integrity receives its right reward.

The County of Union never had a Democratic Member of Congress. That sounds strange and yet it is a fact.— The reason why may be traced to the repeated inability of delegates to unite upon a candidate. That should not occur again, there being no just cause for it. Union is fairly entitled to the nomination and has the right kind of names to select from. In the coming Convention let the solid vote be for a Union County man.

Darley Randall, of New Brunswick, and Stewart Brown, of Elizabeth, have been appointed as experts, by Judge Scudder, of Middlesex County, to examine into the affairs of the city officials of New Brunswick.

THE MONEY ELECTION.

Tuesday, April 20th, the people of Plainfield will be called upon to express, by their ballots, whether they shall be taxed for an additional $5,000 over the amount already allowed Common Council by law to run the city government of Plainfield. That the sum annually allowed for such purpose is small and inadequate for the purpose, is admissible, but the authorities have other means within their reach of securing additional funds without calling upon the tax-payers to give it them. Our readers well know to what we allude—the subject of "license." There is not another city in the United States, of the size of Plainfield, that levies such a large license fee on hotel and saloon keepers as ours does. Three Hundred Dollars is charged the latter and Two Hundred Dollars the former for one year's license. This, with the large number of applicants, from fifteen to twenty, would bring a large revenue into the Treasurer's hands, sufficient to keep the streets in decent repair (which they are not now) well light our avenues and streets, and provide a sufficient police force to protect our citizens against thieves and burglars. But no, a body of men, chosen to administer the affairs of our city government properly, as they were sworn to do, in order to gratify their own personal feelings and prejudices, declare against granting license to respectable applicants for hotel license against whom they fail to procure even a remonstrance after efforts in that direction, and grant to a few drinking places, some of which have not the cleanest record for orderly behavior or accommodation, and then have the effrontery to ask the tax-payers of Plainfield to vote them $5,000 additional funds to carry out pet projects, when by granting proper licenses they would nearly realize that sum. Before, has this same thing been attempted in our city, and each time a signal failure to secure the asked for amount has been the result. Will the Council of 1880 still persist in following in the footsteps of predecessors and suffer defeat and disgrace in another "Money Election," or will they live up to their oath of office and fairly and squarely administer the affairs of the city to the best of their ability, no matter what their ideas of temperance or prohibition may be? The people did not elect them as a temperance or prohibition Council. Do they desire another expression of the opinion of our citizens regarding such a body at the ballot box, April 12th, or will they come to reason and act accordingly next Monday night? The answer and result lies within their body.

A POWDER MAGAZINE IN NEW JERSEY.

For some time Ordinance Officers of the United States Army have been looking for a suitable tract of land upon which to store the Government powder and erect works for the manufacture of powder. The essential conditions are that the tract shall be away from the salt air, which is said to have a deteriorating influence upon the article; that it shall at the same time be easy of access and easily fortified; that it shall afford water power and have deposits of clay necessary for manufacture; that it shall be large enough to contain a number of magazines at such distances apart that the explosion of one will not affect the rest, and it is desirable that the location shall be behind the fortifications of New York harbor. Locations have been surveyed in New York, Pennsylvania, Connecticut and New Jersey.

The tract known as the "Middle Forge property," on the Green Pond Mountain, Morris County, a few miles from Dover, seems to have been finally selected. At least, negotiations have so far advanced that, at the request of the Army officer in charge, a bill was passed by the late Legislature to allow the United States to acquire a title to the land. The tract contains 1,400 acres, and belongs to George E. Highter. Congress has made an appropriation of $100,000 for this purpose, and annual appropriations for maintaining the magazine and manufactory will be made hereafter. It is expected that similar action will be taken by the Navy Department.

THE PENNSYLVANIA ROAD.

The new Board of Directors of the Pennsylvania Railroad has unanimously re-elected Col. Scott, President, and Messrs. George B. Roberts, Edmund Smith and A. J. Cassatt, Vice Presidents. Messrs. John D. Taylor and Joseph Lesley were elected respectively Treasurer and Secretary. Among the minor appointments Frank Thompson was retained as General Manager, and F. W. Jackson, General Superintendent of the United Railroads of New Jersey. The Board advanced the compensation of all the officers and employers of the company to that paid prior to June 1, 1877, to go into effect on and after April 1. In most cases this is a larger increase than ten per cent. would be upon most of the present salaries.

NEW CITY OFFICIALS.

The Common Council of Elizabeth, on Tuesday night last, unanimously confirmed the nominations of Samuel D. Bowers, for Comptroller and Col. C. C. Stevenson, City Treasurer, sent to them by His Honor, Mayor Bonnett. With the dishonest Republican officials recently occupying those high positions sojourning in State Prison, and honest men serving the people in their stead, Elizabeth should draw a sigh of relief.

It is astonishing how gingerly the Republican press handle the names of the convicted city officials, Leggett and Leeds, of Elizabeth. From accounts of the affair in the Republican papers, the reader is not generally informed that the officials were Republicans. When, however, the Democratic Warren ring thieves were being tried by a Democratic Judge, how they yelled "Democratic thieves," "honest Republicans," &c. It makes a wide difference whose ox is gored, sometimes.

The United States' Frigate Constellation, with stores for the starving Irish, started on its welcome journey, Saturday last. The vessel left New York harbor amid the cheers of sailors and music by bands—the favorite airs being "Wearing of the Green," and "Come Back to Erin." All will unite in wishing the vessel a prosperous voyage. She has a crew of one hundred men.

The proper and only honest way to settle the license question in Plainfield is to run a ticket for Council *openly pledged to prohibit the sale of liquor.*— That would test public sentiment, and if such candidates are successful at the polls, no man could with propriety then say a word against the rejection of all license applications. Let every craft and [illegible].

A very curious and novel question has been before the English Courts.— Vice-Chancellor Malin had under consideration the issue whether a murderer can claim property willed to him by his victim. The question rises out of the case of De Tourville, who in July, 1876, murdered his wife in the Austrian Tyrol. The circumstances will probably be in the recollection of our readers. The *Irish Times* says that the wretch, knowing that his wife had made a will under which, failing children, he would inherit her property, hurled her over a precipice. The crime, however, was brought home to him. He was tried and found guilty in Austria, and was sentenced to death. The sentence was afterward—on what grounds we really cannot say—changed to eighteen years' imprisonment. De Tourville is comparatively a young man; *it is just probable that he* will survive his term of imprisonment, and then he will come forward to claim the property left by the woman whom he murdered—that is to say, if the question be decided in the affirmative.

The Senate has refused to confirm the nominations of the Census Supervisors for the three Districts of New Jersey, not because they are incompetent men, but because they are Republicans of the straitest sect. New Jersey is a Democratic State and it is no more than fair that two of the three Supervisors shall be Democrats, or if Republicans, that they shall be men of moderate views who will appoint enumerators, not because they are good Republican workers, but because they are fit for the places. It is very seldom that we find Republicans willing to grant a Democrat the slightest favor in the way of office and we trust the New Jersey Senators will stand firm and force Hayes into appointing acceptable men who will accord to our Democrats a fair share of the enumerators.

The ice companies in New York have advanced the price of ice to one cent a pound, making a difference of three hundred per cent. between the wholesale price and the retail. Shippers will deliver ice from Maine for $5 per ton.— This looks like a regular swindle to charge three times the cost. There is no pretence that there is any scarcity of ice. Hundreds of houses in Maine secure ice on speculation, and their competition must in a short time bring the price down. No reason exists for putting the price any higher than it was last year, plus the cost of transportation from Maine, which is $1.50 per ton.

The "Temperance" people of Dublin, Ohio, are adopting the expedients of the Nihilists of Russia, and resorting to explosives. Having failed to shut down the liquor saloons, they are blowing them up. On Wednesday of last week a saloon that had been undermined was blown up by gunpowder. Fortunately no lives were lost. The guilty parties have not yet been detected.

The Salvation Army have visited Elizabeth. It wouldn't hurt Plainfield to have them come here and talk to our City Fathers a little on their incomprehensible actions on the license question.

The Frankfort *Yeoman* says: "The alleged President of the United States will retire from the White House with a clear profit of $150,000. He has not expended more than $1,000 per month since he stole the office."

The Postmaster-General has designated the Post Office at Orange, N. J., as a French International Money Order Office, including Algeria, business to commence April 1st, 1880.

It is announced that paper makers will increase the price of paper 33 per cent after Congress adjourns; an increase of 120 per cent. over the price of a year ago.

Important New Laws.

A new law compels prisoners detained in county jails for fines or costs to be set to work.

The compensation of election officers was fixed by the late Legislature at $3 a day, with eight hours constituting a day's work.

A law was passed by the recent Legislature of this State, which gives $100 per annum to the soldiers of the war of 1812.

An act just signed by the Governor provides that Chosen Freeholders shall receive $2 per day for actual and necessary services, and no other emolument whatever. This settles the questions of mileage, free dinners, horse feed, etc.

Chapter 1, of the new laws makes it the duty of all Justices of the Peace to file, within three days after conviction, in summary cases, the complaint, warrant and record of the proceedings and conviction of the offender in the office of the County Clerk.

A law was passed by the late Legislature allowing any voter who may receive a bribe for his vote at an election, to testify, without injury to himself, against the person who bribed him. This law will reduce the number of corruptionists on election day. In the face of this act the man who should offer money for a vote would take a big risk.

SPORTSMEN'S CORNER.

Now they are going to give us English sparrow potpie. One who speaks from experience says: The sparrow is as good, if not superior, to any game bird that graces our tables, in delicacy and sweetness of flesh. They are plump and fat, and the meat tender and juicy. They are very little trouble to prepare for the broiling iron, as the feathers are picked out very easily.

In 1821 there were 47 shore fisheries along the Delaware. In 1879 the whole number of shore fisheries was but 12. In 1821, shad weighed, on an average, from 3½ to 7 pounds. At the present time they run from 2 to 4½ pounds.

Jersey Justice.

On Saturday last Judge Bennet Van Syckle, of the Union County Courts, delivered sentence in the cases of Comptroller Thomas B. Leggett and City Treasurer's Clerk, Daniel W. Leeds, convicted of conspiracy to defraud the city of Elizabeth. The Court room was crowded to suffocation, and there was intense excitement among the spectators. Mr. Leggett has broken down terribly since his conviction, and he was pale and trembling. He came in supported by one of his sons. Mr. Leeds entered in company with his brother. The prisoners were seated facing the Court, and in front of the tables containing the books. Prosecutor Fay moved for sentence on indictment No. 49, and Judge Van Syckel said the motion had better be made on all the indictments. The Court was familiar with the offenses in the conspiracy indictments, as brought out in the jury trial, and asked that the Prosecutor inform as to the character of the other indictments. Prosecutor Fay briefly explained that in the indictments against Mr. Leggett alone, he is charged with taking personal expenses from the city funds without making out bills and having them passed upon by the City Council. Mr. Lindabury, Counsel for the prisoners, made an eloquent appeal for his clients, which was replied to by the Prosecutor. The Court then retired and were in consultation about half an hour. There was great excitement upon their re-appearance, and Judge Van Syckel was compelled to rap repeatedly with his gavel to restore order. He then proceeded to sentence the prisoners. To Mr. Leggett he said:

"In your trial you had the assistance of able and ingenious counsel, who, with great credit, presented the only defense possible. They labored earnestly, but the overwhelming evidence against you impelled the jury to promptly render a verdict against you. Further resistance on your part would have been useless, and you wisely withdrew your pleas, and thus saved the public considerable burden, and in all this sad business it is the only act on your part which the Court can commend. The duty the Court is now called upon to perform is a painful one, because the innocent, in a measure, must share in the punishment to be meted out to you. You have occupied in the city a position of high trust, and the public had a right to look to you as a faithful tenant. If in the hour of temptation you had committed a single guilty act, it would be less aggravating, but you have pursued an organized system of crime, and have persistently and wilfully betrayed the trust imposed in you. Guilt is proven in every action, without palliation, without excuse, and the Court feels that it would be false to duty if it listened to pleas made on your behalf, and forget the demands of justice. Crimes of this character are becoming common; immorality seems to have deluged the land, and the Court should brand the guilty with adequate punishment. For the offense of which you were convicted by a jury, on indictment No. 49, the Court adjudged that you be committed to State Prison at hard labor for a term of two years, and thence until the costs of the prosecution are paid; In indictments Nos. 50, 51, 52, 53 and 54, on which you have pleaded non vult, the Court adjudge that you be committed to State Prison at hard labor for one year, and thence until the costs of prosecution *be paid, making the whole of your sentence seven years.* In indictments Nos. 55, 56, 57, 58, 76, 77, 78, 79 and 80, the Court adjudge that you pay a fine of $250 and the costs of prosecution on each indictment, and remain confined until the fines and costs are paid. There are another class of indictments, which are misdemeanor in office. They present a different state of facts. You as Comptroller had no right to pay bills without the bills going through the regular course. You had no right to decide that the city was indebted to any parties. As it has been represented, these bills, in most part, were just claims, but the Court wishes it understood that it has considered these slight offenses very important. A public officer should strictly adhere to duty, and in paying bills, ought not to do so until they had been passed upon by a duly organized tribunal. As has been said some of these bills were just bills. In indictment No. 60, there is an amount mentioned paid to Mr. James R. English, without authority. It was your duty to see that it was properly audited and passed upon, and in your failure to do so, you were guilty of dereliction of duty. It was not Mr. English's duty to see that the bill went through the proper course. It is represented that the bill was just, and so in regard to many others the Court believes the claims were justly due to the persons paid. For these offenses the Court imposes a fine of $1 and costs in each indictment."

In sentencing Leeds the Judge said that all that applied to Leggett applied to him. The sentences in each case are as follows: Leggett seven years at hard labor in State Prison, and a fine of $2,260. Leeds, four years in State Prison at hard labor and a fine of $1,000. Both prisoners were deeply affected and wept as sentence was pronounced. Comptroller Leggett and Leeds are both Republicans, and the verdict of the jury and the sentence in their cases is approved by the citizens of the much robbed city of Elizabeth.

Judge Alward and Mr. Parrott, counsel for David J. Meeker, in brief addresses moved for a struck jury for the trial of the indictments against Mr. Meeker. The Court refused the motion.

The Grand Jury Discharged.

Immediately after sentencing Comptroller Leggett and Clerk Leeds at Elizabeth on Saturday last, the Grand Jury appeared into Court and asked to be discharged. The Court inquired if the Jury had completed their labors, and the foreman replied in the affirmative. Judge Van Syckel in discharging the jurors said in substance: "In discharging you, gentlemen, I deem it proper to express to you the thanks of the Court. Your service has been a very lengthy and laborious one. You have shown courage and faithfulness in the discharge of duty above all commendation. To your consideration and the efforts of the Prosecutor is due the fact that offenders have been brought to justice. It will be hereafter a matter of great gratification to you in the thought that you discharged your duty well and faithfully. It ought to be looked upon as an honor to have been a Grand Juror of this term. Trusting, gentlemen, that there will be no like occasion to repeat investigations of this character, I discharge you with the thanks of the Court."

U. S. Pension Agency
PLAINFIELD, N. J.
Under a recent act of Congress pensions will commence from the date of the discharge or death of a soldier; but only a few short months are allowed claimants in which to file their claims. Under this law a pensioner will now receive as a first payment the snug sum of $1,500 or more, and $8 per month thereafter. A pensioner on account of the death or disability of an officer will receive much larger amounts.
Pensions allowed all officers and soldiers who were in the Army or Navy of the late war, for wounds, disease, rupture, [illegible], deafness or other injury; also to their widows and children, also to mothers and fathers, also to all 1812 soldiers and their widows. There are hundreds in this section who are justly entitled and don't know it. If you are in doubt call on me at my office and I will cheerfully give you the necessary information without charge, and in any event I make no charge until the pension is allowed and you receive the money thereon, then only ten dollars as fixed by law.

JAMES W. JACKSON, Esq., has been re-elected Superintendent of the M. E. Sunday School, of this city.

MR. GUION, the coal merchant, is about erecting a handsome picket fence along the entire front of his large coal yard on Peace Street.

REV. T. H. Stockton, late of Jersey City, has been appointed pastor of the M. E. Church, this city. He will occupy the pulpit next Sunday.

WATCHMAN CONWAY, at the depot, is engaged in beautifying the grounds about the depot by transplanting shade trees along the sidewalks of the Parks.

REV. A. H. Lewis having accepted the call given him by the Seventh-Day Baptist Church, this city, will enter upon his ministerial duties about May 1st.

THE furniture and contents of "Laing's Hotel," occupied the past year by Mr. Charles P. Chamberlain, which was sold at auction last week, realized about $1,600.

ISAAC PANGBORN, builder, has received the contract for building a large and elegant brick residence on Park Avenue, opposite the Park House, for Mr. Sinclair Stuart.

ABE FREEMAN, the well-known colored man for many years in the employ of Berry & Thorn, hardware merchants, has concluded to change base, and enter into the employ of Mr. Jeremiah Manning, builder. Thos. Clasey takes Abe's place.

LETTERS patent have been granted Messrs. Garret Van Winkle and Thos. B. Stillman, of this city, for valuable patents. The former for a combined elevator and scale and the latter for a process of manufacturing nitrogen gas.

MR. CHAS. P. CHAMBERLAIN, late proprietor of Laing's Hotel, is now located at the Shore House, Bergen Point, a charming place, where he will be pleased to see all his old friends. His well-known and capable clerk, Mr. Schwartz, goes with him.

THE boiler to furnish steam for motive power in the new quarters of THE CONSTITUTIONALIST, also to heat the "Chautauqua Building," was placed in position in its proper location last Tuesday by the builder, Mr. John N. Scheock, of North Plainfield.

POSTMASTER Wallace Vail secured the ancient "bunk" at the auction sale of goods and chattles contained in Laing's Hotel last week, in which the respected owner of the building, John W. Laing, has slept in for years past. It is a relic well worth preserving.

AUCTIONEER J. M. C Marsh, Clerks Isaac Brokaw, Wm. Dunn and A. Runyon, severally performed the various functions of their office satisfactorily to their employer and the bidders at the auction sale of furniture contained in Laing's Hotel last week. Hoarseness was no name for it after the sale was over.

COREY MOFFETT and Eugene Van Alts, formerly of this city, were last Tuesday sentenced in the Union County Courts, the former to four years and the latter to fifteen years in the State Prison at Trenton. The charge upon which the latter was convicted was arson and burglary of hats from a hat factory in Newark. Moffett was convicted as an accessory in the burglary.

BECAUSE the furniture of Laing's Hotel has been sold and a new tenant is to take possession of that well-known hostelrie in a few days, the public are not to understand that Mr. Laing is going to settle down to an inactive life. He still retains the Livery business, and those in want of a first-class turn-out will always find "Uncle John" ready to accommodate them on most reasonable terms.

ANOTHER one of Newark's famous Clothiers, COLLYER, this week acknowledges THE CONSTITUTIONALIST as the proper advertising medium of this section, by inserting in its columns an announcement of the extremely low prices at which the firm is disposing of goods. Collyer's Clothing House is an old established one, and parties purchasing of them may rely on being fairly and honestly dealt with.

WHILE the macadamized road bed on Park Avenue was hardly fit to travel over during the past winter in consequence of the error of throwing mud over it in endeavors to mend it, (the blunder of the Street Committee in so ordering,) Belvidere Avenue, a natural made road leading through the section known as "Short Hills," from Broadway to Netherwood Hotel, was as dry as a bone and a delightful drive. It is so now. Try it.

REYNOLDS, the druggist, removed into his new store in Vanderbeek's building on Saturday last, and crowds gathered about the entrance, in the rain, to catch a glimpse of the beautiful interior of the store. The fixtures, which are finished in hard wood, ash, Eastlake or Queen Ann style, present a handsome appearance. Mr. John Chandler, the designer, and his workmen, who followed his plan and idea, are to be congratulated upon the success of their labors. There is no handsomer store in the city. We shall give an extended notice of the whole building when it is fully completed.

DID you kick a hat stuffed with a brick yesterday?

WHEN we are fairly settled in our new quarters in Vanderbeek's building, we shall give a detailed description of the structure.

PARTIES wishing to engage the services of A. Runyon, the Undertaker, will bear in mind that he has removed his residence to Front Street, opposite Washington Avenue.

VARIAN has the finest assortment of Glass-Ware, Crockery, etc., to be found in the city, which he is disposing of at extremely low prices. Read his advertisement.

FAIRCHILD, the Furniture Dealer, in order to facilitate his increasing business, has leased the second floor of the building in which he is located, next to Whitney's Dry Goods Store, and has filled it with elegant furniture. Prices low at Fairchild's.

EXPRESSMAN Augustus Frase met with a painful mishap on Wednesday evening last. While passing through the lane leading from Front to Second Streets in the rear of Dayton's buildings, he stumbled over a pile of rubbish and severely cut and bruised the palm of his right hand on a piece of jagged tin.

Trustees of M. E. Church.

The following gentlemen were elected Trustees of the Plainfield M. E. Church on Tuesday evening: I. W. Pangborn, P. M. French, G. H. Burgess, James McGee, W. Lithgow, D. H. Mulford and Jas. W. Jackson.

Look.

A quantity of superior black walnut mahogany and other furniture, brussels and ingrain carpets, china, glass and crockery, wood, tin, stone ware, stoves &c., will be sold on Tuesday, April 6th, at one o'clock, on North Avenue, at Flagg's Hotel, by T. J. Gillies, Auct'r

Removal of the Y. M. C. A.

It is authoritively announced that the headquarters of the Y. M. C. A. will hereafter be in the "Chautauqua" Building, corner of Park and North Avenues, the necessary arrangements having been made with the Chautauqua Literary Social Club, lessees of the entire second floor of the building, to that effect.

Band of Hope.

The members of the Band of Hope are desired to be present at the Holly Tree Inn, on the afternoon of Friday, the 2nd inst., at 4 o'clock. Matters especially attractive for the children will be presented, all of whom are cordially invited.

By order of the President,
M. ALICE PENNOYER, Sec.

Netherwood Hotel.

This popular establishment will open for the season of 1880 some time in June. Many of last summer's guests have re-engaged board for this season, and the rooms of the house are about all taken. The management will be under the name of Mr. Breslin, the famous hotel proprietor, with Mr. King, late of the Gilsey House, N. Y. City, as general manager. Decided improvements have already and are being made about the building and grounds, which will naturally add to the comfort and convenience of the guests of the house.

Plainfield's Clothier.

We stepped inside the new Clothing House of John H. French, on Front Street, opposite the Post Office, the other day and were suprised to see how comfortably he was located and what an immense stock of goods he had on hand. All shades and qualities of goods are displayed on his counters, and his workmen are overrun with orders for custom work. In the ready-made department, Mr. French is kept busy meeting the demands of customers, who seem to have ascertained at last that it is not necessary to go out of town to purchase such goods.

A Contradiction.

The rumor, reported through irresponsible sources, that Mr. Florens Schetter, one of the founders of Netherwood, has left Plainfield and taken up his residence in California, is contradicted by that gentleman, who desires us to so state, Mr. Schetter has gone to San Francisco, Cal., (starting on Wednesday) to be absent a couple of months on business. He proposes to again return and resume residence with us. We are glad to make such announcement, as Mr. S. has done much toward improving that suburb of Plainfield formerly known as "Short Hills," making the once barren waste a fine place of residence.

Y. M. C. A.

The Monthly Reception of the Y. M. C. A., on last Tuesday evening, was largely attended and the Readings of Mr. C. W. Muzio were attentively listened to and thoroughly enjoyed. But to the singing of Mr. David Titsworth was accorded the greatest appreciation, and that gentleman was re-called by most enthusiastic applause.

The selections of the Elocutionist were well-known and often-heard ones from the works of Dickens and "Twain," but they compared not unfavorably with the renderings of readers of greater reputation. On the whole nothing but praise can justly be accorded the Association for the interest their Receptions continue to command.

The Deliber's Last.

At Assembly Hall on Tuesday evening, was given the last lecture of the second annual course of the Deliber Society, P. H. S., by Dr. H. W. Warren on "Man's Poetical Flights to the Highest." He touched upon the thoughts, fancies and forces of the poets who were poets, and quoted examples of their best constructions and themes. Although not delivered before as large an audience as the merits of the discourse claimed, those who were present were amply repaid for their attendance, and the lecture fully sustained the flattering verdict the previous ones had justly received.

The young men of this Society, of which Mr. George Vincent is President, are deserving of a great deal of credit for the admirable course they have given the Plainfield public an opportunity of enjoying—composing a selection of subjects and a choice of speakers, that compare favorably with any other course that has been carried out in the city's past.

Fire Commissioner's Election.

"Many men of many minds" conspire to make the result of the coming election for members of the Fire Board intensely exciting and decidedly uncertain. Among those mentioned as candidates for the vacancies to be filled, we are glad to notice the names of Messrs. Voorhees, Jones, Depuy, Mayer, Morris and Brown—all men who, if elected, are calculated to, in some degree, bring more satisfactory results to pass by their concerted action, and their plan of putting the Fire Tax (as much as may be collected) where it will do the most good. The property owners of this city as a majority—and undoubtedly with more or less justifiable reason—most strenuously object to pay a tax which brings no satisfactory result in the way of protection from fire, and until a Board is placed in power whose proceedings will tend to bring about a combination of circumstances which will result in assured safety or means for protection of their possessions, the action of such delinquents cannot be justly criticised. An opportunity is now given for the election of a Board without regard to political belief, that will most likely [illegible] such beneficial result.

A Curiosity.

Mr. Joseph A. Blatz, residing near Evona, has a *living curiosity* in the shape of a two weeks old calf, which was born without a tail. It will be offered for sale at his vendue, April 6th.

Easter Election.

The following named persons were elected at the annual meeting of the church of the Holy Cross, held Tuesday evening, March 30th:

Wardens—James Mitchill, W. Rockhill Potts.

Vestrymen—James Lyon, Frank S. Browne, Mason W. Tyler, Chas. Graves, George P. Dupee, Theodore Ellis, Karl Polak.

Delegates to Convention—E. J. Olmsen, W. J. Leonard, Eli Long. Alternates—F. S. Browne, J. E. Tuthill and W. R. Potts.

Delegate to Convocation—W. J. Leonard.

The P. A. C. Glee Club.

A meeting was held at the residence of Wm. P. Humbert, Esq., last Monday evening, when there was organized an association intent upon furnishing future treats in the way of musical entertainments, to their friends and the Plainfield public. About thirty were present, including the best male voices of the city, and an election of officers resulted as follows: President, E. R. Anthony; Secretary, Wm. Humbert; Committee on Music, T. Oscar Roberts, Samuel McCutcheon, Edw. E. Anthony. The next meeting will be held on the evening of Tuesday, April 6th, at the residence of John W. Murray, Esq.

The Tobacconist's Union.

The tobacco merchants of this city have for the past month or more been in almost daily meeting to decide upon some conjunctive plan of action in regard to the raising of the present low rates of many brands of tobaccos and cigarettes. The organization they have formed to carry out such intention and to consist also of a continuing "protective association," numbers among its members all the prominent tobacconists of Plainfield, and the result of their deliberations will undoubtedly be greatly to their mutual benefit. A price list will be agreed upon and adhered to, and the goods of certain manufacturers will be purchased in large quantities by combining the orders of all the dealers, thus securing extra discounts.

Easter Sunday.

For the last ten years the seven Easter Sundays that have fallen in April have been pleasant, while the three in March have been most disagreeable. The day just passed was one of *decidedly* seasonable weather but unfortunately unfavorable for that displaying of new bonnets and spring-suits which is the delightful prerogative of the gentler sex upon such occasion. Notwithstanding the unpleasantness overhead and underfoot, the churches were nevertheless fairly well attended, and the especial attractions of all the services deserve flattering mention. Want of space, however, prevents a separate notice of each, and as it would be unfair to describe the beautiful floral decorations, enjoyable singing, or impressive services of any in particular, when all shared alike in claiming admiring attention; we can only testify to the combined merits of all.

Led Astray.

On Monday evening next we are to be favored by a rare dramatic treat. The famous 5th Avenue Comedy Company of New York will appear at VanDeventer Hall in the beautiful romantic drama of "Led Astray," introducing to our public a dramatic cast of great excellence, elegant stage settings, &c. The performance of the "Two Orphans" under this management some weeks since, is fresh in our memory, and the success was so great on that occasion that on Monday evening next we expect to see the largest and most enthusiastic audience of the season. "Led Astray" was performed in New York for the unprecedented run of two years, and the play is wholesome in its tone and one of the most interesting dramas ever written. Tickets can be obtained at Kilgore's Drug Store, and all those who desire eligible seats had better secure them early and avoid the rush at the doors.

Easter-Day at Grace Church.

This Church was filled by the congregation that assembled on Sunday morning to keep the Feast of Easter. The floral decorations were very beautiful, especially two memorial gifts—a large altar cross, composed of white pinks, camelias and lilies, and a star of camelias and lilies. The musical portions of the service were well rendered by the choir. The Rector stated that the offerings of the parish, during Lent, for missionary purposes alone, had amounted to more than $300. The sermon was on the Resurrection from the text: "I laid me down and slept and rose up again for the Lord sustained me."

On Monday night, after evening service, the annual meeting of the congregation was held, when the following elections were made:

Wardens—Messrs. John B. Dumont and Wm. E. Lowe.

Vestrymen—Messrs. Samuel Huntington, Edw. Errickson, C. Tweedy, E. L. Finch, G. Mayer, Thos. Pittis, and O. T. Waring.

Delegates to Diocesan Convention—Messrs. John B. Dumont, Samuel Huntington and Wm. E. Lowe.

Alternate Delegates—Messrs. E. L. Finch, W. E. Cock and Thos. Pittis.

Delegate to Convocation—Thos. Pittis.

Personals.

Hon. John H. Evans went immediately after his wife's funeral last week, to visit his niece, Mrs. W. H. H. Calef, at Brookline, Mass., hoping a change of scenes would assist in relieving his mind of the terrible strain consequent upon the sudden decease of his wife. Saturday week he will sail for Europe to join his sons there.

Charley Zuckschwerdt, the popular segar merchant of Park Avenue, is the happiest man in town. It is a fine boy, who came to his home last Monday evening. All well.

The Rev. Dr. B. H. Steele, of the First Reformed Church, of New Brunswick, will occupy the pulpit of the Trinity Reformed Church, of this city, next Sunday morning and evening.

Miss Lilian Spencer, a young lady who is destined to achieve a flattering reputation as an actress (judging from the favorable criticisms of New York journals) is visiting friends on Seventh Street.

Mr. John Taylor Johnston, of this city, President of the New York Metropolitan Museum of Art, entertained President Hayes and members of his family and Cabinet, with other men of national eminence and their wives, at lunch on last Tuesday. In the afternoon the party assembled at the Museum, which was formally opened with appropriate ceremonies.

Mr. Harry Day will start for Leadville, upon the vacating by his father, the Rev. Wm. Day, of his pastorate here.

We received a call on Wednesday last from our former townsman, Mr. O. L. Jenkins, now located at Danielsonville, Conn., where he has built up a fine practice in the three years or so he has been there. The citizens of that place are fortunate in the possession of so skillful and successful a practitioner.

We regret to record another bereavement to the family of ex-Councilman S. C. Ryder, in the death of the young wife of his son Jacob, which sad event occurred suddenly on Saturday last. Mr. Ryder, son and family have the heartfelt sympathy of a host of friends in their affliction.

The Manhattan Elevated R. R. Co. of New York, numbers among its employees, Mr. Fenn Collins of Plainfield.

Postscript.

As we go to press there is a current *rumor of the death* of Sheriff Van Liew, of Somerset County, who was taken suddenly ill a few days ago. A telegram from the Somerset *Messenger* informs us that Mr. Van Liew is not dead, but there are no hopes of recovery. In case of death of a Sheriff the law says that the Coroners, or either of them, shall act in his stead until the Governor appoints a successor, that person to serve until the next General Election, when a Sheriff shall be elected by the people to serve for the full term of three years. The law on the subject is Chap. XXIV, laws of 1876. The Governor appoints after due notice has been served upon him by the Judges of the Court of Common Pleas, attested to by the Clerk of the Court under his hand and seal.

The Coming Chief.

The approaching election for Chief of the Plainfield Fire Department is creative of much diversity of opinion among those who have the interest of this branch of the city's protection at heart. Messrs. Doane (the present incumbent) Voorhees and Saltzman are being put forward as candidates at or against the desire (as the case may be) of those gentlemen, by the different companies; and although one or more of the nominees may during the coming time decline to run, the city feels assured of securing among the trio a competent and efficient officer. The satisfactory work accomplished by Mr. Doane during the past year proves beyond a doubt his capability for the position, while the thorough experience of Mr. Voorhees in fire matters, both in New York and this city, guarantees the admirable course he would adopt if he should be elected. The name of Mr. Saltzman brings to the attention of the people a man who, as foreman of the Alert Hose, has brought that company to its present enviable position as an organization of efficient firemen; and although his pride in his associate members leads him to decline a position which would call upon him to vacate his present office, it is to be hoped that should it be the desire of the firemen to see Foreman A. Saltzman at the head of the department, it will induce him to remain a candidate.

Holy Cross Church.

Notwithstanding the storm on Sunday, this church was filled with an earnest and devout congregation. A magnificent display of flowers decked the altar and font. Numerous hot-house plants surrounded the lectern and pulpit, the latter being a very handsome piece of furniture which arrived from New York a few days previous, and was used for the first time on Sunday. The choir, under the management and direction of Chas. W. Kellogg, has already obtained notoriety for efficiency in rendering the music of the church services, acquitted themselves with great credit, all being highly delighted with the music. The Psalter was chanted antiphonally by the Rector and choir. The pastor, Rev. T. L. Murphy, was assisted in the services by the Rev. E. Embury, the latter preaching the sermon. It was an able exposition of the Resurrection. At the close of the sermon the Rector made a very hearty appeal to the congregation for a certain amount of money to cancel all floating *indebtedness*, which was generally responded to and more than the amount asked for was received. The Holy Communion followed and this ended the first service of the day. In the afternoon the children of the Sunday School assembled in the church. After the order of services the Rector addressed the School, explaining to them the meaning of this Festival, dwelling upon the Resurrection and what it meant to them. The profound attention given, plainly exemplified their interest.

Gone, but not Forgotten.

Extensive improvements are being made in and about the old established and well-known hotel building, "Laing's Hotel," in this city, in anticipation of the occupancy of a new tenant, Mr. Geo. Miller, (formerly proprietor of the City Hotel.) The large Hall, so favorably known all through the country for the many good times experienced within its walls, by dancing parties, and for the many political battles fought therein at primary meetings and elections by the two great political parties of the day, is to be no more. A partition now divides the Hall, part of the space of which is to be used as a dining room, the other half to be devoted to those who want to trip the light fantastic toe on a small scale, or for a polling place, primary meetings, etc., folding doors thrown open will, however, make the Hall into one room. Laing's Hall is now a place of the past. No more will the merry laughter of assembled guests at entertainments and balls be heard there. Its walls will only echo to the music occasioned by the clatter of knives and forks, or the noisy talk of politicians, (perhaps) who come to its contracted quarters to cast their votes and endeavor to gain others over to their own political side. But then, all things have an end, sometimes for the best, and in this instance, perhaps it is in that sense; for by the cutting in twain the Hall, an ample and commodious dining room is gained, which mine host Miller hopes to fill with hungry eaters each day. Other decided improvements are also being made. The dressing rooms back of the stage are to be converted into a kitchen, the former dining room into a bar-room, (that is if our City Fathers (?) grant Mr. M. a license); the former bar-room will be used as a reading room. A fine laundry will also be built where the kitchen is now located. Mr. John Chandler is doing the carpenter work and John Quass the painting.

Relief or no Relief for the Poor.

The music-lovers of this city are at present greatly regretting the "hitch" that has unfortunately occurred in the arrangements being carried out jointly by the Plainfield Saengerbund and the Ladies' Relief Association—arrangements that were to culminate in a grand choral and orchestral concert under the management of the former society for the benefit of the latter's treasury. The Saengerbund, an organization of Germans of this city, associated together for the improvement of their voices and the mutual benefit of themselves, personally—being desirous of showing the public that to help the needy was one of the aims of their society, offered to take the entire charge and arrangement of a grand concert to be given in this city, the proceeds of which were to be donated to the Ladies' Relief Association. No one has ever denied that this project of the proposers was most praiseworthy, and that it should be satisfactory to the Relief Association was of course to be expected. However, a difference of opinion occurred in the beginning among the ladies, which was subsequently settled, and such preliminary matters as printing, advertising and other necessary expenses were incurred by the Saengerbund, and a large number of tickets placed among its friends. Now, of a sudden, everything is brought to a standstill by the announcement that the Ladies' Relief Association decline to accept the proceeds of the Concert, and the Trustees of the First Baptist Church in consequence refuse to allow it to be held in their building. Many causes are assigned for such action, but as none are satisfactorily substantiated they should not at present be particularized or commented upon; but the state of the case now is that the Saengerbund are liable for a large bill of expenses and the poor of the city are not to receive the relief that is needed and was promised and [illegible].

The Trinity Reformed Church.

At seven o'clock last Monday evening, the male members who had identified themselves with the formation of a Reformed Church in Plainfield, met in the lecture room of the Congregational Church building for the purpose of receiving any additional applications from applicants for membership. The Rev. Dr. Taylor opened the meeting with prayer, after which letters were received from twenty-four former communicants of other churches who desired to identify themselves with the new organization. Upon motion these were received, and Mr. Stewart replied to a question of the chairman, to the effect that they had decided to elect at present but two elders and one deacon, with the intention of increasing such number in the future. The Chairman asked if the Committee had any objection to the withdrawal by Mr. Mace of his letter which had been placed in their hands. That gentleman, for certain reasons, wished to withhold his membership until some future time, and his desire was granted. There being no other nominations except those made in behalf of the church by Mr. Stewart, the following gentlemen were elected by acclamation: Elders—Messrs. Henry Lindsay and Geo. L. Van Emburgh. Deacon—David O. Kilbourn. On motion the title of "The Trinity Reformed Church" was unanimously chosen as the name of the new organization. The Chairman explained, however, that if upon future consideration it was deemed best to change such title, it could be done. There being no other business before the Committee the meeting adjourned to the church above, where quite a large gathering had assembled to witness the first public service of the new church and the ordination of its officers.

The Rev. Henry Veshlage opened the services with prayer, and the singing of the choir and congregation was an addition to the devotional exercises of the evening. At the close of an interesting and instructive sermon to the new society by Dr. Taylor, the Secretary of the late Committee on organization read a report of the proceedings of the past two meetings as published in THE CONSTITUTIONALIST, and Messrs. Van Emburgh and Kilbourn were respectively ordained as Elder and Deacon. Mr. Lindsay, the other Elder elect, was unable to be present on account of family matters connected with a change of residence that unfortunately could not be put aside, and his ordination was laid over to a future day.

FIRE MATTERS.

Warren No. 3 steamer tried the new fire well on Jackson Avenue last Thursday evening. The steamer worked well, but in consequence of the soft condition of the fresh earth about the top of the well, into which the wheels of the heavy apparatus sank, it was impossible to lay the steamer close enough to the opening to ascertain whether she could pump the water out or not. Another trial will be given when the well has settled and the ground about it becomes firm.

Dover, Morris County, N. J., boasts of a fine Fire Department, and last Easter Monday evening was a gala time among them, the occasion being the Seventh Annual Full Dress Ball of "Vigilant Hose Co. No. 1," the members of which comprise among their number some of the best representative men of the place. Their "Annual" last Monday night exceeded by far all their previous efforts. About 150 persons were present, the assemblage being composed of the *elite* of the town. Moller's Opera House was the scene of enjoyment, and the large and commodious dancing Hall was most appropriately bedecked with flowers, flags, fountains, firemen's paraphernalia, etc. In the centre of the room was a fountain of cologne water which scented the whole building with fragrance. The fountain's base being a bed of blooming flowers. The music was under the supervision of Prof. Franz, of this city, which is sufficient guarantee that it was of the best, as one and all of the merry dancers attested by their favorable remarks. The Orders of Dance were gotten up in elaborate style, the covers being embossed, with bunches of beautiful flowers on one page and an appropriate motto on the other. They were as fine as we have seen in a long time and were very costly. The printed pages inside contained opposite each dance some local or personal allusion. We are indebted to Foreman W. Lambert of the "Vigilants" for a copy of the Order. The supper was served by Mr. James S. Melick, proprietor of the "Stickle House," and proved that Mr. M. is a *caterer* of no mean pretensions. Making such occasions a specialty, he certainly provided a banquet worthy of a king or princess for the "Vigilants" last Monday evening. Among those present on the occasion were guests from New York, Brooklyn, Hoboken, Morristown, Denville, Rockaway and Stanhope, Senator Canfield, of Morris, being among the number. "Vigilant" Hose Co. No. 1 is efficiently officered and has a fine organization of firemen always ready for duty.

Sparks from a passing locomotive set on fire the roof of a house along the railroad above Washington Street last Thursday. By prompt application of pails of water the fire was extinguished without an alarm being given to the Department.

The election for four members of the Board of Fire Commissioners occurs the 12th of April.

DUNELLEN ITEMS.

Rev. Theo. S. Brown's sale of household goods, which took place on Thursday, 25th ult., was well attended and patronized; very fair average prices being realized. The Rev. gentleman and wife have taken rooms at Mrs. Smalley's.

The Rev. S. B. Jones has been retained to his charge, as pastor of the M. E. Church. This is wise. Mr. Jones was very faithful and efficient during the past year, and under his management the Church had, in many respects, an unusually successful year.

The Annual School Meeting, called in accordance with the provisions of the School Law, was held on Tuesday evening, 16th ult. The object of the meeting, as set forth in the call, was to submit to the taxable inhabitants of the District, the question of raising, by tax, the sum of two thousand dollars ($2,000) for the purpose of supporting a free public school during the next year, and eight hundred ($800) to maintain the school for the balance of the present year.

Inasmuch, however, as the meeting were desirous of having the accounts of *the District audited before proceeding to* the business in hand, a Committee, consisting of Messrs. Merrill, Trimmer and Stephenson, was appointed to audit the accounts, both of past and present Boards of Trustees, and report at an adjourned meeting to be held in two weeks. That meeting was held on Tuesday of the present week. The Committee appointed to audit the accounts made a report which, on motion, was accepted by the meeting and the Committee discharged.

The meeting then proceeded to vote by ballot for the sums of money asked for the Trustees. After considerable discussion and several balloting, both the $2,000 for next year and the $800 for this year were carried.

Joseph A. Blatz, having removed and thoroughly re-fitted the well-known hotel building—"Smith's Hotel," corner of Somerset Street and Green Brook road, will open the same to the public as a Hotel about the middle of May next.

Mr. Samuel R. Mooney will shortly open a new Grocery Store corner of Somerset and Chatham Streets.

Arnold & Van Norstrand, the old established grocers, northeast corner of Somerset and Chatham Streets, are daily in receipt of prime fresh butter and eggs. Fresh groceries always to be found at their store.

A few of the many friends of Mr. and Mrs. J. T. Case gave them a surprise at their residence, Manning Avenue, last Tuesday evening, and "shook their feet" until the "wee sma' hours."

A gentleman residing in the "Valley," dines on the luxurious woodcock without fear of the law. He picks them up mornings from under the line of telegraph wires, the birds having been killed during their flight at night in flying against the wires. It is claimed that more of this species of birds are killed every Spring in this way than are destroyed by hunters during the Summer season. Now, if that wise (?) Legislature just adjourned had passed a bill ordering the telegraph wires torn down instead of prohibiting Summer woodcock shooting! It would have been about as sensible.

All that want good crops, either in field or garden, should call on H. Newton Spencer, Somerset Street, and secure a stock of his fresh seeds, of which he has a bountiful supply of every description.

Among the improvements of our neighbor, the town of North Plainfield, may be noticed the erection by Mr. Judson Brown, the Cashier of the New York *Herald*, of a mammoth bill-board on his premises. Its use is as yet a secret (except to the knowing ones), but with the usual enterprise of the journal he represents, it will probably serve to chronicle the contributions of *Plainfield's* citizens to the "*Herald's* Anti-Parnell Irish Famine Relief Fund."

Coughs and Colds.

Spear's Horehound, Rye and Rock. Horehound, Old Port Rye and White Rock Crystal Candy. A simple and effective remedy for Coughs, Colds, Hoarseness, Influenza, Sore Throat and all Lung and Bronchial complaints. Highly recommended for Consumption and General Debility. HARDLY to be credited, but it is nevertheless true, that a sick horse or a bad-conditioned cow can be brought up in a few days by the use of Simmons' Liver Regulator. The powders should be mixed with the food, and they will eat it readily; and it is surprising to see what improvement immediately takes place. It opens the bowels, strengthening them, and does all and even more than the best Condition Powders. A small quantity in the food for sickness will cure cholera, and keep the poultry healthy.

"Second to none." Ely's Cream Balm will give those suffering from Catarrh and Hay Fever more relief than any other preparation. Wonderful results are realized by a few applications, but a thorough use of it will effect a decided cure. As an immediate relief for colds in the head it is unequaled. Price 50 cents. See adv't. For sale by Wm H. Vorhees.

A knotty law suit, on trial at New Brunswick, has excited an interest that has filled the hall in which it is heard by an audience composed largely of ladies. This is accounted for by the fact that the parties to the suit were both of the fair sex, and the defendant a dressmaker. The action was trover, the defendant being charged with converting to her own use a part of the material left with her by the plaintiff to make up a suit. The case had not proceeded very far before court, counsel and jury were lost in a bewildering mass of evidence about "box-plaits," "ruffles," "biasses," "gores," "foundations" and other phrases familiar to dressmakers, but more problematical to the sterner sex than the fifteen puzzle. The jury finally rendered a verdict of $20.63 damages for the plaintiff, Miss Voorhees. A Mrs. Beecham was the defendant, she having refused to pay the dressmaker until the alleged missing remnant of silk was restored. Miss Voorhees denied the accusation of theft.

insurance, on the thirty-first day of December and the thirtieth day of June of each year, a just and true account, verified by his oath that the same is a true account of all premiums which during the six months ending on the thirty-first day of December or the thirtieth day of June, as the case may be, next preceding such report, or such portion of said periods as he may have acted in the capacity as agent for such foreign insurance company, has been received by him, or by any other person for him, or agreed to be paid for any insurance, or against loss or injury by fire upon property situated in such city, incorporated town, borough or township, which shall have been effected for any individual or association not incorporated by the laws of this state.

And be it enacted, That such agent or agents of every fire insurance company aforesaid shall some time in the months of January and July in every year in which he shall act as such agent, deliver and pay to the treasurer of the benevolent fund of the fire department of the city in which such agent is doing business, the sum of two dollars upon the hundred dollars, and at that rate upon the amount of all premiums which, during the six months preceding the thirty-first day of December and thirtieth day of June in each year, or for such portion of said periods for which they may have acted as such agents, shall have been received by him, or by any other person for him, or shall have been agreed to be paid for any insurance effected or agreed to be effected, or promised by him as such agent for premiums, or any insurance against loss or injury by fire upon any property," be amended so it shall read as follows:

The Coleman Brothers, of Madison, Morris county, have recently taken the contract to build one of the largest railroads in the United States. The road is called the Texas and Pacific Railroad, and is 650 miles in length, and is to be completed in about two years. They will employ about one thousand men and they have for use on the road two hundred mules and two hundred wagons and fifty tents for the men. They have also a construction train of twenty-six cars for the use of trackmen and telegraph operators. This road runs from Fort Worth to El Paso.

THE Hunterdon *Democrat* says: People lived to be a good age in "ye olden times." In proof of which read the two following obituary notices which we copy from the old files of the Hunterdon *Gazette* of May 30, 1827:

"On the 6th inst., in Bucks county, Mr. Joseph Force, at the advanced age of 107 years."

"In Shropshire, England, Thomas Spears, aged 163 years. He married at 30, had a son and daughter who lived more than a century, and had a numerous offspring. At his funeral, 638 of his descendants attended."

In the issue of the same paper of June 9, 1825, we find the following jolly marriage notice:

"Lately, at Halifax, Eng., Mr. D. Farrar, of Elland, aged 93, who had been a disconsolate widower seven weeks, to Mrs. Machel, of Botley, a blooming widow of 25, after a tedious courtship of one hour and fifty-nine minutes!"

BOB ANGEL'S NIGHT TRIP ON "OLD 93."

A crime had been committed in Mississippi. One lovely evening in May, as a rosy twilight was stealing on, a little girl dragged herself to her mother's door. She had been gathering wild violets and yellow jasmine along the brook—a favorite pastime—and intended to decorate her mother's humble mantlepiece, but she had been gone a long time. Her large blue eyes were bloodshot, and a dark shadow appeared beneath them; her flaxen hair was disheveled, and the marks of brutal fingers stood out with inflamed prominence on her tender throat. She could not climb the steps, and called, *faintly and piteously:*

"Mother!"

The woman rose from her chair, dropped her scissors and spools, threw her work on the floor and gazed at her child, stupefied and horror-stricken. She caught her up and pressed her to her heart, *moaning:*

"My poor baby! my poor baby! O my God! my God!"

That night the child died—as dies a tender flower that has been plucked and crushed in a strong, cruel hand and thrown aside to perish. Lying there on *the couch she seemed as pure as a hope* of heaven, as beautiful as a dream.

A chilling horror fell like a pall on the people for miles around. Women, pale and frightened, left their homes to find better security in a neighbor's house, and they huddled together like sheep that know a wolf is near. Mounted men and men on foot were scouring the forests all night, and toward morning they brought in a negro. He was the criminal.

There is a crime that in the South ranks side by side with the foulest murder, both in the meaning of the law and in the hearts of the people. Female security is as powerful a principal as human life. But there is a difference. In the latter case it sometimes happens that a man escapes the gallows for a life-term in the penitentiary; in the former, there is the hands of the jury, or the rope, knife or pistol at the hands of a mob. There is no escape—death follows the footsteps of transgression.

The younger and more hot-blooded men insisted on a speedy termination of the tragedy, but other counsels prevailed. Here was a rare opportunity for a display of devilish skill, horrible ingenuity and cruel refinement. To hang the wretch would be commonplace and vulgar; to cut his throat would be butchery. These were the prevailing sentiments, and showed a feeling unyielding, unrelenting, and dark and unfathomable as perdition.

"Bob Angel goes down to-night, don't he?"

"Yes—on the 93."

"At 11:45?"

"At 11:45."

"I think we had better send him down on Bob's engine."

"Why?"

"Tain't worth while to palaver. You know Bob? He's very heedful."

The prisoner was held until the freight train pulled up at the station. When Bob Angel descended from the engine cab he was followed by his negro fireman. The latter had evidently just finished his supper, for he was wiping the grease from his shining lips and chin with the back of his hand, which he in turn wiped on his hips. He procured the oil can and torch and was "oiling up," as a long run between stations was ahead. This negro had a neck like a bull's; he was somewhat knock-kneed and had splay feet of enormous size; he was large and strong, and could crack hickory nuts between his teeth like a hog. His name was "Ole Bony," which, however, was not an abbreviation of Bonaparte. He was thus called because he disdained to eat the meat only of chickens surreptitiously obtained. He ate bones and all.

"I'll turn him over to Bony," said Angel; "not that I mind doing it myself, but Bony will enjoy it so much."

"Is he safe?"

"Safe! why, he'd rather do it than play his old fiddle or dance all night with his Dinah."

Bony was called aside and the crime revealed to him.

"An' dat's de nigger dar who tuck an' went an' done it, eh?"

"Yes."

"Whatcher gwine ter do wid 'im?"

"Well, you see, Bony, we're going to take him down on the engine, and I reckon you might let him get away, you know."

"Get erway! Whot faw?"

"You infernal thick-headed ape! I've a good mind to brain you with the monkey-wrench!"

"Oh! Oh! Hya—hya!" ejaculated and chuckled Ole Bony. "Jess lemme 'lone now 'bout er minute. Hit's mighty sudden, an' I wants to study de sitiwation. Oh! but fawn de Mas'sippi fo' de war we use ter do it elegant," and Bony's right hand came out of his pocket, his head went a little backward and to one side; the gesture was made with the palm outward, and expressed the most crushing and overpowering superiority. "Pulled out de crow-er-ways from de holes 'twix de cotton bales, tored dey shirts open ter-fore, an' ef de small-pox wus er-showin' up fine in de bresses, w'y, dey'd git er bath."

"Get a bath! How's that?"

"Now, jess lis'n at 'im—an' you tole me I is er thick-headed ape! You dunner how ter-holler de 'cussations uv my observations."

Bony went to one side and "studied the situation," pondering deeply. Angel eyed him closely, endeavoring to decipher every expression as an index of the thoughts that gathered under the woolly pate of the negro. Bony was sitting on the end of a cross-tie, his elbows resting on his knees, and his grimy fingers interlocked. He was bare headed, and he softly tapped the ground with his long feet slowly and alternately. His head was bent and his eyes were half closed. After sitting a few minutes he arose and shook himself like a dog that had been asleep. He looked grave, but as he had solved a difficult problem he could not resist the temptation to "cut the pigeon wing" for a few seconds on the platform alongside the track. After this he went to a telegraph pole and rubbed his back against it to disturb the operations of a flea between his shoulders.

"Hyah's me!" he said.

They gave him a bottle of whiskey. He took out the cork, smelled the liquor, climbed into the cab, opened the locker on the right side—his seat while on duty—extracted a small parcel containing brown sugar, and poured a considerable quantity into the bottle. He shook the mixture vigorously, and finally held it up to examine the "bead." The inspection seemed to satisfy him, for he drank deeply and smacked his lips with profound satisfaction. He then placed the bottle carefully in the locker.

The prisoner was placed in the tender in a sitting posture, his back against the pile of wood, and his face turned toward the locomotive. His hands were tied behind him, and his legs were bound together at the knees and ankles. A gag was in his mouth. Bob Angel pulled open the throttle-valve, and the train slowly dragged its length into the night; and all that could be seen of those left behind were two eyes that stared back at them from the last car. One of these eyes was green, the other red. They were the rear signal lights.

"I b'lieve I's de boss o' dis yere shop fur er while, ain't I, Cap'n?"

"Yes, I believe so," replied Angel.

Without another word Ole Bony went to the wood pile and commenced to pitch the fuel to the front of the tender. Having done this, he began to pile it up on the foot board, in two separate heaps. One contained the rich, resinous pine, and the other the oak and hickory. He then opened the fire door, and was throwing in the pine rapidly, as if his life depended on it.

"You had better mix it, Bony," suggested Angel.

"Ain't I er-runnin' o' dis yer engine?" retorted Bony, somewhat testily. "Ain't I de boss, anyhow? You jess keep yer eye to front, an' 'tee to yer own bizness."

When he had filled the fire box he rested, and amused himself by singing snatches of old plantation songs and breakdowns, as visions of the dear old fiddle arose in his memory, and at length sang melodiously:

"Chicken in de bread tray
Scratchin' out dough;
Granny, will your dog bite?
No, chile, no!"

He ceased, anxiously watched the steam guage, and then said:

"Golly! she's er-crawlin' up. Set dat air reverse lever back er couple o' notches. Hundred an' forty an' ain't blowin' off!—Set de pop-valve at er hundred an' fifty, an' let 'er rip! Shove in de throttle a little bit—we's gwine down hill like er-sulled sister gittin' 'ligion."

He again opened the fire-door, and found the pine being rapidly consumed, the flames seething and roaring. He threw in the oak and hickory, the pine having sunk to give it room, and resumed his seat, remarking:

"Hot 'nough freckly ter roast er hog purty quick."

In a few minutes the train was approaching Chickasawhay swamp. Ole Bony said:

"I spec' she's gitt'n dry forred—kin feel 'er er-bumpin' er little. Take de can an' go outside an' tech up dem steambox valves. Drap er bit on de piston rods 'n slid'n rods, an'—an'—fore you go, dough, I wants yer ter help me tie 'im ter dat boa'd, kase he's gitt'n resty, 'n mout get er-way. De boa'd 'll keep 'im straight you see, an' he won't double hisse'f up 'n torment hisse'f ef he tries ter git er-way.—Hit 'll make 'im stiff like; you understan'. Keep a sharp lookout on de track, an'—you kin come back—in er-bout five minutes."

The helpless prisoner was secured to the board as Bony directed, and Angel crawled through the window—neglecting, however, to take the oil can; but that was no matter. Ole Bony had thrown in more pine, and the locomotive was belching forth a cloud of black smoke which trailed out over the train like a tail of an inky comet. The glaring, staring, Cyclopean eye of the engine was boring and tunneling through the darkness, plowing a path through the night for the passage of the head and body, to which it belonged. Looking backward, Bob Angel saw a vision that made his heart stand still, and he grasped the hand-rail more firmly, that a sudden sickness might not cause him to fall.

This is what he saw: The fire-door had been thrown open, and the intense light therefrom streamed upon the black cloud of smoke, and upon the dense foliage by the wayside, as upon a screen on which would be projected the shadows of interposing bodies. And he did see strange shadows, magnified into gigantic proportions—frightful shadows they were, that surged through the forest or were suspended in the smoke. It seemed to Angel that the gate of hell was open, and that the shadows he saw were made by demons dancing before sulphurous flames and reveling in a saturnalia of blood.—One demon, larger and more frightened than the others, ten times as ferocious, a thousand times as hideous, with short legs and gigantic body, with a round head, and neck like a bull's, with arms as long as the wings of a windmill; this monster, this king among demons, seemed to have just returned from earth, for he bore in his arms what might have been a human soul, lashed to a board. It seemed from the shadows that he laid his helpless victim at the edge of the opening through which issued the blinding rays from the unquenchable fire, and that he raised his arms in wild exultation, as though invoking the blessings of Satan for having performed his work so faithfully. The monster, while every muscle and bone seemed to expand into distended proportions, grasped his burden and raised it aloft—the flames seemed to roar and crackle hungrily, and gape longingly for the soul they were to devour. The brilliancy of the light was suddenly obscured. Something must have been thrown through the orifice—through the gate of hell—but the intensity was immediately resumed, displaying the demon leaning over, his great, naked arms stretched across the opening, as if to be reaching to close the gate; then suddenly the shadows became confused—some toppling and falling to the ground, others chasing each other beyond the vision into the forest—and all was darkness again.—*San Francisco Argonaut.*

NAVAL ARCHITECTURE.

Senator McPherson, of New Jersey, in an able speech last week delivered in the Senate of the United States, clearly set forth the outrageous public plunder that has been committed in regard to Naval affairs.

Being a member of the appropriate committee, he spoke by authority, and the figures he gave are astounding.

From June, 1865, to June, 1877, which period covered the prodigal administration of President Grant and the bare-faced operations of Secretary Robeson, the enormous sum of $416,785,272 was extracted from the Treasury in the name of Naval expenditures, and for no practical utility, competent examination proving that only about one-third of the vessels composing the Navy were capable of firing a gun, and many of them not safe to venture into rough water.

Four hundred and sixteen million dollars, or one-sixth of the national debt, filched from the public funds within a period of twelve years of peace for the ostensible purpose of building, re-building and repairing an American Navy.

Nearly *thirty-five million dollars* a year of tax-payers money worse than wasted.

$34,732,000 *per annum!*

WHERE DID IT GO?

There is no Navy left behind worthy of the name.

A single instance of the Grant-Robeson style of doing business will give color to the whole:

Those patriots resolved to build an iron-clad and call her the "Puritan:"

The original cost was	$1,974,622
Then before she had seen service, they paid for repairs	491,030
And then, to *complete* her, they made contracts for	1,621,342

Making a total cost of $4,086,994 for a worthless hulk intelligent officers declare *will not float*.

That is a specimen plank.

How do you like it, honest men of New Jersey!

THE MAYOR'S VETO.

The message of Mayor Harper, vetoing the new poor ordinance, which may be found in another column, will strike every unbiased and just-minded citizen as a most complete and sensible document, thoroughly and satisfactorially settling the matter under consideration. The writer very truly remarks that "in legislation as in mechanics, there is danger of erecting machinery too ponderous for utility," and the ordinance he refuses to sign is merely a lengthy document that calls for unnecessarily repeated oaths and followed provisions that serve only to bring upon the city more cost but no greater protection.

The violation of his own right to nominate whoever he thought best qualified to fill certain offices, the writer speaks of in terms of dignified deference but also in such decisive sentences that the Common Council cannot in justice feel otherwise than that they have overstepped the authority they exercise.

THE MONEY ELECTION.

Per resolution passed at last meeting of Common Council, the "Money" Election has been postponed from April 20th to April 27th, and the amount asked for reduced from $5,000 to $2,500.

There has been of late years a fearful squandring of public money, from local governments up to that of the United States, waste and corrupt jobbery having run riot. It probably would not be an unfair estimate to place the amount of such criminal cost at one-third of the aggregate disbursements, and when the fact is remembered, that government funds are mainly derived from taxation, either direct or indirect, the vast saving prudent economy and official integrity would secure to the people becomes plainly apparent. Therein exists the ground work for practical reform. No good citizen will object to paying for whatever is absolutely necessary to promote and protect the general welfare, but beyond that every one should protest both by word and vote.

When the Tweed robbers were discovered the New York Democrats waged war to the hilt against the entire gang, lodging the "boss" in a felon's cell. Notwithstanding all that, the Republicans unjustly and coarsely denounced the whole Democratic party, because a few of its prominent members had been officially dishonest. Now, when some high toned Republican gentlemen are en-route for the State Prison, mute as mice are their fellow partisans. It remains to be a truth of history, that office-holding thieves are far, very far from being of one political name.

Counsel for Frederick Crill, sentenced to be hanged for the murder of his daughter, Mrs. Babcock, at Newton, Saturday last, succeeded in gaining a reprieve for three weeks from Governor McClellan, on Thursday. The sheriff said that if the sentence was carried out Crill would have to be carried to the scaffold, as he is very weak, both mentally and physically. He is over sixty years old, and it is said to be probable that he will not live three weeks. Crill cried when the news was told to him. Then he exclaimed: "Oh, I thank God! Now I am willing to go to Jesus."

The Democratic party is in favor of frequent, thorough and impartial investigation into the handling of public money, and the holding to rigid accountability of every official, consigning him, when proven dishonest, to the full penalty of violated law, no matter who he is, or what his political profession.

The mere thought of a third Presidential term for Grant, and a second Cabinet term for Robeson and Belknap, should be sufficient to alarm the most confiding tax-payer.

A SUIT FOR $1,000,000.

Rodman M. Price, ex-Governor of New Jersey, has brought suit in the Supreme Court of San Francisco against Squire P. Dewey, survivor of the firm of Theodore Payne & Co., to recover $1,000,000 alleged to be due from the defendants as plaintiff's agent. The complaint alleges that the plaintiff, in the early days of San Francisco, owned several pieces of valuable real estate in the city, which he intrusted to Erasmus D. Keys, Captain in the United States Army as agent; that Keys entered into a fraudulent conspiracy with Edmund Scott and the defendant to defraud the plaintiff of the property in question, and that Scott died in 1873. Accounting is asked from the defendant for the income and proceeds of all sales and conveyances held by defendant and judgment for $1,000,000 and costs.

A TAX COLLECTOR'S DEATH.

There was much excitement at Bordentown early Thursday morning last when news was circulated that the Collector of Taxes, G. Warner English, was dead. English, who has a family, arose at five o'clock, ostensibly to feed a cow and horse. An hour later, his son went out to summon him to breakfast, and found him, with a rope about his neck, hanging from a beam. His hands were in his pockets, and life seemed to be extinct. Efforts were, however, made to resuscitate him, but in vain. The dead man, who was about forty years of age, had been Tax Collector of the town for three years past, during which time he had made no settlement. The Township Committee have lately endeavored to force a settlement, but without success. A Citizens' Committee was appointed, and finally he agreed to raise five thousand dollars. It is said that he was unable to raise the money. He goes to the grave instead of to a prison, possibly, had he lived.

LOCAL DEPARTMENT—Continued.

Chautauqua Literary and Scientific Circle.

The first business meeting of the Local Circle of the C. L. S. C. in their new rooms in the Chautauqua Building, was held last Monday evening, calling together a large portion of the entire membership. The Chairman, Mr. Alexander Gilbert, presided and the principal matter that came up for discussion was the advantages for or against the identification of the Young Men's Christian Association with the Circle.

Dr. J. H. Vincent in opening said: "We are not here to-night for the purpose of studying Roman History or to discuss 'How to keep strong,' but to get the opinion of the members of the Local Circle as to whether we shall identify ourselves with the Y. M. C. A. by letting them the use of our rooms. If we do so the privileges of the members would be regulated by a joint committee formed by the committees appointed by the Y. M. C. A. and this organization, respectively. The members of the different organizations would probably have only the privileges granted by the associations they might belong to; and I think that by sub-letting a part of these premises we would lighten the load we have taken upon ourselves by the renting of the entire floor, and that we would not clash unless either should become heterodox—and then we might call on Brother Randolph or Gilbert or Hurlbut to set us straight. My voice is for union as far as practicable with independence."

Rev. J. L. Hurlbut followed: "It seems to me to be very desirable that there should be a unity in the good work, and that there should not be two organizations with the same aim, working respectively. If we have two associations and two libraries there will be a division, and I am in favor of a resolution that will tend to establish fraternal feeling and by the action of committees appointed from both organizations, a joint occupation of these premises may be brought about."

Mr. L. V. F. Randolph then offered the following:

Resolved, That this Circle appoint a Committee with power to co-operate with a Committee of the Y. M. C. A. for the purpose of securing a harmonious plan of action between the two organizations.

Upon a discussion of the question, Mr. Frank Marsh asked whether, upon the proposed identification being brought about, the properties should be seperate or under a united control.

Mr. Randolph replied: "The library we are about to start will more properly belong to the C. L. and S. General Circle but the Local Circle will have the use of it. As to future donations and gifts of books, their ownership can be arranged by those presenting them or by us at the time of their receipt. We begin with a library secured through the efforts of Dr. Vincent and it should be placed as he desires. Of course we may come into the possession of other property, but for a year or two it is hardly worth while to construct ourselves into too formidable an organization."

Dr. Vincent:—"The Circle will occupy these rooms and provide a certain kind of talent, so that from week to week or day to day, lectures on English Rhetoric, &c., may be enjoyed. The lecture committee of the Y. M. C. A. will look out for those things and members of the Local Circle will be entitled to their privileges. In regard to the books which I am enabled to put on the shelves, I would say that is not through my generosity but in this way: The publishing houses of Harper, Scribner, Appleton and others write to us asking for the list of our members, which numbers thousands of the *reading* people of America, but as these names are our private property obtained through our efforts, we decline to furnish the list, but say instead that we will enclose in our communications their circulars, thereby saving them great expense. In return for such service they offer to present to us a number of their publications, which we readily and thankfully accept. These books belong to the General Circle, but as they are sent to Plainfield the Local Circle have the benefit of them, and if thought best by the combined committees they can be placed in charge of the Y. M. C. A., 'C. L. S. C. Department.'"

Mr. James Mc Gee said:—"It is my earnest hope that a plan will be carried out to bring the organizations together, and I think the best way towards such result will be brought about by the resolution. Difficulties will present themselves in regard to the seperate libraries, but I see no difficulty that will arise to prevent the harmonizing of the Y. M. C. A., the Normal Class, the C. L. S. C., and the Local Circle."

The Chairman, Mr. Gilbert, said:—"I am in favor of the best plan that can be perfected for the solidifying of these organizations. They are calculated to enter, in their good work, all the homes in Plainfield, and I feel that together they will influence us to do more than we have done before. There is not a State or town where the books selected by this C. L. S. C., are not read, and I feel that Brother Vincent will never live to see the wide spread good he has done. Consequently, if this union with the Y. M. C. A., is the best thing for us to do, I want to see it done."

Dr. Hurlbut then called the attention of the members to one aspect of the case that had not been suggested. "I felt," he said, "a certain fear when the leasing of this floor was first talked of. I was afraid that the thought of the expenses we were under would frighten many away. I have known many associations that have been swamped by financial trouble, and although there are people ready and willing to see us safely through the first year or two, they might in time cease their assistance. Now we have an opportunity to take in another organization with us which will assume a large portion of the expense, and which would at some time (should we remain seperate) become a rival."

The resolution was then unanimously carried, and Mr. Randolph explained that he meant in proposing it that the committees appointed should remain in power for a time at least, co-operate, draft a plan and go forward to carry it out.

The Rev. Mr. Hurlbut then moved that a Committee of three be appointed by the "head-centre," to act with Mr. Gilbert and Dr. Vincent, and to constitute the committee from the Local Circle to confer with the Y. M. C. A., and that Mr. James Downs act as Secretary of the committee. This motion was carried, and Mr. Gilbert appointed later in the evening, Messrs. J. L. Hurlbut, L. V. F. Randolph and Wm. M. Burrows.

The Chairman then called upon Dr. Hurlbut for a five or ten minutes speech; and upon that gentleman responding that he did not come prepared to say anything, his hearers were warned by Dr. Vincent to "look out for a long speech." "There are a few things I would say" continued Dr. Hurlbut, "and one of them is that we ought to have more literary meetings. I think the committee we have just appointed should look through the plans that are in use in other places and decide on the best one for us to follow."

Mr. Mc Gee stated that steps had already been taken by himself and Dr. Vincent in the direction referred to. Miss Kate Sandford, daughter of Prof. Sandford, of Amherst College, had been engaged to deliver three lectures on the afternoons of April 27th, 28th and 29th, at four o'clock. No more tickets would be issued than the seating capacity would warrant, and they would be put at $1 each for admission to all three lectures of the Course. If the action of the committee should be as was desired, the receipts would be to the benefit of the Y. M. C. A.—but such matter was yet to be arranged.

Dr. Vincent moved that if the officers of the Y. M. C. A. decide to adopt the plan proposed, they be respectfully requested to favor the calling of the rooms the Chautauqua Hall. This motion was unanimously carried.

Some discussion then arose upon the suggestion of Mr. Gilbert that the members of the Local Circle pledge themselves to contribute ten cents a month or more, to the Y. M. C. A. Dr. Vincent, Dr. Hurlbut and Mr. Mc Gee suggested different ways in which good might be done in this direction; the latter believing that where the greatest success would result was from the interest that might be taken in the work. The proposed lectures would, he estimated, bring in a profit of $100 if all the tickets were taken.

Mr. Randolph moved that Mr. Frank Marsh be elected a Treasurer to assume power at once and begin to secure and receive such pledges and subscriptions as might be forthcoming. This being done, the new officer tried his persuasive powers on the gentleman making the motion, who contributed five dollars; and the meeting adjourned to afford a better opportunity for those desiring to follow the good example, to do so.

The Lady Gymnast's Reception.

The first public reception since the formation of the Plainfield Athletic Club's Classes in light gymnastics, was given on the evening of Thursday April 1st., by the lady members of the afternoon class. The efforts of both the Club and the Class had been so effective that a large audience were gathered together, composed of the best of the city's residents, and their enthusiastic and flattering applause showed how much in sympathy they were with the object of the work. The intention of the public exhibition was not to show how perfect the ladies had become in their exercises, but to afford their parents and friends an opportunity of seeing for themselves the methods of bodily culture that were being followed, and judging of their physical effect. The Class that took part in the entertainment of the evening included Mrs. S. C. Baker and the Misses Stella Whidden, Fannie Honeyman, Florence Taylor, Hattie Smith, Ursula Odio, Lizzie Taylor, Emma Demarest, Lillie Newman, Jennie Demarest, Ellie Demarest, Annie Gardner, Jessie Munger, Rachael Dosier, Florence Randolph, Ella Cornwall, Annie Binginer, Lulu Baker, Bessie Moore and Margie Weaver. The piano music was given by Miss Sophrosia Demarest and formed a most important part of the exercises, while the singing kindly volunteered by a member of the Class was a pleasing portion of the entertainment. After a preliminary encircling of the room in single file the Class took their positions on the foot marks, and the first exercise of the evening was given in single posturing. With no other direction than the music, the ladies went through the different positions and changes with remarkable unison, and the spectators were afforded an opportunity of witnessing a series of postures that could have no other effect than to impart extraordinary grace to the participants and to bring into healthy activity parts of the body that are not sufficiently exercised during the ordinary course of daily action. The single and double-wand motions followed, which called for the graceful charging exercises and the working of the members in couples; while the rings that were afterward formed showed one of the most beautiful of the ideas carried out by the methods followed. The double posturing, however, was to the interested audience the most enjoyable of the different features, and showed plainly how intellectual a class had gathered together. In spite of the fact that hardly two months had elapsed since its formation, and Prof. Burnham in that time had been in attendance but once a week, the class in pairs went through the intricate and really difficult positions with wonderful perfection. Undirected by their instructor and with no leadership to follow, the exercises were carried through without a break; and the placing of Misses Jennie and Ellie Demarest prominently forward in order to show to what graceful perfection the postures could be brought, did not lead the attention of the observer from the fact of the proficiency of the other members. The foregoing exercises having called for the most strict attention, a relief was given the Class in the Pin Races, Marching, Running and Tugs of War that followed. The former were closely contested except in the first trial, which Miss Bessie Moore won most effectually, (a golden-haired little lady, whose beautiful work in the other exercises had already been greatly admired); the other two victories being awarded by the judges to the Misses Jessie Munger and Lillie Newman. The posts in the centre of the room and the cramped space that owing to the large audience was left free, greatly interfered with the marching figures of the class, but its evolutions served to show what it possessed the ability to accomplish under more favorable circumstances. The tug-of-war was a feature new to both the class and its friends, but none the less interesting on that account; and as usual under the rules of Judge Burnham was, after three trials, decided to be a "draw". At the close of the exercises and upon the withdrawal of the audience, those who had been favored with an invitation to stay joined in a social dance, and the "First Reception" closed most auspiciously.

The April showers (?) of the past few days had a remarkable effect upon the grass and growing grain, giving them a bright green hue.

Sportsmen (?) of New York State, or city (?) don't seem to like the law enacted by our last State Legislature regarding the prohibition of Summer woodcock shooting; also the prohibitory laws regarding non-residents. Well, our true sportsmen should feel glad that there is a pinch in the shoe somewhere, and should teach such "foreigners" that there is law and justice in New Jersey, if they violate the law.

COMMUNICATED.

For "The Constitutionalist."

MESSRS. EDITORS:

In your paper of last week you notified the citizens of Plainfield and surrounding country that the tobacconists of this city had combined together to raise the prices of tobacco and cigarettes, and had agreed upon a price list. Now I am one of the principal tobacconists of Plainfield, and I have refused to go into any combination to raise prices or to sign any papers to that effect. My reasons for refusing are that I see no cause why the price of tobacco should be raised, or why the people should be made to pay more for goods than the goods are worth. I believe that good goods ought to be sold cheaper in Plainfield than in the surrounding country, in order to bring plenty of trade to the town and make Plainfield a business centre. The tobacconists of Plainfield have combined and put up the prices. They will have nobody to sell their high priced tobaccos to but their neighbors. Men who are busy all day helping to build up Plainfield, who earn their money by hard knocks, and have not the time to seek elsewhere, for good tobaccos at low prices,

JOSEPH A. PATTERSON,
Tobacconist, Front Street.

For "The Constitutionalist."

MESSRS. EDITORS:

Our attention has been called to a communication, published by Mr. Joseph Patterson, of this city, the intention of which is to lead the public to believe that all other Tobacconists have raised the price of their goods and are charging more for the different brands than he is. As members of the Retail Tobacco Dealers Association, of this city, we feel that a reply is demanded, rather for the purpose of placing the matter before our customers in its true light, than to answer a person whose unbusinesslike dealings puts him beneath our notice.—The Association, which we have formed, is for the main purpose of enabling us to bulk together our orders for certain lines of goods, which are bought in quantities, and a larger discount thereby secured.—We are thus able to keep our stock always fresh, for in the case of one man buying alone he is compelled often to purchase a greater quantity than he can dispose of within a reasonable time, and his customers have stale goods forced upon them. As to the question of a raise in prices, we would say that out of a list of 69 articles, 5 have been *raised one cent* each, and as we have been impelled to do this in justice to ourselves we feel that the trade of a man who would deal elsewhere on account of a raise of *five cents on a total of about seven dollars*, is not worth endeavoring to retain. On the other hand many brands have been lowered in price.

REMOVAL.

The Constitutionalist Office has been Removed to Vanderbeek's "Chautauqua" Building, Cor. Park and North Avenues.

ELIZABETH has 144 licensed saloons.

SNOW squall, April 8th. Oh! Vennor.

THE rooms of the Ladies' Relief Association have been removed to the corner of Second Street and Madison Avenue.

THE large oval glass over the entrance doors of Reynolds' Pharmacy, cracked from some unknown cause Wednesday night last. *It will cost $50 to replace it.*

THE Rahway Democrats have placed in nomination for Chosen Freeholders the two present incumbents from that city, Messrs Crowell and Jewell. The election occurs next Tuesday.

ANOTHER marriage is on the tapis, and a prominent member of the First Baptist Church is to be the groom of the occasion which will rob the city of Baltimore of one of its leading belles.

SHERIFF Ryder drew the names of the petit jurors for the May term of court on Tuesday last. The jurors from Plainfield are Charles M. Vermeule, Abraham Angleman and Hezekiah Hand.

PROF. Geo. Dodworth has closed his dancing school in the Young Ladies' Seminary building, for the season, which has been a most successful one. He will re-open his school here next October.

EX-STREET Commissioner John Wilson will take possession of the Johnston Farm Milk Dairy, Monday, April 12th, and will continue to furnish our citizens with pure milk produced from that well-known Dairy.

COMMON Council still keeps on granting permission to applicants to build wooden extensions to buildings, and thus increase danger by fires, despite an Ordinance to the contrary. The Council of 1880 is a most remarkable one.

EDSALL & PRICE have [illegible] this week is a change of their adv. which states that they have just received a large assortment of Spring Goods, Table Linen, Napkins, Spring shades of gloves, etc. etc. The ladies will bear this in mind.

THE taking of testimony in the Building Loan suits is progressing slowly, much to the satisfaction of the counsel retained. The direct and cross-examination of Messrs., Bachman, Hetfield and others have been occupying the time this week.

PLEASE excuse the weary editor for any lack of local or other news in this issue of THE CONSTITUTIONALIST. If the reader ever has to go through the "course of sprouts," *i. e.*—moving a printing office, as we have, the past week, he would ask for the same grace.

LILIENSTERN, the Clothier, is now comfortably located in his new quarters, No. 22 West Front Street, and displays as fine a stock of goods as can be found in the city. Lilienstern's prices are always low and his goods of the best quality. He invites a call and inspection.

MR. J. MORRIS, the veteran dealer in horses, will arrive in New Brunswick on the 10th of April, direct from Canada, with 40 good horses, consisting of trotters, drivers, workers and some elegant ponies for ladies' use. He will offer them for sale at his stables in the above city.

"OH! my prophetic soul," said Shakespeare and Vennor. Again has the latter predestined the coming weather and announced that during the month of June we are to experience some beautiful days. Let scoffers wait till then before they say the Canadian prophet was never right.

AT the late election of elders of the Crescent Avenue Church held last Friday evening, Messrs. Wm. H. Sampson and C. E. Tyler were re-elected, receiving 70 and 50 votes respectively. The place of Mr. J. Hervey Ackerman who resigned, was filled by the election of Capt. Wm. B. Ostrom by 60 votes.

JOHN MEEHAN, the veteran awning maker, of 123 Liberty Street, New York city, whose advertisement appears in THE CONSTITUTIONALIST this week, has put up several handsome and substantial awnings in our city, among them those of Messrs. Jerome Pask, John Rafferty and John H. French.

WILLIE, a son of Ex-Councilman S. C. Ryder, met with a mishap on Tuesday last, at his employer's store in New York, Mr. Henry Squiers, Courtlandt St. In reaching over a barrel to get some kindlings, the point of a ramrod, which was standing upright in the barrel, struck him just under one of his eyes, inflicting a painful wound. A little higher up and he would have lost an eye.

MR. Benj. A. Mumford, Real Estate Agent, office opposite the depot, has some 300 fine stereoscopic views of houses in Plainfield, which are open to the inspection of the public at his office. With the use of the stereopticon they show the fine dwellings to a great advantage and enable parties desirous of renting or purchasing property a facility rarely offered in the Real Estate business.

IT is seldom we are called upon to make a correction of any statement appearing in our columns, but last week, consequent upon the tumult arising from removing our quarters, an error crept into our columns which should be corrected. It was not Mr. Smith, the mason, who removed to No. 71 Park Avenue, but Isaac Melbourn, the mason. The similarity (?) of names must have occasioned the mistake.

BORDENTOWN, New Jersey, must be inflicted with a Councilmanic body similar to that of Plainfield in 1874, they having refused to grant licenses to all saloons and hotels, and in consequence the same are closed to the public. The charter election comes off however, next Monday in Bordentown, and it is a safe thing to bet on that the same result will follow as that occurring in Plainfield, when the terms of the prohibition (?) Councilmen ceased—they were "bounced!"

THE bridge over Green Brook at Raymond Avenue is in so lamentable and dangerous a condition that it demands the immediate attention of whoever is to blame for its present state. It is hardly strong enough to be walked on and if during the pleasant weather that is coming, a lady in ignorance should attempt to drive over it the probable consequence would be a loss of life. It may be an individual matter or controlled by the two Counties; nevertheless it should be repaired or closed up at once.

The Saengerbund Concert.

As prophesied in these columns of last week, the concert to have been given by the Plainfield Saengerbund for the benefit of the Ladies' Relief Association, has been indefinitely postponed. Further facts in relation to the matter, and the causes that have unfortunately brought about the failure of the intention, are subjects that do not concern the public and will not be discussed in this paper. Members of the two associations will understand from this our reasons for not acceding to their desire that we should publish the entire facts of the matter, and also why we decline to present to the citizens of Plainfield through our columns the array of documentary evidence that they have so kindly placed at our disposal.

An Appreciated Compliment.

In speaking of the completion of Vanderbeek's new Chautauqua Building, our cotemporary, the Times, says: "And last but by no means least, the Force Bros, who get the cream of the situation—cream is always on the top—have found a home for their newspaper and job office in the upper story. In addition they will have a fine suit of offices on the first floor and an ample press room in the basement, or, in short, they will have as complete accommodations as any country newspaper can boast of."

Marsh—Morris.

At the residence of the bride's father, E. L. Morris Esq. on Third Place, was performed Thursday morning by the Rev. Wm. Manchee, the service of marriage that united Dr. Seymour Marsh and Miss Cornelia De Witt Morris. After the ceremony the happy couple took the 11:34 train for New York and thence to Jamaica L. I., where they joined in the celebration of the golden wedding of the groom's parents, Dr. S. N. Marsh and Jane A. Wentworth, who were married on April 8th, 1830. This affair was a most interesting and enjoyable one, and called together the many relatives and friends of the venerable pair, numbering among them prominent and well-known citizens of our Country. At the close of this reunion the younger Mr. and Mrs. Marsh left for Washington and an extended bridal tour through the South. Both parties are well-known residents of this city; the groom being a surgical practitioner of great repute in New York, while the bride has long been one of the most admired of Plainfield's belles.

The Young Gymnast's Reception.

The first "job" done in THE CONSTITUTIONALIST Steam Printing House was the tickets for the reception and exhibition to be given by the master's class of the F. A. C. Gymnasium on the evening of Thursday, April 15th. The proficiency reached by these young gentlemen during the past month is a surety of their ability to provide a most interesting entertainment, and we would advise their friends to secure the tickets they want at once, as only such number has been issued as the hall will comfortably and conveniently accomodate. The exercises will be of the same order as those so much enjoyed at the late reception of the ladies, but entirely different in style of movement and appurtenances; while the pyramids and other new features will add greatly to the interest of the occasion. Members of the class are now ready to provide all who desire to purchase tickets, or they may be had by applying at the rooms of the Club during the day or evening.

Plainfield's Democracy.

A meeting of the Plainfield Democratic Association was held last Tuesday evening in their new headquarters over the former location of the City National Bank, to elect officers for the coming year under the new Constitution and By-laws. Mr. James E. Martine occupied the chair with Mr. James O'Neil acting as Secretary, and a large number of prominent Democrats were present. The balloting resulted in the unanimous choice of the following gentlemen to occupy the respective officerships: President, James E. Martine; Vice Presidents, Nathan Harper, 1st Dist., Karl T. Polak, 2d Dist., Joseph W. Yates, 3rd Dist.; Treasurer, Ephriam H. Depew; Recording Secretary, Louis F. Wadsworth; Corresponding Secretary, James O'Neil.

The new rooms of the re-organized Association are most convenient and comfortable ones; neatly furnished and with the periodical literature of the day on file; and may be found open every evening where all members of the party are cordially welcome. The Democratic *victories which are plainly in store for them* during the coming campaign, have infused additional spirit into this undaunted party, and with the sympathy of the most intellectual and able citizens of Plainfield to back them and their influence to assist them, they will at the proper time do their share towards placing in power the nominees of the Democracy.

Fire Board Meeting.

The Fire Board met in regular meeting last Wednesday evening; present Messrs. Pope, Van Winkle, Jones, Steiner and French. Mr. Jones reported that he had visited, with the Chief, the two wells on Second street that had been covered up, and found them to be from 6 to 8 inches below the present level of the road bed. When inspected last Spring they were even with the grade; and he thought the city should be notified that they must raise the covers. In regard to the Jackson Avenue well he would call the attention of the Board to the fact that the cover had not arrived and the opening was dangerous.

The Committee on Wells were instructed to procure flagging with which to lay over the opening until the cover arrived.

The President reported that the Committee on re-insurance had placed the following risks on the property of the Department, in the German American Insurance Co., Engine and Truck House on Second Street, $4,000; No. 2's House on Front Street, $2,000; No. 3's House on Somerset Street, $1,600. Report received and the Committee discharged.

The annual report of the Treasurer was then read and referred to an Auditing Committee composed of Messrs. Jones and French. Ordered published in the papers of the city and printed on slips for general distribution.

The following new members were elected: Warren No. 3, Wm. Feibel and Geo. Braun; Engine No. 2, Robert Skinner, John Burns and Horace Sherwin; Alert Hose, H. M. Stockton; Zephyr H. & L. Co., Charles Theirs.

The meeting then adjourned until Wednesday evening, April 21, at 8 o'clock.

The Crescent Avenue Church.

At the close of the usual services of the Crescent Avenue Church last Sunday morning, the Rev. John C. Bliss formerly withdrew his resignation as pastor of that congregation and with much feeling read to his hearers the causes that had led to the presentation of the resignation and the reasons for its withdrawal. He stated that even after such a large majority had expressed by their ballots their desire that he should remain, and by the same means the discontented were shown to be of so small a number, yet he still felt that the counsel of unbiased outsiders among the thinking people of judgment, should be taken. He then read a communication from the Trustees which expressed their unanimous opinion that it was not for the best that he should resign, which communication had been sent to the Session who had returned it to Dr. Bliss with their cordial and hearty endorsement of its sentiment. In conclusion he sincerely thanked those who had proven their love and shown their sympathy for him.

During the services the pastor preached a most interesting and instructive sermon on a minister's duty to his people and the way his congregation should regard him. If there were those among the hearers who did not like the sermons that were preached to them they should not discuss them, but remember that possibly there was something wanting in their spiritual condition, and its absence predisposed the fault that was not in reality present. All should judge their pastor by his life, acts and work, and not by his eloquence or fame; then if there were any who could not feel satisfied they should peaceably change their relations.

LAST evening the Congregational Church of this city was officially recognized by the Newark Council, and the Rev. Wm. Manchee, publicly installed

Moved.

Last Friday morning after the regular issue of this paper, the employees of THE CONSTITUTIONALIST, with such assistants as could be secured, commenced the moving of the presses, type and numerous appurtenances of this office, from its old quarters to its new rooms in the lately completed Chautauqua Building. An account of the consequent labor necessary and the mishaps that usually occur upon the occasion of a removal, would not be interesting; and we would merely announce that we are established again and ready for work, with new office conveniences and extra printing facilities. Many thanks are due to Mr. Peter Rickert for the efficient manner with which he and his men and teams assisted us, and we cordially recommend his services to those who desire their household goods removed with care and expedition. A description of the building which we partly occupy, we reserve for a future issue, and would herewith sincerely and heartily invite all to make a personal inspection of THE CONSTITUTIONALIST'S Steam Printing House. The business rooms of the establishment, on the *first floor*, No. 1 Park Avenue, (next to Flagg's Hotel) will be occupied by us as soon as carpenters and masons get through with their work.

Faithful Service Rewarded.

At a parish meeting of the First Presbyterian Church, held last Tuesday evening, the occasion was made unusually interesting by the presentation of a handsome marble clock to Wm. H. Shotwell, Esq., of North Plainfield. That gentleman having occupied the position of Treasurer of the church for the past twenty years and more, and his services having been so efficient and satisfactory, the members felt a sincere and hearty desire to express their appreciation of his worth and their obligation in some substantial way. Consequently the presentation of the handsome token occurred. The pastor, Rev. E. P. Ketcham, made the presentation in the name of the Church and in a few sincere and heart-felt words testified to the appreciation of all of the obligations they were under to the receiver. The occurrence was such an unexpected surprise to Mr. Shotwell that he was at a loss, for appropriate words to convey the intense feeling of satisfaction that the proof of his fellow-members kindness called forth. A guilty conscience led him to intimate that the present of a clock was to remind him that he should not be late at church again; whereat the pastor warned those of the congregation who were tardy in their attendance to be careful that the same punishment was not put upon them, and the meeting closed with mutual good-will and kind feeling.

NORTH PLAINFIELD PARAGRAPHS.

It is with pleasure we learn of a change for the better in the illness of Sheriff Van Liew. There is now strong hopes of his ultimate recovery. Byron M. Thornton, of Peapack, acts in the Sheriff's stead during his illness.

Collector Van Nostrand has started after delinquent taxpayers with a sharp stick, in accordance with the provisions of a law on the subject. Those in arrears must settle up at once.

FIRE MATTERS.

About half-past four o'clock on last Wednesday afternoon, the engineer of a coal train passing the house of Mr. Chas. Graves on short Second street, near Liberty Street, discovered smoke issuing from the roof, and whistled the alarm. The entire department turned out but found their services of no use, as the occupants succeeded in checking the conflagration before any very great damage had been done. The cause was a locomotive spark and the loss to the building was fully covered by insurance. The building was occupied by Mr. James Stage, an employee in the Potter Press Works. His furniture and carpets suffered considerably damage by water. No insurance.

At a meeting of Engine Co. No. 2, held on last Tuesday evening, the following gentlemen were placed in nomination:—Chief, Wm. H. Voorhees; First Assistant, John Chandler; Second Assistant, Frank Vail. Gazelle Co. also held a meeting the same evening, but made no nomination for Chief. Their choice for members of the Fire Board were, Messrs. Depew, Morris, Mayer and Jones. Warren Co's action was similar, while Alert Hose will continue to support their original nominations. Zephyr H. & L. Co. are yet to be heard from.

The following report of City Clerk was then read:

To the Common Council of the City of Plainfield:

GENTLEMEN:—The City Clerk respectfully submits the following statement of moneys received by him to date from the issue of licenses [illegible] approved by your Honorable Body to [illegible], expressmen and hackmen:

[illegible]

Total [illegible]

The above amount has been paid into the City Treasury, as verified by the accompanying receipt of City Treasurer.

D. S. LEONARD,
City Clerk.

Plainfield, March 31, 1880.

On motion, filed.

The Clerk then read the following com'n from His Honor Mayor Harper:

To the Honorable the Common Council:

GENTLEMEN:—I sincerely regret that the cherished hope of closing my official term without again differing in sentiment with the Common Council, must be abandoned.

I have bestowed careful consideration upon an "Ordinance to provide for the relief and support of the Poor of the city of Plainfield," adopted by your honorable body 15th inst.

It is a voluminous document, and, no doubt, possesses some desirable features, but, as a whole, I cannot avoid thinking that it is far too extensive for the needs of a small municipality like Plainfield. It appears to me the plain and practical Poor Ordinance of August 12th, 1879, with, possibly, a few amendments or additions, is all the public good demands. In legislation as in mechanics, there is danger of erecting machinery too ponderous for utility.

The general tenor of the ordinance before me evidently regards honest poverty more as an offense than a misfortune, and the oaths it prescribes for honest tradesmen and officials are [illegible]. But, aside from those and other objectionable features, it contains a clause which, in my humble opinion, destroys its claim to legality.

Section 2 conditions as follows:

"If any such nomination (Overseer of the Poor) and appointment shall, upon vote thereon of the Common Council, be not confirmed, or in case any vacancy in the office of Overseer of the Poor shall occur at any time, it shall be the duty of the Mayor to nominate to the Common Council, and subject to its approval, appoint, at each succeeding regular or adjourned meeting, a different person for Overseer of the Poor, not before nominated for that office during the then current year, until a nomination and appointment for that office shall be confirmed."

The foregoing extract is the duplicate language of an Ordinance entitled "An Ordinance to regulate the appointment and tenure of office of the Appointable Officers," adopted December 3d, 1877, and in reference to which, on March 3d, 1879, I addressed a communication to the Common Council worded as follows:

"The Mayor derives his vested rights from the same sovereign act of the Legislature that created the Common Council and the City Judgeship. It is the duty of the Mayor to nominate to the Common Council whoever he deems best qualified to fill certain offices, and it is incumbent upon the Council to confirm or reject such nominations, wholly or in part, as that body may think proper. The Common Council in adopting the Ordinance above recited, arrogated to itself powers not delegated by the charter, and possessed no more lawful right to dictate to the Mayor who he shall not nominate, or at what meetings he shall continue to send in nominations, than it had to frame and ordain decisions for the City Judge."

Entertaining as I still do those expressed views, I am compelled to herein re-assert them.

With all due respect, gentlemen, permit me to add, that I am unable to discover any competent authority in the Common Council *to establish nominating rules and regulations for the Mayor*. That officer is by the Charter made a co-ordinate branch of the City Government, and indued with the right of independent and deliberate judgment in the matter of appointments, which a proper discharge of official duty bids he should exercise firmly and to the best of his ability. Any Ordinance that presumes to curtail that Executive prerogative, in the way of arbitrarily directing the Mayor, regardless of his sense of propriety and the public welfare, after a nomination has been once made by him and rejected by the Council, *to keep on sending in the name of a different person at each succeeding regular or adjourned meeting*, until some one is confirmed, I must hold to be contrary to the superior law of the charter, and therefore devoid of validity.

I am prepared to yield obedience to all the lawful powers and privileges of the Common Council, but cannot consent to the surrender of a single one belonging to the Mayoralty.

The Ordinance is respectfully returned without approval.

NATHAN HARPER, Mayor.
Plainfield, March 23d, 1880.

Mr. Lithgow moved that the Ord. pass notwithstanding the objections of the Mayor.

Mr. Redfield thought that the Ord. should go to the Law & Ord. Com., as a question of law was a noticeable point in the Mayor's veto.

Mr. Whiton thought that the com'n of the Mayor should be treated with all due respect, &c., and if it was the wish of the Council to have the matter referred to the Law & Ord. Com., he had no objections.

Mr. Flanders thought that careful consideration should be had in the matter.

After some further discussion, Mr. Lithgow withdrew his motion, and Mr. Whiton moved that the Mayor's objections be referred to the Law & Ord. Com. with instructions to report at next meeting of Council. So agreed to.

Mr. Redfield, from Alms Com., reported as correct, the following claims: A. V. Searing, $94.50; D. Hand, $72.84; Raritan Township, $11.75; J. S. Cutter, $119; Plainfield Relief Association, $65.47. Ref'd to Aud. Com.

Mr. Whiton, from Finance Com., reported back as correct, bonds of Collector L. E. Clark and Constable Amos Moffett. Received and filed.

By the same—That the claims of Wm. Swalm—one for $125—services as Com'r in the matter of Linnfield Ave., go to the Law & Ord. Com. for investigation, and a claim of $55, Com'rs services in the widening of Park Ave., be paid, the amount to go to Collector L. E. Clark in settlement of his (Swalm's) taxes. Report accepted, and recommendation adopted.

By the same—The following:

Resolved, That the City Judge be and he hereby is required forthwith to issue to Chas. W. Dodd, one of the policemen of this city, who is hereby designated as the officer to receive and execute the same, his warrant for the collection of all taxes in arrears;

Resolved, That all resolutions or parts of resolutions which conflict with this resolution, be and the same are hereby rescinded and revoked. Adopted.

By the same—Monthly statement of the finances of the city, as follows:

J. M. W[illegible],
Chairman Finance Com., Common Council.
Plainfield, April [illegible], 1880.

Received and filed.

Mr. Darling, from Com. on Fire, Water & Lamps, reported as correct two claims of N. Y. & N. J. Globe Gaslight Co., $224.26; Plainfield Gaslight Co., $840.50. Ref'd to Aud. Com.

By the same—That permission be granted to L. B. Woolston to erect an addition to the [illegible] office, situate on North Ave.

Mr. Lithgow thought that no more petitions of this nature should be granted.

Mr. Darling thought that no danger would arise in granting this petition.

After some further discussion, permission was granted, Mr. Lithgow voting in the negative.

Mr. Lithgow, from Law & Ord. Com., reported verbally that the amendment to the License Ord., relative to licenses commencing at a certain time, was correct, and moved that it be passed. Action deferred until later in the evening.

Mr. Rushmore, from License Com., reported favorably upon petition of E. W. [illegible] for Truck license. On motion, granted. Also, petition of Peter Rickert for Truck license. Granted. Also, petition of L. J. Marshall for Hack license. Granted.

By the same—That a bar at Nos. 24 and 26 North Ave., was not a proper place for the disposal of liquor, and would therefore recommend that the license of W. L. Deas be not granted. Adopted. All aye.

By the same—That no further evidence had been adduced in the alleged selling by E. P. Thorn of liquor to a minor, and should it be done, the license could be revoked; he would therefore recommend that Mr. Thorn's license be granted. Upon the yeas and nays being called, the license was granted, as follows: Yeas—Darling, Lithgow, Potts, Rushmore, Redfield, Whiton—6. Nays—Coriell, Dunlap, Flanders, Ryder—4.

By the same—That the cards and badges for licensed hackmen were now ready.

Mr. Redfield wished to be informed if any changes had been made in the State law relative to the licensing of Hacks.

The Pres. informed Mr. Redfield that the Corporation Counsel was investigating the matter.

Mr. Flanders, from Com. on Printing & Stationery, reported correct claim of M. Estil, $24.26. Ref'd to Aud. Com.

Mr. Ryder, from Salary Com., reported the following claims as correct: C. W. Dodd, $2; Henry Hamilton, $22 50; J. VanWinkle, $75; Geo. P. Suydam, $75; O. B. Leonard, $58.34; Nelson Runyon, $75; J. S. Cutter, $77.11. Ref'd to Aud. Com.

By the same—That all arrangements for the holding of the coming "Money" election, had been made.

At this point, considerable discussion was had in reference to the mud on South Ave., particularly at the corner of Leland and South Aves., by Messrs. Darling and Coriell. All that the residents in the neighborhood above mentioned wanted, Mr. Darling said, was that the Avenue be put in the condition that it was last Fall. The Pres. announced that the St. Com. would give the matter their attention.

Mr. Lithgow moved that the judgment of D. J. Marshall against the city, which amount is $342.46, have a warrant drawn for its payment. Agreed to. All aye.

Mr. Whiton moved that when Council adjourn, it adjourn to meet two weeks from to-night. Carried.

Mr. Redfield called up the two remaining nominations of His Honor the Mayor, viz: H. H. Lowrie, City Physician, and T. J. Gillies, Overseer of the Poor, for action thereon. Upon a ballot being taken, H. H. Lowrie received a unanimous vote, and T. J. Gillies, 8 for and 2 against. The Pres. announced their confirmation.

Mr. Dunlap, from Aud. Com., reported correct the following claims from the General Fund: O. B. Leonard, $58.34; J. S. Cutter, $77.11; Nelson Runyon, $75; Henry Hamilton, $22 50; J. VanWinkle, $75; Chas. W. Dodd, $2; Geo. P. Suydam $75; Geo. M. Angleman, $298 50; Wood & Hall $9.12; J. H. French, $3; Runyon & Leonard $67 25; E. O. Chamberlain, $6. Report received and warrants ordered drawn for the several amounts. All aye. The following, as correct, from the Poor Fund; Henry Grube, $4; Alex. Willett, $2.50; A. M. Runyon, $17; Woman's Christian Temperance Union, $5 20; J. L. Rolston $15 90. On motion, claims laid upon the table—no funds available.

Mr. Whiton, from Finance Com., reported that unless funds could be procured, the lamps would have to be shut off; he had hoped that this would not have to be done. The Finance Com., see no other alternative, &c.

Mr. Darling hoped that nothing of this sort would occur this year; it will injure our fair city. He thought the chances of getting the $5,000 were very slim; if $2,500 was asked for, he thought it would be voted. He was in favor of rescinding the $5,000 resolution and making it $2,500.

After some further discussion, it was, on motion of Mr. Whiton, moved that the amount in the present resolution, viz., $5,000, be stricken out, and that $2,500 be substituted therefor, and that the date of the election be changed from April 20th to April 27th, and also to strike out all reference to streets. Adopted. All aye.

Mr. Whiton wished to make a statement concerning references made by two papers of this city relative to license of Jas. H. Force, charging them (statements of the papers) as wilful misrepresentations. Mr. W. voted, he said, against Mr. Force's license because it called for a Hotel, and he did not believe in voting to make a man a present of $100 to keep the largest saloon in town.

Mr. Coriell moved that an appropriation of $300 be made for work on streets, to be under the supervision of the Street Com.

This resolution called forth considerable discussion. Mr. Lithgow wanted to know if Mr. Coriell could not wait until after the "Money" election, as the funds were so scarce, &c. Mr. Darling thought that the streets should be fixed right away, and in his opinion $500 would not be too much. Mr. Lithgow asked if they (the St. Com.) could not get along with $150. Mr. Rushmore hoped that the amount of $300 would be appropriated, as some of the streets were in a bad state. After further discussion, Mr. Coriell's res. prevailed. All aye.

Mr. Flanders wished to have his amendment to the License Ord. put on its 2d reading. Read 2d time.

Mr. Whiton said he would like to amend the Ord. making saloon keepers pay for the advertising of their applications. He therefore moved that the Ord. be referred to the Law & Ord. Com., for an amendment similar to the one mentioned by him. So agreed to.

Council then adjourned.

Approved March 4, 1880.

CHAPTER LXXXVIII.

An act concerning cities.

1. "1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever any bonds heretofore legally issued by the board of chosen freeholders of any county in this state, under the authority of law, are now due and unpaid, or shall hereafter become due, the board of chosen freeholders of any such county may renew seventy-five per centum of such indebtedness, or any less part thereof, by the issuing of bonds for that purpose in the corporate name and under the corporate seal of any such county, signed by the director and attested by the clerk of the board of chosen freeholders of any such county; which bonds shall be made payable at periods of time not exceeding ten years from the date of issuing the same, and shall draw such rate of interest not exceeding six per centum per annum, and be issued in such sums not less than one hundred dollars nor more than one thousand dollars, as the said board of chosen freeholders shall by resolution determine, and which bonds shall have coupons attached for every year's interest until due, and which coupons shall be signed by the director of said board and attested by the clerk thereof, and numbered to correspond with the bond to which they shall be respectively attached, and all the bonds issued under this act shall be numbered and a register of such numbers, and the date of issuing, and the time of payment shall be made by the county collector or clerk of the said board of chosen freeholders, in a book to be provided for that purpose; which bonds may be sold at public or private sale for the best price which can be obtained for the same, but shall not be for less than the par value; and all the real estate and property within the county shall be liable for the payment of the principal and interest that may become due on the bonds to be issued by virtue of this act, but nothing in this act contained shall be held to permit any board to issue bonds, the legality of which is now questioned or contested in any court or this state or of the United States, nor shall it be held to interfere with or affect the renewal of bonds renewed by virtue of the provisions of any special act heretofore passed," be and the same is hereby amended so as to read as follows:

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever any bonds heretofore legally issued by the board of chosen freeholders of any county in this state, under the authority of law, are now due and unpaid, or shall hereafter become due, the board of chosen freeholders of any such county may renew ninety per centum of said indebtedness, or any less part thereof, by the issuing of bonds for that purpose in the corporate name and under the corporate seal of any such county, signed by the director and attested by the clerk of the board of chosen freeholders of any such county; which bonds shall be made payable at periods of time not exceeding twenty years from the date of issuing the same, and shall draw such rate of interest not exceeding six per centum per annum, and be issued in such sums not less than one hundred dollars nor more than one thousand dollars, as the said board of chosen freeholders shall by resolution determine, and which bonds shall, except as hereinafter provided, have coupons attached for every year's interest until due, and which coupons shall be signed by the collector of said county, and numbered to correspond with the bond to which they shall be respectively attached; and when the said board judge best, said bonds, or any of them may be registered and made payable to the order of the purchaser, and shall thus be registered as provided by said board, and issued without coupons, and be transferable only in person, or by power of attorney, on the books to be provided by said board for that purpose, and all bonds issued under this act shall be numbered, and a register of the number, denomination, date of issuing, and name of person to whom issued, if registered, and time of payment, shall be made by the collector in a book to be provided by said board for that purpose; which bonds may be sold at public or private sale for the best price which can be obtained for the same, but shall not be for less than the par value; and all the real estate and property within the county shall be liable for the payment of the principal and interest that may become due on the bonds to be issued by virtue of this act, but nothing in this act contained shall be held to permit any board to issue bonds, the legality of which is now questioned or contested in any court of this state or of the United States, nor to renew or reissue bonds held by any such court not to have been legally issued.

2. And be it enacted, That this act shall take effect immediately.

Approved March 4, 1880.

CHAPTER XCIII.

A supplement to "An act to authorize cities to issue bonds to fund obligations incurred for street improvements," approved March ninth, one thousand eight hundred and seventy-seven, extending the provisions thereof to incorporated townships and boroughs.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That for the purpose of paying certificates of indebtedness which have been duly issued by any incorporated township or borough in this state, for street improvements in anticipation of the collection of the assessments therefor, or for the costs and expenses of making street improvements which can not be assessed on lands specially benefitted by such improvement or improvements, and for the payment of judgments against such township or borough and for the costs, damages, interest and expenses incurred in and on account of such improvements, it shall be lawful for the board of township committee, or other governing body of said township or borough to issue either the registered or coupon bonds of such township, to be styled "township or borough of improvement bonds," to such an amount as such board or governing body shall by ordinance determine, not, however, to exceed in the aggregate the amount of outstanding and unpaid certificates of indebtedness, judgments, costs, interest and expenses against such township or borough for such street improvements, such bonds shall be sealed with the corporate seal of such township or borough, signed by the chairman of said board of township committee, or governing body, and countersigned and registered by the clerk thereof, and made payable in not less than three nor more than ten years from the date thereof, and shall bear interest at six per centum per annum, payable semi-annually; provided however, that no note or certificate of indebtedness, the validity of which against such township is now in question in any of the courts of this state, nor the amount thereof, nor any portion of the same shall be included in the estimate of indebtedness of such township, nor shall any bond be issued to pay or to raise money to pay the same or any part thereof.

2. And be it enacted, That the bonds authorized by section one of this supplementary act shall be negotiated or sold at private sale at not less than the par or the face value thereof, and the proceeds of such negotiations and sales promptly appropriated and applied to the retirement, payment and cancellation of the certificates, judgments, costs, interest and expenses mentioned in section one of this supplementary act, and to no other purpose whatever.

3. And be it enacted, That all moneys collected and received as principal and interest for any on account of assessments for any street improvements for which such bonds are issued, are hereby pledged and appropriated for the payment of the principal and interest of the bonds hereby authorized to be issued; and all sums of money or balance over and above the amount necessary to pay the interest and principal of said bonds, at maturity, as aforesaid, or that cannot be vested in the purchase of said bonds at par before maturity, shall be safely invested in some readily convertible securities and applied to the payment of said bonds, when the same shall become due and payable.

4. And be it enacted, That it shall be the duty of the township committee or other governing body of said township or borough, and such committee or other governing body of said township or borough is hereby authorized and empowered by resolution to fix and determine annually, on or before the second Tuesday of May in each year, how much money is necessary to be raised by taxation, to pay the interest on such bonds, and the principal of such bonds as fall due within one year from the time of adopting such resolution, and to order such sum to be assessed and collected for the purpose aforesaid; a copy of which resolution shall be served by the township clerk on the township assessor of such township, and thereupon the sum so ordered to be raised shall be assessed upon all the ratables and taxable property in such township, and collected in the same manner and at the same time that other township taxes are assessed and collected; and the money so raised shall be applied to the payment of such principal and interest falling due and said bonds and to no other purpose.

5. And be it enacted, That this act shall take effect immediately.

Approved March 4, 1880.

DEMOCRATIC STATE CONVENTION.

The Democratic voters of the State of New Jersey, and all others desirous of uniting with them in the effort for pure, economical and constitutional government, are requested to meet at such times and places as may be designated by the several County and City Executive Committees, to elect Delegates to the Democratic State Convention, to be held at TAYLOR OPERA HOUSE in the CITY OF TRENTON,

On THURSDAY, the 20th Day May, 1880.

at 12 O'CLOCK, M., for the purpose of electing FOUR Senatorial and FOURTEEN District Delegates to the Democratic National Convention, to be held at the city of Cincinnati, on Tuesday, the 22d day of June next, to nominate candidates for President and Vice President of the United States, such delegates to be instructed as to the desirability of continuing the two-thirds rule any longer in National Conventions.

The basis of representation will be one Delegate for each one hundred Democratic votes, and one for each fraction of the same over fifty, cast at the last Gubernatorial election in this State; but each Ward and Township shall be entitled to at least one Delegate.

PLAINFIELD.

"Plainfield is a good place to own property in," was the remark we heard made the other day by a gentleman on the lookout for a desirable location.

That was the expression of sound judgment and it is widely and increasingly entertained. Without undue partiality we venture to assert, that no spot within convenient reach of New York possesses the advantages Plainfield does as a place of residence.

They are manifold and of superior excellence. We will briefly enumerate them:

Easy and frequent access by one of the best equipped and managed Railroads in the country, running with clock-like regularity and entirely clear of dust and smoke.

Pure air and water, the guarantees of health.

Freedom from miasma and mosquitoes.

Beautiful surroundings and drives over mountain and plain.

The best of society.

Churches of all denominations.

Unsurpassed educational facilities.

First-class stores of all kinds.

A city of rural splendor and handsome abodes.

One hour or less from New York.

Good order.

Economical local government.

No bonded debt.

What other locality can present equal attractions?

Come to Plainfield!

WORTHY OF THOUGHT.

We hear of men in the United States whose individual wealth is reputed at many millions of dollars.

If such enormous accumulation of property has been honestly and legitimately obtained, they certainly have the right to possess it, and no man the authority to object.

But, at the same time, we cannot look upon giant riches in the hands of individuals or corporations as good fortune for the country at large.

Prosperity to be real must be general, and that comes not from the concentration of wealth, but from its diffusion.

We would be far richer, happier and stronger as a people, were the channels of industry and enterprise kept entirely clear of heartless speculation and monopoly.

Then moderate men and institutions could have a chance to live and flourish, and a thousand fold better off is a nation of small capitalists than one of the specially large.

Money Kings wield lordly sway over England and the masses of her people are in abject poverty.

France on the contrary gives every man an opportunity to become a capitalist, and the masses of the French people are strong enough to lend their Government all the money it requires.

The difference is striking and worthy of thought.

POPULAR RIGHTS.

One grand distinction between the Democratic and all opposing parties that ever existed in this country has been and remains to be its zealous defense of the rights of the people, regardless of creed, class or condition.

The rights of all the people.

That is the foremost principle of Democracy, and it is equally a safeguard of liberty.

There is no more glorious attribute of Republican Government than that, and it cannot be impaired without endangering the whole structure of popular freedom.

Protect every individual citizen, be he rich or poor, lofty or humble, in the just and unrestricted exercise of his privileges, unawed and unplundered by mercenary power, whether military, political or financial.

To that the Democratic party stands forever pledged.

UNION COUNTY.

As the time approaches for the selection of a Democratic Congressional Candidate, we feel constrained to again urge upon the Democrats of Union County the necessity of casting rivalry aside and concentrating approval upon some one of their own citizens.

The nomination unquestionably belongs to Union, and the other counties will certainly accord it to her, provided she comes forward with a unanimous choice.

There cannot be any harm in suggesting names for the position and canvassing their respective claims, but let it be distinctly understood, that before the Convention assembles the delegates will settle upon a single Union County man and with united voice and vote desire his nomination.

Democrats of Union, commence the canvass! Who shall the man be?

Under the Arrears of Pension Act, all widows of soldiers who died of wounds or disease, resulting from their services, are entitled to pensions for the time they were widows. This will enable a great many worthy women who had re-married and were cut out by the old law, to get the pension of eight dollars per month for each month of widowhood. All children of soldiers who were under sixteen years of age at the date of the soldier's death, are entitled to a pension up to the time they were sixteen. No matter at what age they are, they can yet apply for and get the pension up to the time they were sixteen. The time for application so as to get the back pension in all cases is limited to the 1st of July, and every person who is entitled, be it soldier, widow, mother, father or minor children, should lose no time in making their applications, or they will be too late.

It is a pretty well settled fact that the colored cadet, Whittaker, at West Point, inflicted the injuries upon himself that he claims was done by masked men.

DEMOCRATIC VICTORIES.

The Spring elections throughout this State, on Monday and Tuesday last, show that the Democrats have made large gains and victories. In Trenton the Democrats elected their Mayor, (Rice) by over 600 majority. They also elect a School Superintendent and Receiver of Taxes, five Councilmen out of seven and two Chosen Freeholders out of three.

In Bordentown, the Democrats elected their entire ticket.

In Hoboken the Democratic candidate for Mayor is elected, as well as the whole ticket for municipal officers.

Isaac W. Taussig, the Democratic candidate for Mayor of Jersey City, was elected. The Democrats will control the Board of Public Works.

The Democratic ticket for municipal officers of Bergen Point was elected.

LEADVILLE, COL., APRIL 7TH, 1880.

The first gun of the campaign was fired in Leadville yesterday, and the result has been a complete overwhelming Democratic victory, utterly routing *fraud and corruption*. Mayor, Treasurer and majority of City Council elected. This memorable event settles the complexion of the State of Colorado in November next. Their vote in the Electoral College most assuredly will be cast for the Democratic nominee for President, whether Hendricks, Hancock, Bayard, or any one but *Tilden*. H. B.

The Democratic *Patriot* of Harrisburg, Pa., depicts the characters in the coming political drama at Chicago as follows:

Father, Mr. J. D. Cameron.
Prodigal Son, Mr. U. S. Grant.
The Household, Delegates to Convention.
Fatted Calf, Mr. James G. Blaine.

"The grand climax," says the *Patriot*, "in this unusually fine programme will be the killing of the fatted calf."

* * *

The Chicago *Times*, to obviate the necessity of printing additional sheets when additional space is needed, is preparing to introduce a new feature in newspaper publication. The size of its sheet is to be varied every day according to the amount of news published, by simply increasing or decreasing the number of columns in each issue, according to the emergency.

In the great six-day go-as-you-please walking match at Madison Avenue Garden, N. Y. city, last week, for the O'Leary belt, Frank Hart, the colored pedestrian came out ahead, making the unprecedented time of 565 miles, winning the trophy and his share of entrance money, some $16,500. Hart is a wonder and deserves his well-earned honors.

The Democratic County Executive Committee of Union County met at Elizabeth Wednesday afternoon last, and appointed the 14th day of May next as the time for holding primary meetings throughout the County to select delegates to attend the State Convention at Trenton on the 20th of May. Plainfield is entitled to six delegates.

It is expected that the flax industry will take a fresh start in New Jersey in consequence of bounties offered for its culture and the improved process of manufacture. When, many years ago, it was grown for the fibre produce, the quality of New Jersey flax was widely known. It is now worth more than $100 a ton.

The New York *Journal of Commerce* announces that, in consequence of the rise in the price of paper and the increased cost of every department of news gathering and publication, it will return to its former rate of subscription, $15 per annum, an advance of $3.

* * *

We presume it is because our cotemporary, the *Times* is to "full for utterance" that it failed to announce the recent grand victories by the Democracy throughout the State at the Spring election.

* * *

The Republicans carried New Brunswick and Perth Amboy cities in last Tuesday's election. The Board of Freeholders of Middlesex County will be Republican.

* * *

The Republican County Executive Comittee have designated April 27th as the time of holding primaries to elect delegates to the State Convention.

The panel of petit jurymen of Union County amount to 48. Out of that number Elizabeth gets 22 and Plainfield *three*. Why is this thus?

NORTH PLAINFIELD PARAGRAPHS.

Sheriff Van Liew is rapidly convalescing.

Several new houses are in course of erection on this side of the brook.

Rev. Mr. Embury contemplates erecting a new house adjoining the Church of the Holy Cross.

Arnold & Van Norstrand, are improving the looks of their large Grocery Store by re-painting and renovating the same. This firm is doing a large and prosperous business.

WESTFIELD WISPS.

The Mite Society connected with the Presbyterian church have purchased a piano, and gave an entertainment on Tuesday night to procure funds for that purpose. Misses Annie Roberson and Belle Pierson sang a duett, Miss Cooper and Mrs. Ladd gave readings, Misses Blake and Farley, music, and a recitation by Miss Towle.

Mr. John Pfeiffer met with an accident on Wednesday morning while driving Mr. M. E. Alper's horse on Westfield Ave. The horse shied and made a quick jump, and John, not expecting such a thing, went backwards out of the wagon. His injuries were slight, the horse uninjured, and wagon slightly damaged.

The Presbyterian church has a new sexton. J. Crouch is the present one. Fred Baldwin has left for other fields.

James T. Pierson and the Insurance Companies have not yet came to an understanding. Mr. Pierson talks of suing the Companies.

Mrs. Geo Godfrey, aged 37, wife of 'Squire Godfrey, died on Tuesday morning last, at the residence of Mr. Hickock, on Clark St., where she had been residing since her illness. The funeral services took place at Grace Church on Thursday afternoon last.

The meeting of H. & L. Co. No. 1 last Monday night, was one of the most interesting ones held in some time. A Relief Society auxiliary to the Company was started, the Constitution adopted and the same officers of the Company were elected to serve in the Relief Society. A committee of three was appointed to investigate what benefit would be derived from such a step, and also what course to pursue to meet them. The Company subscribed $20 toward the stock, who own the apparatus and building, to pay off some of the debts, and is ready to receive any stock that the present stockholders may be kind enough to donate to them, so that they may have full control of all. Another committee of three was appointed to see about getting a lot where a permanent building may be placed. A full attendance is requested at their next meeting, April 26th, when the Committees will report.

Our florist, Mr. W. B. Woodruff, has charge of the depot grounds again this year. He began operations on Monday last.

Our colored tonsorial artist, Asa Sidney, has gone to farming. Mr. Heinecke, our German friend, still remains at his old post in Hassmann's fort.

The Young People's Union held their meeting Monday evening last at the residence of Mr. J. R. Ferris, where all had an enjoyable time.

Miss Frank Barnett was married to Mr. John Bedman, of Woodbridge, last Wednesday, April 7th, at the Presbyterian Church, by the Rev. Mr. Gill.

Mr. H. E. Hosford has returned to our village again, after an absence of four months in the city.

SPORTSMEN'S CORNER.

The Westfield Game & Fish Protective Society warn, by posters, parties who violate the recently enacted Woodcock and squirrel laws, that they will prosecute them. A reward of $25 is offered for the arrest and conviction of any such persons, or for information leading to such end. The New Jersey Game & Fish Protective Society, whose headquarters are at Plainfield, will also look after violations of the game and fish laws and rigidly prosecute all such.

Gid Smalley's well-known Stallion, "Smallwood," will make his home for the season at Mr. Smalley's Stock Farm, near New Market. Lovers of pure breed of stock will make a note of this.

We learn from Major E. J. Anderson, Commissioner of Fisheries, that he has distributed this Spring five hundred thousand California salmon, and thirty thousand Atlantic salmon in the waters of this State. All of these were hatched at the establishment controlled by the State at Bloomsbury, N. J., from eggs furnished free by the U. S. Fish Commission, the only expense to the State being for freight, hatching and distribution. The commissioners also have now in the hatching house twenty thousand land-locked salmon, which will be deposited in the cold lakes in the northern part of the State in the course of the coming week. They also contemplate continuing the work of replenishing the trout streams of the State, arrangements having been already made to secure a good supply of trout fry for this purpose. It is their intention to vigorously prosecute the work of propagating shad during the coming season, the enormous increase not only in numbers but in size of this delicious fish having fully demonstrated the value of the work hitherto done under the direction of the Commission.

In this connection it will be well to state that Major Anderson will not resign as Fish Comissioner on account of his election to the office of State Comptroller, his conduct in this matter being governed by the personal wish of Governor McClellan, who complimented him upon his enthusiastic, faithful and self-sacrificing efforts to promote the fishing interests of the State. This will be gratifying intelligence for all disciples of Izaak Walton.—*State Gazette.*

The *Scientific American* says it is a well-known fact that fish always return to the same ground each year to spawn, but that it has recently been discovered that they always follow the left hand side of the river on their trips to the spawning grounds, and returning, take the right hand side of the river. Our fishermen should remember this.

The "gigging" season has commenced, and the lantern of the "gigger" may be seen flitting like a will-o'-the-wisp along the water courses as he searcheth for the gamey "sucker." Parties participating in this pastime should bear in mind the law against killing or taking game fish.

English snipe are very scarce this season thus far.

Mr. Pierre Lorrillard's chestnut colt, "Wallenstein" won the Newmarket handicap race at London on Wednesday last.

A meeting of the Board of Directors of "The New Jersey Game & Fish Protective Society" is called for Saturday evening next at the Mansion House, at half-past seven o'clock "sharp."

* * *

THE clouds of dust which were so furiously driven into our homes the last few days, ought to be accepted by our Street Committee as an appeal from the streets for a scrape. Commissioner Angleman, you are the best looking man on the Committee; to you we say—get out your hoes and put the job through. We know men who are itching to lean on a hoe handle and squirt tobacco juice around about as they listen to the passing multitude expatiate upon the wisdom of the Committee in freeing the city of dust. George Washington A., you hear us.

P. S. This in substance was borrowed from our friend Killgore of the Hunterdon *Democrat*, but with amendment it will answer our purpose.

Save the Scraps.

There is market for many articles that are daily thrown away as worthless. Old rags and odds and ends of paper are worth money, and most any family can save more than enough of either one during the year to pay their subscriptions to one or two newspapers. Old brass and copper bring 16 cents per pound, and lead also commands a high price. The prudent man will turn all these things to account.

Passed Away.

One of the saddest occasions of the year was the calling together of family and friends at the residence of the late L. H. K. Smalley, Esq., at Scotch Plains, on Wednesday last, to attend the funeral services over the body from which life had so suddenly fled. The deceased had been a well-known resident of this County for many years, and being as he was, associated so prominently with all philanthropic acts, christian work and schemes for the welfare of all, it was not surprising that so large an attendance met together. His past life had been an industrious one, and he was always to be found in the front ranks of the busy world fighting for the right. A staunch Democrat in his political belief, prominently mentioned as a member of Assembly, and about the year 1862 was editor of the Plainfield *Gazette* for a short period. He was a member of Jerusalem Lodge, No. 26, F. & A. M. and Jerusalem Chapter, R. A. M., No. 24; fellow members of both organizations being present at his burial. He has also been, for many years past, a Justice of the Peace, Deacon of the Baptist Church at Scotch Plains and Superintendent of its Sunday School.

The funeral services were first held at the house, and from there the body was taken to the church of which the deceased had been such a hard-working member.—After the singing of an appropriate hymn, a touching prayer of appeal to the Almighty was given by Rev. J. C. Buchanan, the former pastor of the Church, and an old and true friend of the dead one. These were followed by the usual services, which included an eloquent sermon by the pastor, the Rev. U. B. Guiscard, a prayer by Dr. Yerkes, of this city, and the singing of a sweet hymn by the Sunday School, scholars all standing. The pall-bearers were all residents of Plainfield, members of the Lodge and Chapter, and comprised Messrs. Wm. N. [illegible], [illegible], Elmer D. [illegible], [illegible], J. P. Johnson and [illegible]. Mr. Smalley leaves a [illegible] and [illegible].

South Jersey endeavors its free white workingmen by the store-order system, and is the most benighted and thoroughly Republican section of this commonwealth. Robeson, of immaculate fame, represents it in Congress, and all its members of the State Senate and Assembly are owned by factory men, cranberry growers, colliers and moneyed corporations. It is good for Grant and Imperialism.

Testimonials:
"I take pleasure in calling attention to this announcement by a lady possessing so many of the qualities of a successful lecturer. Her subjects are well chosen; and in manner, style of expression, picturesqueness, humor and eloquence, she leaves little to be desired."
JOHN G. WHITTIER.
"In commending Miss Sanborn's Lectures to the special attention of any community fortunate enough to have the opportunity of hearing them, I have only to say that I know of few persons gifted with her mental and moral abilities for imparting instruction. The daughter of one of our most distinguished college professors, she possesses inherited as well as acquired talent for teaching and lecturing."
JAMES T. FIELDS.
"Aiming to condense as much information on reading and literary topics into an hour's talk as can be done in a chatty way, she certainly gives each time what her audience would hardly find on her unpublished subjects, outside of well directed reading."
WHITELAW REID,
Editor N. Y. Tribune.

REMOVAL.

The Constitutionalist Office has been Removed to Vanderbeek's "Chautauqua" Building, Cor. Park and North Avenues.

COUNCIL meeting next Monday evening.

MONEY election April 27th. Bear it in mind.

BERRY & THORN are selling bushels of Garden, Grass and Timothy seeds.

TO-DAY we issue the first number of THE CONSTITUTIONALIST printed by steam power.

THE 61st anniversary of the order of American Odd Fellows will occur on the 26th of April.

THE tenors of the P. A. G. C. (we are *told*) show great improvement. The public will be glad to hear this.

THE pay car of the Central Railroad started on its trip to pay the employees of the road on Wednesday last.

THIS is more like Spring weather. Now Vennor, go to sleep, so you will make no more cold weather prophecies.

T. J. GILLIES will have another sale of furniture, crockery, etc., at Flagg's Hotel, next Tuesday afternoon, at 1 o'clock.

THE carpenters, plumbers and painters are still engaged in putting the finishing touches upon the interior of the Chautauqua building.

THE flouring mill of French Bros. is again run by steam, in consequence of low water and a press of orders for their extra flour and feed.

THE new ferry house of the Central Railroad Company, on the New York side, was thrown open to the public on Wednesday afternoon last.

THE Middlesex County Courts have granted Mr. Ellis A. Campbell a license as Proprietor of the "Club House," adjoining the Fair Grounds.

MR. DANIEL ROBERTS, Liveryman, has moved into the residence lately purchased by him of Mr. E. A. Campbell, on Second Street, above Peace Street.

ALL the testimony in the Building & Loan suits by the plaintiffs, has been taken. The defence will commence their part of the drama next month.

MR. WM. DEAN, late proprietor of the "Club House, has leased one of the large houses opposite the Fair Grounds, known as the Flagg property, and moved thence.

SPRING styles of hats are now in demand. Vermeule and Laing both advertise their willingness to furnish the same at low prices. Read their advertisements.

BILLY HEDDEN will commence displaying the weather signal flags from the top of the Mansion House to-day (Friday). It is needless to say they will be displayed correct.

IT cost the County nearly $4,000 to convict Leggett and Leeds, the fraudulent officials of Elizabeth. It is money well spent, however, to bring such parties to justice.

REV. Mr. Stockton, the new minister of the M. E. Church, was the recipient of a Reception at his parsonage on Monday evening last, by members of his congregation.

MESSRS. GREEN & CO., in their new quarters, are now ready to furnish the public all styles of parlor and library, dining and bed-room suits, in all kinds of wood and all materials of upholstering.

REYNOLDS, the Plainfield Pharmacist, has just added another new attraction to his handsome store, in the shape of a $1,500 Soda fountain. It will bear inspection and his syrups and soda will be found delicious.

CURTISS & GRIFFIN, hardware merchants, with their usual enterprise, have introduced a new feature into their business, an oil cloth binding. Something new and useful to those laying down oil carpets. Go look at it.

THE Mansion House is being thoroughly re-painted and renovated inside in anticipation of the influx of summer guests it will receive. This popular hotel is most capably and efficiently managed under the proprietorship of Ed. P. Thorn.

ONE of the greatest opportunities of the season is offered by D. Boehm & Bro., who are selling at great sacrifice a fine lot of white quilts and Summer matting. These goods are to be bought at less than half their value, while an assortment of ladies' kid gloves in Spring shades for 50 and 60 cents, are selling rapidly.

ONE of Plainfield's well-known sons of Crispin, Mr. John Bangham, after several years absence, has again returned to his first love, and settled down to business in his native city, Plainfield, on Front Street, nearly opposite Tier's Lake House. For a maker and repairer of boots and shoes, John has no equal.

MR. ROBERT SIMPSON has purchased of Wm. Wooden his well-known bakery establishment on Park Avenue, and Mr. John Walker has assumed proprietorship, retaining all the old hands employed by Mr. Wooden. The latter has removed his family to near Elizabeth, and will look about for a suitable place for again engaging in business.

THE experience in fashionable dress-making, that a period of several years in New York city has given Miss Theresa Schwartz, enables her to feel assured of giving entire satisfaction to those who may favor her with their patronage. She may be called upon at her rooms in North Avenue (McIntyre's building) or addressed through the Post Office.

THE advance guard of the martin birds arrived in this city Thursday morning, April 15th. He took up his quarters in the bird house opposite Coriell's Meat Market, took in the situation, paying no attention to the alarmed and chattering sparrows, who vainly endeavored to dislodge the intruder, then flew away. In a few days "Jack" will return, bringing his mates and colony.

ROBERTS & CADMUS, the Livery Merchants, corner of Park Avenue and Second Street, last week received an addition to their large stock of material, in the shape of two elegant four passenger coupes, built by L. M. French, the carriage maker of Somerset Street. The vehicles are finished and upholstered in a beautiful manner, and reflect credit upon their builder.

THE executive committee of the New Jersey Editorial Association held a preliminary meeting on Saturday last in New York, to take into consideration the place for the Summer excursion. The White Mountains was the only point suggested, and a sub-committee, consisting of Messrs. Vance and Bechtel, was appointed to investigate as to cost of transportation, route, etc., to report at another meeting to be held on the 16 inst.

THE Elizabeth *Journal*, under the management of editor Peter Rousse, has been decidedly improved in appearance by a new dress of clear type. The *Journal* is a very readable paper, locally; its politics being Republican does not accord with our sentiments. We always like, however, to chronicle enterprise in a contemporary of respectable standing. Of such a character is the *Journal*. We offer congratulations for the improved appearance of our contemporary.

A COPY of an atlas of Middlesex County is wanted. See adv.

Extensive fires raging in South Jersey have destroyed thousands of game birds.

Belden's store and bakery at Basking Ridge, Somerset County, was totally destroyed by fire last Tuesday night.

HETFIELD & JACKSON, the well-known Carriage Manufacturers, of Rahway, announce their business in this issue of THE CONSTITUTIONALIST.

THE total proceeds cleared by the T. A. B. Ball last month for the benefit of the starving in Ireland, was $125, which amount has been forwarded to its destination, the Parnell Relief Fund.

ON next Tuesday evening the First Baptist Church young people will give another of their enjoyable entertainments. They say this is to be an extra one, but it is impossible for them to improve on those of the past.

BERRY & THORN have placed a naptha lamp in front of their Hardware Store for the benefit of the public, or in anticipation of the threatened extinguishment of the street lamps this summer if the Council don't get that $2,500.

MANY of the prettiest of the newly trimmed Spring bonnets that are being seen on our streets are from the hands of Mrs. C. M. Fine, who, at Dr. Stillman's old residence, may always be found ready to trim or make hats or renovate crape.

THE race track on the grounds of the "Union & Middlesex Counties' Agricultural Society," is daily the scene of trials of speed between the horses of member's, who visit the grounds to exercise their animals. "Carbolic," "Jersey Queen" and other noted horses owned by Mr. Wm. Moore, are among the number, handled by skillful drivers.

CONSIDERABLE stress is laid by those who do not fully understand the law on the subject, on an amendment to the Plainfield Fire Department Charter, which provides that no person shall be eligible to the position of Fire Commissioner who is an active fireman. The meaning and intent of the law is that no person shall at the same time hold said office of Commissioner and be an active fireman. They may be elected to such office and then resign their Company membership before entering upon the discharge of their duties as Commissioner, which the newly elected members have time to do before they take their seats.

A Sad Accident.

Again are we called upon to record the sudden death by drowning of a young lad, in one of Mr. Aaron Jimmerson's clay pits, near the Netherwood Hotel.—This time the unfortunate one, a boy by the name of Miller, was playing with some companions around the dangerous locality when he fell in, and upon the recovery of his body a short time afterwards, the depth where he sank was found to be almost fifteen feet.

Election of Fire Commissioners.

The election for Fire Commissioners of Plainfield on Monday last resulted in a choice for Ephriam H. Depew for 5 years, Gilford Mayer 1 year, Edward L. Morris 3 years and Wm. E. Jones 2 years. There was but little interest manifested in the election, as is evidenced by the small vote cast—149. Last year 622 votes were cast in the two hours allowed for voting. There was really but one ticket in the field—that elected, although a number of votes were cast for Mr. S. C. Baker, who had been nominated by some fire company, but who declined the nomination. The vote stood as follows: Depew, 140; Mayer, 140; Morris, 138; Jones, 129; Baker, 17. Joseph A. Hubbard was elected Assessor, receiving 144 votes, while 140 votes were cast for $7,000 for fire purposes. The new Board, which will organize Wednesday evening next, will consist of the above four mentioned gentlemen and Messrs. Jeremiah Van Winkle and John N. Steiner. The political complexion of the Board will be four Republicans and two Democrats.

What the P. A. G. is Doing.

Most active preparations are now being carried out by the members of the Plainfield Athletic Club, the cause of which is their desire to display their remarkable and enviable talents as gymnasts and otherwise, and the effect of which is to be an entertainment on a grand scale at Van Deventer Hall on some evening in the near future. This exhibition bids fair to be one of a non-descript order, but all the more interesting on account of its variety and attractive by reason of its unusualness. Besides such gymnastic contortions as the most proficient of the members are capable of volunteering, and other features in the way of living pyramids, exercies and drills, it is whispered that some of the Lady's Class will do their share to make the occasion enjoyable and take part in an interesting representation prepared by Prof. Burnham, for which appropriate costumes have been especially engaged. The nature of the affair has been so far kept most strictly private, and we are possessed of no more authentic information than that it will consist of a series of most strikingly beautiful, gorgeous and life-like tableaux, in connection with which may be expected the assisting talents of a well-known lady elocutionist. We have every reason to believe, however, from our acquaintance with the true inward character of the sex, that before long some lady participant will impart (most strictly confidentially, of course) to some particular friends (not to go any futher, you know) the style of the unknown feature, and one only hope that our ears may receive the knowledge and our pen record the information, before long.

The Glee (?) Club will not, probably, take any part in the entertainment.

Good-Fellowship Appreciated.

Not only within our own city is the popularity of the Foreman of Alert Hose Co. beginning to show itself, but our sister city New Haven appreciates his generous-heartedness and proposes to show that she does so Mr. Auguste Saltzman's visit to that city has been pleasantly remembered by a large number of gentlemen residing there, and they have unitedly, at a cost of over $200, caused a magnificent diamond badge to be designed and manufactured for presentation to him. A private inspection that was allowed the members of the press of this city last evening, enables us to testify to its artistic designing, beautiful construction, and valuable material.

A bar pin of solid gold on which is carved the name, "A. Saltzman," attaches the entire badge to the tufted satin interior of the rich case that holds it. From this top-piece swings a length of hose coiled in a circle, the nozzle and coupling overlapping each other at the bottom, and on this section are sunk in blue enamel the burnished words in gold, "Alert Hose No. 1, Plainfield, N. J." In richly chased gold an eagle, with outspread wings, surmounts the circlet; while within it is beautifully represented, with all the skill and ingenuity of the artist, engraver and enameler—a fire-carriage. From this a miniature trumpet is suspended by chains between which flashes out a diamond elaborately set in a way to show its value and purity. On the reverse of the badge, the sincere feelings of the donors are expressed in the following simple words of kindness: "Presented by his friends of New Haven, Connecticut, April 1880."

To-night, at a special meeting at the house of the Company, this beautiful testimonial will be presented by Mr. John H. Cuthbert, who has been deputized by the givers to perform such ceremony, and nothing but over-modesty will impel Foreman Saltzman to find that he is so [illegible]

Grace Church.

The Bishop of the Diocese will (D. V.) administer the Apostolic Rite of Confirmation in this Church, on Sunday evening next. Service to commence at 7:45 o'clock.

A Reception will be given to the Bishop, on Saturday evening, at the residence of Jno. B. Dumont, Esq., corner of Seventh and Peace Streets.

Will We Have Wards.

A law passed at the last session of the Legislature provides that the Mayor and Common Council of any city may divide the city into election wards if they so please. No restriction is made as to number of voters. Will the Republican Council of Plainfield endeavor to gerrymander Plainfield wards?

Y. M. C. A., and C. L. S. C.

The arrangements for the joint occupancy of the Chautauqua Building on the corner of North and Park Avenues, by the Young Men's Christian Association and the Plainfield Branch of the Chautauqua Library and Scientific Circle, have been completed, and the Y. M. C. A. will soon take possession of their new quarters. They will occupy four rooms on North Avenue, and the pleasant little Hall over Mr. Vanderbeek's store on Park Avenue.

Another Pension Allowed.

Alexander R. Butts has just received from the Pension office, Washington, D. C., notice that through his agency, pension, with the arrears from April 19, 1865, has been allowed to Isaac Sofield of Perth Amboy, for injuries received by him while in the Navy during the late war of the rebellion. This claim was only stated by Mr. Butts in December last, about four months ago. The pension law allowing arrears expires by limitation on the first day of July next. We advise all who have been wounded, injured or diseased in the service, however slight, to apply at once to Mr. Butts.

The Plainfield Saengerbund.

The Saengerbund Society, of this city, removed, on last Monday, their piano and other properties, to their new rooms in the building lately occupied by the City National Bank. They are thereby most comfortably and conveniently located and their rapidly increasing membership insures their continued success. The hall they now occupy will enable them to give many pleasant Musical Re-unions, and its seating capacity will allow of an attendance of two or three hundred people. The new leader, which has so fortunately been obtained, is Mr. Geo. Smith, Leader and Organist of the St. Mary's Choir, and under his efficient teaching the Society are progressing rapidly as capable and competent singers.

A Serious Accident.

Mr. George Hartfelder met with a terrible accident about ten o'clock on Monday morning of this week, at their sash and blind factory, on Bridge Street, in Somerville. It appears that Mr. H. was engaged in rosining the band on the moulding machine, when from some cause he slipped and fell, his right hand being caught in the knives of the machine, mangling the hand in a most shocking manner. He at once proceeded to the office of Dr. H. G. Wagoner, who found that it would be necessary to amputate all the fingers with the exception of the small one, and with the assistance of Dr. A. P. Hunt, the operation was skillfully performed, the patient bearing up under the operation in a heroic manner. Mr. H. is an industrious mechanic, married, and deserves the sympathy of the whole community.—*Somerset Messenger.*

Mr. H. is the son of John Hartfelder, a former resident of North Plainfield. [ED.]

The Congregationalists Recognized.

The Congregational Church, of this city, were formally recognized and admitted to the brotherhood of its sect, Thursday of last week, by the Council that has had such matter in hand for some time. There were present upon the occasion delegates from many of the principal towns and cities of the State, and after the customary examination of the Rev. Mr. Manchee, who was to be installed as pastor, the Council adjourned until evening.

At the hour of re-assembling the Church building was filled by the members, their friends and well wishers, the pulpit being occupied by the many prominent speakers who were to take part in the public services of recognition and installation. The singing of the Choir was greatly enjoyed and the discourses of the Reverends Ward, Taylor, Eaton, Bradford, of the visiting clergy, and Ketcham and Yerkes, of this city, were full of interest. This new organization in our midst starts out indeed most auspiciously; and sincere words of encouragement and heart-felt wishes of success cannot but assure for it an enviable future.

Well Done, Rahway.

Rahway was in a turmoil last Tuesday, the occasion being an election for Mayor, Common Council, Water Commissioner, Freeholders, etc., and the Democracy covered themselves with glory, electing their Mayor, Mr. Savage, by 37 maj., their Water Commissioner by 18 maj.; both Freeholders, Messrs. Crowell and Jewell, and secured three out of four Councilmen. That body will now stand 7 Democrats to 5 Republicans, and is a complete revolution in the politics of the city.—The old Republican Ring is "busted," and the members to-day know not where to hide their heads. Campaign documents, defamatory to the character of the Democratic candidates, were issued by the Republican Ring Organ, the newly-fledged semi-weekly, edited by U. M. Osborn, and Hyer, of the *Democrat*, came out with an extra, denying the falsehoods promulgated by the Republican organ.—The consequence is that legal proceedings have been commenced against Osborn by Savage for libel, while Mr. Hyer, of the *Democrat*, is threatened with a suit by Hon. Benj. Vail for alleged slander.—"Low" don't scare worth a cent, though, and we guess, that when the smoke of battle has all blown away, that all parties will come to their right senses. The Democrats, however, have done nobly and earned a well-deserved victory.

The New Baptist Church.

The settled wall in the new building of the Central Baptist Church is now being rebuilt with a change of plan so far as to take out the enclosed flue and increase the size of the buttress, and all differences that arose on its account between the builders and the architect have been amicably adjusted. The cause of the trouble has been a combination of circumstances for which the natural elements of changeable weather are entirely to blame, and there has never been any reason to cast charges of carelessness upon the shoulders of the contractors, or aspersions of incapability on the head of the designer and planner. The public have been greatly misled by injudicious comments upon the unfortunate occurrence to believe that it was an unsafely constructed building, always in danger of suddenly and without warning collapsing, and in such case horrible death would result to all within it. Anything more thoroughly inconsistent with the circumstances and unsubstantiated by the facts, could hardly be propogated by the most vivid imagination. Such rumors were calculated to be of no help to the future success of the Church, and were acts of gross injustice to all concerned. Consequently, we are happy to make public the true state of the matter, and place on record our [illegible] that the Central Baptist will be the safest (as it is one of the handsomest) edifice in the city.

Holy Cross Church.

The Rt. Rev. John Scarborough, Bishop of the Diocese of New Jersey, will visit this Church on Sunday morning next, and will preach and administer the Rite of Confirmation. Divine Service at 10:30, A. M.

Rapid Work.

Four painters commenced painting the exterior of the Church of the Holy Cross, on Wednesday morning last and completed the first coat on the evening of the same day, the work being thoroughly done at the same time. Woolston & Buckle are the contractors.

Dr. Lewis Back Again.

New furniture, carpets, and hosts of other things, combine to make the parsonage of the Seventh Day Baptist's a bright, comfortable home for their new pastor and his family. Dr. Lewis arrived to-day and will commence his labors at once, and his congregation are intensely pleased in consequence.

Personalia.

Dr. C. H. Fithian, son-in-law of James Ritchie, Esq., late of Scotch Plains, has located in Andover, Sussex County, and has already quite an extensive practice. The citizens of Andover will find him a competent and skillful physician.

The two sons of ex-Mayor Evans, Clark and Gordy, who have been in Europe some months, at school, sailed for their home in this city, in the steamship Bothnia, last Saturday, Mr. Evans having changed his mind of joining them there since the death of his wife.

Mr. Craig A. Marsh, who a few months since located in San Francisco, Cal., in the law business, returned to this city again last week.

Mr. Wm. H. Brower, who went to the silver mining District of Arizona a few weeks since, in the interest of the "Plainfield Arizona Mining Company," has returned to his home in this city, looking and feeling better for the trip and experience derived. He reports the mining business as favorable to the company.

Messrs. Oliver and Geo. Tweedy started on Wednesday last to join their brother Frank in Texas, expecting to be absent several months.

Afternoon Lectures.

Under the auspices of the Chautauqua Literary and Scientific Circle, a course of afternoon lectures will be given in the new hall of the Y. M. C. A., by Miss Kate A. Sanborn, on Tuesday, Wednesday and Thursday, the 27th, 28th and 29th of the present month, at 4 o'clock. Miss Sanborn is the accomplished daughter of Prof. Sanborn, of Dartmouth College, and her lectures on various themes connected with English Literature have been received everywhere with the highest praise. Plainfield is to be congratulated upon enjoying the privilege of hearing this gifted lady. Her subjects for the three afternoons will be as follows:

Tuesday, 27th inst.—"Spinster Authors of England."
Wednesday, 28th—"Bachelor Authors."
Thursday, 29th—"Lady Morgan."

Miss Sanborn has received the highest recommendations and testimonials from the poet Whittier, the essayist, J. G. Holland, Whitelaw Reid, of the *Tribune*, and others of the highest rank among the literary men of America. The number of tickets for these lectures will be limited to 150, the capacity of the Hall. They will be for sale at Dr. H. P. Reynolds' Drug Store, cor. North and Park Avenues. It is hoped that ladies and others who can attend an afternoon lecture, will give their encouragement to this effort for the building up of literary culture in our city.

Van Deventer Hall.

Slavin's Combination, one of the best and most popular dramatic organizations now travelling through the country, and who have gained renown both on this Continent and in Europe, will again appear at Van Deventer Hall, on Monday and Tuesday evenings next, the 19th and 20th. On Monday evening they will perform Uncle Tom's Cabin, which gave such great satisfaction to the numerous audience that greeted them on their previous visit to this city. On Tuesday evening Byron's powerful Drama, of "Blow for Blow," which has been played at all the principal theatres through the country with great success, and is now in the tenth week of its run at the Boston Museum, will be given with every attention to detail. Every lover of the Drama should attend on these evenings to witness the performances of this most excellent company. Reserved seats are now on sale at Kilgore's Drug Store.

A Church Debt Lowered and Sure to be Raised.

Last Sunday was another memorable day for the Crescent Avenue Church. As the previous one will be long remembered as the occasion of the final and amicable settlement of the only unpleasantness that has ever arisen within the relationship of pastor and congregation, so also will be as notable the following Sabbath when so much was done toward the relieving of the church from the debt that covered its property. The debt of this Society, however, has never been the crushing weight or submerging burden that such a thing has been to others. Each year is it reduced by the overplus that has arisen on account of the receipts being so much less than the disbursements, and this without any extra collections or other exertions being made with such object. On January 19th of this year the Trustees showed by their books that the reduction for 1878 had been $2,395.08, and during 1879 the debt had decreased $3,800.00, and the condition of affairs at the beginning of 1880 was a total liability of $38,580.01, with assets (*at cost*) of $114,295.98, including the parsonage and grounds at $11,000. Such a flourishing state of affairs was of course a source of great pride to the Church, but although the remaining liability was not a drawback to the success that has never ceased continuing since the Society's establishment, yet when a prominent member notified Dr. Bliss that he would start the raising of the debt with a subscription of $4,000, and requested that the scheme be achieved before he left for Europe, the church thought best to secure the services of Mr. Edward Kimball, of Chicago, with intentions as advised.

After the usual morning services of last Sunday, the celebrated "debt-raiser" was introduced to the congregation by its pastor, and after a short discourse on the relation of the duties of church members to the removing of financial encumbrance he launched into a persuasive attack upon the bank accounts of those who had remained in the church. It was far after the usual hour of closing before the morning labors ceased, and these were continued in the evening with most flattering results. Mr. Kimball was assisted in his solicitations by Messrs. John W. Murray and Lawrence Myers in the gallery and Messrs. Matthews, Sampson, Pierson, Coward and Newman in the body of the church, who received and announced the subscriptions which were then entered upon the record by the Treasurer, Mr. Walz. All pledges are to be paid inside of a year, except in the cases of the Sunday School and Ladies' Society, who subscribed $2,000 each, to be raised in two years. In the words of Mr. Kimball, these organizations are always here to meet their obligations while the Church members are coming and going. The entire amount secured on Sunday was $23,000, which has since been increased about $2,000. The Ladies' Society obtained $1,347 of their subscription on the same day. Last night was held another meeting without the presence of Mr. Kimball, and we feel safe in asserting that the [illegible]

A Youthful Fire-Bug.

The capture on last Monday morning of a young incendiary is of great importance to the city, and reflects considerable credit on those whose ingenuity led to the discovery and securing of the young offender. It has for many months been the endeavor of the authorities to discover the persons who have been instrumental in starting the too numerous conflagrations that have been occasioned, and the capture of young Vail who confesses to having set Mr. Doane's carpenter shop on fire, is a step in the direction of ultimately discovering (let us hope) who the other like offenders are. The main circumstances that led to the arrest are about as follows:

On Tuesday evening about seven o'clock, Mr. L. A. Rheaume while passing through Peace Street on the east side of the railroad bridge, noticed a slight smoke arising near a pile of lumber in the yard of Mr. Jos. D. Montayne. Being on his way to keep an engagement he did not stop, thinking the matter trivial, but on reaching North Avenue he changed his mind, and returning to the spot found a young lad stooping over a pile of ignited "waste" which he was fanning into a blaze with his hat. Young Vail, whom it was, on being questioned as to what he was doing, said that he was trying to put the fire out, but Mr. Rheaume took him by the collar and started him to his home near by for water; which the boy brought and the flames were extinguished. The same evening a fire was started under the kitchen floor of Mr. Wagner's house, which adjoins the lumber yard spoken of above, and it was discovered that it had started from a pile of "waste" that had been placed upon a small shelf constructed across the supports of the building. It was known that the shelf had been built by young Vail in connection with a play house, and this coupled with the circumstantial evidence of the material used, led the residents in the vicinity of the two fires and Mr. Rheaume, to speak to Captain Dodd the next morning and request him to arrest the boy.

After his transportation to the City Jail yesterday, the lad was questioned into all sorts of a confession by a number of different people, and owned up to them the starting of numerous fires that he still emphatically denies to his father.

A great many reports were in circulation last evening as to what the boy *did* say, one of which was to the effect that he set on fire the France hse barn the night it was consumed. The fact is that he never confessed anything of the sort, but said he set it on fire at one time though, before the night it was burnt.

The young incendiary's name is Chas. Vail, aged 11 years, son of John Vail, an industrious mechanic of this city. The lad has several times before been detected in stealing from parties in Plainfield. There is no actual evidence adduced thus far that he caused more than one conflagration—that of Doane's carpenter shop, which he admits he fired, and also attempted to fire in open daylight a few days previous. He admits of other attempts—that of Simpson's barn on Tuesday night, also Wagner's house and a brush heap. The lad must be a monomaniac on the subject of fire, and needs a "session" in the State Reform School, he possibly may have accomplices (older heads) that he may confess to having complicity in the recent incendiary fires. Let our detectives look after the matter.

Young Vail, on being brought before City Judge Runyon yesterday morning, was committed to the County Jail at Elizabeth to await the action of the Court.

FIRE MATTERS.

About 9 o'clock, Monday night last, the carpenter shop occupied by Chief Engineer T. O. Doane, on Short Church street, was fired by an incendiary, and in a short space of time after the flames had burst through the roof, the alarm was struck from the tower, and the fire companies and citizens were hurrying to the scene. The carpenter shop, a frame building, about 20x30 in dimensions, was stored with inflamable materials, and was situated directly adjoining Hall and West's Lumber yard, and Guion's Coal and Lumber yard, while opposite, across the street, was the large wooden building known as the Candy Factory (thoroughly saturated with materials incidental to the manufacture of candy, and unoccupied) while in the rear, separated by only a few feet, were the two large gasometers of the Gass Works. Adjoining were dwelling houses in close proximity. Before the arrival of the fire companies the carpenter shop was nearly a mass of ruins, the large and new building for storing of lime, cement, &c., recently erected by Mr. Guion, filled with material, was on fire and burning fiercely, while the flames had communicated to the candy factory opposite, and the roof of the adjoining residence, owned by the Gas Company and occupied by Theo. Dunlap. It was due only to the combined efforts of Messrs. John Vail and Mr. Dunlap, who carried water in pails from a well on the premises, drawn by willing hands, that the flames were kept down on the sides of the Candy Factory building until a stream from an engine could be brought to bear upon the same that a large conflagration was averted. Frank Vreeland, a member of Zephyr Hook & Ladder Company, No. 1, mounted the roof of the adjoining dwelling, which was on fire in a half dozen places, and by tearing the burning shingles off the roof with his bare hands and throwing water on the flames from buckets passed to him by his comrades, succeeded in saving the building. Too much praise cannot be accorded Messrs. Vail, Dunlap and Vreeland and those who assisted them before the engines got to work. Zephyr H. & L. Co. No. 1 were first to arrive on the ground and commenced at once, with their usual vim, to pull down the burning structure, and erecting ladders against the sides of Mrs. Schaddecker's and S. O. Doane's two houses, which were on fire on the roofs from sparks, and extinguishing the flames. Nos. 1 and 3 Engines arrived simultaneously on the ground, No. 2 leading, and No. 2 Eng. Co. following on their heels. All three steamers took suction from the side of the large gasometer, next to the fire, where there was plenty of water, and were speedily at work. No. 2, with the assistance of Alert No. 1 Hose Co., laid a line of hose from latter's reel, through 4th street to the rear of the fire in the lumber yard, following with another line from the reel of their own hose carriage to the same locality. Nos. 1 and 3 stretched their hose to the front of the fire, No. 1 directing their stream on the burning candy factory and adjoining dwelling, No. 3 on Guion's new building for storage of lime, &c., and No. 5 on Doane's carpenter shop. No. 2 had the honor of first water through an open butt, quickly followed by Nos. 1 and 3. All the steamers worked splendid, and in ten minutes after they got to work all danger was passed.

The carpenter shop was owned by a widow lady named Cadmus, living adjacent to it. She first discovered the fire when the flames could be covered with a bushel basket. The building was totally destroyed. Mr. T. O. Doane's chest of tools was saved through the efforts of a young lad named Ed. Vail, assisted by Mr. Burgess and Jas. Ammerman. Mr. S. O. Doane's chest of tools were destroyed as was also a quantity of mouldings and material for Councilman Lithgow's new house. Their combined loss will not amount to over $100. No insurance. The building was un-insured.

Messrs. John Hall and Wm. Egbert were passing the scene of the fire in a train of cars, and discovered the flames about the same time that Mrs. Cadmus did. The [illegible]

Mrs. Schaddecker furnished home made wine and cigars to the firemen, and Mrs. Doane hot coffee.

The residence of Mr. S. R. Hope was in imminent danger of destruction, and the furniture in the same were removed to a great extent, until the occupants saw by the "black smoke" arising from the burning structure that the firemen had the best of the fire fiend, and their confidence was restored as well as the goods to their former location.

The Gas Company owned the Candy Factory, insured through J. C. Pope & Co's. agency.

Mr. Guion was insured with Mr. W. C. Butler.

Wood & Hall's policies are with B. F. Webster, J. C. Pope & Co. and Wm. Woodruff.

The entire loss is slight.

Messrs. John Hall, T. O. Doane, Chas. Guion, Stevenson R. Hope and Mrs. Schaddecker desire us to thank through the columns of THE CONSTITUTIONALIST the firemen and those citizens who labored so faithfully and successfully to save their property on the occasion of the fire last Monday night.

An attempt was made to fire the barn of ex-Councilman John Simpson the same night (Tuesday) about 8 o'clock, by touching fire to a quantity of straw pulled through a hole on the North side of the barn. A young lady residing opposite, saw the flames, and alarmed Mr. Simpson who went out and extinguished the fire.

The yearly report of the Treasurer of the Board of Fire Commissioners appears in another column. There will be but a small amount of funds to run the Department with the present year.

Elizabeth had three fires on Tuesday.

An alarm of fire was raised Tuesday night, about 9 o'clock, occasioned by the burning of meadow land near Netherwood. The tower bell was not struck, but all the apparatus turned out. No 1 "washed" at the Crescent Avenue fire well, and "No 2" at Richmond Street. It has not as yet been decided who got "first water."

A bunch of waste, saturated with oil, was found burning beneath some timber in the lumber yard, (formerly Hope's) near the depot, on Tuesday afternoon last. The fire was put out by Mr. Rheaume.

An incendiary attempt was made to fire the dwelling house next to Nash's Segar Store on Peace Street, occupied by Mr. Wagner, Tuesday night, by placing oily waste under the back stoop of the building. The flames were discovered by Mr. Wagner, after a hole had been burned through the floor, and extinguished.

THE *Iron Era*, of Morris County says:—"The Plainfield fire laddies have engaged the Allentown Band for an excursion in June."

It is proposed by the Gas Company to put up a gong or whistle on their gas house, connecting with the steam boiler below, so that in case of a fire occurring in the immediate vicinity of their works, the firemen may be notified by the sound of the whistle. A good idea, and one we hope will be carried out.

The election for Chief and two Assistant Engineers of the Plainfield Fire Department, occurs the evening of May 3d. Thus far there is but one ticket in the field, No. 1 Eng. Co., Alert Hose Co. and Zephyr H. & L. Co., having nominated Wm. H. Voorhees for Chief, R. R. Davis, 1st Assistant and Frank Vail, 2d Assistant. There seems to be little interest taken in the matter by the remaining two Companies, Gazelle and Warren.

A kerosene lamp explosion at Mr. J. Acor's residence, on Friday night last created a little excitement among the inmates. No alarm of fire and but little damage.

The barn and outbuildings of a Mr. Rolf, near Lyons Farms, was destroyed by fire on Tuesday night last. The body of Mr. Rolf, burned to a crisp, was found among the ruins. It is supposed he went inside the barn with an old lamp, which fell apart, setting the place on fire and in attempting to secure some of his stock, was burned to death.

Last Wednesday evening as the town clock was striking nine, its bell was joined by the fire alarm, which called out the entire department to what might have been a spreading and disastrous fire, starting, as it did, in the midst of many wooden buildings. The nurse girl of Mr. A. Warnock, the baker on Front Street, noticed the flickering of the lamp in the room that she occupied with some of her young charges, and seizing it carried it into the hall where, upon setting it down, it burst. With the loss of a number of blankets the flames were quenched, and no damage beyond a few painful burns to Mr. Warnock.

The attention of the different Companies is called to the fact that they should send in their lists to the Secretary of the Board as soon as practicable. Another election approaches.

Simon Kinney, now living with his son-in-law at Brookside, Morris county, was 100 years old on the 11th day of April. He was born near Rocky Hill, in Somerset county. He once saw Washington in a coach between Princeton and New Brunswick.

Approved March 10, 1880.

MISCELLANEOUS READING.

SAGACITY OF TROUT.

Seth Green, the well-known pisciculturist, believes that "trout hold communication just as regularly as we do." In supporting his theory that trout are unusually intelligent he said to a reporter:

"Talk about natural sagacity; why, I can point you to as striking instances of it, in a primitive form, among fishes as you ever heard of among men. In the Winter of 1840 I hunted deer and fished for salmon trout in and around Bonaparte lakes, just north of Herkimer county in the Adirondacks. I fished, putting down a hundred hooks through holes in the ice about eight rods apart. These hooks were baited with good-sized minnows, as full of life as though at liberty. After the lines had been down the first night I took from them in the morning twenty-eight good big trout. Each successive morning I got less and less, until on the eighth day the number of trout taken had diminished to seven or eight. But every bait was gone from every hook as on the first morning when I made the big haul. I knew the trout hadn't all been taken from those waters, but it was also apparent that I couldn't catch any more without removing my tackle. So I cut new holes in the ice and moved down about a quarter of a mile. There my results were in exactly the same ratio as the first, and I had to move again in seven or eight days. One day I ran a line of hooks in such a direction that one of them came right over a rocky bar, where there was open water. I decided to try an experiment with this hook. I fastened the upper end of the line to an overhanging piece of brush, so that nothing could interfere with the bait below without making the brush wriggle. Then I lay down to watch. Very soon the brush began to wriggle in a lively fashion. Looking down into the water I saw a magnificent trout experimenting with the minnow attached to the hook. Keeping as close to the minnow as possible, he repeatedly snapped at it very cautiously, re-opening his mouth before he had fairly closed it, so as to prevent swallowing anything he did not want. When the minnow in its flight had gone so far as the line would permit, Mr. Trout made a more forcible snap at it, so as to cut it almost entirely from the hook. Down to the bottom sank the minnow, and down after it darted Mr. Trout, gobbling it down at a mouthful, knowing that it was now safe to do so. Well, that was a pretty sharp trick of his, and it was just that gamy way of doing things that had compelled me to move so frequently. How came that trout, and every other one in the same waters, to adopt this identical mode of proceeding, conclusions and tactics, except by means of a language which informed him exactly what had been the disastrous consequences, with trout which had, on the other hand, taken the bait without precaution and strategy? Of course all the fish, even in the same locality, were not privileged to see the struggles and capture of the more unfortunate ones.—But there were few of them that didn't know of it, all the same. However, I measured powers of strategy with those same smart fishes, and I beat them on their own grounds. I managed it so that when I found a line wriggling I could drop it suddenly to the bottom, in which case the trout invariably darted down and swallowed the minnow, hook and all.—The trout might have beaten me on this [illegible] if I had given them time to [illegible] got their heads together and gossip over the matter till they could agree upon some new tactics. But I didn't."

"From your experience with these salmon trout, then, you argue that they live in families, have family secrets, and do not bother themselves about communication with any others than the members of the family and their nearest neighbors?"

"That's it exactly; fishes are just as domestic and local in their habits as human beings—more so, for those of the same tribe do not encroach upon the territory occupied by their neighbors. To illustrate: In 1837 a company of us began fishing for salmon trout off Port Hope, Ont. The first year it wasn't an uncommon thing for us to catch 150 trout of ten pounds each on 200 hooks. The next year the number caught at the same place dwindled down to about 100, the next to fifty, and in less than six years it was impossible to catch more than a dozen or fifteen on 200 hooks in the same place. Moreover, the few we did catch weighed three or four pounds apiece only. We had caught that family all out. You couldn't catch any more there for years. I had precisely the same experience afterward, off Cobourg, Grafton and Colbourn. I knew one old trout up there at Caledonia that lived under the same old log for four years. I might do my best, but I couldn't catch him with my tackle. He always managed to get away with it without injury to himself and the demolition of the bait, when there was any. One day a boy came along with a string and a hook and a worm, and he threw that old trout right out the very first cast. I gave him five dollars for the fish, and was glad to get him anyhow, after trying so hard and so often to no purpose. The old fish had studied my peculiar ways and means of fishing till he knew them and how to manage them just as well as I did myself."

Out in Colorado, at the foot of a perpendicular cliff, which towers to a great height, is a lonely grave, covered by a huge boulder, bearing the following inscription:

An unknown man lies buried here,
Whose name was probably [illegible],
(From papers found about his clothes,)
[illegible]
We found him by the broken gun,
His hands gripped round the stock yet,
A good big load [illegible] in his head,
[illegible] in his pocket—
Only a [illegible] deck of cards,
All [illegible] on their faces,
With kings and queens [illegible],
And thirteen extra aces.

Weather report—a thunder clap.

Domestic pets—Matrimonial sulks.

The prospects are good for an open summer.

A little girl in Norwich, Conn., defined "sport" a man what wears his hat on one side.

Mr. Pritchard, residing in Elizabeth, N. J., has two sons in the tea business in Japan. About two years ago, after a visit to his father's residence, one of them, by mistake, carried the latch key of the front door to Japan with him. On Saturday Mr. Pritchard received it through the mail. It was attached to a postal card, and had travelled from Japan, three-fourths of the distance around the world for 1 cent.—*Sun.*

The aged mother of Dr. Samuel Long of New Brunswick, N. J., lived for many years in Norristown, Pa. She had a presentiment that she would die if she had any of her teeth drawn. Several weeks ago one of her young lady friends, who was not very strong, had five teeth drawn, and the old lady then decided that if her young friend could stand the dreaded operation, she could. She therefore consulted with a dentist who laughed at her fears. Three of her teeth were drawn without serious results, but as the fourth tooth was being extracted the old lady dropped her head, said she felt dizzy, and in an hour she was dead.

MISSING

From Philadelphia about the 3d of next month, 1780, a tall complexioned young man, about five feet six inches of age; height, thirty-seven years; had on when last seen a pair of swallow-tailed sealskin trowsers, with sausage stripes; fashionable mutton-chop waistcoat, with cast iron trimmings; double-barreled frock coat, with a tripe collar and tobacco lining; water-tight canvas boots, with patent leather tops, laced up at the sole; deaf and dumb of one eye, and hard of hearing in the other; is slightly pockmarked at the back of his head; stoops upright when he walks crooked; a slight impediment in his look, and wears a Grecian bend on his upper lip; whiskers cut off short inside; was carrying an empty carpet box in each hand, and a wooden bag in the other, containing screw steamers, railway tunnels and blacking. Was born before his younger brother, his mother being present on the occasion.

A CAT'S LIVELY EXPERIENCE WITH BEES.

Charles Kaiser, who has the only hive of bees in town, says that when he first got his colony, his cat's curiosity was much excited in regard to the little insects, the like of which she had never before seen. At first she watched their comings and goings at a distance. She then flattened herself upon the ground and crept along toward the hive, with tail horizontal and quivering. It was clearly evident that she thought the bees some new kind of game. Finally she took up a position at the entrance to the hive, and when a bee came in or started out, made dab at it with her paws. This went on for a time without attracting the attentions of the inhabitants of the hive.

Presently, however, old Tabby struck and crushed a bee on the edge of the opening of the hive. The smell of the crushed bee alarmed and enraged the whole colony. Bees by the score poured forth and darted into the fur of the astonished cat. Tabby rolled herself in the grass, spitting, spluttering, biting, clawing and squalling as a cat never squalled before. She appeared a mere ball of fur and bees. She was at length hauled away from the hive with a garden rake, at a cost of several stings to her rescuer. Even after she had been taken to a distant part of the grounds the bees stuck to Tabby's fur and about once in two minutes she would utter an unearthly "yowl" and bounce a full yard into the air. Two or three days after the adventure Tabby was caught by her owner, who took her by the neck and threw her down by the bee hive. No sooner did she strike the ground than she gave a squall, and at a single bound reached the top of the fence, full six feet in height. There she clung for a moment, with a tail as big as a rolling pin, when, with another bound and squall, she was out of sight and did not again put in an appearance for more than a week.—*Virginia City (Nev.) LAWS OF NEW JERSEY.

CHAPTER CXVI.

An act in relation to cities.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever any city in this state shall be unable, in the judgment of the city council or other legislative body thereof, to raise and pay the annual charges upon the outstanding indebtedness of such city, which judgment shall be expressed by the resolution of such city council or other legislative body by the votes of three-fourths of the members thereof, it shall then be lawful for the said city council or other legislative body to offer such terms of settlement to the creditors of such city as such city council or other legislative body shall deem such city so indebted may be able to meet and carry out, and to issue bonds of such city for such an amount as they may deem necessary to carry out the terms of a settlement, in the manner hereinafter provided; said bonds shall be issued by ordinance of the city council or other legislative body of such city, passed by the votes of three-fourths of the members thereof, and said bonds shall be applicable to the purposes of the arrangement and settlement of the indebtedness of any such city with the creditors thereof, and for no other purpose, except as hereinafter provided; and the ordinance for the issue of said bonds shall be passed in like manner and in accordance with the same forms of law as all other ordinances [illegible] at the option of the holder, and all said bonds so issued, shall be entitled and designated adjustment bonds of the city by which the same shall be issued; provided, however, in no case shall such bonds be issued until the city council or other legislative body in said city or cities shall have determined by resolution the amount or percentage of existing indebtedness for which said adjustment bonds shall be issued, and as soon as the city council or other legislative body shall have determined upon the amount and character of the settlement they shall deem such city or cities as aforesaid may be able to make and carry out, it shall be the duty of said city council or other legislative body to submit such terms of settlement to the legal voters of such city or cities, in order to give anticipated validity to such issue of adjustment bonds by the endorsement of the same by a majority of the voters and taxpayers, on [illegible] such terms of settlement as may be offered or agreed to.

2. And be it enacted, That the manner of acceptance or rejection of such terms of settlement by the legal voters of such city or cities shall be as follows: the said city council or other legislative body shall give thirty days' notice, by publication in the daily and weekly newspapers of such city or cities, of a special election for that purpose; the polls shall be held at such places as the city council or other legislative body may determine, and the election shall be carried out in the same manner as provided for other municipal elections, and under the same laws, except as to the time of holding the same, which shall be fixed by the said council or other legislative body, and also except that but one day of registration of voters shall be required, which said day of registration shall be not more than four days before the day fixed for the said election and the ballots cast at such election shall be as follows, to determine the will of the people: in favor of the settlement of the debt as proposed, or, against the settlement of the debt as proposed, as the voters may determine.

3. And be it enacted, That whenever such settlement shall be agreed to in any city of this state as hereinbefore provided, the adjustment bonds authorized by this act shall be issued in the manner provided for the issue of bonds in such city or cities, and such bonds shall bear a rate of interest to be fixed in the terms of settlement, not, however, greater than four per centum per annum, and shall be payable at such time or times as may be designated, not, however, less than twenty years from the date of issue; but the said bonds may be made redeemable by such city or cities at any time after five years from the date of the issue of the same.

4. And be it enacted, That it shall be lawful for such city or cities, through the finance department thereof, to exchange such bonds so issued for any legal evidences of indebtedness of such city, held by any creditor thereof with whom such finance department may agree for that purpose, in accordance with the terms of settlement which may be authorized and adopted in pursuance of the provisions of this act; and such city or cities may by a majority vote of its finance board, and by a three-fourths vote of its city council or other legislative body, issue an amount of adjustment bonds in the manner authorized by the foregoing provisions of this act sufficient to cover the costs and expense of making the exchange as aforesaid; provided, the amount of such bonds so issued shall not exceed one per centum of the amount of such bonds so exchanged, but no money shall be paid for commission except in cases where the city authorities shall be absolutely unable to make settlement as intended by the provisions of this act.

5. And be it enacted, That the annual interest on the aforesaid adjustment bonds shall be raised by taxation, by the proper authorities of any such city, which may be authorized by law to raise money by taxation, and such interest, together with any sum of principal which shall be raised by taxation by such authority, shall be paid by the proper authorities on such bonds for interest or [illegible] before the interest on any bonds [illegible] existence at the time of the issue of the bonds authorized by this act, except indebtedness incurred for current expenses.

6. And be it enacted, That all sums which shall be raised by any such city for the purpose of applying to the payment of the bonds authorized by this act, shall be held as a sinking fund by the proper officers of said city, and shall be applied from time to time to the redemption of the debt only or the redemption of said bonds, and such bonds shall in all cases be purchased at the market price, if below par in value; such bonds so purchased shall not again be issued, but shall as soon as possible be cancelled, in the presence of the mayor, sinking fund commissioners, if any there be, and finance committee of [illegible] governing body of said city, or a majority of them.

7. And be it enacted, That all revenues raised by any such city for licenses of any character whatever, and also all unexpended balances of the annual tax levy made for current expenses which may remain unused at the end of each fiscal year, shall be used by the sinking fund commissioners for the purchase of any outstanding bonds or other evidences of indebtedness, at the market price, not above par; provided, however, that such sums received from [illegible] and unexpended balances, as aforesaid, shall be applied to the purchase and redemption of any portion of the indebtedness of any such city, now outstanding, which may not be included in the settlement contemplated by this act, and when all such indebtedness shall have been purchased or redeemed, on behalf of such city, by the proper officers thereof, or exchanged under the terms of the settlement provided for in this act, then, also, all such sums as the said unexpended balances and revenues, when received, shall be turned into the sinking fund, which is made applicable to meet the principal of the adjustment bonds which may be issued under the foregoing provisions of this act.

8. And be it enacted, That all acts and parts of acts inconsistent or in anywise in conflict with this act be and the same are hereby repealed, and that this act shall be deemed a public act, and that it shall take effect immediately.

Approved March 16, 1880.

WATCH.

The people of the United States cannot be too watchful of their liberties, or mindful of the fact that the approach of despotism is with stealthy tread.

No people ever lost the blessings of freedom at one fell swoop, the pathway thereto has invariably been gradually opened by conspirators, secretly working, little by little, perverting law and privilege, and at the same time alluring public attention from their real designs.

That was the game played by Louis Napoleon and his satellites when, after artful preparation, they overturned the French Republic and on its ruins reared the Empire.

What has been accomplished by unhallowed ambition in other countries, may be even in this boasted land of liberty.

Thirst for arbitrary power exists to-day as it has always existed, and its methods and purposes are not in the least degree altered.

The leopard cannot change his spots, nor destroy ravenous appetite.

In vigilance alone is safety.

PRACTICAL KNOWLEDGE.

The Johns Hopkins University in Baltimore has inaugurated a course of lectures on Political Economy, which appears to be a step in the right direction. Among the topics are the following:

"The growth of great National debts, and their social and political tendencies."

"Various forms of public debts and the methods of contracting them."

"Management and employment of debts while outstanding, and the methods by which they may be liquidated."

"The American debt from 1787 to 1836."

"The American debt from 1836 to 1880."

The foregoing seeks to impart instruction on *living issues*, and to make the rising generation *practical citizens* instead of useless theorists.

That is what is needed, not only in Colleges, but in the Common Schools of our land.

Practical knowledge.

DOWN WITH IT.

"Down with monopoly," was once a prominent rallying cry of the Democracy and it should be zealously revived.

Monopoly is spreading its baneful influence throughout our country to the detriment of every legitimate pursuit, and not only that but to the overthrow of just legislation.

It can be seen on the right hand and on the left and in many shapes.

It is a selfish extortioner.

It is devoid of honest principles.

It uses the money power as a lever of oppression.

It would enrich the few at the expense of the many.

It is hostile to the rights of a free people.

Down with it!

WHY?

France with about one-third less population than the United States has a national debt more than twice as large, of which over a thousand million of dollars emanated from the Franco-German war, and was subscribed, principally in small sums, by the French people themselves.

The people of France are rich and prosperous.

Why?

Because gold and silver are in free and co-equal circulation, and the thieving form of monopoly is not allowed to tyrannize the masses and dominate honest industry.

"Like causes produces like effects."

Gatling, the inventor of the famous gun bearing his name, has perfected another instrument of war said to be capable of firing 1,000 shots a minute, and by its use three men can do the work of 300 riflemen. It can kill a man or horse one mile away. That is a good agent to abolish war and institute arbitration. A few such implements of death would lay low the mightiest host that ever marched to battle. We think it deserves the title of "peacemaker" in more ways than one.

A bill has been introduced into Congress obliging the Secretary of the Treasury to give public notice of intended purchases of bonds for account of the Government, stating the exact amount required and the day of purchase. It is quite time something was done to stop Mr. Sherman's financial speculations. There has been too much manipulation of the kind for the general good.

In Bordentown, New Jersey, at the Charter Election last week, the question of "license or no license" was put squarely before the people and license carried the day. Let the issue be in like manner submitted to the voters of Plainfield. It is the only fair test.

Every President before Grant, with the single exception of John Quincy Adams, and he went honorably into Congress, at the close of their official terms retired with dignity and in imitation of Washington.

The Constitution is a protecting shield if preserved in its original integrity. To ward off every innovation is the foremost duty of loyal citizenship.

Conkling hates Blaine, Blaine hates Sherman and Sherman hates Conkling, and they all want the Republican nomination for President.

Any attempt to render the military superior to the civil authority is a thrust at the heart of free institutions.

The strongest Republican States East and West repudiate the third-term scheme.

"MONEY OR NO MONEY."

Next Tuesday the legal voters of Plainfield are called upon to cast ballots in favor of or against the raising by taxation the additional sum of $2,500, more than the $10,000 now allowed by law for city purposes. It is for them to decide whether they shall be burdened with additional taxation, or get along with the annual amount appropriated, which, with the additional amount received from licenses, has heretofore been found sufficient to pay the current expenses of the year. The threat of cutting off the street lights if the money is not granted should not debar every citizens in favor of economy to vote as his mind dictates. With proper care and efficient persons to perform the work, it is not absolutely necessary to raise more money to repair or keep in order our streets.

A more universally-regretted disaster than that recorded of Wednesday evening last, when a portion of the roof of the Madison Square Garden building, of New York City, at which was being held the grand Charity Fair for the benefit of the Hahnemann Hospital, fell in, has not been added to the chapter of such catastrophes for some time. Blame has equally been attached to the builder of the structure and to the Vanderbilts who allowed so flimsy a work to be put up, but that does not help the result, counteract the terrible calamity or free the Department of Buildings which is expected to examine into such matters. One lady, high in the walks of life and prominent in society, was killed, while another found dead is yet to be identified; besides many injured ones of whom hopes of life seem futile.

The West has had a terrible tornado, and the town of Marshfield, Missouri, has nearly been wiped out of existence. It occurred on Sunday afternoon, and was in shape of a heavy rain-storm, with hail and wind. So far as known, seventy-eight persons were killed, and a number have been buried, of whom no record has been kept. Everything in the path of the whirlwind was leveled to the ground, and a wide belt of country was passed over. As later returns come in, it will be found that there have been many people killed, and that much property has been destroyed.

Denis Kearney is now where he really belongs, and where he should have been long ago, in prison, with his hair cut short, and with a suit of stripe clothing. He was rather tenacious about one matter, that of working more than eight hours a day. There was no demonstration on the occasion of his departure for prison, and few regret that his presence no longer polutes the city of San Francisco.

The New York State Democratic Convention to nominate delegates to the National Convention, met at Syracuse on Tuesday last. A test vote on a resolution showed that Tilden had 295 of the delegates to 80 for Kelley. The delegates to the National Convention are supposed to stand sixty Tilden and ten Kellyites. The delegates were not instructed for any one person at the National Convention.

QUEENSTOWN, April 20.—The United States frigate Constellation, Commander E. E. Potter, from New York March 27th, with clothing and provisions for the famishing people of Ireland was signalled off Roche's Point at half-past seven o'clock this morning, and at nine o'clock entered this harbor. The appearance of the vessel was hailed with delight, and there is great rejoicing in the city.

The Delaware and Lackawanna Railroad Company has made a contract for two iron steamers, 280 feet in length, 36 feet beam, and 23 feet depth of hold. It is contemplated to build a fleet of coal steamers similar to those of the Philadelphia and Reading Railroad, to meet the demands of the New England trade.

In consequence of its being impossible for Attorney-General Stockton to be present at the trial of David J Meeker, indicted with Leggett and Leeds of Elizabeth, on a charge of conspiracy against the city, which was set down for Monday last, the trial has been adjourned until May 10th.

The application of twenty-five Freeholders for an investigation of the affairs of Jersey City, under the Hobart act, has been defeated upon an objection that five of the members had not paid their taxes within a year—Judge Knapp holding that the objection was a valid one.

On Monday last Mr. Edward D. Fox, of the State Executive Department, proceeded to Newton, and delivered the Governor's warrant for the execution of Frederick Crill to Sheriff Decker, commanding him to execute the sentence of the law upon the prisoner on Saturday next.

A family by the name of Shotwell, residing in Rahway, was seriously poisoned on Monday last. The supposed cause was horse-radish with wild parsnips grated in it, which they bought from a neighbor. The physicians attending anticipated no serious results.

"I am for Grant for King, or for that matter I am for his son Fred to follow him, so long as there is any danger of the Democracy ruling." These are the words of O. M. Wilson, an Indiana advocate of a third term now in Washington.

A part of the latticework of the Tay Bridge has been recovered which bears marks tending to sustain the theory of the chief engineer and projector of the bridge, that the train went off the track before the bridge fell.

A Catholic Church edifice is to be erected at Jobstown, Burlington County. Mr. P. Lorillard has contributed $50 toward it. It will be under the charge of Rev. Hugh McManus, of Mount Holly.

A railroad about five miles long is to be built from the West Jersey Road, near Cape May Court House, to Anglesea, a new Summer resort on the Atlantic, above Cape May.

The English edition of *Scribner's Magazine*, which is steadily increasing from month to month, now amounts to 11,000 copies.

The April term of the Burlington County Courts commenced on Tuesday last with Judge Joel Parker on the bench.

The artesian well at the Paterson Rolling Mill has reached a depth of nearly 1,900 feet, and is still going through solid red sandstone.

Grant aims to obtain the nomination for President at Chicago by the help of delegates from states where he cannot receive a single electoral vote.

Comptroller Anderson is notifying the County authorities of the amount of the two-mill school tax for 1880, based upon the abstract of ratables for 1879, payable before the first of January next. He also makes the gratifying announcement that "no tax for State purposes has been levied this year, which will make $51,000 difference to Essex County."

REGARDING the modifications to the eligibility of Messrs. Mayer and Morris for members of the Fire Board, all we can say is that they can read the law as plainly as we regarding their eligibility as members of the corporation. As far as being eligible on account of belonging to a fire company when they were elected, we believe that their resignation from such Companies before taking their seats as members of the Board obviates all the alleged difficulty in that part of the affair.

Testimonials:
"I take pleasure in calling attention to this announcement by a lady possessed of many of the qualities of a successful lecturer. Her subjects are well chosen; and in manner, style of expression, picturesqueness, humor and eloquence, she leaves little to be desired."
JOHN G. WHITTIER.
"In commending Miss Sanborn's lectures to the special attention of any community fortunate enough to have the opportunity of hearing them, I have only to say that I know of few persons gifted with her mental and oral abilities for imparting instruction. The daughter of one of our most distinguished college professors, she possesses inherited as well as acquired talent for teaching and lecturing."
JAMES T. FIELDS.
"Aiming to condense as much information on reading and literary topics into a lecture's talk as can be done in a chatty way, she certainly gives such turns what her audiences want, hereby find out for themselves without months of well directed reading."

PLAINFIELD'S Republican Council has vetoed our Democratic Mayor's "Poor Ordinance."

"MONEY" or "No Money" is the next battle cry. The battle comes off next Tuesday, 27th.

ADAM FRITZ, on Tuesday last, sold his pair of handsome road horses to a Morristown gentleman.

THE celebrated Philadelphia Lawn Mowers are for sale at Curtiss & Griffin's. Read their advertisement.

THERE was a heavy white frost in this section the night of Tuesday, April 20. Make a note of this for some future Vennor.

BICYCLISTS are increasing, and the lane opposite the Post Office has been turned into a sort of a riding academy for beginners.

LILIENSTERN, the Clothier, rejoices in the erection of a handsome new sign over the doors of his place of business, No. 22 Front Street.

MR. HOMER COPE the well-known elocutionist, has leased Mr. John H. French's house on Central Avenue, and will permanently locate with us.

VISITORS will not be admitted in future to the P. A. C. Gymnasium, on Saturday evenings, until after the coming exhibition at Van Deventer Hall.

THE attention of all lovers of pure teas, is directed to the advertisement of A. Frank Swany & Co., 115 Wall Street, which will be found in another column.

THE election for Directors of the Union and Middlesex Counties' Agricultural Society will occur on the grounds, near Plainfield, on the third of May, from 5 to 8, P. M.

THE departure of the family of John Taylor Johnston, Esq., to Europe will not cause the closing of their beautiful grounds. Gardeners are already at work on them.

SWAIN invites your attention to his fine stock of engravings. Among them Jerusalem in her "Grandeur and Fall" are worthy of special notice and all of which he offers at the New York prices.

THE arrangements for the coming exhibition of the P. A. C. to take place in Van Deventer Hall, have been placed in the efficient hands of Messrs. Walter Bass and Charles Moore. Their ability insures a successful programme.

THE Norton property, corner Broadway and Sixth Streets, having changed hands, is being thoroughly renovated and fitted up for the reception of Summer boarders. Mrs. J. C. E. Brown, a lady of large experience, will have charge.

BILLY Hedden displays the weather signals correctly from the top of the Mansion House, to the gratification of the public generally. The engineers passing through this city over the Central railroad appreciate the displaying of the signals.

As the fishing season is at hand, parties desiring good reliable tackle, hooks, lines, etc., should visit Vanderbeek's new store on Park Avenue. He has just laid in a large stock of new goods, and can furnish anything in the fishing paraphernalia line at low figures.

THE "Star" was in Plainfield last Monday morning with a number of C. R. R. moguls, who made an inspection of the Peace Street bridge and left with the intention (let us hope) of doing something to prevent the annoying leakage, through it, on to the heads of passers underneath.

WE offer a suggestion to our City Fathers. It is that they enforce the ordinance prohibiting the erection of swinging signs over the sidewalks, or of obstructing said walks with the sign nuisances now so prevalent on our streets. These signs obstruct travel and should be removed.

IN our article last week on the death of L. H. K. Smalley, we should have said that Rev. J. C. Buchanan preached the funeral sermon. Rev. Mr. Guiscard made the opening prayer and gave out the hymn. Rev. Dr. Yerkes followed with prayer, and gave out a hymn, then followed the sermon by Rev. Mr. Buchanan.

MANY persons were disappointed last Monday evening, upon repairing to Van Deventer Hall, to find that Slavin's "Uncle Tom's Cabin Troupe" had not put in appearance, as they were advertised to do. We are informed that the cause of their non-appearance is the fact that Mr. Slavin's daughter was dangerously ill at the time.

MR. MORGAN BIRD has been building quite an extensive addition to his house No. 61 Park Ave., which makes a most convenient office and where he may be found at any time to receive orders for all sizes and grades of coal. His yard is at the rear of his premises, with wagon entrance on Fourth Street and elevated roadway for the transportation of coal from the track, being as completely arranged as might be desired.

THE large audience that attended the reception of the lady-gymnasts a few weeks ago, prevented those who came latest from seeing all that transpired. Among this number were many of the parents, relatives and particular friends of the members. The latter have, in consequence, decided to give a matinee reception on the afternoon of Saturday, May 1st, to which admittance can only be obtained upon an invitation from one of the members.

OUR city should be the owner of the improved street scraper, imported from Scotland by ex-Street Commissioner Wilson. Instead of using the old style scraper or gathering the dirt up in piles by the aid of hoes, as at present, this scraper does the work in half the time and more perfectly. Mr. Wilson offered the scraper to a former Council at a fair price. The present Council would spend money judiciously by purchasing it.

DESPITE the fact that Mr. Spencer Conway is in receipt of a threatening letter from some anonymous correspondent; he still continues to furnish male and female help to such as apply. Those in need of good servants would do well to call on him, and may feel assured that only just wages will be demanded. Mr. Conway has offered a reward of fifty dollars for the discovery of the writer of the letter, and has engaged the services of Captain Dodd with such intention.

A HANDSOME glass transparency, with the words "Democratic Association," inscribed thereon, has been placed over the entrance to the headquarters of the Plainfield Democratic Association, on Front Street, opposite the Post Office. The transparency is lighted up every night, and the comfortable rooms thrown open to visitors. Plenty of reading matter of all kinds is furnished. All favorable to the success of the Democracy are cordially invited to visit the rooms, which are under the janitorship of Thos. Casey.

IS it not about time that legal proceedings were instituted against parties who refuse to pay their fire tax. As they claim the Charter of the Fire Department is defective, a test suit in reference to collection of back taxes would settle the question. There is a large amount of such taxes due, and it is an outrage that a portion of our citizens should pay their taxes when others, more able to pay, refuse to do so on the above mentioned technical point. Let the matter be tested and see whether the Charter is good for anything or not.

WALKER, the Baker, is now located in his new quarters on Park Avenue (formerly Wooden's) and is rapidly gaining popularity for the excellence of bread and cake made by him in the fine ovens of the establishment. He invites a trial from the public.

DECIDED improvements are being made in the interior of Heidloff's Farmers' Hotel, on Somerset Street. The bar has been turned around, the former sitting room turned into a dining room, and doors cut through partitions leading into private sitting rooms.

Alligator at Large.

A pet alligator, belonging to "Bertie" Demarest, son of P. M. Demarest, the Front Street groceryman, strayed away from his quarters last Sunday. As the 'gator is a great pet, a liberal reward will be paid to any person returning him to his owner.

A Change of Base.

Mr. Charles Brocksmith, for four years the proprietor of the Westfield Hotel, has leased for a term of years, the well-known "Schwartz Hotel" at Elizabeth, and will remove there about May 1st. The house is being thoroughly renovated and repaired, and will hereafter be known as the "County House." The citizens of Elizabeth will find Mr. B. an excellent landlord and genial gentleman.

Fine Mules.

Mr. J. W. Morris, the veteran horse dealer, was in our city yesterday, driving as handsome a pair of mules as we ever saw hitched together. They are a portion of the drove he recently brought home from Canada. To-morrow he leaves for Canada again and about the 5th of May will return to his stables at New Brunswick with a number of matched teams of horses, ponies for ladies' use, draught horses and roadsters, where he will offer them for sale. Mr. Morris has the reputation of square dealing, and it is only necessary for those in need of good horses to know the date of arrival home again to insure a purchase by them.

Plainfield's Childrens' Home.

We have before us the report of the Children's Home Association for the year ending December, 1879—a report showing great christian endeavor directed towards a noble purpose, with most gratifying results. During a period of existence, covering less than three years, the generous work done by the Association has steadily increased as its laudable object has raised up faithful friends and sincere co-laborers. The following report of the Treasurer, Mrs. Elizabeth A. McGee, will give some idea of the past year's work:

The Baptist Y. P. U.

The Young People's Union of the First Baptist Church gave another of their pleasurable Sociables last Tuesday evening in the Sunday School Room. The seats had been removed from the centre of the floor and chairs substituted, so that space was left vacant for the enjoyment of promenading. The programme provided included Soprano Solos by Mrs. J. K. Myers that were of course well sung; "Les Rameaux" being especially delightfully rendered, and "The Last Rose of Summer" as an encore called forth sincere appreciation. Mr. Walter McGee's exhibition of his elocutionary abilities, as usual, added greatly to the interest of the evening; while the instrumental music of Messrs. J. Howatt, E. Everitt and E. Hooley was received with unbounded applause and enthusiastic recalls. The latter gentleman's execution of "La Coterie de Twilight." was thoroughly well adapted to display the intense study he has given classical music and his remarkable capability to interpret it correctly. During the evening ice cream and cake were furnished to the Association and its guests; Mr. Frank Marsh and his corps of young lady and gentlemen assistants preventing, by their attentions, any from going away unsatisfied.

Chess Tournament.

The following is the record of the Chess Tournament which was commenced in this city on Tuesday, the 13th day of April inst., at the time of going to press:

	Won.	Lost.	Drawn.
George P. Suydam,	[illegible]	[illegible]	[illegible]
John H. Jackson,	[illegible]	[illegible]	[illegible]
F. A. Dunham,	[illegible]	[illegible]	[illegible]
Capt. Curtis,	[illegible]	[illegible]	[illegible]
George S. Hunt,	[illegible]	[illegible]	[illegible]

Drawn games count ½ a game for each player. This makes the result a tie between Mr. Suydam and Mr. Jackson, each counting 7½ games won.

One more game is still to be played between Mr. Dunham and Capt. Curtis, the result of which will determine which of these two gentlemen is entitled to third place.

Some of the games played were very brilliant and interesting.

Another tournament is expected to be commenced in a few days, in which several other good chess players will take part.

Petty Larceny.

It seems as if we are always being called upon to record some outrageous or dishonest action perpetrated by the youth of this city. No sooner is one wickedness exposed than another comes to the surface, and it seems as if the guilty ones will never be weeded out or their deeds cease. A few evenings ago a prominent druggist missed some cigarettes from his counter after the exit of a party of young newsboys. Calling in the services of an embryo detective in the person of Whit. France, he was put on the track and upon hunting up the suspected ones he obtained sufficient circumstantial evidence by seizing from the mouth of one a catarrhal cigarette such as had been missed. Finding, after comparing notes with the loser, that he was right in his surmises, young France returned and laying hands on the offender informed him that he must come along or return what he had taken. Then there occurred the usual struggle of objection and emphatic denial, but the consequent disturbance having attracted a crowd of bystanders and the guilty one came to the conclusion that discretion was the better part of valor, and handed over the remains of one of the packages stolen. His confederates had long ere this departed from the scene, and the rest of the lost goods were not recovered.

Fireman Saltzman Honored.

The presentation of Mr. Augusta Saltzman, Foreman of Alert Hose Co., on Friday evening of last week, with the diamond badge that a number of New Haven gentlemen had deputized Mr. John H. Cuthbert to present in their name, was a most auspicious and interesting occasion. Sickness in Mr. Saltzman's family unfortunately prevented his remaining during the entire evening, and such time as he was present was hardly extended enough to allow all to express to him their sincere congratulatory feelings. What was said on both sides, however, showed plainly that the appreciative gift from Connecticut was not mis-directed.

Afternoon Lectures.

We would most heartily call the attention of the ladies of Plainfield especially to the efforts that are being made by the Chautauqua Literary and Scientific Circle to promote intellectual culture in this city. An opportunity is afforded all friends of such a movement to encourage the first step in that direction by their patronizing the course of afternoon lectures that are to be given on April 27th, 28th and 29th. Miss Kate Sanborn the speaker is a lady too well known and commended to need additional praise from us, and will no doubt attract large audiences by the interest her name assures. Tickets for the course may be procured at H. P. Reynolds, Druggist, Chautauqua Building.

Out of Debt.

Dr. Bliss was able to announce from his pulpit last Sunday morning, that subscriptions sufficient to cancel the entire indebtedness of the Crescent Ave. Church had been obtained. $20,000 of the amount has already been paid or can be secured upon demand, so that a large portion of the outstanding liability will at once be effaced. A surplus over the necessary amount was secured so that in the case of any emergency arising during the coming year it might be met, and anything remaining will be used upon the interior of the building wherever most needed. It is the intention of the members to register a vow that will, in future, prevent the least debt ever again to o'ershadow the Church.

Collector Veghte.

At a meeting of the Board of Freeholders of Somerset County, held last Saturday, a communication was received from the County Collector, John V. Veghte, accused of a deficiency in the funds of the County to the amount of $9,128.73, in which he declared that inasmuch as he was unable to prove his innocence of the charge preferred, in consequence of the theft of vouchers, he distinctly disclaimed the correctness of the conclusions of the Expert Committee who examined his books, and that he did not owe the County of Somerset one dollar, but that he would pay the amount claimed ($9,128.73) under solemn protest, with the understanding, that if at any future day the stolen books and papers are found, he shall not be debarred from any right to recover the same from the County as improperly and unwarrantedly received from him. He then tendered his resignation as Collector. The communication, or report of Committee, was received, as was also the resignation.

Gymnastic Youths.

On Thursday evening of last week the master's class of the P. A. C. Gymnasium gave their first public reception and although the members failed to show the same proficiency as the ladies, their exercises were most thoroughly enjoyed by the large number of spectators present. The arrangements that had been made for the comfort of the audience were very complete, and as early as the doors were opened the numerous arrivals showed what a great interest is being taken in the efforts of the P. A. C.

The class that took part in the exhibition numbered forty-three, all in their gymnastical uniform of blue and white, who went through their regular class exercises in addition to one or two new features introduced by their tutor. The former included dumb-bell motions, double and single ring exercises, circle work and "percussion." The latter consisted of some very praiseworthy feats on the apparatus—comparing most favorably with the "Saturday evening" attempts—and remarkable pyramids that called forth justly deserved applause at the ability of Mr. Walter Freeman who had trained the participants, and Masters Roger Murray, Fred. Yates, George Moore, Willie Marsh, Robert Lowry, Seymour Bonsall, and Foster Milliken, who did their parts so commendably.

Somerset Courts.

The April term of the Somerset Courts commenced at Somerville on Tuesday, Judge Magie presiding, assisted by associate Judges Garretson, Vosseller and Thompson. The names of the Grand Jury called were as follows:

J. Newton Voorhees, Franklin, Foreman.
H. P. Garretson, "
Benj. L. Walsh, "
Branchburgh.
Jas. E. Van Liew, "
Montgomery.
James Van Zandt,
John A. Brokaw, Hillsborough.
Jno. Amerman, "
Jno. [illegible], "
Ebenezer Tingley, "
Joseph H. Day, Bernards.
Samuel R. Doremus, "
Oscar Conklin, "
North Plainfield.
Cornelius K. Compton,
John J. Bergen, Bridgewater.
Jos. C. Kinyon, "
Mr. Van Keuren, "
John Bishop, "
Wm. H. Vliet, Bedminster.

The Grand Jury adjourned on Wednesday forenoon until Friday morning of this week.

There seems to have been a "hitch" somewhere in the drawing of this jury. Mr. J. F. Talmage arose in open Court and said he had been summoned to attend as a Grand Juror, but his name had not been called. The Somerset *Messenger* hints that there was an effort made to pack the Grand Jury. It says: "Before Sheriff Van Liew was taken sick he prepared a list of the names of Grand Jurors he intended to summon, with carefulness and fairness. That list or a copy of it came into the possession of Wm. W. Anderson, Esq., who the Sheriff we believe during his sickness instructed to issue summonses for the attendance of the persons named therein, which was done, and then presenting the list for the signature of the Sheriff, the Sheriff discovered that his list had been tampered with by names substituted in some instances and others added, and he at once repudiated the list and immediately ordered the issuing of summonses to the persons named by himself in his original list and these are the men that constitute the present Grand Jury, a good one and the only one that could have been legally recognized."

After hearing common motions and making the applications for licenses the case of Freeholders vs. Cory was called. Mr. Geo. L. Bell on behalf of Cory, challenged the drawing of the Struck Jury for the following reasons:

1st. Because the Jury was not empanneled by the Sheriff of the County of Somerset.

2. Because it was illegally and improperly empanneled by Byron Thornton, a Coroner.

3. Because no poll book of the Sheriff was delivered to Judge.

4. Because the Coroner did not select the names of Jury and knew nothing about them.

5. Because the Coroner did not summon Jury in his proper person.

After argument the Court decided the points legal, and the case went off for the term on payment of costs by defendant.

Important Laws.

Several important laws, passed at the last session of the Legislature, appear on the outside pages of this issue of THE CONSTITUTIONALIST, which should be read and preserved by those whom they directly interest. Among them is the law relating to liquor dealers selling to minors, another, exempting firemen from jury duty; concerning the division of cities into wards; concerning the prohibition of summer woodcock shooting, also squirrel shooting; concerning taking the census of school children. Read all the laws over carefully. You may find something in them of use and value to you.

Personalia.

Governor McClellan and family will remove to their Summer residence, in Orange, on Saturday, May 1st.

Mr. J. V. Johnson, a brother of J. F. Johnson, of this city, arrived last Thursday from Waycross, Georgia. He reports the different families from this city in good health and spirits, and business, especially carpentering, very good. H. Murphy, one of Plainfield's former citizens, has already built several houses and is now about commencing the erection of a large store building. Mr. J. will return in a few weeks.

Mr. Wm. Egbert started on Tuesday last for a trip to San Francisco and other points West, to be absent several months, perhaps years. He went by steamer.

Silas D. Herring, Esq., the celebrated safe manufacturer, is a resident of Plainfield, and boasts of being a great grand father. Mr. Herring enjoys pretty fair health for a man of his age.

The residence of ex-Councilman R. M. Stover was the scene of enjoyment Saturday evening, April 17th, the occasion being the celebration of his 25th marriage anniversary.

Mr. Russell Johnson and wife have returned to their residence on Somerset Street, North Plainfield for the Summer.

We regret to learn that our old friend, Oliver B. Gaston, formerly of this city, but now a resident of Elizabeth, is dangerously ill from malarial fever and other disorders, having been confined to his bed about two weeks. NORTH PLAINFIELD PARAGRAPHS.

Mr. T. T. Barrett has purchased John Whitlock's Milk Route, and will continue to furnish customers with the pure milk formerly dispensed by John.

A camp of Gypsies, near Scotch Plains, on Mountain Avenue, attracts crowds of people thither every day. Last Saturday one of their tents caught fire and was partially consumed before the flames could be extinguished. The men deal in horses while the women tell fortunes.—This is the same band from whom Mr. Wm. Moore bought his famous trotter, "Gypsie Queen."

Wednesday afternoon last, about 4 o'clock, Messrs. Samuel Mooney and Elisha Van Norstrand, while standing in the store of the former, corner of Somerset and Chatham Streets, observed that a smoke house on the premises of Mr. Geo. Egel, in the rear of the store, was on fire. They immediately ran out and pushed over the structure, but found that 34 hams, the property of Mr. H. N. Spencer and F. M. French, were totally ruined by the fire. The hams had only been placed in the house at noon.

The Republicans of North Plainfield will meet at Hughes' Hotel, Friday evening, April 30, to elect delegates to the State Convention.

Sheriff Van Liew has so far improved in health as to be able to be removed to the residence of his son in Somerville.—He is still confined to his bed.

The Somerville Courts on Tuesday last granted a renewal of license to Geo. Denler, "Notch House," and S. O. Staats "Washington Rock House." The applications of John W. Hughes and Joseph A. Blatz, for Hotel and Saloon licenses, were laid over until Saturday next. A remonstrance was presented to the Court against granting Mr. Hughes a license.—We have never heard aught else but his keeping a respectable House, and he certainly deserves a license. It is probable that licenses will be granted both applicants.

The David Brant property, situated on the Washington Rock Road, sold by order of Commissioners, at auction, on Tuesday last, was purchased by Francis Bartells, who owns adjoining property.—The price paid was $680.

A novel sight is that of witnessing 52 little chickens following around and being cared for by one hen. Yet it may be seen at Denler's "Notch" Hotel.

The Board then adjourned.

WESTFIELD WISPS.

The entertainment at Lyceum Hall, on Thursday night of last week, was not a success, financially. The evening being somewhat misty and rainy the public did not come out. The performance was very good.

Dr. Wm. T. Peck is still confined to his home and unable to go the city.

Mr. M. Curran lost his little boy, on Wednesday night last, 6 months old.

COMPLAINTS are made to the police that a negro is in the habit of exposing his person and indulging in beastly practices before the windows of suburban residences, when none but females are about the premises. The police have as yet failed to identify the scoundrel, so as to cause his arrest. It is to be hoped he may indulge in his beastly habits some time when a male member of the family is about, and who knows how to shoot a gun loaded with fine shot.

THE time has again arrived when carpet tacks stand on their heads in the path of the slippered feet of the family man. Oh, this house-cleaning nuisance.

Four Interesting Cases Decided.

Judge Van Syckle has just decided four mechanic's lien cases which attracted considerable attention during the trial at the last January term of the Elizabeth Court, on account of the value of the property in question, and the importance of the different questions raised and decided in construing the mechanics lien law.

The facts are these: In 1877 Young, Ward & Co., and Coddington, McNabb & Co., brought four suits against James Y. Wilson as builder, and one Rittenhouse as owner, for materials furnished in the erection of two certain houses on lands conveyed to Sheppard S. Stewart for the benefit of said Wilson, the builder.

Stewart had the legal title; Wilson was the equitable owner; after such conveyance Stewart entered into a written contract with Wilson which was duly filed in the Union County Clerk's office, by which Wilson agreed to erect for Stewart upon said premises two dwelling houses and take two mortgages on the houses, (one on each) for the contract price. The mortgages were executed by Stewart to Wilson, and subsequently transferred by Wilson. After the erection of the buildings Stewart conveyed the premises to Rittenhouse; at the time Rittenhouse took this conveyance he knew that Wilson was the equitable owner of the property.

The lien claimants within the time limited by the statute filed liens for materials furnished for the buildings against Wilson as builder and Rittenhouse as owner.

The question was whether these liens could be maintained.

Judge Van Syckel in his opinion says that the cases do not differ from what they would be if the legal title had remained in Stewart, and the lien claims had been filed against Wilson as builder, and Stewart as owner. He considered the cases in that aspect and held that Stewart holding the legal title had a right to protect it from lien, and had a right to make a written contract with Wilson or any other person to be filed in that view. The fact that he made the contract with Wilson did not deprive him of the protection afforded by the statute, no injustice was done, no fraud was committed, every one had notice that Stewart's title was not to be affected by any lien, and that he had secured the whole contract price to Wilson by the two mortgages, which he (Wilson) might assign away at any time. In all this there was no evasion of the statute, on the contrary it was full notice to workmen and material men that the buildings were not to be subject to liens. The filing of the contracts, according to the statute, were complete protections to Stewart, and Rittenhouse, his grantee, was in no worse position.

There is nothing in the language or spirit of the lien law which forbids the owner of mere legal estate from protecting such estate by the filing of a written contract. In fact it may be quite as necessary for a trustee as for the absolute owner to do so as a prudential measure.

The claimant's Counsel at the trial insisted that the equitable estate of Wilson was subject to the liens; but the defendant's Counsel in answer thereto insisted that the claimants were not in a position to raise that question. That the liens were filed against the estate of Rittenhouse; that is, the legal estate derived from Stewart, and not against the estate of Wilson, that the claimants should have filed their claims against Wilson as builder and owner, if they wanted to raise the question as to the right to lien on Wilson's equitable estate. Judge Van Syckel sustained the position taken by defendant's counsel and decided that the buildings and lands were not liable to the debt, and gave judgment for the defendant, Rittenhouse, and against the claimants with costs.

Alexander B. Batts and George F. Parrot were counsel for defendant, Rittenhouse, and Gaston & Bergen, of Somerville, and R. V. Lindabury, of Elizabeth for claimants.

COMMON COUNCIL PROCEEDINGS.

MONDAY EVENING, April 19th, 1880.

Council met pursuant to adjournment.

Present—Coriell, Darling, Dunlap, Flanders, Lithgow, Potts, Redfield, Rushmore, Ryder, Whiton. Absent—Finch.

Pres. Potts in the chair.

Minutes of last meeting read and approved.

Mr. Rushmore presented petition of Jas. H. Force for a Saloon license to sell spirituous and fermented liquors, in the building now occupied by him, situate on Front St. Ref'd to License Com.

By the same—Petition of Geo. Miller for an Inn and Tavern and to sell, spirituous and fermented liquors therein, in the building known as "Laing's Hotel," lately occupied by C. P. Chamberlain. Ref'd to License Com.

Mr. Ryder presented claim of Plainfield Gaslight Company, gas, &c., $246.26. Ref'd to Fire, Water & Lamp Com.

Mr. Flanders presented claim of Alex. M. Runyon, $7. Ref'd to Alms Com. Also, claim of Morgan Bird, rent of station house, $62.20. Ref'd to Salary Com.

Mr. Whiton presented the following from His Honor, Mayor Harper:

To the Honorable the Common Council.:

GENTLEMEN:—I herewith submit a communication this day received from J. B. Chichester, Esq., of New York, relative to supplying the city of Plainfield with water.

As a similar proposition is now before a Special Committee of your body, I would respectfully suggest the propriety of giving that of Mr. Chichester the same reference.

NATHAN HARPER, MAYOR.
Plainfield, April 6th., 1880

NEW YORK, April 5th, 1880.

To the Mayor and Common Council of Plainfield, N. J.

GENTLEMEN:—I beg leave to present to the consideration of your honorable body, the following proposition relative to a Water supply for the city of Plainfield.

I propose to erect works, provided with all the necessary apparatus for pumping, delivering, &c., lay street mains throughout the city, and furnish a good and ample supply of water necessary for the present and future contingencies of the inhabitants.

In return I respectfully ask a franchise, good for a period of twenty-five years, the erection by the city of one hundred or more fire hydrants, at an annual rental of fifty dollars each.

I should be pleased to confer with a Committee relative to all details.

With the highest consideration,
I am, very respectfully,
[Signed,] J. B. CHICHESTER.

On motion, ref'd to Special Com. appointed some time since, relative to a similar proposal.

The Clerk then read the following com'n from City Judge:

To the Common Council;

GENTLEMEN:—I am in receipt of a copy of a resolution adopted at your last meeting, requiring the City Judge forthwith to issue to Charles W. Dodd his warrant for the collection of all taxes in arrears.

After a somewhat careful examination of the City Charter, I desire to say that I have failed to discover therein the authority anywhere vested in that official, to do what is required by said resolution. If not in the Charter I fail to see the propriety of the resolution.

Respectfully,
NELSON RUNYON,
City Judge.

April 19, 1880.

Received and placed on file.

Mr. Whiton, from Special Com., relative to Water Works, stated that no formal meeting of the Com. had been held, and he was of the opinion that nothing could be done in the premises unless certain privileges were granted at the next meeting of the Legislature.

Mr. Redfield, from Alms Com., reported the following claims as correct: Henry Garbe, $4; Peter F. Dumont, $24; L. A. Rheaume, $30.35. Ref'd to Aud. Com.

Mr. Whiton, at this juncture, wished to make a few remarks, relative to the city's finances. He stated that unless money was procured, the lights would have to be shut off, all work on Streets stopped, and the police force discontinued; the arrears in taxes were largely increasing every year, and the City Judge declined to make out the warrants, not wishing to assume the responsibility. Mr. W. thought that the City Judge was honest in his opinions, and it was friendly agreed that the question be tested by making application to the Supreme Court for a writ of mandamus, &c., and therefore offered the following:

Resolved, That the Corporation Counsel be and hereby is directed and required to apply forthwith to the Supreme Court of the State of New Jersey for a writ of mandamus to compel the City Judge to issue his warrant for the collection of taxes in arrears, as required by the [illegible]

Mr. Coriell thought the idea a good one, as also did Mr. Lithgow.

On motion, the resolution was adopted. All aye.

Mr. Lithgow presented as correct, the bonds of City Treasurer Jeremiah Van Winkle and St. Com'r Geo. M. Angleman. Report received and bonds accepted.

By the same—The amendment to the License Ord., with the charges proposed by Mr. Whiton at last meeting of Council, having all licenses commence at a certain date, the parties applying for license to pay the cost of advertising. Ord. read 1st and 2d time, and ordered engrossed preparatory to a 3rd reading. All aye.

By the same—Report relative to the Poor Ord. and the Mayor's veto.

To the Honorable the Common Council of the City of Plainfield:

Your Committee on Laws and Ordinances, in whom was referred the ordinance entitled "An Ordinance to provide for the relief and support of the poor of the City of Plainfield," adopted by your honorable body March 15th, 1880, together with the veto and objections of His Honor the Mayor thereto, would respectfully report that after a careful examination of the objections they discover there is virtually but one point raised by His Honor the Mayor against the adoption of the ordinance in question, viz.: that the Common Council has not legal authority to prescribe, that the Mayor shall at each succeeding or adjourned meeting nominate to the Common Council a different person for Overseer of the Poor, not before nominated for that office during the then current year until a nomination and appointment for that office shall be confirmed.

The point raised is not a new one; it was raised against the ordinance entitled "An Ordinance to regulate the appointment and tenure of office of the appointable officers," passed December 3d, 1877, but notwithstanding this objection this ordinance was continued in force.

This last ordinance in section second thereof contains precisely the same provisions in reference to the nomination by the Mayor at each succeeding regular or adjourned meeting, a different person for office not before nominated for such office during the then current year, until a nomination or appointment for such office shall be confirmed. We see no reason for reversing the decision of the former Common Council on this question; but aside from this there are strong reasons in our opinion why the provisions of the ordinance commend themselves to favor. Besides this ordinance was approved by the then Mayor.

The object of the charter in giving the power of appointment to the Mayor by and with the advice and consent of the Common Council, we believe to be, that no one should hold office who was not acceptable to both the executive and legislative branches of the city government. The provision of the ordinance in question has, we believe, the effect of enforcing this object. Were the Mayor not obliged to nominate a different person at each succeeding meeting it would be in the power of the Mayor to continue in office a person without the advice and consent of the Common Council. The provision in question obviates this.

Story, in his Commentaries on the Constitution, speaking of the power of the President to appoint to office by and with the advice and consent of the Senate says in case of a rejection, "his responsibility to present another candidate entirely qualified for the office will be complete and unquestionable," a sentiment which we think has met with entire approval, and we see no objection to incorporating in an ordinance as a duty what is so plainly pointed out as the duty of the executive by reason and authority, and we do not see what real ground of objection there can be to the provision in question on the ground of taking away any prerogative of the Mayor.

For these and other reasons we think, with deference to the views of His Honor the Mayor, that the ordinance should be passed notwithstanding his objections thereto.

WASHINGTON LITHGOW,
I. W. RUSHMORE,
HENRY REDFIELD,
Com. on Laws & Ords.

Mr. Rushmore moved that the Ord. now pass, notwithstanding the objections of His Honor the Mayor. Agreed to. All aye, with the exception of Mr. Coriell, who was excused from voting.

Mr. Rushmore, from License Com., reported favorably upon petition of John Rafferty for a Saloon license, and moved that it be granted. Report received and license granted by the following: Ayes—Darling, Lithgow, Potts, Rushmore, Redfield, Whiton—6. Nays—Coriell, Dunlap, Flanders, Ryder—4.

Mr. Redfield, from Police Com., reported the following claims as correct: C. W. Dodd, $58.35; R. Hapenny, $41.67; I. L. Tingley, $41.67; Berry & Thorn $4; Jno. De Shay, $7.50; T. O. Doane, $20.27. Ref'd to Aud. Com.

Mr. Ryder stated that all the arrangements had been made for the holding of the "Money Election" on the 27th of the present month.

Mr. Coriell, from St. Com., reported as correct claim of St. Com'r Geo. M. Angleman, $298. Ref'd to Aud. Com.

Under suspension of the rules, Mr. Redfield presented the following additional bills as correct from the Alms Com.: A. M. Runyon, $7; R. J. Shaw, $7.70; H. S. Ayres, $16. Ref'd to Aud. Com.

Mr. Flanders moved that the Board of Health report at next meeting, what progress is being made in the matter of the "Gravel Pits." Carried.

Mr. Dunlap, from Aud. Com., reported as incorrect claim of N. Y. & N. J. Globe Gaslight Co., an error of $3.50 appearing. Referred back to Fire, Water & Lamp Com. for correction. As correct, the following claims from the General Fund: Berry & Thorn, $4; I. L. Tingley, $41.67; R. Hapeny, $41.67; C. W. Dodd, $58.35; T. O. Doane, $20.27; Jno. De Shay, $7.50; Geo. M. Angleman, $298; M. Estil, $22.[illegible]; N. Y. & N. J. Globe Gaslight Co., $117.29; Plainfield Gaslight Co., $240.60. Report rec'd and warrants ordered drawn for the amount of the several claims. All aye.

By the same—As correct, from the Poor Fund, the following claims: D. Hand, $72.84; Raritan Township, $11.75; A. V. Searing, $124.50; J. S. Cutter, $119; Plainfield Relief Association, $65.46. On motion tabled for the present. No funds to the credit of the Poor Fund.

Some discussion was had by Messrs. Coriell & Whiton relative to a claim of the Overseer of the Poor of Westfield Township, amounting to $18, which amount had been paid out of the Overseer's own pocket, and Mr. Coriell thought that the bill should be paid, &c. Mr. Whiton thought that the bills of our home merchants should be paid first, &c. Mr. Coriell stated that if he was situated as the late Overseer of the Poor of Westfield Township is at present, he would sue the city for the amount of the claim, &c.

After some further remarks relative to the coming "Money Election," and a crosswalk ordered on Somerset St., and the condition of South Ave., Council then adjourned.

Help to Mothers Nursing Infants.

It is a conceded fact that mothers who have the care, anxiety and draught of nursing infants, are weak and need the aid of some strengthening tonic to make up the nourishment required for the growth of the child. Ale, porter and lager beer have often been recommended. Of late, since physicians have become aware that the Port Grape Wine produced by Alfred Speer, of Passaic, N. J., is strictly pure, they have prescribed it instead of ale and porter. This wine is principally bought for by mothers who are nursing infants, at the breast, as the best supplying nutrition to be found. The wine is rich in body and not intoxicating, but gently stimulating. Druggists generally keep it.—Republican. For sale by all Druggists. 2mp4w

"Yield not to misfortune." Give Ely's Cream Balm a thorough trial if you would be cured of Catarrh, Hay Fever, Catarrhal Deafness or quickly relieved of Colds in the head. Price, 50 cents. See adv. For sale by Wm. H. Voorhees.

NEW YORK, Aug. 6, 1879.

MESSRS. ELY BROS., Druggists, Owego, N. Y.—You are at liberty to use the following statement which may be the means of leading others, in like manner afflicted, to give Cream Balm a thorough trial, as I have found it to be in my case, a cure for Catarrh. For over fifteen years I have been greatly annoyed with this disgusting disease, which caused frequent and severe pains in my head, a continual dropping of an offensive matter into my throat, the cause of a very unpleasant breath. My sense of smell was much impaired. By a thorough use, for six months, of your Balm, I have entirely overcome this trouble, and am fully prepared to recommend it as a certain, safe cure for Catarrh. A number of my friends can report as favorably. Truly yours,

J. E. CASE, at St. Dennis Hotel,

By Universal Accord,

Ayer's Cathartic Pills are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by Physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vegetable no harm can arise from their use. In intrinsic value and curative powers no other Pills can be compared with them, and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are specially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild, but effectual cathartic is required. For sale by all dealers.

CHAPTER CXXXVII.

An act to repeal an act entitled "A supplement to an act entitled 'An act to establish a system of public instruction,'" approved March fourteenth, one thousand eight hundred and seventy-nine.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the act entitled "'A supplement to an act entitled 'An act to establish a system of public instruction,'" approved March twenty-seventh, one thousand eight hundred and seventy-four, which supplement was approved March fourteenth, one thousand eight hundred and seventy-nine, be and the same is hereby repealed.

2. And be it enacted, That the above is hereby repealed, to take effect immediately.

Approved March 10, 1880.

CHAPTER CXXXVIII.

An act to provide for the arbitration of labor disputes.

Whereas, Disputes between workingmen and their employers frequently result in protracted strikes, which cause great loss to both parties and to the community at large, and disturb the amicable relations which ought to exist between labor and capital; and whereas, it is desirable to provide some legal method for submitting such differences to arbitration, with a view to an honorable, satisfactory and speedy settlement; therefore,

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That if a majority of the employees in any manufacturing establishment, or in any particular department thereof, shall give notice to their employer or employers in writing, signed by themselves, that they are dissatisfied with the terms or conditions on which they are employed, or with the wages they are receiving, or with any proposed reduction of their wages or proposed alteration of the terms or conditions on which they are employed, and that they propose to submit the matters complained of to arbitration, and shall name an arbitrator to represent them; and if such employer or employers cannot adjust such differences, it shall be the duty of such employer or employers, if they choose to accept this method of compromise, to nominate and appoint in writing an arbitrator to represent him or them, and to give notice to said employees of such appointment.

2. And be it enacted, That the two arbitrators so as aforesaid appointed, shall forthwith meet and proceed to select a third arbitrator; and the said three arbitrators shall without unnecessary delay notify the employees and the employer or employers of the time and place, when and where they will meet to hear arguments on the matters in dispute, which meetings shall be held under such conditions, rules and regulations as the said arbitrators may mutually agree upon; the questions at issue shall be submitted to the arbitrators in writing, and their decision shall be confined to the questions so submitted; either of such arbitrators may administer an oath or affirmation to any person testifying before them, and any person so sworn who shall testify falsely, shall be deemed guilty of perjury; either of the parties to such arbitration may be represented before the arbitrators by counsel, if they so desire, and the arguments may be oral or in writing, as the parties themselves may respectively prefer.

3. And be it enacted, That the finding of the said arbitrators shall be reduced to writing, and a copy thereof served upon each of the parties to the dispute, or upon their respective representatives, and shall be deemed to be binding upon the parties submitting the matters in dispute to arbitration, and shall take effect from the date of the finding, unless some other time is fixed in the finding for the taking effect thereof.

4. And be it enacted, That the costs of the arbitration shall be fixed and paid as the parties may previously or mutually agree, and if not so agreed upon, they shall be fixed and paid as the arbitrators themselves may decide.

5. And be it enacted, That this act shall take effect immediately.

Approved March 10, 1880.

CHAPTER CXLIII.

An act to amend the act "A supplement to an act entitled 'An act concerning savings banks,'" approved April twenty-first, one thousand eight hundred and seventy-six, which supplement was approved April fifth, one thousand eight hundred and seventy-eight.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the third section of said act intended to be hereby amended as aforesaid, which section reads as follows:

"3. And be it enacted, That, if notwithstanding such order, and after the elapsing of time sufficient in his discretion for the prevention of its insolvency, in no case to exceed three years, said institution shall, on examination by or at the instance of the chancellor be found unable to return its deposits and pay its debts, the chancellor shall by order direct the cessation of its business, except so far as shall be necessary to collect and distribute the assets equally among those entitled to share the same, appointing a receiver or receivers, or continuing such directors or managers, or any of them, as he shall deem best; and thereupon said assets shall, under his direction, be collected or their value realized by sale, and distribution being made as aforesaid," be amended to read as follows:

3. And be it enacted, That if, notwithstanding such order, and after the elapsing of time sufficient in his discretion for the prevention of its insolvency, said institution shall, on examination by or at the instance of the chancellor, be found unable to return its deposits and pay its debts, the chancellor shall by order direct the cessation of its business, except so far as shall be necessary to collect and distribute its assets equally among those entitled to share the same, appointing a receiver or receivers or continuing such directors or manager, or any of them as he shall deem best, and thereupon said assets shall, under his direction, be collected or their value realized by sale and distribution, shall be made as aforesaid; and it shall be lawful for the chancellor by final decree directing such distribution, in his discretion, to adjudge whether or not the charter of said corporation shall be void.

2. And be it enacted, That the chancellor has and shall have power at any time to make order authorizing the reception by such institution of new deposits and directing the investment thereof, in such class of securities as shall in his judgment be for the profit of such depositors, in which securities only the parties making such new deposits or their assigns, shall have any interest or right.

3. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever any surveyors of the highways shall have been or shall be duly appointed by the inferior court of common pleas of any county in this state to meet and lay out, alter or vacate a public road in such county, the persons so appointed as such surveyors shall be required to meet and perform the duties assigned them by such appointment, notwithstanding the term of office of any or all of them may have expired subsequent to such appointment, and any act or acts by them done or to be done, in pursuance of such appointment, shall be as valid to all intents and purposes as if the persons so appointed were at the time of doing such act or acts, surveyors of the highways duly qualified and sworn as such.

2. And be it enacted, That this shall be deemed and taken as a public act and shall take effect immediately.

Approved March 11, 1880.

CHAPTER CXLV.

A further supplement to the act entitled "An act to regulate elections," approved April eighteenth, one thousand eight hundred and seventy-six.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever the time fixed by any law of this state for holding a municipal election in any city of the state falls upon the day fixed by law for the meeting of the boards of registry to prepare a register for the ensuing state and county election, such meeting of the boards of registry shall be held upon the day following such municipal election.

2. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

2. And be it enacted, That the laws specially applying to a particular county, shall be published only in the newspapers in said county affected thereby.

3. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

CHAPTER CXLVIII.

An act relative to the prosecution of persons for the violation of the ordinances of any city in this state.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall and may be lawful hereafter in any prosecutions made under any ordinance or ordinances in any cities of this state, when judgment shall have been given in favor of the said city and against any defendant or defendants so had and commenced, to issue execution against the goods and chattels and persons of the defendant or defendants, including females.

2. And be it enacted, That all acts or parts of acts inconsistent with this act be and the same are hereby repealed.

3. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

CHAPTER CXLIX.

An act to increase the powers of township committees.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the township committees of the several townships of this state shall hereafter have the following powers in addition to the powers now vested by law in township committees, viz:

To prevent and suppress breaches of the peace and disorderly assemblages in any street, house or place in the township, and to suppress disorderly houses therein, and to call upon the constable of said township to accomplish such purposes;

To act as a board of health in case of the prevalence of epidemic diseases;

To exercise in connection with the overseers of highways or independently the same power and authority now vested by law under section forty-five of the General Road Law (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four, in said overseers to enter upon lands to make and open gutters, drains and ditches in order to let off water from the highways and all other powers given to said overseers in said section forty-five, and to direct the town assessor and the town collector respectively to assess and collect sufficient taxes to pay for the expense of the same;

To abate and remove nuisances at the expense of the occupant or owner, to cleanse and disinfect premises where nuisances detrimental to health are maintained;

To compel the abutters to keep the sidewalks where the same are much travelled, free from snow and ice and other impediments, and to keep said sidewalks in a safe, convenient and passable condition at all seasons;

To exercise either in connection with the overseers of highways or independently the same powers and authority now vested by law in overseers of the highways, to cause to be opened or made safe any highway or bridge, which may be impassible or dangerous according to the provisions of section fifty-six of the General Road Law (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four.

2. And be it enacted, That for the enforcement of the foregoing provisions of this act, the town committees may enact and pass any ordinances which do not conflict with the constitution of the state or of the United States, and may in the name of clerk of township prosecute offenders against the provisions of this act, or of the said ordinances before any justice of the peace elected in the township.

3. And be it enacted, That for each and every offence against the provisions of this act, or of the said ordinances to be enacted in accordance with the same, the person so offending shall upon conviction pay a fine of not to exceed one hundred dollars.

4. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

This is the saddest season of the year for newspaper men. They are all reflecting gloomily that just as nature puts on her loveliest garb and Summer is budding, about three thousand young men will leave college for good, and offer to fill any editorial position on a metropolitan journal. That so few of them are accommodated is due simply to the reluctance of journalists to discharge men who have labored faithfully for years even though the gigantic intellects annually sent forth by the colleges are forced to beat impatiently against the counters of dry goods stores.

People sometimes grumble at the very low rates that are charged for advertising in the Trenton newspapers. They ought to try some of the larger journals a few times. The Chicago Tribune receives [illegible] a column one year. The New York Herald and Sun each receive $39,-720 a year for their cheapest column, and the price for a preferred position is three times that. The New York Tribune receives for its lowest column $37,[illegible], and for its highest [illegible], and these papers are never at a loss for an advertisement to fill their columns. Their patronage comes not from any desire to assist their respective papers, but from [illegible] that it is profitable to advertise.—State Gazette.

THE DEMOCRATIC STATE CONVENTION.

The Democratic State Convention (for the appointment of eighteen delegates to the Cincinnati National Convention) has been called to meet at Taylor Hall, Trenton, on Thursday, May 20th, and will be composed of 990 delegates, as per the annexed table. The call is based on the Democratic vote given at the last Gubernatorial election:

Atlantic	16	Middlesex	48
Bergen	35	Monmouth	53
Burlington	54	Morris	47
Camden	48	Ocean	18
Cape May	8	Passaic	42
Cumberland	30	Salem	22
Essex	138	Somerset	27
Gloucester	23	Sussex	29
Hudson	143	Union	53
Hunterdon	48	Warren	45
Mercer	60		
			990

The several Congressional Districts are entitled to delegates as follows:

First—Cape May, Cumberland, Camden, Gloucester, Salem	136
Second—Atlantic, Burlington, Mercer, Ocean	148
Third—Middlesex, Monmouth, Union	155
Fourth—Hunterdon, Somerset, Sussex, Warren	149
Fifth—Bergen, Morris, Passaic	121
Sixth—Essex	138
Seventh—Hudson	143
	990

It will thus be seen that this—the Third—Congressional District is entitled to a larger delegation in the State Convention than any other District.

A young lady 74 years of age was recently married to a young man 75 years of age at High Bridge.

As the 30th of May occurs on Sunday, it has been ordered that the service of decorating the graves of our deceased soldiers shall take place on Saturday, the 29th.

LAWS OF NEW JERSEY.

CHAPTER CXL.

An act to authorize the formation of turnpike corporations, and regulate the same.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That any number of persons not less than seven, may form a company for the purpose of constructing, maintaining and operating a turnpike for the public use, and for that purpose may make and sign articles of association, in which shall be stated the name of the company, the number of years the same is to continue, the places from and to which the same is to be constructed or maintained and operated, the length of such road as near as may be, and the name of each county and the townships through or into which it is made or intended to be made; the amount of the capital stock of the company, which shall not be less than five hundred dollars for every mile of road constructed or proposed to be constructed, and the number of shares of which said capital stock shall consist, and the names and places of residence of the said seven directors of the company, the majority of whom shall be residents of this state, who shall manage its affairs for the first year, and until others are chosen in their places; each subscriber of such association shall subscribe thereto his place of residence, and the number of shares of stock he agrees to take in said company; such articles of association shall be filed in the office of the secretary of state, who shall endorse thereon the day they are filed, and record the same in a book to be provided by him for that purpose; and upon tendering the said articles to the secretary of state, to be filed, the persons who have so subscribed such articles of association, and all persons who shall become stockholders in such company, shall be a corporation by the name specified in such articles of association; every corporation formed under this act, in addition to the general powers set forth in an act entitled "An act concerning corporations" approved February fourteenth, one thousand eight hundred and forty-six, and the several supplements thereto, shall have power:

I. To cause such examination and surveys for its proposed turnpike to be made as may be necessary to the selection of the most advantageous route; and for such purposes by its officers and servants to enter upon the lands or waters of any person, but subject to the responsibility for all damages which shall be done thereto;

II. To take and hold such voluntary grants of real estate and other property as may be necessary for the construction and maintenance and accommodation of its turnpike; but the real estate received as a voluntary grant shall be held and used for the purposes of such grant only;

III. To purchase, hold and use all such real estate or other property as may be necessary to accomplish the objects of its incorporation;

IV. To lay out its road as hereby provided, and to construct the same, and for the purposes of [illegible] and embankments, to take as much more land as may be necessary for the proper construction and security of said turnpike;

V. To exercise all other powers hereby granted.

2. And be it enacted, That such articles of association shall not be filed and recorded in the office of the secretary of state until at least three hundred dollars of stock for every mile of turnpike proposed to be made is subscribed thereto, and ten per centum paid thereon in good faith, to the directors named in said articles of association, nor until there is endorsed thereon or annexed thereto an affidavit made by at least five of the directors, named in said articles, that the amount of stock required by this section has been in good faith subscribed, and ten per centum paid thereon as aforesaid, and that it is intended in good faith to construct or maintain and operate the turnpike mentioned in such articles of association, which affidavit shall be recorded with the articles of association as aforesaid.

3. And be it enacted, That a copy of any of the articles of the association filed and recorded in pursuance of this act, or of the record thereof with the copy of the affidavit aforesaid endorsed thereon, or annexed thereto and certified to be a copy by the secretary of state shall be presumptive evidence of the incorporation of such company, and of the facts therein stated.

4. And be it enacted, That there shall be a board of seven directors of every corporation formed under this act, and they shall be chosen annually by the stockholders at such time and place as shall be provided by the by-laws of the corporation, and shall hold their office for one year and until others are chosen and qualified in their stead; and one of the directors shall be chosen president, either by the directors or by the stockholders, as the by-laws of said corporation shall direct.

5. And be it enacted, That the secretary and treasurer shall also be chosen by the directors or stockholders, as the by-laws may direct, and shall hold their offices until others are chosen and qualified in their stead; the secretary shall be sworn to the faithful discharge of his duties, and the treasurer shall give bond in such sum and with such security as shall be required by the by-laws, for the faithful discharge of his duties.

6. And be it enacted, That the directors may require the subscribers to the capital stock of the corporation to pay the amount by them respectively subscribed in such manner and in such instalments as they may deem proper; if any stockholder shall neglect to pay any instalment as required upon resolution of said board of directors, the said board shall be authorized to declare his stock and all previous payments thereon forfeited for the use of the corporation; but they shall not declare it so forfeited until they shall have caused notice in writing to be served on him personally, or by depositing the same in the post office properly directed to him, at the post office nearest his usual place of residence, stating that he is required to make such payments at the time and place specified in said notice, and that if he fail to make the same his stock and all previous payments will be forfeited for the use of the company, which notice shall be served as aforesaid at least thirty days previous to the day on which such payment is required to be made; provided, that if such company shall not declare such stock forfeited, then such neglecting stockholder shall be individually liable to said corporation for the amount unpaid upon the stock so held by him until the whole amount of the capital stock so held by him shall have been paid to said company.

7. And be it enacted, That the stock of every company formed under this act shall be deemed personal estate, and be transferable in the manner prescribed by the by-laws of the company, but no shares shall be transferable until all previous calls thereon shall have been fully paid in.

8. And be it enacted, That any turnpike constructed under the provisions of this act shall not exceed [illegible] feet in width, unless more land shall be required for the slopes of cuts and embankments; and it shall be lawful for the said company, its agents, engineers, superintendents or others in its employ to enter at all times upon all lands or waters for the purpose of exploring, surveying, leveling and laying out the route or routes of such turnpike, and of locating the same, and to locate all necessary buildings, bridges and conveniences, doing no unnecessary injury to private or other property, and when the route or routes of such turnpikes and the location of such buildings, bridges and conveniences shall have been determined upon, and a survey of such route or routes, location or locations deposited in the office of the clerk of the court of common pleas of each county through which the proposed turnpike is to be built, then it shall be lawful for every corporation formed under this act, upon payment or tender of such compensation as is hereafter provided, by its officers, agents, engineers, superintendents, workmen and other persons in their employ, to construct, maintain and operate a turnpike between the points named in the articles of association, commencing at or within and extending to or into any town, city or village named as the place of the termini of such road, and for that purpose may enter upon, take possession of, hold, have, use and excavate any lands, and to erect embankments, bridges and all other necessary works, and to do all other things which may be suitable or necessary for the completion, repair or management of said company, and for the convenience of travelers to and from the termini thereof; provided always, that the payment or tender of the payment of all damages for the occupancy of all lands through, under or upon which the said turnpike, its conveniences, appurtenances and appendages may be laid out or located, be made before the said company or any person under their direction or employ shall enter upon or break ground in the premises, except for the purposes of surveying and laying out said turnpike and of locating the same, unless the consent of the owner or owners of such lands be first had and obtained.

9. And be it enacted, That when any company incorporated under this act or its agents cannot agree with the owners of such required lands for materials, or the use or purchase thereof, or when by the legal incapacity or absence of such owner or owners no such agreement can be made, a particular description of the land or materials so required for the use of such company incorporated under this act, in the construction of said turnpike, shall be given in writing under oath or affirmation of some engineer or proper agent of the company; and also the name or names of the occupant or occupants, if any there be, and of the owner or owners, if known, and their residence, if the same can be ascertained, to one of the justices of the supreme court of this state, who shall cause any company incorporated under this act to give notice thereof to the persons interested, if known and in this state, or if unknown and out of this state, to make publication thereof as he shall direct, for a term not less than ten days, and to assign a particular time and place for the appointment of the commissioners hereinafter named, at which time, upon satisfactory evidence to him of the service or publication of such notice aforesaid, he shall appoint under his hand and seal, three disinterested, impartial and judicious freeholders, residents in the county in which the land or material in controversy lie or the owners reside, commissioners to examine and appraise the said land or materials, and to assess the damages upon such notice to be given to the persons interested, as shall be directed by the justice making such appointment to be expressed therein, not less than ten days; and it shall be the duty of said commissioners (having first taken and subscribed an oath or affirmation before some person duly authorized to administer an oath, faithfully and impartially to examine the matter in question and to make a true report according to the best of their skill and understanding), to meet at the time and place appointed, and proceed to view and examine the said lands or materials, and to make a just and equitable estimate or appraisement of the value of the same, and an assessment of damages to be paid by the company for such lands or materials and damages aforesaid, which report shall be made in writing, under the hands and seals of the said commissioners, or any two of them, and filed within ten days thereafter, together with the aforesaid description of the land or materials and the appointment and oaths or affirmations aforesaid, in the clerk's office of the county in which the lands or materials are situate, to remain of record therein, and thereupon and on payment or tender of payment of the amount awarded, as hereinafter provided, the said company is hereby empowered to enter upon and take possession of the said lands and materials for the purposes aforesaid, and the said report or a copy thereof, certified by the clerk of said county, and proof of payment or tender of the amount awarded shall at all times be considered as plenary evidence of the right of any company incorporated under this act to have, hold, use, occupy, possess and enjoy the said land or materials; [illegible] the said owner or owners [illegible] the amount of said valuation, with interest and costs, [illegible] in any court of competent jurisdiction, [illegible] against the company, in case of such neglect or refusal to pay the same for twenty days after demand made of their treasurer; and the said justice of the supreme court shall, upon application of either party, and on reasonable notice to the others, tax and allow such costs, fees and expenses to the justice of the supreme court, commissioners, clerks and other persons performing any of the duties prescribed in this section as he shall think equitable and right, which shall be paid by the company; provided, that should any company incorporated under this act, or the owner or owners of any of the land or materials, feel aggrieved by the decision of the said commissioners aforesaid, he, she or they may appeal to the next circuit court in the county wherein the said land or material lies.

10. And be it enacted, That every appeal from the decision of the commissioners appointed under the preceding section, shall be made in writing, and in the form of a petition to said court, and filed with the clerk of said circuit court of the county wherein the land or materials appraised by the said commissioners shall be, and notice in writing of such appeal shall be given to the opposite party within ten days after the filing thereof, which proceeding shall vest in the circuit court full right and power to hear and adjudge the same, and to direct a proper issue for the trial of said controversy to be formed between the said parties, and to order a jury to be struck and a view of the premises to be had, and the said issue to be tried at the next term of said court, to be holden in the said county, after the last notice and in the same manner as other issues in the said court are tried; and it shall be the duty of the said jury to assess the value of the said land or materials and damages sustained, and if they shall find a greater sum than the said commissioners shall have awarded in favor of the said owner or owners, then judgment thereon, with costs shall be entered against any company incorporated under this act, and execution awarded therefor; but if the said jury shall be applied for by the owner or owners, and shall find a less sum than the said company shall have offered, or the said commissioners shall have awarded, then costs shall be paid by the said appellant or applicants, and either deducted out of said sum found by the jury, or execution awarded therefor as the court shall direct; but such application shall not prevent the company from taking the said lands upon filing the report aforesaid; provided, that in no case whatever shall said company incorporated under this act, enter upon or take possession of any land of any person or persons for the purpose of actually constructing said turnpike, or of making any erection or improvements whatever, until they have paid to the party or parties entitled to receive the same, the amount assessed by the commissioners of the value of such land or damages in case the report of the commissioners is not appealed from; or if the same is appealed from then the amount which shall be found by the jury by whom the issue shall be tried; but in case the party or parties entitled to receive the amount assessed by the commissioners in case there shall be no appeal, and in case of appeal the amount found by the jury, shall refuse, upon tender thereof being made, to receive the same, or shall be out of the state or under any legal disability, then the payment of the amount assessed or found as aforesaid into the circuit court of the county wherein the said lands lie, shall be deemed as valid and legal payment; and further, that the party or parties entitled to receive the amount adjudged by the commissioners may, upon tender thereof being made, receive the same without being barred thereby from his or her appeal from the report of the commissioners; and on such tender or payment of the money into court, in case it be refused as aforesaid, or in case the said company incorporated under this act shall appeal from the finding of the said commissioners, then the said company on payment of the amount assessed or found as aforesaid, into said circuit court, shall be empowered to enter upon and take possession of said lands, and proceed with the work of constructing its turnpike.

11. And be it enacted, That it shall and may be lawful for said company incorporated under this act, at all times, to take, demand and receive of and from every person or persons who shall pass over the said turnpike when they shall enter upon the same, the following rates of toll, and no more, per toll gate:

For every person on horse or mule,	ten cents;
For all wagons, carts, sleighs or sleds, drawn by one horse, mule or ox, each	fifteen cents;
For all one-horse pleasure carriages, each	twenty cents;
For all two-horse pleasure carriages or stages, each,	twenty-five cents;
For all two horse thills or ox wagons, carts, sleighs or sleds, each,	twenty cents;
For all horned cattle or horses, each,	six cents;
For all hogs, calves or sheep, each,	two cents;

and all other articles and things not herein enumerated, to be in equitable proportion, provided always, that said directors may, in their discretion, reduce the rates.

12. And be it enacted, That it shall be lawful for any toll gatherer of any company incorporated under this act, to stop any person or persons with wagons, carts, sleighs or sleds, all pleasure wagons and all horned cattle, horses, hogs, calves and sheep, from passing over said turnpike until the toll before-mentioned shall have been paid; provided, that the provisions of this act shall not apply to or be enforced against any funeral procession, or any persons who may, upon the first day of the week, commonly called Sunday, desire to pass over said turnpike in going to or returning from divine service at the place where they usually attend the same.

13. And be it enacted, That the said company shall commence the proposed turnpike, within six months from the date of their organization, and complete the same in two years from the date of commencement as aforesaid; provided, that any company now or hereafter organized under said entitled act, has been or shall be restrained, prevented or enjoined by the order of any court or judge thereof or by any proceedings whatever at law or in equity from prosecuting the work on its turnpike or from opening or completing its said turnpike, the time which any such company has been or shall be restrained, prevented or enjoined, shall not be taken or computed as any part of the time allowed and limited in said section for the opening and completion of said turnpike or any section thereof.

14. And be it enacted, That this act shall not apply to any county which may be separate from the sea beach, and any company incorporated under this act shall have the power to construct sufficient draw-bridges over thoroughfares and small creeks which are navigable for fishing boats and small vessels only, which may separate any sea-island beach from the mainland.

15. And be it enacted, That any company incorporated under this act shall have power to borrow such sum or sums of money from time to time, not to exceed in the whole its paid up capital stock, as shall be necessary to build and repair said turnpike and to secure the repayment thereof, by the execution, negotiation and sale of any bond or bonds, and secured by mortgage on said lands, privileges, franchises and appurtenances of and belonging to said company.

16. And be it enacted, That this act shall be deemed a public act, and shall take effect immediately.

Approved March 10, 1880.

CHAPTER CLII.

An act to regulate the rate of passenger fares on railroads doing business under special charters granted by the legislature of this state.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall not be lawful for any railroad company doing business in this state, under a special charter, to charge more than three and a half cents per mile for carrying each passenger, and any tickets, except excursion tickets, or tickets sold at reduced rates, shall be good until used, but no charge shall be required in the aggregate of less than ten cents; provided, that nothing in this act shall be construed to effect an act entitled "An act to authorize railroad companies to charge and collect an excess of ten cents where fare is paid in the cars."

2. And be it enacted, That so much of all acts in relation to passenger fare on railroads, whether public or private, heretofore granted by the legislature of this state, that come in conflict with the provisions of this act are hereby repealed, and that this act shall be deemed and taken as a public act, and shall take effect immediately.

Approved March 11, 1880.

CHAPTER CLIII.

A further supplement to the act entitled "An act to provide additional accommodations for the insane of this state," approved March thirty-first, one thousand eight hundred and seventy-one.

Whereas, The requirements of the state asylum for the insane at Morristown demand additional reservoir or reservoirs for the storage of water [illegible] and other farm buildings, for storing the products of the farm and garden, and for housing and sheltering stock, and the protection of farm implements, et cetera; therefore,

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That for the purpose of carrying out the foregoing requirements, the sum of fifteen thousand dollars is hereby appropriated out of any money in the treasury not otherwise appropriated, to be paid by the treasurer of the state on warrant of the comptroller, under requisition of the commissioners to select a site and build an asylum for the insane of this state, to be by them expended for the above named purposes, and to be accounted for in the manner now required by law.

2. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

CHAPTER CLIV.

An act to extend the time for the completion of railroads where charters have heretofore expired by limitation where subscriptions to stock have been procured, work been performed on said railroads and money expended.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever the time for the completion of any railroad authorized to be constructed within this state under special acts has expired or is now about to expire, such time for the completion of the whole line of said railways as contemplated by said charter, is hereby extended for the period of two years from and after the passage of this act; provided, however, that this act shall not apply unless money has been actually expended in surveys, locations, acquiring rights of way or in construction, nor unless an organization has been maintained; and provided further, that the provisions of this act shall not apply to any railroad in this state where the same has been sold by a receiver of the court of chancery or by trustees for the benefit of mortgage or other creditors, and the purchaser or purchasers thereof, or his or their assigns have failed or shall fail to complete the railway within the time limited by the provisions of its charter.

2. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

CHAPTER CLV.

An act entitled "An act concerning the protection of the public health and the record of vital facts and statistics relating thereto."

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That every city or borough or incorporated town, or any town governed by a commission, shall have a board of health of not less than five or more than seven members, of which the keeper or recorder of vital statistics, and also one city physician and city health inspector shall be members, if there be such officer or officers; and the said board of health shall be nominated by the mayor and approved by the common council or other governing board of the city, borough or town, to serve for not less than three years, but not more than three of the number shall go out of office at any one time, unless in case of removal by death or change of residence.

2. And be it enacted, That all cities of over ten thousand inhabitants shall have one or more city health inspectors, who hereafter in any new board, or in any case of vacancy, shall be appointed by the board of health.

3. And be it enacted, That in each township of the state outside of city limits, the township committee, together with the assessor and the township physician, if there be such an officer, shall constitute the board of health for all of said township outside of any city limits, and shall have the same powers as are possessed by any city board of health within the state, so far as they could relate to any unincorporated district.

4. And be it enacted, That every local board of health of any city, borough, town or township shall, on or about the first of October of each year, in addition to any other reports that the local authorities may require, prepare an annual report of the condition of the public health in their district, stating, also, any special causes of deterioration of health or hazard thereto; and shall therein answer any inquiries which have been addressed to them by the state board of health; in the case of cities the same shall be presented to the city authorities, and the board of health shall, on or before October fifteenth of each year, forward a copy of the same to the address of the state board of health at Trenton; and in the case of townships, a similar report, signed by the chairman of the township committee, shall, by the same date, be sent as herein provided for city boards.

5. And be it enacted, That boards of health of cities or townships or any county health board shall, through the keeper or recorder of vital statistics, take cognizance of any neglect of returns on the part of any persons charged with this duty under the laws of this state, and are authorized to pass ordinances additional thereto, and not conflicting with the same; and they shall have the same powers of action for neglect as is given to the state board of health, and in addition, in the case of the failure of any city clerk, assessor or physician to make full returns as required by law, may bring action for the same and recover for the use of said city or township to the amount not exceeding fifty dollars; and in case of the death or removal of any assessor before the time for electing a successor, the township clerk shall take charge of and report such returns until the election of an assessor.

6. And be it enacted, That the state board of health in making inquiries and investigations in regard to the causes of disease and mortality and the modes of their limitation, may aid any local board to the amount of twenty dollars in any one year, and that for this purpose, and also for extending its own inquiries into the sources of any local deterioration or local causes of disease, the board be authorized to expend two thousand dollars each year, in addition to the amount heretofore provided, said expenditure to be accounted for each year by itemized bills, audited by the president and secretary of the board of health and approved by the governor, and then shall be paid as other accounts of said board;

7. And be it enacted, That the board of health of any borough, incorporated town or township, shall examine into all nuisances, foul or noxious odors, gases or vapors, or causes of ill health or disease that may be known to them or certified to them by three or more freeholders or tenants, as in their opinion injurious to the health of the inhabitants within their township, or in any vessel within any harbor or port of such city, borough, town or township, and shall deal with the same as in the manner herewith directed, to wit: whenever such nuisance or source of noxious odors, or cause of ill health or disease, shall be found on public property or on the highway, the person or persons officially in charge thereof as overseers, civil officers, directors or trustees, shall be notified to cause the same to be removed as the case may require; and if failing so to do the procedure shall be the same as hereinafter provided in the case of private individuals.

8. And be it enacted, That whenever such nuisance, source of foulness or cause of sickness hazardous to the public health, shall be found on private property, that the board of health of the city, town or township in whose limits it may be shall at once notify the owner at his own expense to remove the same within such time as said board shall deem the public health to require, a duplicate copy of the notification being also left with one or more of the tenants or occupants; if the owner resides out of the state and cannot be reached with notice speedily enough for the necessities of the public health, a notice left at the house with the tenant shall suffice; if the owner thus notified shall not comply with such notification or order of the local board of health within the time therein specified, said board shall proceed to remove said nuisance, source of foulness, or cause of sickness hazardous to the public health, and all expenses incurred thereby shall be a lien upon the property of the owner or the real estate or building on which the nuisance has occurred, or which it may have action against any person or persons who have caused or allowed said nuisance; and it is also provided that the property owner shall have the right under his own remedies, of speedy recourse to the state or county board of health acting in a body or through its executive officer, within such time as the local board of health shall on his application direct, unless in its judgment the danger to the public health is too hazardous to admit of delay; and in case any injunction or stay of proceedings in any form is applied for, such injunction or stay of proceedings shall not be issued until the local board and the state board have been notified to appear and be present at such hearing; but the failure of the owner to cause removal, or the refusal of the court applied to to grant a stay of proceedings shall not prevent the party or parties making the application from any suit at law and recovery of damages, if the alleged nuisance be shown to have been in no way hazardous or prejudicial to the public health.

9. And be it enacted, That in order to secure the appropriation of such tabular classification and deductions therefrom as bear upon political economy, population, the causes of disease and of epidemics at the time of indexing the records of marriages, births and deaths, there shall also be made a full transcription of such vital facts as are required for such purposes, and the allowance for each transcription, and for the indexing of the records shall be five cents for each [illegible] payable in the same way as heretofore provided for the index record, but the amount to be paid to the registrar or others for this clerical service, shall be determined by the state board of health, and the medical superintendent shall render to the secretary of state and to said board yearly an exact statement of the whole amount thus received and how expended, and the balance, if any remaining, shall be paid over to the state board of health, and its expenditure accounted for through accounts audited by the president of said board and approved by the governor.

10. And be it enacted, That at the enrollment of the children each year by the clerk of district schools or by other proper officers in cities, inquiry shall be made as to how many of the children within the school are unvaccinated, and the same shall be designated by a mark on said roll, and in the case of any found unvaccinated whose parents desire them to be protected from small-pox, but who, in the judgment of the board of education or the trustees of the school district, are unable to pay therefor, the school clerk or other authorized person may give to said children a permit to appear at the office of any [illegible] physician of said school district or of said township to be vaccinated, and any such physician, on the presentation of such permit, with his certificate appended thereto that the said vaccination has been by him successfully performed, shall be entitled to receive from the township committee or city treasurer fifty cents for every such certified case.

11. And be it enacted, That in case of any county having a county board of health or rural district, nothing in this act shall change or modify their former power or jurisdiction and they shall possess all the authority herein granted to city or township boards, and they shall yearly report to the state board of health as to the cities and townships of the county in the same way as is required in counties where there is no county board of health; they shall be the sole power to make ordinances in relation to the public health and to carry out the provisions of the laws of this state in reference to the registration and returns of vital statistics, in their respective counties; nothing in this act shall relate to or affect any boards of health now organized in any of the cities of this state under the provisions of their respective charters.

12. And be it enacted, That this act shall take effect on the first day of April, one thousand eight hundred and eighty.

Approved March 11, 1880.

CHAPTER CLI.

A supplement to an act entitled "An act to incorporate and regulate telegraph companies," approved April ninth, one thousand eight hundred and seventy-five.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever any telegraph or telephone company, organized by virtue of the act to which this is a supplement or by virtue of any special act, shall apply to the common council or other legislative body of any incorporated city or town through which it is intended to construct their telegraph line, for a designation of the streets in which the posts or poles of such company may be erected, it shall be the duty of such common council or legislative body to give to such company a writing designating the streets in which the posts or poles shall be placed, and the manner of placing the same, subject in other respects to the provisions of the act to which this is a supplement.

2. And be it enacted, That in case of the refusal of any of the owners of the soil on the line of the route to permit the use of any road or highway for the purpose of erecting posts or poles on the same to sustain the wires or other fixtures, in case where consent is necessary to be obtained, it shall be lawful for such company to present a petition to the circuit of the county in which said road or highway are situate, or to the judge thereof in vacation, setting forth the privilege or right of way, the names of the owners of the soil if known, and if not known or non-resident of the state that fact shall be stated, and the names of any number of owners or any number of descriptions of the premises desired may be mentioned in one petition, whereupon the said court shall fix the time and place for the hearing of the matter contained in said petition, and direct notice thereof to be served on the person or persons, or corporations interested, at least six days prior to said hearing, such service to be made in the same manner as writs of summons issued out of said court are served, or if the owner be unknown or not resident in this state such notice shall be published in a newspaper in said county for the like period, or for such longer period as the court may direct, and in case the post office address of such non-resident owner can be ascertained a copy of such notice shall be mailed to him or her (postage prepaid), under the direction of said court; at the time mentioned for said hearing the said court (unless good cause to the contrary appear), shall appoint three disinterested freeholders, residents of said county, commissioners to assess and appraise the damages which such owner or owners may sustain by reason of the erection and establishment of such telegraph line; before entering upon the service said commissioners shall severally be sworn faithfully and impartially to perform the duties required of them, and shall on view make a just appraisal in writing of the damages, if any, sustained by such owner or owners, and file a report thereof in the office of the clerk of said court; if any damages are assessed the company shall pay or tender the amount of the same to the party to whom the award is made; if such owner be unknown or cannot be found they shall pay the same into the said court; and thereupon, or if no damages are found to be sustained, the said company shall have full power to use such road or highway on the line of their route for the purpose of erecting posts or poles on the same to sustain their wires or other fixtures; said commissioners shall each receive three dollars for each day's service performed by them to be paid by said company; and any party aggrieved by the assessment of damages may have the matter determined by a jury, provided an appeal be made to the said court within thirty days from the time of filing the report by the said commissioners, and said court shall thereupon order a trial by jury, to be conducted as any other case of similar trial; if the jury increase the damages the same and all costs and charges shall be paid by the company, otherwise the costs and charges to be paid by the owner or party interested; and judgment may be entered upon the verdict of said jury and execution issued thereon as in other cases, unless said company, shall, within ten days after said verdict is rendered, elect to abandon their proposed route or appropriation of said road or highway by an instrument in writing to that effect, to be filed with the clerk of the said court and entered on the minutes thereof, and as to so much as is thus abandoned the assessment of damages shall be void; provided, that upon such abandonment the costs of all proceedings to be taxed by the said court shall be paid by the company to the opposite party; and provided, also, that all the provisions of this action shall apply to any telegraph or telephone company specially incorporated.

3. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

PUBLIC SCHOOLS.

There is nothing of greater and more lasting value, both public and private, than free practical education. It is individual good fortune, and at the same time, the safeguard of civil and religious liberty.

No just minded citizen will object to the cost imposed upon him as a taxpayer for the support of rightly managed free schools. It is a needed expenditure of money, but, he may with propriety demand that knowledge so publicly imparted to the rising generation, shall be of a kind best adapted to qualify them for the actual business of life, and for the intelligent discharge of all the duties of citizenship.

The question has been raised by many citizens whether public schools, as now conducted, fully realize the purpose of their creation, and it is evident, that opposition to them rests mainly upon the supposition that they are more theoretical than useful. There may be cause for such criticism, and if so, it certainly behooves Trustees and Principals to apply the remedy.

There is another aspect of the subject which presents itself forcibly to view, and it is this:

Are the public schools, as educational institutions, as thoroughly American as they should be?

That is an important question, and, we fear, cannot be answered in the affirmative.

We want more Americanism in America. The youth ought to be instructed in every thing that pertains to our country, its recorded history, its present requirements and its future glory, not colored by partisan prejudice, but illuminated by the light of positive truth.

A course of study specially designed to master the following hastily expressed topics, would gratify public opinion and sow remunerating seed:

"History of the early and various settlements on the American continent, by whom made and under what circumstances."

"The Colonial events that finally resulted in the Declaration of Independence."

"The American Revolution, its perils and privations, discouragements and hopes, defeats and victories, and the heroic patriotism of its actors."

"The formation of the Constitution and Union and the detailed working of our system of representative government thereunder."

The annals of antiquity may be beneficially instructive, but to perfectly know the land wherein we live, its language, history, institutions and resources, is far more important, because of living service to all classes of people.

Let our own country be the foremost lesson taught.

THE PRESIDENCY.

Personal electioneering on the part of an aspirant to procure a nomination and election to the Presidency of the United States, is not only disreputable, but hostile to free representative government.

Both parties at the present day are afflicted with the pestiferous system, and it is radically wrong.

Public indignation ought to stop it at once and forever. The office of President *is too honorable and important* to be filled by any trading politician. It should be tendered as the reward of character, ability and patriotic services, and in no event be allowed to fall into improper hands.

We hope the Democratic National Convention at Cincinnati will take high ground in the matter of selecting a candidate, and cast aside as worthless trash every self seeker. If that Convention is actuated by sincere love of country and the welfare of party, it will present to the voters a nominee totally devoid of mercenary aim, and in every particular qualified for the faithful and dignified discharge of duty, and one in whom honest people can repose confidence. Give us such a man and the next President will be a Democrat.

NO MONEY.

Again have the taxpayers refused to be still further unnecessarily burdened with additional taxation, and have rebuked the Common Council for asking such an imposition, by voting against raising an additional $2,500 for city purposes. The result is no more than we expected. When there is a large amount of unpaid taxes due the city, which the Council, through its appointed officers, fail to collect, it is no wonder that those who *do* pay their taxes refuse to increase the same by their ballots. With prompt action and stern legal measures the unpaid back taxes can be collected. Why is it not done? This fact was one of the principal reasons why the citizens of Plainfield on Tuesday last refused to vote for "Money." There are other reasons besides, one of which is, that should the Common Council do that which the people said they *should* do, a year ago—grant licenses, when they are properly and legally applied for, they would receive sufficient funds therefrom to carry on all necessary street improvements, light the streets and pay for an efficient police force. Other Councils have done so, why not the present one? Instead of squandering the funds allowed for Street purposes in ruining macadamized streets by dumping thereon soil or gravel (?) and then afterward paying for removing the mud made by it, the money could have been advantageously and profitably spent in repairs of streets that really needed it. We are told in a circular issued by the Council the night previous to the election, that unless this money was voted them they would be compelled to cut off the street lights. Did they think when they called this election how much it would cost the city for holding it? If we mistake not previous elections of the kind have cost the city over $200; this one may come pretty close to that figure, and not a cent of money has ever been granted. Would not that amount have been more judiciously expended if used in repairing the streets or keeping the lamps lighted? We have heard it expressed more than once lately, by persons who owe back taxes, and who are perfectly able to pay them, that they should refuse to pay tax any longer until those in arrears for from one to six years were made to pay *their* taxes.—This being the case, the Council should at once make a test case of some delinquent, and ascertain whether the Charter is defective on the point of collection of taxes or not. By the collection of said taxes there is no need of cutting off street lights or having bad roads to ride over. Collect those taxes, Messrs. Councilmen.

UNION COUNTY'S RIGHT.

The time is drawing nigh when a nomination for Member of Congress from the Third District will be made, and we believe the time has come for the Press of Union County to express its views on the subject as to which of the three Counties comprising the District, Union, Middlesex and Monmouth, is entitled to the nomination. It takes but a moment's thought to urge the claim of Union to that honor. Twice has she given way to Middlesex, because she could not bring before the Convention her delegates solid for one candidate. To be sure the representative selected, Hon. Miles Ross, was triumphantly elected and has ably and faithfully performed the duties his office involves, but that is no reason why Union County, with her Democratic majority, should not be this time represented. The Democracy of the County were never more firmly united, and it is only necessary to go to the Convention with the name of some one capable person to insure his nomination. Democrats of Union, who shall that man be? We have plenty of material in our ranks capable of filling the office. We do not at this writing care or mean to express our individual preference for any one man. What we desire to see is the most capable person for the position nominated, and that he comes from Union.

SALARIES OF THE JUDICIARY.

In accordance with the law of last winter, the Attorney General, Comptroller and Treasurer have determined the salary to be paid the new Justices of the Supreme Court, under that act. Justice Parker will receive $8,012.70 per annum, and Justice Magie $7,409.64. Justice Depue, although newly appointed, does not commence his new term until next November, and will probably come under the census to be taken this summer. Should this not prove to be the case, his salary under the State census of 1875 will be $8,776.24.

The law provided that unless the Justices then in office elect to accept the new law as applying to their existing terms, it should not do so. None have signified their acceptance, and the compensation of those now in commission, except as above stated, remains as before.—*Trenton True American.*

RETURN THEM.

The Democratic Board of Freeholders of Union County meet for organization next month, and of course, selection of officers to serve the ensuing year. From what we hear there seems to be no reason to doubt that Freeholder Martine, of Fanwood will be chosen Director, and the re-election of Collector Sheridan and Clerk Crowell, with Wm B. Maxson, Esq., as County Attorney. These are capable and worthy officials, and the Board will do honor to themselves and the County by selecting them in these several official capacities.

CONTESTING A WILL.

Argument was heard at Newark on Saturday before Chancellor Runyon in the matter of the will of the late Lucy H. Eddy, of Rahway, who died in March, 1879, age eighty-three years, possessed of about $130,000. The property was bequeathed partly to charitable institutions. Louisa Pollock, a grand-neice of the testator, contests the will on the ground of undue influence and testimentary incapacity.

The "Duke of America" is now the title bestowed on a certain third term aspirant for the Presidency. Royalty was formally abolished in this country July 4th, 1776, and the people are determined it shall stay abolished.

The Democrats in various towns of Connecticut have begun forming clubs called Jackson clubs, Jefferson clubs and like names. The party leaders believe that in this way more complete party organization can be secured and a larger vote brought out at elections.

Our Republican friends fancy they are going to walk over the Presidential course this year and straight into the White House. The nominee of the Cincinnati Democratic Convention will make his opponent a sorry looking pedestrian. He will likely be a swift running nag.

Government contractors are for Grant, stock speculators for Sherman, and the Chinese for Blaine. The voting masses think otherwise.

Boss Kemble of "Addition, Division and Silence" fame, with four other legislative corruptionists, Rumberger, Petroff, Salter and Crawford, of Pennsylvania, were on Monday last sentenced by Judge Pearson, at Harrisburg, to pay a fine of $1,000 and to serve a year each at hard labor in the Penitentiary. The sentence was a surprise as well to the community as to the prisoners themselves. It is intimated by the ring press of the State that the Board of Pardons, which meets soon, would pardon Kemble. This, however, is indignantly denied by Attorney-General Palmer, a member of the Board. So it is likely that this notorious corruptionist will yet earn his living at shoe making, wearing a striped garb. Rumberger is believed to be insane, and may probably be removed to the Insane Asylum.

The Relief Ship Constellation, carrying provisions for the starving Irish people, is unloading her supplies at Queenstown. The Captain and crew are the recipients of extended courtesies by the authorities.

Five Hundred Thousand Strong.

In the past few months there has been more than 500,000 bottles of SHILOH'S CURE SOLD. Out of the vast number of people who have used it, more than 2,000 cases of CONSUMPTION have been cured. All Coughs, Croup, Asthma, and Bronchitis, yield at once, hence it is that every body speaks in its praise. To those who have not used it, let us say, if you have a Cough, or your child the Croup, and you value life don't fail to try it. For Lame Back Side or Chest, use Shiloh's Porous Plaster. Sold by your Druggists, W. H. Voorhees and H. P. Reynolds.

A Strange People.

Do you know that there are strange people in our community, we say strange because they seem to prefer to suffer and pass their days miserably, made so by Dyspepsia, and Liver Complaint, Indigestion, Constipation, and General Debility, when SHILOH'S VITALIZER is guaranteed to cure them. Sold by W. H. Voorhees and H. P. Reynolds.

We have a speedy and positive Cure for Catarrh, Diptheria, Canker mouth, and Head Ache in SHILOH'S CATARRH REMEDY. A nasal injector free with each bottle. Use it if you desire health, and sweet breath. Price 50 cts. Sold by W. H. Voorhees and H. P. Reynolds. la9eow6m.

HIGGINS' GERMAN LAUNDRY SOAP

Is perfectly pure, being made of carefully selected stock, and is therefore *the cheapest*. Ask your grocer for it, and see that you get only the genuine article. A trial will convince you of its merits. ap2y1.

A Fine Thing for the Teeth.

Fragrant SOZODONT is a composition of the purest and choicest ingredients of the Oriental vegetable kingdom. Every ingredient is well known to have a beneficial effect on the teeth and gums. Its embalming or antiseptic property and aromatic fragrance makes it a toilet luxury. SOZODONT removes all disagreeable odors from the breath caused by catarrh, bad teeth, &c. It is entirely free from the injurious and acrid properties of tooth pastes and powders which destroy the enamel.—One bottle will last six months.

A JOINT resolution has been presented to Congress tending toward the cancellation of the letters patent issued to Green of Drive Well fame. This has been brought about by the vigorous fight made by anti-drive well associations organized all over the country resisting Green's pretended claim to a royalty. It is to be hoped Congress will pass the bill.

THE ladies' waiting room in the new ferry house of the New Jersey Central Railroad, at the foot of Liberty Street, has a Brussels carpet, rocking chairs and settees of latest style. The building has just been finished. It has a frontage of 184 feet on West Street, and along the entire front is an awning about twenty feet wide. There are two passageways to the main waiting room, with four fare takers.

MR. G. A. Schmitz has one of the most complete and perfect henneries to be found in the State, situated on the Main road, just above Terril road, near Scotch Plains. His coops and buildings cover over an acre of ground, and he has none but the best breed of chickens, such as Houdans, Brahmas, White Leghorns, etc., in which he does an extensive business. Parties desiring good stock should visit Mr. Smith's Hennery.

FRONT Street, on last Monday evening, was more than usually lively, and the crowd remarkably dense. The cause was a horse belonging to Denton, the Nurseryman, that seemed bent upon backing on to the sidewalk though the heavens (including Warnock's hitching-post) might fall; and the effect was to scare the occupants of the vehicle to which it (the horse) was attached. Judicious expostulation, however, persuaded the animal to follow the right path.

AS Benj. H. Von Steinberg, a fireman on locomotive 126 of the Central Railroad of New Jersey, was oiling his engine in the railroad yard at Jersey City on Saturday last, he walked to the forward part machinery, when the engineer, ignorant of Von Steinberg's presence, started the engine. The crank flew around with great force, striking the fireman in the side and throwing him far from the locomotive. He was picked up and taken to the St. Francis Hospital. His injuries will prove fatal.

PHEW! said everyone who visited the Post Office on Monday last, and no wonder, for the inside of that institution smelled as though a barrel of carbolic acid had been emptied upon its floors. The cause was explained by the clerks and Postmaster, in the statement that some ambitious advertiser had sent through the mails that morning about 2,000 samples of pasteboard labelled "Anti-moth paper." There was enough effluvia arising from the packages to destroy all the vermin in the city. The clerks were made sick by the strong smell, which still pervades the office, and Mrs. Vail only remained to wait upon the throng of callers by her strong will. The fellow who uses the mails for such advertising purposes is capable of yet becoming a Councilman.

THE weather signals are hoisted correctly each day over the Mansion House, thanks to Billy Hedden.

REV. Theo. S. Brown, pastor of the Dunellen Presbyterian Church, has resigned his pastorate of the same, and will remove with his family to New York State.

GEN. Wm. H. Sterling, Inspector of Rifle Practice, yesterday issued Special Order, No. 1. directing the inspection of Drake's Gatling Gun Battery at Elizabeth, on the 4th day of May next.

MR. L. L. COMPTON contemplates erecting in a week or so, a large old fashioned bread oven under the sidewalk in front of his bakery and confectionery. The increasing sale of his famed "New Process" Bread compells him to thus increase his facilities for manufacturing. Those who try this bread once, continue using it. Read his advertisement

MESSRS. Edsall & Price, the leading Dry Goods merchants of Plainfield, find their present quarters entirely too small and inadequate to accommodate their rapidly increasing business, and have consequently leased the large store now occupied and owned by Mrs. S. C. Conklin, and will remove thence as soon as Mrs. Conklin can close out her stock.

THE residence of Mr. Dabell, at South Bound Brook, was the scene of gayety and enjoyment on Tuesday evening last, the occasion being a Sociable given to raise funds by sale of tickets for the "Cushion Fund," (to cushion the pews of the Episcopal Church of that place).—About 50 couples of the *elite* of Bound Brook, Plainfield and other places were present. Prof. Frazee, of this city, furnished fine music for the occasion.

Cut your hair, Sir?

Prof. Smith, the North Avenue tonsorial artist, next to THE CONSTITUTIONALIST office, has recently added something new to his establishment, in the shape of a patent hair cutting machine, which works upon the same principal as a horse clipper. By its aid a person's hair is uniformly and closely cut, in much less time than by the old method. Parents desiring their children's hair cut in an artistic manner should visit Mr. Smith's establishment.

Of Interest to Doctors.

The new law regulating the practice of medicine and surgery, provides that no person, male or female, shall practice medicine in this State unless a graduate of a medical college, in good standing, and shall deposit a copy of his or her diploma with the county clerk to be open to public inspection. Failure in this is punishable by a fine of $50 for every prescription made or operation performed. A fine of $500 or three years' imprisonment is imposed for practicing under a fraudulent diploma.

A Chronometer Recovered.

Constable Davis, of Plainfield, took an afternoon train for New York on Friday. When it stopped at Elizabethport four men entered the car in which the constable was riding, one of whom noticed that he was asleep. The new comer sat down by his side, and, as is alleged, stole his watch. When the owner awoke and missed his time-keeper, he accused his companion of the theft. His fellow-traveler indignantly denied all knowledge of the chronometer. Then there was a scuffle and the missing article dropped from the thief's pocket. On the arrival of the train at Jersey City the pilferer was taken into custody.—*Elizabeth Monitor*, April 26th.

Lost and Recovered.

Messrs. Roberts & Cadmus, the Plainfield Liverymen, were one day last week approached by a prepossessingly looking and plausibly talking young man, who desired to hire of them a horse and buggy for a pleasure ride. His wish was granted and with a fine turn-out he left the stables to be heard of no more until the next day, when Detective Breen traced the lost property to a Brooklyn stable, where it had been left by the thief. The latter turned out to be the son of a prominent gentleman of that city, who has since settled with Messrs. Roberts & Cadmus; and the detective who followed the affair up, will be liberally rewarded for his efficiency.

Judge Magie.

They are enthusiastic over their new Judge up in Sussex county. The Sussex *Register* last week had the following comments on him: Physically he is fine looking. Fully six feet in height, he is erect and square shouldered, solidly built and steps off with a springing gait as if every drop of blood in his veins were of the best quality and each one on active duty. His hair is nearly black and tinged with grey; he wears a moustache and has a dark brown eye that is full of merry twinkles. His voice is rich and melodious and his articulation firm and distinct. His charges to both the grand and petit juries have been models of good English, good sense and fairness. His manner upon the bench is that of a man who feels that he is fully equal of those who are before him. He keeps business moving, and with experience will undoubtedly prove himself to be as upright and able a judge as there is upon the bench.

Wells.

In the annual report of the State Geologist we find the following relative to artesian and driven wells in this city:

"Mr. Wm. S. Stillman informs me that there are several wells at Plainfield. One on the premises of Mr. Finch, on Park avenue, about half a mile from the depot. It is on the flat or level ground of the city, and has a total depth of 102 feet, of which 60 feet was in earth and 42 feet in rock. The size of the bore is 2½ inches. The supply of water is ample, and it rises to within 7 feet of the surface. The water is soft. Another well is on the premises of J. B. Brown, on Park avenue, about three blocks from the depot. It is on the flat ground of the city. It is 107 feet deep, of which 60 feet were in earth and 47 feet in rock. The bore is 1½ inches. The supply is all that is needed and the water very soft. It rises in the tube to within 14 or 15 feet of the surface. Mr. Brown says he struck the best vein of water at the depth of 65 feet."

The Election for Money.

The election for "Money" or "No Money," designated by Common Council to be held last Tuesday, the object being to raise an additional sum of $2,500 for city expenses, passed off in a very quiet manner, but little interest being taken in the election except by those who desired to raise the money, as the light vote polled, 495, attests. With a full vote, there should have been between 1,400 and 1,500. The result at the conclusion stood as follows:

	Total.	Money.	No Money.	Maj.	
1st Dist.	167	41	126	85	against
2d "	204	90	116	26	"
3d "	124	75	49	26	for money
	495	206	291		

Majority against Money, 85.

There was no excitement whatever, and but for the fact of the polls being open and hotels and saloons closed, a stranger would be unaware of there being an election. The rallying cry of "No Money" voters was—"Collect the back taxes before you ask for more money."

Complimenting John Taylor Johnston.

The Metropolitan Museum of Art of New York City, in view of the great services of Mr. John Taylor Johnston the President of its Board of Trustees, in bringing about the establishment of what is now one of the most useful and appreciated institutions of the world—has addressed to him through its Trustees a highly complimentary letter stating a wish to secure his portrait for the Museum. This they desire to be by one of the first portrait painters of that Old World which he is about to revisit, and the sittings be given during the time he is abroad. The letter states that, contemplating the fact that they are to be deprived for a time of his co-operation in conducting the affairs of the Museum, they desire to express their personal appreciation of the faithful services which he has rendered to the institution, now established on a basis of permanent prosperity. Mr. Johnston's faith in the future of the Museum under all the discouragements of the past ten years, his generous contributions and advances of funds and personal efforts in matters before the Legislature, are alluded to. The portrait they wish to present to the Museum, desiring that his name be always held in grateful remembrance in connection with that institution, with whose early history he has been so closely identified. Mr. Johnston has answered the letter, stating his appreciation of the compliment and that he will be glad to sit for the portrait. Why this institution so emphatically snubs American artists—whose profession it should foster—we are, however, unable to imagine.

New Uniforms Coming.

The members of the Plainfield Cornet Band are soliciting subscriptions from our citizens to aid them in purchasing new and appropriate uniforms, and are meeting with good success. The Band is improving in efficiency under able leadership, and meet regularly for practice at Caspar's Saloon on Second Street.

A Kind Offer.

Notwithstanding the sincere and generous offer contained in a letter from some of the members of the Ladies' Relief Association presented before the Plainfield Saengerbund at their meeting last Monday evening, that association feel constrained to decline, in their reply, the assistance promised, as a resolution had already been passed that the Society should cancel its obligations and expenses without the help of outside well-wishers. The communication, however, goes to show the kind feelings entertained by the ladies towards the members of the Saengerbund who so generously offered their services and talents for the benefit of a most worthy cause.

The Afternoon Lectures on English Literature.

Yesterday afternoon was given by Miss Kate Sanborn the last of the introductory course of lectures that are to be established in this city by the Local Circle of the C. L. S. C. The success of the undertaking seems to be as assured as its interest is certain. The handsome and comfortably furnished Hall was well filled with an audience who were delighted hearers and sincere appreciators; and who left with a feeling that they had received more than the usual amount of instructive reward resulting from like discourses. It is the intention of the managers to continue these entertainments, and their high literary standard will be fully kept up.

Art.

A visitor to the studio of Col. Scott finds that artist hard at work upon many delineations of his inventive brain and ready hand. Many portraits, including the gentleman's wife, and General Smith—credited by the ex-president with winning the battle of Look Out mountain—are under way; while a most natural scene of a "Gallant Drum Major" silently admired by a curb-stone audience, cannot fail to attract attention. The study for the picture of the Battle of Cedar Creek, that was painted to order for the State of Vermont, is being retouched before going into the hands of the engraver; and (to pass from the ridiculous to the sublime) collective portraits of a number of our local counsellors discussing the third term, a money election and other equally interesting topics, is rapidly approaching completion.

They Will Take Their Seats.

There has been a considerable escape of gas from overcharged "great heads" of late, on the subject of the eligibility or ineligibility of Messrs. Morris and Mayer, the newly elected members of the Board of Fire Commissioners, to take their seats and serve as such members at the organization of the new Board, May 5th, one point taken being that the gentlemen were not members of the corporation as provided in the original charter. There has, however, been some six amendments made to the charter since the original law was passed forming the Plainfield Fire Department. Among them we find in the session laws of 1869, an amendment to the Fire Department Charter, Sec. 4 of which reads as follows:

"That the members of said corporation shall, at the next annual election, elect from the *residents* of said corporation *six citizens* to be a Board of Managers."

The *italics* are our own. As both Mr. Mayer and Mr. Morris are "residents" and "citizens" of Plainfield, we fail to find any cause for ineligibility on the score claimed that they are not members of the corporation because they are not property owners.

Brinton Range.

Gen. Wm. H. Sterling, Inspector of Rifle Practice, has issued his notice to the National Guard of the State of New Jersey, that practice will commence on Brinton Range near Elizabeth for the current year on May 1st and continue until Nov. 1st, on Mondays, Wednesdays and Fridays, and Tuesdays and Thursdays on Stockton Range, at Camden. It is a gratifying fact to the public to know that Brinton Range is a self-paying institution, and our militia are becoming more and more proficient in the use of arms by practice under efficient instructors. The programme for the month of May is as follows:

Saturday, May 1st, at 3 p. m.—"Sharp's Match for Military Rifles."
Saturday, May 1st, at 3:30 p. m.—"Ballard Match."
Tuesday, May 4th, at 3:30 p. m.—"Whitney Match."
Saturday, May 8th, at 3 p. m.—"Winchester Repeating Rifle Match."
Saturday, May 8th, at 3:30 p. m.—"Ballard Match."
Tuesday, May 11th, at 3:30 p. m.—"Remington Match."
Saturday, May 15th, at 3 p. m.—"Sharp's Match for Military Rifles."
Saturday, May 15th, at 3:30 p. m.—"Ballard Match."
Tuesday, May 18th, at 3:30 p. m.—"Whitney Match."
Saturday, May 22d, at 3 p. m.—"Winchester Repeating Rifle Match."
Saturday, May 22d, at 3:30 p. m.—"Ballard Match."
Tuesday, May 25th, at 3:30 p. m.—"Remington Match."
Saturday, May 29th, at 3 p. m.—"Sharp's Match for Military Rifles."

Undoubtedly more than usual interest will be taken in rifle practice at Brinton Range this year. The arrangements are more perfect, and the practice will interest the spectators who attend, as the participants, with last year's experience, will make better records in shooting.

Should there be an inter-state match this year it will be held on this range. Gen. Hancock has promised that companies from the Division of the Atlantic shall take part, but the matter will go no further unless the Secretary of War changes his decision against allowing the Army of the Pacific to expend the amount necessary for transportation.

Honors to Plainfield Firemen.

Thursday of last week, Messrs. Auguste Saltzman, foreman of "Alert" Hose Co., No 1, ex-Councilman B. M. Stover, John H. Cuthbert, (members of above Co.) of this city and Mr. A. Vuille, of Switzerland, (invited guest) went to Hartford, Conn., for the purpose of returning a compliment recently paid Foreman Saltzman, (the presentation of a diamond badge to Mr. S. by Chief Hendricks of the New Haven Fire Dept., notice of which appeared in our last issue.) Upon their arrival the visiting firemen were cordially received by Chief H. and assistants, and taken care of in a manner that will long be remembered by them. During the sojourn of the visitors in New Haven, they were the recipients of all the hospitality that could possibly be shown them, being escorted to all the principal places of interest about the city. Before their return they were gratified with an exhibition drill of the various fire companies of the City, in which one fire engine company of the department showed their efficiency of drill by having their horses attached to the pole and men in position in 9 seconds from the time of striking the alarm by the Chief. Another Company was turned out and ready for duty at the station assigned in 22 seconds. This remarkable time speaks volumes for the efficiency of the New Haven Fire Department, and Chief Hendricks. Before the departure for home of the visitors, Foreman Saltzman presented to Chief Hendricks in the name of "Alert" a handsome silver cup, engraved as follows:

ALERT HOSE CO. No. 1
to
CHIEF A. C. HENDRICKS
as a token of friendship and esteem
1880.

The occasion, naturally, was made one of enjoyment and pleasure, and the visitors returned home on Saturday highly pleased with their visit, and carrying with them mementos and souvenirs from their brother firemen of New Haven. Foreman Saltzman, with his handsome new regulation suit of blue, with brass buttons, was the envy of his brother members. Below we give an extract from one of the New Haven papers:

"Yesterday afternoon Mr. August Saltzman, foreman of Alert Hose of Plainfield, N. J., accompanied by B. M. Stover and J. H. Cuthbert, of the same company, visited this city and paid their respects to Chief Hendrick. They were accompanied also by Mr. A. Vuille, of Chaux-de-Fonds, Switzerland, who is a partner of Mr. Saltzman in the manufacture of the celebrated Saltzman watches. Accompanied by Chief Hendrick and his assistants Disbrow and Kennedy, the gentlemen visited several of the engine houses and were shown the workings of our excellent fire department. They expressed themselves as highly pleased with everything they saw. They also visited Evergreen cemetery and viewed the firemen's monument. During the day the visitors presented Chief Hendrick with a very handsome solid silver cup as a token of their appreciation of his kindness. The visitors will leave for New York this morning on the steamer, and will no doubt carry with them pleasant remembrances of their visit."—*New Haven Journal & Courier*, April 24th.

The Republican Primary.

At 8 o'clock on Tuesday evening last, the hour for the Republican Primary in Laing's Hall, not a single believer in the principles of that party was to be seen in the meeting room. But after a few of our Councilmen had gotten over the depressing effect of the money election, and had made their appearance, the ranks of their followers began to swell; and when, some time after the hour, the meeting was called to order by Mr. L. E. Clark, there was gathered together a body of twenty-four.

Messrs. Washington Lithgow and L. E. Clark were chosen Chairman and Secretary respectively and the latter read the call. Four delegates were to be elected to attend the State Convention; the following gentlemen were nominated, and received the number of ballots as recorded. Washington Lithgow, 26; Isaac W. Rushmore, 17; Stephen C. Ryder, 14; Elias R. Pope, 13; Joseph B. Coward, 12; Thaddeus O. Doane, 10; Mason W. Tyler, 9; John M. Whiton 6; and Isaac L. Miller, 5. The four highest were thereby chosen delegates and the four next, alternates, with power to fill vacancies should any occur. The meeting after the customary collection, then adjourned.

Five Weddings in One Day.

Last Wednesday was a day destined to shed the light of its sun on many a newly-wedded and consequently made happy pair. Among those occasions in which Plainfielders have an interest may be noticed the following; a more extended notice of each of which we regret not having sufficient room to give:

Mr. Charles W. McCutchen now claims as his better half the lady who was formerly Miss Mary Belle Simpson, of Annapolis, Md. The ceremony took place at the bride's house and Baltimore's loss is to be Plainfield's gain.

At the residence of the bride's parents, Mr. and Mrs. J. F. Hubbard, the Rev. Mr. Gardner, of Shilo, N. J., assisted by the Rev. A. H. Lewis, of this city, performed the ceremony of marriage between Mr. I. Newton Van Sickle, of New York, and Miss Eva J. Hubbard. Messrs. Thomas Stillman and John Dunham were "best men" (excepting the groom, of course). The presents were both numerous and handsome, and the supper a model of the caterer's art. The couple left on the 11:06, P. M. train for New York, Boston, and a short tour.

Dr. F. E. F. Randolph, of Troy, was joined to Miss Phebie F. Randolph, at the New Market Baptist Church, by the pastor, Rev. Mr. Jones. A large gathering of friends were assembled, and among the many tokens of kindness were two checks for $1,000 and $500 respectively from near relations.

Union Village was thrown into a ripple of pleasant excitement by the carrying off of Mis Amelia Zuckschwert, sister of Mr. Chas. Zuckschwert, by Mr. Wm. Kean, a prominent Druggist of Newark. The ceremony was performed by the pastors of the Methodist Churches of New Providence and Union Village.

Mayor Harper, too, added his share toward making the day a memorable one, by uniting in holy bonds Mr. Abram M. Vail and Sarah H. Drake at his residence. That, we believe, is the first instance of a marriage ceremony performed by a Mayor of the city of Plainfield.

Somerset Grand Jury.

Considerable excitement has existed in and about Somerville the past week regarding the empaneling of the Grand Jury for the April term of Court. It seems that previous to the sudden sickness of Sheriff Van Liew, he had prepared a list of 21 names to be drawn as Grand Jurors, which were written in a memorandum book. When he was taken sick he sent the book to ex-Sheriff Totten to fill out the last three names, which was done and Sheriff Van Liew expressed himself satisfied with the names, and ordered them to be summoned. Later, however, his Counsel, not liking fourteen of the names, substituted fourteen other names without the knowledge and consent of the Sheriff, which when made known to him he refused to acknowledge or recognize as his Grand Jury. As a consequence two sets of Grand Jurors presented themselves at Court. The Sheriff's Jury was sworn in, and were challenged by an array of lawyers, and the Court decided the points taken good and set aside the panel. In his charge on Monday last Judge Magie said in substance "That there had been two challenges interposed, one by the Prosecutor on behalf of the State, and one on behalf of persons now in confinement, awaiting the action of the Grand Jury—that there had been manifest irregularity in the drawing and summoning of the persons chosen, that the law he thought was mandatory so far as it directed the summons to be served at least six days prior to court, and although parties who had been summoned a shorter time might appear and be sworn and although a less number than 24 appeared it might make a Grand Jury, yet THE STATE had the right to demand a full panel and a legal summoning; the evidence produced before him he had considered and could not come to any other conclusion than that there had been improper interference with the Sheriff's duties; and further, there was a fatal defect in the Sheriff's return of the Jury, it being returned to the Circuit Court and not to the Oyer and Terminer—the Judge referred to one of the cases in newspaper reports showing such a return to be erroneous—he had come to the conclusion the panel should be quashed and the Jury discharged; upon the point whether the Court had power to summon a new Jury he remarked that it was at former times always the practice of the Court to make a precept for a Grand Jury, and though our present statute made that UNNECESSARY yet that such power was never taken away, and he would therefore order a precept to be issued for a Grand Jury to be returned Monday next." The Grand Jury were called into Court and discharged; the Judge during the course of his remarks said that there was no imputation upon the Sheriff or the persons comprising the Jury, the Sheriff being weak and sick, and the Jury comprised of some of the best citizens.

Personalia.

Mr. Albert Vuille, partner of A. Saltzman, the well-known watch maker of Maiden Lane, New York city, is here on a visit from Switzerland and has made an extended tour in the United States. He is the guest of Mr. Saltzman, of this city.

Mr. Karl Polak is still confined to his house, at Netherwood, by a severe attack of pneumonia. The attack resulted from his becoming over-heated at the last fire, and having a stream turned on him.

Our sanctum was honored on Monday last by the smiling countenance of our esteemed friend, Alpheus Mundy, of Somerville. We are glad to learn that Mr. M. is doing a thriving business in the above mentioned borough.

We are in receipt of a flaming poster, announcing a Grand Firemen's Parade, from our old friend, Alex Titsworth, now at Selma, Ga., where he is engaged in the clothing business.

Our friend and former townsman, Wm. McNabb, forwards us from Paris, a pamphlet in the interest of the Telephone business. Although we cannot read it, we guess Billy must be all right with the Monsieurs, as late advices from him state that he is engaged in business with a Telephone Company at Paris.

Captain B. F. Depue and wife, who for the past three months have been traveling through the Southern States, making Nassau, Fla., their principal stopping point, returned to this city last week, and at present are stopping with a brother-in-law, Mr. James Merritt, on Kensington Avenue. Mr. and Mrs. D. visited all the principal points of interest during their trip and return with renewed health. The Capt. tells marvellous stories of his fishing experience while abroad. We are glad to welcome himself and wife once more to our city.

Mr. David Weiss returned to this city on Thursday last after several months absence in Europe. He expects, to again return.

John W. Murray, Esq., of this city, was at his post as Captain of the 3d Co., Seventh Reg. Veterans, on Monday last upon the occasion of the removal of that body of "New York's finest" to its new armory.

The projector and inventor of the elevated railroad structures of New York city, Dr. Gilbert, is visiting Mr. J. Wilbur Price at Evona. The Doctor's health is not of the best, and he has recently returned from the South, whither he went to recuperate.

We are sorry to hear of a rumor that Major D. L. Proudfit and family are to remove soon to Lafayette, near Jersey City.

Rev. K. P. Ketcham, in company with Dr. Vincent, will make a trip to Europe some time during May.

The poor who have been so kindly and gratuitously treated professionally by Mrs. Dr. Nancy Nicholls, will learn with sorrow of that lady's decease. She was the wife of Dr. Geo. Nicholls, and for many years resided at the residence of Dr. Girdland, on Front Street.

Gov. McClellan and family are stopping at the Fifth Avenue Hotel, N. Y. city, for a short time, until their summer residence at Orange, N. J., is ready for occupancy.

Mr. Theodore Heinemann, Secretary of the Plainfield Saengerbund, is confined to his house by sickness.

Warning.

Those parties who are in the habit of serenading (?) friends on Seventh Street, will hereafter please render something besides "Should auld acquaintance be forgot," or else the recipients of such favors (?) will hunt around for a shot gun.

A New Bakery.

There will be a grand opening of Kayser's New Bakery on Front Street, in the place formerly occupied by Walker, on Saturday next, to which the public are invited. Mr. Kayser has a well-earned reputation of being a first-class artist in the manufacture of Fancy Cakes, etc. Read his advertisement.

Athletics.

The athletic sports of the Elizabeth club on the afternoon of Saturday, May 8th, promise to be fully as interesting and pleasurable as such competitions under the management of this organization never fail of being. Many entries from this city are announced, and Plainfielders desiring to attend will find the grounds most convenient and accessible.

Important Laws.

Those interested should read the public laws printed on our outside pages. Among them will be found Chap. CXLVII, in reference to punishment for crimes; Chap. CLII, regarding railroad fares; Chap. CLV, concerning organizations of Boards of Health in Cities and Townships; Chap. CLIX, relative to regulation of elections. Read all the laws.

Chess.

The success and interest of the last tournament have drawn new entries into the ranks of the one now in progress. Messrs. Asa Collier, Gen. Long, Geo. P. Suydam, John H. Jackson, Capt. Curtis, Geo. S. Hunt, David Titsworth and Charles Dewey are the aggressive competitors, and the record at present is as follows:

	Won.	Lost.

John H. Jackson,	2	1
Asa Collier,	1	0
F. A. Dunham,	1	1
Capt. Curtis,	1	1

Crushed in the Machinery.

A sad accident occurred in the works of the Potter Press Company, yesterday morning, which resulted in terribly mangling and possibly fatally, injuring an employee. The victim was a young man, about twenty years of age, the son of General Superintendent Brooks, and the cause that led to the accident cannot definitely be learned at present. The unfortunate one became wedged into a narrow opening of a steam planer up to his hips, and was shockingly torn and bruised. The prompt action of a fellow workman who saw the situation, and threw off the belt, saved the unfortunate one from instantaneous death; and so great had been the force that drew him in, the machine had to be taken apart in places in order to release its hold of the body. Doctors were at once sent for, and Messrs. T. H. Tomlinson, M. D., and Charles F. Stillman, M. D., dressed and bound the wounds. No fracture was found about the limbs, but many arteries of the left arm were torn open, and the hand mashed. The most dangerous feature of the case is the possibility of internal injuries occurring in the region of the abdomen, the victim being most severely bruised and crushed about that part of the body.

P. S. Since the above was in type we learn that the unfortunate lad died about ¼ to two o'clock. The works were closed upon the announcement of his death.

Thanksgiving by the Relieved Churches.

In the Crescent Avenue Church was held, last Wednesday evening, a conjunctive meeting of that society and the First Baptist's, to express united thanks for the lifting of the burden of indebtedness from their shoulders, by the blessing of God assisted by Mr. Kimball. Owing to some misunderstanding the members of the invited church were undecided about the evening appointed, and consequently many who desired to be present were not in attendance; but quite a large gathering, however, had assembled at the hour of opening.

Unusual pains had been taken by the choir in their rehearsals for the event, and their selections on the occasion were most thoroughly well rendered. After the organ opening by Mr. Albert Everitt, a double quartette sang Millard's "Jubilate" with great success, and again, during the services, a familiar hymn which, with the additional accompaniment of Mr. Davis and cornet, and the introduction of soprano and basso solos by Mrs. J. K. Myers and Mr. Thorn, did not fail to receive sincere appreciation for its meritorious execution.

Mr. Kimball, to whom the church felt it owed so much although its financial debt was cancelled, was introduced by the pastor, and spoke at some length on his particular branch of church work and its results. "It is so unusual for me to be present with a church at its thanksgiving meeting," said the gentleman, "that my inexperience places me at a loss for words appropriate to the occasion." He then reviewed the circumstances that had led him into laboring in the large field of debt raising. How the words "Prepare ye the ways of the Lord; make his paths straight," had brought forcibly to his mind, the evil influences that the indebtedness of churches exerted, and the liability of such encumbrances to make crooked and hard of traveling the ways of the Lord. The rights of creditors, he plainly saw, were more disregarded by churches than by individual debtors, and the assumed obligations of religious societies entirely neglected. The creditor whom the church owes is treated with indifference, and is looked upon as an oppressor of religion if he seeks to obtain merely his just interest. Accounts of peculiar circumstances connected with the subject were given, and many touching incidents related regarding the strenuous efforts made by even the poor to do something in the cause. "To this church" continued Mr. Kimball, "must be awarded the banner. I understand that you have already paid $25,500. During my assistance in the raising of a total indebtedness of $3,000,000 I have never known a church to pay so large a proportion in so short a time." He then asked all who would pledge themselves as follows, to rise: "We who are here assembled in God's house, do solemnly swear that wherever we may go, never by word, act, vote, concurrence or silence, to take any part in placing any mortgage or encumbrance on the Church of God or house of worship, as long as we may live." Almost the entire assemblage showed their sympathy with the sentiment by standing; and Mr. Kimball expressed his thanks that so many felt that they had had enough of church debts.

Dr. Bliss followed with a few words, and Dr. Yerkes dismissed the gathering with a benediction.

FIRE MATTERS.

The election for Chief and two Assistant Engineers of the Fire Department, occurs next Monday evening between the hours of 7 and 9 o'clock, p. m. The tickets are as follows:

Chief—Wm. H. Voorhees.
1st. Assistant—James G. Vanwinkle and R. B. Davis.
2d Assistant—Frank T. Vail.

The new Board of Fire Commissioners meet for organization next Wednesday evening, May 5th.

A careless servant-girl from an adjoining house, threw a pan of hot ashes against the barn of Dr. Tomlinson yesterday morning. The result was the starting of an incipient conflagration, which was, however, discovered by the Doctor's coachman in time to be extinguished before any loss had been sustained other than a shawl and carriage cover. The want of common sense displayed by many in the choice of a depository for live coals, is astonishing.

SPORTSMEN'S CORNER.

The regular monthly meeting of the Board of Directors of the "New Jersey Game and Fish Protective Society" occurs Wednesday evening, May 5th, at the Mansion House, at 7½ o'clock. A full attendance is desired.

JAS. S. VOSSELLER,

Capt. Bogardus and Fred. Erb are to shoot off their match in St. Louis next Saturday.

Pigeon shooters are looking forward with interest to the proposed international shooting match between Captain Bogardus and Sir Dudley Ward, who shoots under the name of Wallace in England. The match is set for the latter part of June, 100 birds each, five traps, 30 yards' rise, for $2,500 a side. Bogardus has put up $1,000.

William Moore, Esq., has sold his celebrated trotting horse, "Gypsie Queen," to a Mr. Myers, of New Brunswick.

Hanlan says that in the coming race he expects to make Courtney row so fast that he will forget all about his new "rig."

NORTH PLAINFIELD PARAGRAPHS.

Mr. Geo. Brown, of the firm of G. F. & C. E. Brown & Co., No. 321 Canal Street, N. Y. city, dealers in Fine Wall papers, etc., will take up his residence for the Summer with his father-in-law, Mr. Wm. E. Smalley, and not in his own residence on Duer Street. Persons desiring goods in his line, by leaving their orders at the above mentioned place, will receive prompt attention.

The iron cover has at last been placed in position over the Fire Well on Jackson Avenue.

Paint and putty have made a decided improvement in the looks of Arnold & Van Norstrand's Grocery store, both in the interior and exterior.

Mr. Samuel Mooney is doing a flourishing business in his new Grocery Store, corner of Somerset and Chatham Streets.

The beautiful beds of tulips and hyacinths in the door yard of Mr. James Arnold's residence on Manning Avenue, have excited the curiosity (?) of some evil-disposed person to test their fragrance by stealthily plucking some of them from the beds, which is an outrage that Mr. A. hopes to find the perpetrator of.

Collector E. C. Van Norstrand met with a painful accident Saturday morning last. He had visited his store about five o'clock in the morning, and desiring to air the room, pushed the catch back which held an upper sash up. It proved that there had been no sash weight attached, and the frame came down with a rush, catching his fingers between the two window frames, tearing the flesh off his thumb to the bone, and the knuckle from the fore finger. How to release himself was a quandary. Finally he managed to reach an old file lying on a barrel head near by, and with it managed to pry the sash up high enough to release his hand, and seek medical assistance. It will be some time before he can use his hand again.

An extensive mountain fire raged in the vicinity of Mr. Peter Baldwin's residence last week, caused by the malicious mischief of boys. Some $200 worth of wood was burned, John Vosselman and Geo. Stewart being the heaviest losers.

Dr. Probasco was elected a member of the township board of health of North Plainfield on Tuesday last.

The cases of John Hughes, J. Stevens and Joseph Blatz, for confirmation or rejection of their applications for licenses, will come up before the Somerville Courts next Saturday.

The public school building is filled to overflowing with scholars. More room is needed. Principal Barick gives universal satisfaction in his position.

Wm. S. Potter, Chairman of the Democratic County Executive Committee of Somerset, has issued his call for Primary meetings throughout the County to elect delegates to attend the State Convention at Trenton, May 20. The Primaries will be held on Saturday, May 15th, at 3 o'clock p. m. That for North Plainfield will be held at Demler's Hotel. The township is entitled to two delegates.

WESTFIELD WISPS.

We have had three deaths during this last week. The first was Mrs. Mosshouse, on South Avenue, lately moved here from Plainville, and residing on the J. L. Brush Place, cause, Paralysis. The body was taken to Newark for interment.—The next was Mrs. Charity Cory, mother of Levi Cory, aged 87 years, 7 months, on Sunday morning April 25th, at the residence of Oliver M. Pierson. Her funeral took place on Tuesday at the Presbyterian church. Mrs. Cory was one of the oldest persons in Westfield. She has for 68 years been an active member of the Pres. Church. On Wednesday, April 28, Miss Phoebe Frazee died, aged 84 years 10 months, at the residence of Miss Mackey, on Westfield Ave. where she has resided the past 2 years.

Mr. and Mrs. L. V. Clark made a visit to Menlo Park on Sunday last. While absent, the servant girl became dry, broke open the wine closet of the cellar, and upon the arrival home of her employers, they found her dancing and yelling about the premises like a Comanche Indian.—Constable Marsh packed her off to her home in New York on the 7:30 train.

Mr. E. L. Webb was elected Delegate to attend the State Convention by the Republicans on Tuesday night. Mr. J. L. Miller goes as Alternate.

All About a Dog.

For "The Constitutionalist."

MESSRS. EDITORS:

To show you the criminal negligence of the officers of this town, I would state that there has been the carcass of a dog lying near the sidewalk since February, which is very offensive to those who are obliged to pass it. As there seems to be no public spirit enough among the citizens to remove this nuisance, I thought I would draw your attention to it that it may be a reproof to those whose duty it is to see to it. There are evidently some Rip Van Winkles here that require to be woke up.

Respectfully yours,
A READER.

Westfield, April 22, 1880.

For "The Constitutionalist."

WESTFIELD, UNION CO., N. J.

MESSRS. EDITORS:

There being no newspaper published in this place and your valued journal having a wide circulation here, would you confer a favor upon one of your many readers by calling the attention of the proper authorities of this town to the fact that since January last a carcass of a dog has lain in the public thoroughfare leading to the Methodist Church, ten (10) feet from the sidewalk and about fifty (50) feet from the railroad bridge; a most disgusting sight to those who are obliged to pass it two or three times each day; the smell is insufferable and sickening, and passers-by are obliged to hold their handkerchiefs to the nose.

By bringing this disagreeable matter to the notice of the proper town official you will greatly oblige a resident of Westfield for months past, and

Yours Respectfully,
A VISITOR.

April 28, 1880.

For "The Constitutionalist."

MESSRS. EDITORS:

Please insert this article in your valuable journal and oblige a New York lady, that came out into the country a few days ago seeking for Summer board and was sickened by an offensive smell that came in the car window, as the train was crossing the railroad bridge, near the depot, at Westfield, and on arriving in this town to-day I discovered the cause of the sickening odor. On the main avenue of the town, just by the sidewalk, there lies the decomposed remains of an animal, the most disgusting sight ever presented to the human eye and a shame and disgrace to the public officers to allow this nuisance to remain so long unnoticed by them, and as those men have neglected their duty it plainly shows that they are not men capable of filling the office they now hold. Perhaps some private party will feel interested in this matter and have the nuisance removed, as it is injurious to the health of the people and a disgrace to the public. Larger towns are kept perfectly clear and this small place might be the queen if it only had the proper authorities.

Very Respectfully Yours,
A PHYSICIAN'S WIFE, N. Y.

Help to Mothers Nursing Infants.

It is a conceded fact that mothers who have the care, anxiety and drought of nursing infants, are weak and need the aid of some strengthening tonic to make up the nourishment required for the growth of the child. Ale, porter and lager beer have often been recommended. Of late, since physicians have become aware that the Port Grape Wine produced by Alfred Speer, of Passaic, N. J., is strictly pure, they have prescribed it instead of ale and porter. This wine is principally sought for by mothers who have nursing infants at the breast, as the best supplying medicine to be found. The wine is rich in body and not intoxicating, but gently stimulating. Druggists generally keep it.—Enquirer. For sale by all Druggists. my7w

De Young, who was murdered in San Francisco by Kalloch, was buried on Monday. In comments on the killing of De Young the newspapers deprecate the murder. The *Bulletin* attributes the affair to "reckless journalism" and "border politics." The *Post* says that it was the legitimate outcome of the example set by the deceased.

"Yield not to misfortune." Give Ely's Cream Balm a thorough trial if you would be cured of Catarrh, Hay Fever, Catarrhal Deafness or quickly relieved of Colds in the head. Price 50 cents. See adv. For sale by Wm. H. Voorhees.

New York, Aug. 6, 1879.

Messrs. Ely Bros., Druggists, Owego, N. Y.—You are at liberty to use the following statement which may be the means of leading others, in like manner afflicted, to give Cream Balm a thorough trial, as I have found it to be in my case, a cure for Catarrh. For over fifteen years I have been greatly annoyed with this disgusting disease, which caused frequent and severe pains in my head, a continual dropping of an offensive matter into my throat, the cause of a very unpleasant breath. My sense of smell was much impaired. By a thorough use, for six months, of your Balm, I have entirely overcome this trouble, and am fully prepared to recommend it as a certain, sure cure for Catarrh. A number of my friends can report as favorably. Truly yours,

The Jersey City Canoe Club has ordered twenty new canoes to be added to its fleet.

Various Causes— Advancing years, care, sickness, disappointment, and hereditary predisposition—all operate to turn the hair gray, and either of them inclines it to shed prematurely. Ayer's Hair Vigor will restore faded or gray, light or red hair to a rich brown or deep black, as may be desired. It softens and cleanses the scalp, giving it a healthy action. It removes and cures dandruff and humors. By its use falling hair is checked, and a new growth will be produced in all cases where the follicles are not destroyed or the glands decayed. Its effects are beautifully shown on brashy, weak, or sickly hair, on which a few applications will produce the gloss and freshness of youth. Harmless and sure in its operation, it is incomparable as a dressing, and is especially valued for the soft lustre and richness of tone it imparts. It contains neither oil nor dye and will not soil or color white cambric; yet it lasts long on the hair, and keeps it fresh and vigorous. For sale by all dealers.

And be it enacted, That it shall be lawful for such school trustees to enter upon any lands and make all such preliminary examinations, explorations, measurements and levelings as may be necessary and proper for their purposes, doing thereby as little damage as possible to the owner or owners thereof.

3. And be it enacted, That in case said school trustees cannot agree with the owner or owners or other persons interested in any lands which said school trustees may desire to take, use and occupy, or from which they may desire to take or divert, either in whole or in part, for the purposes of their building, or cannot agree with the owner or owners for the whole or any part of any lands as to the amount of compensation to be paid for such taking, use, diversion, or occupation or interest, it shall be lawful for any justice of the supreme court of this state, upon application by said school trustees, and upon two weeks previous notice, served in person, or by leaving at the dwelling house or usual place of abode of such owner or owners, or in case of absence from the state or legal disability, published in a newspaper published nearest to the lands in question, to appoint three disinterested commissioners, resident of the county in which said lands are situated, to assess and ascertain the value of the lands so proposed to be taken, used and occupied, which commissioners shall appoint a time and place at which they shall meet to execute the duties of their appointment, and shall cause two weeks' notice thereof to be given to the parties interested therein, either by personal service or by publication in a newspaper published in the county where such lands may be, at which time and place the said commissioners shall meet and view the premises, and hear the parties interested, and take evidence if any be offered, and for that purpose shall have power to administer oaths or affirmations, and to adjourn from day to day; and in case of the refusal or failure of either or any of said commissioners to attend and perform their said duties, the said judge shall have power to appoint another or other disinterested person or persons as commissioners to act in the place of such absent commissioner or commissioners; and the said trustees shall make and exhibit to the said commissioners at their meeting aforesaid, for the use of the parties interested, a statement and description in writing, or by drawings or maps, or both, of the lands, by them sought to be taken or diverted as aforesaid, and of the use, occupation of, and excavations upon any lands by them sought to be made; and the said commissioners shall thereupon ascertain and assess the value and damages aforesaid, and shall execute under their hands and seals of a majority of them, an award to said trustees of the lands, by them sought in the statements and description aforesaid, stating therein the amount of damages and compensation therefor by them assessed in favor of such owner or owners, which award shall be by them, acknowledged and filed in the county clerk's office, and by him recorded; provided, always, that if any real estate, the owner or owners of which shall not have given his, her or their consent in writing to the diversion or to the taking of said land, shall not have been ascertained and paid pursuant to the directions of this act, shall be injured or damaged by the diversion or diminution of any said land that the owner or owners thereof may have and maintain his, her or their action to recover damages for such injury, which he, she or they may sustain by reason of anything done under this act, as if this act had not been passed.

4. And be it enacted, That before taking possession of any such lands or entering thereon for the purpose of making any excavation or occupation thereof, or taking any interest in land as aforesaid, the said trustees shall pay or tender to such owner or owners, or, in case of absence from the state or legal disability, shall deposit with the clerk of the circuit court of said county the value and damages so awarded; and the award of said commissioners and the payment or tender or deposit as aforesaid, of the same, shall vest in said corporation the lands by them sought, described and set forth in said statement and description, in all respects the same as if the same had been conveyed to said trustees by said owner or owners under their hands and seals.

5. And be it enacted, That if either party feel aggrieved by said assessment and award, such party may appeal to the next or second term of the circuit court of said county, by petition and notice thereof served upon the opposite party two weeks prior to such term, or published a like space in a newspaper published nearest the lands in question, which petition and notice so served or published shall vest in said courts full power to hear and determine said appeal, and, if required, they shall award a venire for a jury to come before them, who shall hear and finally determine the issue under the direction of the court, as in other trials by jury; and it shall be the duty of the said jury to assess the damages to the said lands as above mentioned, and the value of such lands, as shall be absolutely taken; and said court shall have power to order a struck jury, or a jury of view, or both, to try any such appeal, and also to order any jury which may be empannelled and sworn to try any such appeal, to view the premises in question during said trial, and the right of said trustees to appeal from, and dispute the correctness of any award, shall not be waived or taken away by the paying or tendering the amount of the award and taking possession of the land, or exercising the rights covered by such award; and the right of any owner of any such lands or rights in like manner to appeal, shall not be waived or lost by the acceptance of the amount so awarded, when tendered, and upon the final determination of any such appeal, the said court shall render such judgment in favor of the one party and against the other, as the right and justice of the case shall require, and shall award to the party substantially succeeding and prevailing in said appeal, his, her or their costs of said appeal against the opposite party, and shall have power to enforce the judgment so rendered by execution, as other judgments are enforced, and also by summary proceedings and attachments for non-payment thereof.

6. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

CHAPTER CLIX.

A further supplement to an act entitled "An act to regulate elections" (Revision), approved April eighteenth, one thousand eight hundred and seventy-six.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever any candidate at any election in this state for member of the senate or member of the assembly shall have reason to believe that an error has been made in any board of election or of canvassers in counting the vote or declaring the result of such election, whereby the result of such election has been changed, such candidate shall within ten days after such election be empowered to apply to any justice of the supreme court of this state, who shall be authorized to order and cause a recount of such votes to be publicly made under the direction of the court, by the county clerk or such other officer as the said justice may designate, after due notice to the parties interested of the time and place of such recount; and if it shall appear upon such recount of the ballots cast at such election, that an error has been made sufficient to change the result of such election, as declared by any board of canvassers, then such justices of the supreme court shall be authorized and empowered to revoke the certificate of election already issued to any person as member of the senate or member of the assembly, and shall order to be issued in its place another certificate, duly attested under the seal of the county, to the party who shall be found to have received a majority of the votes cast at such election, which latter certificate shall supersede all others, and entitle the holder thereof to the same rights and privileges as a member of the senate or member of the assembly, as if said certificate had been issued by the county board of canvassers.

2. And be it enacted, That whenever any such certificate shall be issued by any justices of the supreme court, the clerk of the county shall certify the same to be full, true and correct, and shall sign his name thereto with his own hand, and affix thereto the seal of the county, and shall without delay deliver the same to any person who shall be so elected; and said clerk shall within five days thereafter transmit to the secretary of state, at Trenton, a copy of such certificate, signed with his own hand and attested by the seal of the county.

3. And be it enacted, That any applicant for such recount shall file with the county clerk a bond with two or more sureties to be approved by the justice holding the county circuit, or the county clerk, in the penal sum of five hundred dollars, conditioned to pay all costs in case the original count be confirmed, or the result of such recount is not sufficient to change the result as declared by the board of county canvassers; and that said justice shall be empowered to fix and determine the amount of compensation to be paid for making such a recount of the ballots; and if it shall appear that an error sufficient to change the result shall have been made by any board of canvassers, then the expense of such recount shall be paid by the collector of the county, upon the warrant of said justice, the same as other election expenses are paid; but if no error shall appear sufficient to change such result, then the expense of such recount shall be paid by the party making the application.

4. And be it enacted, That all acts or parts of acts inconsistent herewith be and the same are hereby repealed.

5. And be it enacted, That this act shall be a public act and take effect immediately.

Approved March 11, 1880.

CHAPTER CLX.

An act to amend an act entitled "An act to authorize the formation of railroad corporations and to regulate the same," approved April second, one thousand eight hundred and seventy-three.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That section seventeen of the act to authorize the formation of railroad corporations and to regulate the same, approved April second, one thousand eight hundred and seventy-three, which reads as follows:

"17. And be it enacted, That any company incorporated under this act may purchase, have and hold real estate at or near the commencement and termination of the said road, or at any other point on the line of the said road where the directors may think proper to establish a depot, not exceeding ten acres at each place, and may also erect and build thereon houses, warehouses, work shops and such other buildings and improvements as they may deem expedient for the safety of their property, and for other necessary uses appertaining to their business, and receive the rents and emoluments thereof, and may build and maintain over such streams as the road may cross such piers and bridges as they may deem expedient, and that all lands, tenements, hereditaments and real estate acquired by any such company, not used by it for the immediate use and occupancy of its rails, tracks, depot and freight buildings, shall be subject to the same tax as the property of individuals, and said tax shall be assessed, levied and collected by the authorities where the same may lie in the same manner as other taxes are levied, assessed and collected, any law, custom or usage to the contrary notwithstanding; and that it shall be lawful for any incorporation, incorporated under this act at any time during the continuance of its charter, to lease its road, or any part thereof, to any other corporation or corporations of this or any other state, or to unite and consolidate as well as merge its stock, property and franchises and road with those of any other company or companies of this or any other state, or to do both; and such other company and companies are hereby authorized to take such lease, or to unite, consolidate as well as merge its stock, property, franchises and roads with said company, or to do both, and after such lease or consolidation the company or companies so acquiring said stock, property, franchises and road may use, and operate such road and their own roads, or all or any of them, and transport freight and passengers over the same, and take compensation therefor according to the provisions and restrictions contained in this act, notwithstanding any special privilege heretofore granted, or hereafter to be granted to another corporation for the transportation of freights and passengers between any points on the lines of said roads, or any other points within or without this state; provided, however, that nothing in this act shall authorize any railroad companies, incorporated under a special act of the legislature, to charge for transportation of freight or passengers over the roads constructed under said special act more than they may be authorized to charge by the provisions of their respective acts of incorporation," be and the same is hereby amended so as to read as follows:

17. And be it enacted, That any company incorporated under this act may purchase, have and hold real estate at or near the commencement and termination of the said road, or at any other point on the line of the said road where the directors may think proper to establish a depot, not exceeding ten acres at each place, and may also erect and build thereon houses, warehouses, workshops and such other buildings and improvements as they may deem expedient for the safety of their property and for other necessary uses appertaining to their business, and receive the rents and emoluments thereof, and may build and maintain over such streams as the road may cross, such piers and bridges as they may deem expedient; and that all lands, tenements, hereditaments and real estate acquired by any such company not used by it for the immediate use and occupancy of its rails, tracks, depot and freight buildings shall be subject to the same tax as the property of individuals, and said tax shall be assessed, levied and collected by the authorities where the same may be, in the same manner as other taxes are levied, assessed and collected, any law, custom or usage to the contrary notwithstanding; and that it shall be lawful for any corporation, incorporated under this act, or under any of the laws of this state, at any time during the continuance of its charter, to lease its road, or any part thereof, to any other corporation or corporations of this or any other state, or to unite and consolidate as well as merge its stock, property and franchises and road with those of any other company or companies of this or any other state, or to do both; and such other company and companies are hereby authorized to take such lease, or to unite, consolidate, as well as merge its stock, property, franchises and road with said company, or to do both, and after such lease or consolidation the company or companies so acquiring said stock, property, franchises and road may use and operate such road and their own roads, or all or any of them, and transport freights and passengers over the same, and take compensation therefor, according to the provisions and restrictions contained in this act, notwithstanding any special privilege heretofore granted, or hereafter to be granted to another corporation for the transportation of freights and passengers between any points on the lines of said roads, or any other points within or without this state; provided, however, that nothing in this act shall authorize any railroad companies incorporated under a special act of the legislature, to charge for transportation of freight or passengers over the roads constructed under said special act, more than they may be authorized to charge by the provisions of their respective acts of incorporation.

2. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

MISCELLANEOUS READING.

Public School Abuses.

Although there has been much said and done in regard to the sanitary condition of our schools, there is one point that has not been touched upon so far as I have seen or heard. I refer to the rules adopted and enforced in the matter of letting children go out during the school hours. I believe there is more injury done to the health of children by their not being allowed to respond to the calls of nature than by all the ill-seated, ill-ventilated, ill-lighted or heated school buildings in the land.

This belief is not based on mere assumption. I have conversed on the subject with many mothers (and who knows better than the mothers?) and the reply to my question, do your children complain of their teachers not letting them go out? is invariably in the affirmative. I have myself a boy whom I fear has been injured for life just from being kept until the bladder became so distended that it has never returned to its normal condition. Many times he has come home pale and sick, and for many days has been unable to micturate without great distress. I am now obliged to insist upon the teacher that he be allowed access to the water-closet at will. Every time the teacher is changed the same thing has to be repeated.

This Winter one of the basements of a school building in this city was being repaired, and there was not a day that children did not sit in urine-saturated garments because they were not allowed to use the water-closets. If a child insists on going out, it is kept after school hours; therefore many control the desire and suffer rather than to submit to the punishment.

If our children must get their education at the expense of their health, I say let the schools go to the dogs. I know how annoying it is to the teacher to be interrupted constantly with, "School marm, please may I go out?" but she must remember it is better that many should go unnecessarily than that any one should suffer injury.

Outside of school, if any one would like to immortalize himself let him build a building in some central location in the city with plenty of water-closets, where women who are obliged to be down town for several hours at a time may have a place to answer to the calls of nature. Such a one would receive the everlasting gratitude of many women and children. All papers please copy.

LAWS OF NEW JERSEY.

CHAPTER CLVII.

An act for the prevention of cruelty to animals.

A.—WHAT SHALL BE DEEMED CRUELTY—CRIMINAL PROCEEDINGS AGAINST OFFENDERS.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That any person who shall overdrive, overload, drive when overloaded, overwork, torture, torment, deprive of necessary sustenance, or unnecessarily or cruelly beat or otherwise abuse, or needlessly mutilate or kill, or who shall cause or procure to be overdriven, overloaded, driven when overloaded, overworked, tortured, tormented, deprived of necessary sustenance, or to be unnecessarily or cruelly beaten, or otherwise abused, or needlessly mutilated or killed, any living animal or creature; and any person having the charge or custody of any living animal or creature, either as owner or otherwise, who inflicts unnecessary cruelty upon the same, or unnecessarily fails to provide the same with proper food, drink, shelter or protection from the weather, shall be deemed guilty of a misdemeanor, and for every such offence shall, on conviction thereof, be punished by fine not exceeding two hundred and fifty dollars, or by imprisonment in the county jail not exceeding six months, or both, in the discretion of the court.

2. And be it enacted, That any person who shall keep or use, or in any way be connected with or interested in the management of, or who shall receive money, or other consideration, for the admission of any person to any place kept or used for the purpose of fighting or baiting any bull, bear, dog, cock, bird, or other living animal or creature, and every person who shall be present and witness, encourage, aid or assist therein or who shall permit or suffer any place owned or controlled by him to be so kept or used, shall be deemed guilty of a misdemeanor, and for every such offence, shall, on conviction thereof, be punished by fine not exceeding one thousand dollars, or by imprisonment at hard labor not exceeding two years, or both, at the discretion of the court.

3. And be it enacted, That any person who shall carry or cause to be carried, in or upon any vehicle or otherwise, any living animal or creature, in a cruel or inhuman manner, shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be punished as is provided in section one of this act.

4. And be it enacted, That any person who shall impound or confine, or cause to be impounded or confined, in any pound or other place, any living animal or creature, shall supply to the same during such confinement a sufficient quantity of good and wholesome food and water, and in default thereof shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be punished as is provided in section one of this act.

5. And be it enacted, That if any maimed, sick, infirm or diseased animal or creature shall be abandoned to die by any person in any public place, such person shall be deemed guilty of a misdemeanor, and, on conviction thereof, shall be punished as is provided in section one of this act; and it shall be lawful for any justice of the peace, or sheriff of the county, or agent of the New Jersey Society for the Prevention of Cruelty to Animals in this state, to appoint a suitable person to destroy such animal or creature, if unfit for further use, or to advertise and sell the same in such manner as such justice of the peace, sheriff or agent shall direct, and to pay the proceeds, after deducting expenses, to the district Society for the Prevention of Cruelty to Animals, if one is in existence in the county, if not, then to the New Jersey Society for the Prevention of Cruelty to Animals.

B.—SEIZURE OF PROPERTY.

6. And be it enacted, That the person arresting the person or persons offending against the provisions of this act, and so seizing such living animals, creatures, implements or appliances, shall, within twenty-four hours after such seizure, make application to a justice of the peace, to have the same forfeited and sold; which application shall be in writing, and shall specify the articles seized, the place where they were seized, and state for what reason the same were seized; and the said justice shall thereupon cause a notice to be published in a newspaper circulating in the neighborhood of the place where such seizure was made, for at least three times, if in a daily paper, or one time, if in a weekly paper, stating that a seizure has been made, the names of the articles seized, the place where the same were seized, and the reason for such seizure; and in such notice shall appoint a time and place, not less than five nor more than ten days from the date of such seizure, when and where all parties may be heard, and show cause why the application should not be granted; and if upon the hearing of such application it shall be found and adjudged that at the time of said seizure the same were engaged in said exhibition, or were owned, possessed or kept by any person with the intent that the same should be so engaged, they shall be adjudged forfeited, and the said justice shall order the same sold in such manner as he shall deem proper, and after deducting the costs and expenses, shall pay one-half the proceeds of such sale to the district society for the Prevention of Cruelty to Animals, if one is in existence in his county, and if not, then to the New Jersey Society for the Prevention of Cruelty to Animals, and the other half to the person making the seizure aforesaid; should it be found and adjudged that any such birds or animals are of no use or value, the same shall be set at liberty or disposed of as the justice may direct; but should the same be adjudged not forfeited, they shall be returned to the owner, and the party making the seizure shall pay all the costs and expenses of the same.

7. And be it enacted, That the justice of the peace for his services in the foregoing section named, shall be allowed the following and no other fees, to wit:

For drawing the application, per folio, fifteen cents;
For drawing the notice, per folio, fifteen cents;
For printing (the fees now allowed by law to printers, to be paid to the printer by the said justice);
For the hearing, one dollar;
For swearing each person, twenty-five cents;
For making order in regard to forfeiture of sale or other disposition of said articles, fifty cents;

And such other fees as are now allowed by law, and in addition the justice shall pay all expenses of the custody of said articles, and retain the same out of the proceeds of sale; or in case of no sale, cause the same to be paid by the party making the seizure.

8. And be it enacted, That the person arresting the person or persons offending against the provisions of section three of this act shall take charge of such vehicle and its contents; and all necessary expenses which may be incurred for taking charge of and keeping and sustaining the same, shall be a lien thereon, to be paid before the same can be lawfully redeemed; and if the same shall not be redeemed within ten days from the time the same is seized, then the person so seizing the same shall cause the same to be advertised to be sold, by advertisements published in a newspaper circulating in the neighborhood in which the said seizure was made, for at least three times in a daily paper, or one time if in a weekly paper, stating the time and place of such sale, the articles to be sold, and the reason for selling the same; and at the time and place so appointed he shall sell the same to the highest bidder, and out of the proceeds of said sale he shall pay all necessary expenses incurred, and the balance he shall pay to the owner or owners of said articles; and if the proceeds of said sale shall not be sufficient to pay such expenses, the balance may be recovered by the person seizing said articles, from the owner or owners thereof, in an action of debt, before any court of competent jurisdiction.

C.—ENTERING AND SEARCHING BUILDINGS.

9. And be it enacted, That when complaint is made on oath or affirmation before any justice of the peace or police magistrate that the complainant believes, and has reasonable cause to believe, that the law in relation to cruelty to animals has been or is being violated in any particular building or place, such justice of the peace, or police magistrate, if satisfied that there is reasonable cause for such belief, shall issue a search warrant, authorizing any sheriff, under-sheriff, constable, police officer, or agent of the New Jersey Society for the Prevention of Cruelty to Animals, to enter and search such building or place, but no such search shall be made between the hours of six o'clock in the afternoon and six o'clock in the morning, unless specially authorized by such justice of the peace or police magistrate upon satisfactory cause shown; provided, that any such officer or agent may at any time enter any place, building or tenement as provided for in section eleven of this act.

D.—IMPOUNDED ANIMALS.

10. And be it enacted, That in case any living animal or creature shall be at any time impounded or confined as aforesaid, and shall continue to be without necessary food and water for more than twelve successive hours, it shall be lawful for any person from time to time, as often as shall be necessary, to enter into and upon any pound in which such living animal or creature shall be so impounded or confined, and to supply it with necessary food and water so long as it shall remain so impounded or confined; such person shall not be liable to any action for such entry; and the actual cost of such food, water and bedding, together with twenty per centum additional, may be collected by such person of the owner or owners of such animal or creature, in an action of debt, together with costs, before any court of competent jurisdiction, and the said animal or creature shall not be exempt from levy and sale upon an execution issued upon a judgment therefor.

DEMOCRATIC PRIMARY.

The Democrats of the City of Plainfield, are respectfully invited to assemble at their rooms, opposite the Post Office, upon the evening of

FRIDAY, MAY 14th, 1880,

at 7½ o'clock, to elect delegates to the Democratic State Convention to be held at Trenton, May 20th.

J. S. MARTINE, Pres.

INFAMOUS.

The practice of bribing legislators is a crime of magnitude, and one that has been carried on with audacity in this country, and perhaps no where more corruptly than at the capitol of Pennsylvania.

That State recently passed a law making bribery punishable by fine and imprisonment.

Five prominent Republican ring politicians of Philadelphia, one of them an ex-State Treasurer, now President of a Bank, and eminent in the councils of the self styled party of "respectability," were tried and convicted of corrupt solicitation in the matter of a certain measure before the Legislature, and sentenced by an upright Judge to undergo one year's imprisonment each in the Penitentiary and to pay stipulated fine and costs.

That was justice, but not depraved partisanship.

The Republican Board of Pardons convened in hot haste and at once released their political friends from the penalty of imprisonment, strangely assigning as a reason that penitentiary confinement was "infamous."

"Imprisoment infamous."

Of course it is, always was, and should forever remain to be infamous, because it is the just retribution for committed infamy.

Bribery is infamous, and so are they who for base partisan purposes prevent its lawful punishment.

Such action as that taken by the Board of Pardons in Pennsylvania cannot be viewed in any other light than a gross outrage upon justice and the character of free government.

It was infamous.

IRON CLADS.

It has been asserted, that prudent economy and honest business management would reduce the enormous annual expenditures of the United States Government one-third, and give in return every necessary equivalent.

We fully believe that to be a fact, and the following brief review of *how the money goes* is corroborative evidence.

A few years ago, when Grantism ruled at Washington, orders were issued for the construction of four iron-clad war ships, named respectively the "Amphitrite," "Miantonomah," "Puritan" and "Terror."

Big names for sailors and a costly investment for taxpayers.

Scan the "Robesonian" result—

Original cost of said vessels,	$5,457,791.01
Cost of pulling them to pieces,	53,628.32
	$5,511,419.33
Amount of iron material sold	260,664.36
Deficiency.	$5,250,754.97

Which shows that, after making due allowance for the value of materials retained by the Government for use in Navy Yards and re-building purposes, those *four worthless hulks*, and be it remembered they numbered only four of many, squandered about *five million dollars* of public funds.

And the way of doing the thing was as criminal as the lavish waste of treasure.

Specific contracts as a rule appear not to have been made, and in disposing of valuable iron material, instead of publicly inviting proposals or advertising intended sales, the whole matter was privately arranged according to the most approved system of "division and silence."

What sane man would employ such agents to manage his individual business interests?

Yet that identical crowd are now striving to regain mastery over the Treasury. Their purpose is plainly apparent.

Vote for HONESTY and ECONOMY!

DEMOCRACY.

The Democracy of Pennsylvania, in Convention assembled at Harrisburg last week, reiterated some sterling Democratic truths. Among them were the following:

"The just powers of the Federal Union, the rights of the States and the liberties of the people are vital parts of one harmonious system, and to save each part in its whole constitutional vigor is to 'save the life of the nation.'"

That clearly presents the real vitality of Union, the compact as it was originally formed, and to preserve which the war of 1861 was ostensibly commenced on the part of the Federal Government. The free exercise of defined powers vested by the Constitution in Congress, the Executive and Judiciary, and the equally free exercise by each and every State, and the citizens thereof, of all rights and privileges not so conferred, constitutes the life blood of Union and Liberty, and to maintain it unpolluted the Democracy have ever contended and still contend.

Again—

"The military are and ought to be in all things subordinate to the civil authorities. The right to a free ballot is the right preservative of all rights—the only means of peaceably redressing grievances and reforming abuses. The presence at the polls of a regular military force and of a host of hireling officials, claiming the power to arrest and imprison citizens without warrant or hearing, destroys all freedom of elections, and upturns the very foundation of self-government."

That is genuine Democracy. The supremacy of the civil over the military power, and the perfect freedom and right of every legally qualified voter to deposit his ballot as he sees proper, unawed by bayonets and unobstructed by partisan hirelings. That the Democracy, in Congress and out, zealously and justly demand.

And again—

"The Democratic party, as of old, favors a Constitutional currency of gold and silver and of paper convertible into coin."

That, too, is Democracy, dating from the very adoption of the Constitution.

Col. Scott has resigned from the Presidency of the Pennsylvania Railroad Company.

The Cincinnati Democrats have elected a solid Anti-Tilden delegation to the Ohio State Convention, which is quite correct.

Senator Mc Pherson declines to be a candidate for Delegate-at-Large to Cincinnati, on the ground that Senators and Members of Congress should not "monopolize the honors which belong more properly to others."

Twenty-eight hundred and fifteen immigrants arrived at Castle Garden, N. Y. City on Monday night. The tide of immigration to this country within the past three months is immense. They are all welcome to a home in Uncle Sam's domain.

The extension of the Long Branch Ocean pier is now nearly completed, the last pile being driven on Wednesday of last week. The pier has been extended 180 feet, making it 800 feet long. It will be opened on May 25, when steamers will commence running to it from New York.

Among the names prominently mentioned for Delegate at Large in this State at the approaching Presidential Convention at Cincinnati, are those of Hon. Joseph W. Yates, of this city, Capt. W. H. Gill, Judge Robert S. Green and Gen. Fay, of Elizabeth. Mr. Yates ably represented his party and constituents as District Delegate at St. Louis on the occasion of the last Presidential canvass.

FIRE MATTERS.

The election for Chief and Assistants, held last Monday evening at the headquarters of the Fire Board under the new rules, was an unusually unexciting affair. The lately passed amendments not only took the receiving of the individual ballots out of the hands of the different companies, but in consequence precluded the possibility of anyone knowing in whose favor the company's vote was cast. While this prevents any ill feeling arising between companies who under the old custom were able to know who opposed their nominations, it also takes from the seperate organizations the power they formerly possessed to some extent of controlling the votes of their members, and inducing them to allow their personal preferences to give away to the desire and interest of the company. This was noticeable at the late election in the case of a company who were decided upon supporting Mr. R. R. Davis for 1st Assistant and would have undoubtedly cast a solid vote for him under the former rules, yet it is a well authenticated fact that a sufficient number of its members voted against him last Monday evening, to exert quite a material influence in bringing about the final result. This may be according to the laws of universal suffrage, but it seems hardly to be justice to the wishes of the organizations as a body. Their choice for controlling officers should be entitled to an election in preference to the desire of individuals actuated by personal friendship.

An observeable neglect was the failure of the companies to appoint such a challenger as was allowed. Had such representative been present at the polls the name of each member, voting might have been checked by them on their own list, and they would thereby have known at any time how large a proportion of their company were turning out. Besides, if it was discovered that the election was very close and a few votes would change the result, it would have been in the power of any of the companies to hunt up and bring to the polls their delinquent voters by refering to their list and noting those who had put in no appearance.

All the members of the Board were present at some time during the hours of election, but found their duties not at all over-arduous. The entire list of the active firemen of the city were arranged in alphabetical order regardless of the organization to which they belonged, so that the balloting was done speedily and without confusion. The result was as follows:

Out of a total number of 212 eligible to vote, 170 cast their ballots: W. H. Voorhees, Chief, receiving 163. James G. Van Winkle and R. R. Davis for First Assistant, receiving 96 and 74 respectively; and F. W. Vail 169. The latter losing the vote of a friend of Warren's, "Jake," which was cast for that individual.

This election was made rather exciting by the running as an independent candidate of Mr. David Carney for Foreman; but the result will probably put a check on the aspirations of that gentleman in the future.

The retired Board of Fire Commissioners met at their headquarters last Wednesday evening. The minutes of the previous meeting were approved, and a bill of Frank Shuck for engineers' services &c., $53.66 passed. The result of the election for new members was then read and the former body adjourned *sine die*.

The new Commissioners being present, they were called together by Mr. Theodore French (Secretary of the dissolved Board) and Mr. Jeremiah Van Winkle was chosen temporary chairman. Messrs. E. H. Depew, and W. E. Jones were nominated for the office of permanent President, and a ballot resulted in three votes for each candidate. No change of sentiment occurring upon the taking of four ballots, the Board by motion of Mr. E. L. Morris adjourned until this (Friday) evening at 8 o'clock.

As is to be expected on the night of Fire Department elections, a "run" was indulged in by Engine Co's 2 and 3, and Zephyr Hook & Ladder Co. The Foreman of Gazelle, however, displayed his good judgment by declining to allow his company to "roll" the steamer unless the alarm bell was rung, and they were in consequence saved from needless exertion.

Per request of Chief Voorhees, ex-chief Doan will continue to hold his office officially until Saturday morning next.

Decay of the Teeth

Arises from various causes, but principally it may be attributed to early neglect or the indiscriminate use of tooth powders and pastes, which give a momentary whiteness to the teeth while they corrode the enamel. The timely use of that delicate aromatic tooth-wash, Fragrant SOZODONT, will speedily arrest the progress of decay, harden the gums, and impart a delightful fragrance to the breath. It removes those ravages which people sustain in their teeth from the use of sweet and acid articles.

ICE formed and frost was visible on the morning of May 1st.

THE trestle work to support the track leading from railroad to Gulon's coal yard is nearly completed.

AN exchange (not very far off) apologizes for the fact that "numerous other interesting matter is crowded out."

STRAW hats will soon begin to blossom. Go to Vermeule, the veteran hatter, on Front Street. He has the boss lot.

SCAN the time table of the Central Railroad Company, which appears in another column, if you want to go to Long Branch.

THERE are several important laws published on our outside pages of this issue. Among them are Chapters CLVII and CLXVIII. Read all the laws.

THE Union County Court have fined Mr. Fritz $100 for "trespassing" on the body of Mr. Geissor, who will appeal to a higher court against such decision.

THE time is coming when bright boys of intellectual capacity may apply for admittance to the Naval Academy. Hon. Miles Ross is their man to approach on the subject.

THE managers of the Muhlenberg Hospital have decided to commence the erection of that building immediately, and the foundation stone will be laid on Decoration day.

CONSUMERS of ice are informed that Messrs. Coddington Bros., are selling clear spring water ice at lowest market rates. Their ice is of the best quality. See advertisement.

THE continually recurring exploits of wickedness indulged in by Plainfield's youth, brings vividly to mind the greater need there is of a Reform School in preference to a Hospital.

MESSRS. MARSHALL & BALL still claim to be the popular clothiers of the State; and at their establishment on Broad St. Newark, their patrons may be sure of finding just what they want.

THERE is a bad hole in the street at the corner of Peace and Second Streets, caused by sinking of earth over newly laid gas pipes. The Street Commissioner should look after the matter.

THE new fountain of Shaw the pharmacist is the latest attraction to the drinkers of soda and mineral waters. The apparatus is a beautiful specimen of the marbleworker's and silversmith's.

BACHMAN'S Dry Goods store near the Post Office is thronged both day and night by purchasers who appreciate the fact that there they can find a large stock of first-class goods at very low prices.

OUR compositors are under orders to "follow copy" even if it goes out of the window; and if, in consequence, communications or notices sent in contain mistakes, the writers must hold themselves blameable.

THE fishing season approaches. Go to Vanderbeek's new store in the Chautauqua Building, No. 33 Park Avenue. He hath all the various devices to catch the unwary fish. "Van" will deal right and square with you, too.

THE finest material in the world for fertilizing purposes and destroyer of insects, is tobacco stems and dust, manufactured by Young & Huffman, tobacconists, corner of Second Street and Park Avenue. Try it on your lawns.

THE *Times* intimates that there are unlicensed liquor saloons in the city and suggests that the licensed liquor dealers ferret out such places. What have these parties to do with the matter? We thought the police had that duty to perform.

THE streets of our city were alive with pedestrians last Saturday evening, and tradesmen aver that their custom was better that night than during any other the present season. Fine weather, good goods and judicious advertising will bring trade to any merchant.

A RUMOR reaches us—well authenticated, too—which is to the effect that the bonds of matrimony will soon join together one of the founders of the P. A. C., and the *heart* he has gained. The Glee Club should get themselves into serenading shape for the joyful occasion.

THOSE of our residents journeying to Newark for clothing should not neglect to examine the stock of Messrs. Mc Gregor & Co., on Broad street, five doors south of the station. They have the largest assortment of stylish clothing of their own importation, in the State.

L. M. FRENCH, the carriage maker, on Somerset Street, last week delivered a handsome new four-seat coupe rockaway to Mr. Albert Hedden, the liveryman. Mr. French is daily gaining in reputation for the construction of elegant and durable vehicles.

THOSE desiring their lawn mowers, mowing machines, etc., sharpened or repaired in first class style, should call at the machine shop of John N. Schenck, on Race Street, North Plainfield, where excellent facilities are afforded for such purpose, and prices reasonable.

VALUABLE real estate is to be sold at auction on May 12th on the corner of Sixth and Washington Streets and corner of Fifth and Washington Streets, by order of R. McDonald, executor. In both cases a two-story and attic house will be sold. Sale commences at 2 p. m.

THE great rush of ladies with children to Prof. Smith's tonsorial establishment on Park Avenue, next to THE CONSTITUTIONALIST office, is attributable in a measure, to the fact that he cuts his customer's hair with a patent clipper. The children all cry to have a trial of it.

AMONG the competitors in the athletic sports of the Elizabeth Club, to take place to morrow (Saturday) afternoon, are Messrs. Hervey Doane, J. W. Murray Jr., Varian, Moore, Foster, Platt and Pope of the Independent Athletic Club of this city, and Messrs. E. Anthony and Gavett of the P. A. C.

AN unknown man was struck and instantly killed near the Green Brook water tanks just above Dunellen, last Wednesday afternoon, by the express from Philadelphia that reaches here at 2:04. The rules of the railroad compelled the taking of the body to the first *regular* stopping place which was Elizabeth.

SOME miscreant threw a large sized stone through a second story window of a residence on the corner of Second and Peace Streets, on Saturday evening last, the missile barely missing the bed upon which lay a sick lady. We will give something to have the scoundrel who threw the stone in a private room about thirty seconds.

THE funeral of young Brooks, the victim of the accident at the Potter Press Works last week, took place on Sunday at the Church of the Holy Cross. Members of the firm of whom he was so lately a valued employee, and a large number of the force of the Works were in attendance at the services which were read by the pastor, Rev. T. Logan Murphy.

WE are in receipt of a copy of *The Exodus*, published at Washington, D. C., by the "Exodus Company." John D. Bagwell and Samuel R. Lowerey, editors. The *Exodus* hoists the flag of U. S Grant, (white) for President and Blanche K. Bruce, (colored) for Vice President of the United States. Mr Bagwell, a few years since, published a paper in Plainfield.

MESSRS. Long Chin Jo and Piggee Tail La, from the crockery nation call China, were in this city last Tuesday making arrangements with one of our few real estate agents, tending towards the establishment of a laundry in our midst. They expressed themselves as greatly pleased with the appearance of Plainfield, its beautiful ladies, the Chautauqua Building and H. P. Reynolds' soda water.

MR. R. SKELLENGER, a Front Street shoemaker, met with a peculiar accident on last Wednesday afternoon. While drawing a bucket of water from his well his fingers were caught by a hanging grape-vine which threw his hand off the well handle. The descent of the heavy bucket caused the iron crank to revolve backwards rapidly, and striking with great force Mr. Skellenger's hand tore and lacerated it badly.

ED. P. THORN, proprietor of the Mansion House, a thorough sportsman, has recently added to his already large stock of paintings and pictures which adorn the walls of his establishment, several fine and artistic paintings by Dr. Biles, an eminent and well-known (to his victims) portrayer of individual characteristics. The latest productions of the Dr. are a series of paintings, both instructive and amusing, representing the author and his friends in various attitudes and position while endeavoring to entice the wary fish from its native element.

WM MOORE Esq., has sold his trotting horse "Lady Mattison" to a gentleman of Michigan.

THE first Strawberry Festival of the season will be held in the Park Avenue Baptist Church the evenings of May 19th and 20th. See advertisement.

HEREAFTER a weekly record of the state of the atmosphere will be published in the THE CONSTITUTIONALIST as indicated by the large new thermometer just put up in front of Reynolds' pharmacy.

BY order of the General Assembly of the Presbyterian Church, next Sunday will be devoted to a "Childrens Service" in the churches of that denomination. The ceremonies at Crescent Avenue will consist of vocal music by the scholars, a special sermon for the occasion by the pastor, and the baptism of little ones —commencing at 10:30.

SUNDAY, May 9th, will be "Temperance Day" in New Jersey. Each year the N. J. T. Alliance asks all preachers of the gospel to give special consideration on the second Sunday of May, to the question of Temperance. The prospect of a general observance of the day by the churches, is much better than usual because of the greatly increased interest felt by all classes of citizens.

MAYOR Harper and ex-City Judge Good made a tour of inspection through the Public School buildings yesterday, the principal object being to give Mr. Good an insight into the workings of our school system, which he will compare with that on the other continent during his proposed extended tour. Mr. Good expressed himself as more than delighted with the efficiency and working of the system adopted in our city public schools.

Opening Day.

Laing's Hotel will be thrown open to the public once more on Saturday next, under the proprietorship of Mr. Geo. Miller, who invites a call from his friends and the public generally.

A Surprise Party.

Members of the Plainfield Saengerbund, Cornet Band, and the friends and well-wishers of Mr. Joseph Blatz, united in giving a pleasant surprise party to that generous host, last Monday evening, at his new hostelry on Somerset Street.—A more perfectly appointed house can hardly be found in Somerset County, and with its new furniture, fresh paint and bright walls it presents a most attractive appearance. The house contains large parlors, convenient dining-room and comfortable chambers, besides an extensive dancing hall and the other rooms to be found at all well regulated hotels.

During the evening the Cornet Band furnished some of their attractive music, and an orchestra of three pieces played innumerable waltzes, galops and quadrilles for the enjoyment of the young dancers in the ball room. Quantities of good cheer was forthcoming and all were welcome; both Mr. and Mrs. Blatz being untiring in their exertions towards the pleasure of their guests.

Next Monday evening a public opening will probably take place.

A May Festival.

At the regular monthly meeting of the Plainfield Saengerbund, held on last Monday evening, the question arose as to whether the customary May festival as observed by the German nation, should be celebrated. The Society being unanimously in favor of it a decision was reached to the effect, that on Sunday morning next at 6 o'clock the association meet in a body at Vail's Spring and carry out such ceremonies as are usual in connection with the occasion. If the weather proves unauspicious the celebration will be postponed one week.

Monday the 17th inst, being another national feast day, the Plainfield society will join with sister associations of the state, on invitation from the Arions of Newark, in a grand concert and picnic from that city. It is hoped that a large representation from Plainfield will be present, and all who are may be sure of an enjoyable experience.

The Saengerbund is in a flourishing condition they may well be proud of. At the last meeting eighteen new members were elected and many new ones proposed. Among these names are noticeable those of many of our most prominent citizens.

A Presentation to Commissioner Mayer.

At the close of the regular meeting of Alert Hose Co., last Monday evening, Foreman Saltzman requested the members to remain seated for a few moments while he performed a pleasant duty that had devolved upon him. In a few well-chosen words he then expressed the sincere feelings of the Company for its former member who had resigned from it to occupy a higher position, and as a token of such sentiments presented Mr. Gilford Mayer with a handsome gold badge. The favored gentleman replied with many expressions of thanks, as eloquently given as his surprise would allow and his unexpectation of the honor would admit. The gift consists of a solid medal of bright red-gold, in the centre of which is a fire hat and appurtenances in relief, surrounded by a raised laurel wreath.—Above and below are the words "Commissioner, P. F. D." in black enamel, and the whole surmounted by a carved eagle. This medal hangs suspended by links from a broad pin of the same burnished metal, on which "G. Mayer" is sunk in black letters of enamel. On the reverse is handsomely engraved in graceful script: "Presented by his friends of the Alert Hose Co., Plainfield, N. J., 1880."

The P. A. C's Exhibition.

Such information as we can glean from the members of the Plainfield Athletic Club, leads us to feel warranted in stating that the exhibition of that association which is to take place in Van Deventer Hall, on the evening of Tuesday, May 18th, will be one of the finest and most commendable entertainments ever given in this city. The programme decided upon and now being prepared, is entirely new in all its features and cannot fail of being remarkably interesting to such fortunate ones as attend its fulfillment.—Those who only look for such exposition of the methods of physical culture as class training has perfected and practice consummated—will be agreeably disappointed; while those who expect merely an exhibition of gymnastic feats and exercises, similar to what they have seen carried out as far as individual capability allowed at the meetings of the adult class—will undoubtedly be most pleasurably surprised at the great variety of unexpected attractions.

The hope that whatever members of the ladies' class, who possessed the necessary proficiency to take such part as was proposed and intended by Prof. Burnham, would contribute their personal services, seems destined to be unfulfilled; the cause of which greatly to be regretted want in the otherwise faultless programme, is probably known to the managers. But although such inefficiency will possibly prevent the accomplishment of the unknown and mysterious "shadow postures" and other enigmatical allurements which the public would be desirious of enjoying, still a sufficiency of enticements will be furnished for the gratification of all.

Tickets may be procured of the members at 75 cents each, including a reserved seat.

A Bank Robbery.

Again has the pure extract of unadulterated wickedness in the veins of the youth of Plainfield, showed forth. A young scion of the house of Dooley walked into the shop of Mr. Wm. Addis, on North Avenue, last Monday afternoon, and in the absence of the proprietor and the failure to discover anything more valuable helped himself to a quantity of bill-heads, just from the press of THE CONSTITUTIONALIST Steam Printing House.—Proceeding to the store of another merchant on the same street, his endeavors to sell his spoils was unsuccessful although offered at the low figure of fifteen cents. Instead, an investigation was entered into by the parties concerned, which resulted in the incarceration of the youthful thief upon the request of his father and his release later in the day upon the request of his mother.

Failing to be taught a lesson by past experience, young Dooley on the next day broke into the residence of Mr. John T. Gibson, on East Second Street, Plainfield's genial ticket agent, by forcing open a window, and prepared himself for intended depredations by consuming an entire pie purloined from that gentleman's extensive and well-filled larder.—Having thus "braced up" as it were and procured a hammer, an entrance was gained into the savings bank of Mr. Gibson, Jr., and the entire contents stolen—about $2.27.

What should be done in such a case is open for discussion. An application has already been made to Father Morris petitioning that gentleman to secure the admittance of the offender into the Catholic Reformatory, which request will probably be granted. However, in what way this will condone the offence, rectify the matter or improve the boy, is a question. His associates in the establishment will be principally those of the same character, and upon his discharge the innate wickedness contained in his body, and merely held in check for a short time, will undoubtedly burst forth with renewed vigor.

Military.

Owing to the expense of re-uniforming the National Guard and of rifle practice, there will be no encampment of the Nation Guard this year. The annual Brigade reviews will take place probably on the same day; the First at Newark, and Second at Elizabeth, and if a suitable place can be discovered between these cities it is likely that a Division review will be held.

The work of measuring the members of the National Guard for the new uniform was commenced last week.

Rifle practice will be extensively carried on this year with a view to perfecting the N. G. in the use of their excellent arms—Springfield rifles, cal. 45.

"Parlor Circle."

The closing sociable of this organization of young people took place at the residence of the President, J. Fred McDonald, on Thursday evening of last week. The presence of about twenty couple insured an evening of gaiety, and the efficient services of the floor managers, Messrs. Edward Nelson and William Drayton, resulted in securing enjoyment for all. The music was under the leadership of Prof. J. A. De Bona, of New York city, and better could not have been desired; while the same may be said of the bountiful supper served at midnight. Although this last entertainment of the season, in which dancing was the principal feature, has thus taken place so auspiciously, there is every probability that during the coming Summer the Parlor Circle will unite in an enjoyable picnic.

Election for Officers of the U. & M. C. M. A. A.

The annual election for officers of the "Union & Middlesex Counties' Mutual Agricultural Association," for Directors to serve the ensuing year, was held at the Secretary's office on the Fair Grounds on Monday last, between the hours of 5 and 8 o'clock, p. m. The polls were declared open by J. Wesley Johnson, who was elected Chairman and J. H. Platt, Secretary, *pro tem.* W. L. Force was appointed Judge of Election and Smith W. Laing, Inspector. But 37 votes were cast, representing 688 shares of stock. Only one ticket was in the field, which was elected entire as follows: John I. Holly, R. S. Little, Chas. A. Campbell, James Neilson, M. H. Acken, Nathan Robins, John C. Meyer, Jas. S. Vosseller, J. W. Johnson, J. H. Platt, J. T. Pearson, E. C. Pearson, Wm. S. Darling.

Funeral Services.

The funeral of the late Valentine Sauermann of this city, who died recently at the age of sixty-three, took place from his former residence and the Congregational Church at 2:30 p. m., last Monday. The deceased was one of the oldest hands in the employ of Messrs. Schepflin, Baldwin, Tweedy & Co., and his long and faithful service with the firm had gained for him their sincere appreciation as well as many friends among his fellow workmen. The latter were in attendance at the funeral and burial services in large numbers, and the factory whistle that had so often called them together with their dead comrade, was silent for the day. The ceremonies were conducted in both the American and German languages, by the Reverends Manchee and Schlieder, and the body was deposited in its final resting place in the Baptist Cemetery.

More Honors.

The fame of Saltzman's watches increases each day. From the *Jeweler's Circular*, of May, we extract the following regarding the National Exhibition of September last:

"Saltzman & Vuille, watchmakers, of Chaux de Fonds, Switzerland, have received an elegant bronze medal from the Society of Emulation for specimens of watches recently exhibited by them. The medal consists of a bust, in bold relief of Dr. Jean Richard, one of the earliest watchmakers of Switzerland, who achieved fame as a horologist in the latter part of the 16th century, and who died at Locle in 1741. Messrs. Saltzman & Vuille exhibited 54 gold watches and nine movements, all of which did honor to the exhibitors, and bore testimony to the excellence of their workmanship. Auguste Saltzman, 15 Maiden Lane, represents the firm, of which he is a member, in this country."

Personalia.

Mr. Albert Vuille, associated with Mr. Auguste Saltzman in the manufacture of their celebrated watches, 15 Maiden Lane, N. Y., was on Monday night last honored with the degree of associate member of "Alert Hose Co. No. 1" by the members of that organization.

John Taylor Johnston, wife and daughter, sailed for Europe last Saturday.

Ex-City Judge P. P. Good will sail for Europe on the 20th inst., expecting to be absent about six months.

Mr. A. S. Doughty, of the Trenton *State Gazette*, favored our establishment with a visit last week. We are glad to learn from him of the uninterrupted success of the able journal he represents, but regret to hear of the continued illness of its efficient Editor, John L. Murphy, Esq.

Died.

On Friday, April 23, 1880, at Plainfield, N. J., Mrs. Nancy Nichols, aged 50 years, 4 months.

Mrs. Nichols came to Plainfield with her husband Dr. George Nichols, about the year 1865. For the past ten years she has practiced Medicine in this city. She has distinguished herself for acts of charity and kindness to all, for unwavering integrity and unquestioned purity of character and life. She possessed unusual energy and was known to minister to the wants of her patients till her strength failed. During her long sickness, which was marked by intense suffering, she never murmured. To the last moment she was cheerful and hopeful. She said there was nothing on earth worth living for but her children, for whom she possessed the pure and abiding love which none but the heart of a mother can know or understand.

She was buried from the First Presbyterian Church, Plainfield, on the 25th ult. The funeral was very largely attended, and she was followed to the grave by a large concourse of devoted friends, comprised largely of the first citizens of this city.

She was universally beloved and respected, and as the years go on many a heart will heave a sigh for one whose life was so exemplary; whose impulses were so generous, and whose acts were so praiseworthy and ennobling. May the halo of her pure life shed its beauties along the path of her children and lead them on in safety through the days and years. JUSTITIA.

Plainfield, N. J. April 26, 1880.

NORTH PLAINFIELD PARAGRAPHS.

The Grand Jurymen from North Plainfield for the May term of Court are Chas. A. Place, Alfred Berry and T. F. French. Mr. Place has the honor of being foreman of the Jury.

Esquire Verdon is again very sick.

S. R. Mooney, the new groceryman, on Somerset Street, came out with a handsome new wagon on Tuesday last, built by Homan, Carriage Manufacturer, on Somerset Street, and painted by Dunning. The vehicle reflects great credit upon its builders.

The construction of Rev. Mr. Embury's dwelling house, corner of Grove Street and Holyrood Place, is progressing rapidly. Mr. Daniel Pierson has the contract for carpenter work.

Several robberies have recently been committed in North Plainfield. Last week Mr. J. G. Jones' residence was entered one night and $200 worth of jewelry taken. The same night Mr. Elias Wilson's house was entered and $5 stolen.

A young lad named Uhrbahn, while playing with fire in a vacant lot on Somerset Street last Sunday, was severely burned by his clothes taking fire. Two gentlemen riding by at the time, sprang out of their buggy and extinguished the flames of the lad's clothing by throwing an overcoat around his person.

By the same—The following, in reference to claim of Wm. B. Maxson:

To the Honorable the Common Council of the City of Plainfield:

GENTLEMEN: Your Finance Committee, to whom was referred the bill of Wm. B. Maxson, Esq., for one thousand dollars for professional services in the matter of The Inhabitants of the City of Plainfield *vs.* J. Wilbur Price has to report—

That on the 21st day of July, 1876, the Common Council passed a resolution directing Mr. Maxson, who was then Corporation Counsel, "to take such measures as are necessary to secure to the city the undisputed possession of the block of land in the city known as the Park."

That on the 12th day of April, 1877, the term of Mr. Maxson's office having expired, the Common Council passed a resolution, "that William B. Maxson, Esq., be employed as Counsel of the city against J. Wilbur Price for ejectment."

That in pursuance of these instructions and resolutions Mr. Maxson commenced a suit in the Supreme Court of New Jersey against J. Wilbur Price, who then occupied the land known as the Park, and prosecuted the same for the city through the Circuit Court of Union County, the Supreme Court, and the Court of Errors and Appeals, to a final judgment in favor of the city, and that on the 24th day of December, 1878, the Sheriff of Union County with a writ of possession, put the city in the undisputed possession of the premises.

That Mr. Maxson was therefore lawfully employed to, and did perform the services mentioned, and is justly entitled to adequate payment therefore.

Your committee has to report further, that several interviews have been had with Mr. Maxson in reference to the amount of his claim; and while he does not admit that the services mentioned and rendered are worth any less than the amount of his bill as presented to the Council, as he has met your committee with a desire to arrive at a settlement of the matter on a more moderate basis, and upon hearing the representations of your committee has agreed all things considered, to accept in full payment of his claim the sum of five hundred and forty dollars ($540).

Your committee therefore recommends the passage of the following resolution to which Mr. Maxson has agreed.

Resolved, That the sum of five hundred and forty dollars ($540) be and the same is hereby appropriated in payment of the claim of Wm. B. Maxson against the inhabitants of the city of Plainfield for services rendered in the matter of the inhabitants of the city of Plainfield against J. Wilbur Price for ejectment; said sum to be paid on or before the 6th day of September, 1880. It being understood that on payment of said sum, said Maxson is to receipt in full for all claims and demands for said services, and that the city is to be at no expense for costs or otherwise in a suit brought by said Maxson against the city to recover payment of his claim, which suit is on passage of this resolution to be discontinued.

The chairman of your committee has received the accompanying note from Mr. Maxson, which is herewith respectfully submitted.

JOHN M. WHITON, Chairman.
E. L. FINCH.

Plainfield, N. J., May 3, 1880.

PLAINFIELD, N. J., April 30, 1880.

J. M. WHITON, Esq.:

Chairman Finance Committee of the Common Council of the City of Plainfield:

SIR: I have considered the suggestion and statements made by you on behalf of the Finance Committee in relation to my claim against the city for professional services in the case of The Inhabitants of the City of Plainfield *vs.* J. Wilbur Price, which terminated in our Court of Errors and Appeals by a final judgment in favor of the city, fully sustaining the action of the Common Councils who ordered the proceedings. And while I am still of the opinion that the services rendered in that long and bitter controversy, contested with marked ability by the distinguished counsel of the defendants to the end, are reasonably worth the sum charged, and that no lawyer of respectable reputation at the Bar, can think otherwise, yet considering the financial condition of the city as presented by you, and in the prosperity of which I have a common interest with my fellow citizens, I have in pursuance of your suggestions decided to accept in full satisfaction of said claim the sum of five hundred and forty dollars. And being further advised that great inconvenience would result to the city by immediate payment of said sum, I will wait till the sixth day of September next if so desired for the money.

When the Common Council shall have passed a resolution in accordance with the above I will discontinue the suit.

Respectfully,
WM. B. MAXSON.

Mr. Rushmore moved that the report of the Com. be received, and recommendation adopted.

Mr. Coriell arose and stated that he could find nothing in the charter that compelled the city to pay this claim. He thought there was too much investigation going on now as to official acts, and he did not want to lay himself liable. He should certainly vote against paying the claim, and wished his protest so recorded on the minutes.

Mr. Darling would be willing to have the claim paid from moneys received for licenses, and not from the General Fund.

Mr. Redfield thought the claim should be paid. Messrs. Finch and Flanders were of the same opinion.

Mr. Coriell stated that he had the correct figures of the amounts received by the lawyers for the defence, which were as follows: Hon. Wm. J. Magie, $250; Judge E. W. Runyon, $150, and Chancellor Williamson, $250, in all, $600. He would protest against the paying of this claim.

Mr. Whiton thought the claim a just one, and that the Finance Com. had given the matter careful attention, and he hoped the claim would be paid.

Some personalities were exchanged by Whiton and Coriell, and a little feeling of "unpleasantness" began to manifest itself, and after some further discussion pro and con, the question was called and the resolution adopted. All aye, with the exception of Messrs. Coriell and Darling, who voted in the negative.

Mr. Darling, from Com. on Fire, Water & Lamps, as correct the following claims: Plainfield Gaslight Co., $346.29; N. Y. & N. J. Globe Gaslight Co., 2 bills, $230.56. Ref'd to Aud. Com.

Mr. Darling also presented contract of N. Y. & N. J. Globe Gaslight Co., for lighting their lamps. The contract states that in case the city discontinue lighting the lamps for any length of time, thirty days' notice be given. Rec'd and filed.

Mr. Rushmore, from License Com., reported that the petition of J. H. Force, for a saloon license, conforms to the ord., and would recommend that the license be granted.

Mr. Darling moved that the report of the Com. be received, and recommendation adopted. Agreed to by the following vote: Ayes—Darling, Finch, Potts, Redfield, Rushmore, Whiton—6. Nays—Coriell, Dunlap, Flanders, Ryder—4.

By the same—That the petition of Geo. Miller for a Hotel license conforms to the Ord., and would recommend that the license be granted. So agreed to, the vote being as above—6 to 4.

By the same—As correct, claim of Asa Collier, $22.30. Ref'd to Aud. Com.

Mr. Finch, from Police Com., reported as correct the Police claims presented this evening. Ref'd to Aud. Com.

Mr. Finch, from Police Board, reported (verbally) the police in good working order.

Mr. Flanders, from Com. on Printing, reported as correct claim of E. O. Chamberlain, $31. Ref'd to Aud. Com.

Mr. Ryder, from Com. on Salaries, Offices & Elections, reported as correct the several claims presented this evening for services as clerks, judges, inspectors, etc., at the late "Money" election; also, claim of St. Com'r Geo. M. Angleman, $50; T. J. Gillies, $50; H. H. Lowrie, $62.50. Ref'd to Aud. Com.

Mr. Dunlap, from Aud. Com., reported correct the police claims presented this evening, and on motion, report was rec'd and warrants ordered drawn for the several amounts. All aye. As correct, also, the following Poor Fund bills: Alex. M. Runyon, $7; P. P. Dumont, $24; H. H. Garbs, $4; R. J. Shaw, $7.70; L. A. Rheaume, $90.95; Hannah S. Ayers, $28. Tabled for want of necessary funds.

Mr. Flanders called from the table the supplement to the License Ord. for its 3d reading. Read 3d time and passed. All aye.

Mr. Coriell offered a resolution that $300 be expended on streets under the supervision of the Com. on Streets.

This resolution called forth considerable discussion. Mr. Finch did not see how any money could be expended on streets, as they (the citizens) had voted "No Money;" he was afraid the streets would have to go without repairs, lights shut off, etc.

Mr. Darling thought that the streets should be repaired now, as it was the best part of the season. One dollar spent now would do more good than two dollars expended in September or October.

Mr. Coriell agreed with Mr. Darling in this particular. The streets were in a wretched condition, and money expended now would work to a great advantage.

Mr. Darling said he had done some figuring himself, and he saw no reason why the amount could not be appropriated. He would like to have the resolution amended to make the amount double, as he felt sure with what license money that would be received; and the back taxes collected, the appropriation asked for could be met.

Mr. Whiton said that he had sifted everything down to a fine point, and could not see his way clear. The mandamus, perhaps, would not be granted, and if not, we would have to shut up shop. He said the mandamus would be applied for to-morrow, and hoped for an early decision. If the Council could leave this matter open relative to the appropriation on streets until that time, he thought the Council could act more understandingly in the premises.

Mr. Darling inquired of Mr. Coriell if he would not withdraw his resolution.

Mr. Coriell said he had no objections in withdrawing his resolution, and so withdrew it.

Mr. Darling then moved that when Council adjourn it be for one week.

Mr. Whiton thought that one week would be too short, and asked Mr. Darling if he would not make the adjournment for two weeks.

Mr. Darling so acquiesced, and his motion prevailed.

Mr. Coriell wished to renew his resolution for the appropriation of $300 for street purposes, which, he thought, would be all right. His resolution, thereupon, was adopted. All aye.

After some further discussion relative to shutting off the street lights, Council adjourned.

WESTFIELD WISPS.

Last week some sneaking thief stole a portion of the wash left out over night by Mrs. Chas. R. Clark. Rev. Mr. Smith was also visited the same evening.

The W. M. T. will not give their benefit entertainment this week. It is postponed indefinitely.

The Holmes family, of Union Street, have returned to us, as has also Mr. Chas. H. Swan and family.

On Thursday, April 29th, there was married at the Holy Trinity Church, by the Rev. Father Wiseman, Mr. Wm. Versen to Miss Rose Grogan, both of Westfield.

The ladies of the M. E. Church held a Japanese Tea Party, on Thursday evening of last week. The weather proved very unfavorable to them, but notwithstanding the rain a large number was present, and it was agreed to continue the party on the night following on account of the storm. The proceeds netted nearly $30.

The Town Committee met on Thursday evening, April 28th, and among other business, the proposals of supplying our poor with attendance and medicine was taken up. Dr. J. B. Harrison being the lowest bidder, he was appointed Physician for the Township poor, he was also appointed a member of the Health Board.

The Baptist Church have accepted the resignation of their pastor, Rev. Chas. A. Harris. The continued severe sickness which has prostrated the pastor, has rendered the above action imperative. Mr. Harris during his pastorate, has been greatly beloved by his, and other congregations, and all unite in testifying to his high character. His retirement will leave a vacancy which will be hard to fill.

That dead dog, over which so much fuss has been made, has at last been buried.

On Monday afternoon, May 3rd, John Stillger, an old German, better known as "Old John," died. He received a stroke of Apoplexy on Saturday, which hastened his death. He was one of the oldest German settlers in our town, having lived here for over 25 years. He leaves a large family behind.

Chas. Courtney, the celebrated clog dancer, has left our town for a season, being called to the sick bed of his sister, residing in South Carolina.

John Ingram, Jr., thought he would go horseback riding on Monday night last. While cantering along Broad Street the horse took it in his head to show off some of its accomplishments, ending the performance by throwing John into the street.

Mr. John Pfeifer has resigned his position as Sexton of the M. E. Church.

Sam. Clarkson, colored, aged 26, was brought before Justices Godfrey and Jaques, on Tuesday last, to have a hearing on the charge of bastardy, brought against him by the Overseer of the Poor of our Township. Mr. Gilhooley took charge of the Township's case in place of Mr. Bergen, he not being able to be present. The testimony by the girl, Susan Miller, colored, aged 18, was substantiated by the defendant. The Judges after an absence of only 10 minutes found him guilty. Clarkson recently married another girl.

Mr. Greaves married last week Roslin Westervelt to Margarete E. Gabrielle, both of Cranford Township.

The Trustees of the Presbyterian Church have made their annual reports. The financial condition of the Church is not in quite as good a condition as it has been, a great deal of the pew rent being outstanding. In the statement of their resources and liabilities for the coming year, we notice there is a deficiency of about $600.

CHAPTER CLXVII.

An Act concerning past due assessments in certain cities of this state.

WHEREAS, In certain cities of this state many of the recent assessments for local improvements heretofore made by commissioners against the owners of lands and real estate claimed to have been specially benefited thereby, were laid upon illegal and erroneous principles and without regard to the peculiar benefit derived by reason thereof as required by law, which assessments were intended to be legal and valid liens on such lands and real estate; and whereas, collection thereof cannot be enforced by the corporate authorities of such cities, but such assessments are liable to be vacated by the courts; and whereas, in many instances, the owner or owners of such property are willing and desirous to free the same from the pretended lien thereof, and to pay an amount equal to the peculiar benefit derived, and it is to the mutual advantage of all parties in interest that such assessments should be so equitably settled: therefore,

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That the common council or governing body of any city, as the case may be, at their discretion, after proper inquiry made, are hereby empowered and authorized to rebate and reduce such assessment or assessments, and to accept such lesser amount in full payment and satisfaction thereof, or such common council or other governing body may agree to arbitrate such assessment or assessments upon application from such owner or owners that such course be adopted, such petition or petitioners to bind himself or themselves in writing to submit to, abide by, and pay the amount awarded by such arbitration, and that such award, from the date of its signing, shall be a legal, valid and effectual lien on the lands and real estate covered by such illegal and erroneous assessment; and further, that such award may at any time, upon five days' notice in writing, be made a rule of the circuit court of the county wherein such city may be situate, and from and after the entry thereof, such owner or owners shall be personally liable for the payment of the amount so awarded.

2. And be it enacted, That in case such common council or other governing body shall refuse to arbitrate such illegal and erroneous assessment or assessments, the owner or owners of such lands and real estate may, upon the giving of five days' notice in writing, make application to a justice of the supreme court for the appointment of arbitrators to determine and settle the question of the peculiar benefit derived by such lands and real estate by reason of such improvement or improvements, and such justice in his discretion, upon good cause shown, may appoint two discreet and impartial persons as such arbitrators, who shall make and sign an award or report in writing, stating therein the amount of such peculiar benefit; the same to be binding and conclusive; said award or report may likewise be made a rule of the circuit court of the county wherein such city is situate, and from the date of the entry of such rule render such owner or owners personally liable; and further, if such arbitrators be unable to agree, they are authorized and empowered to choose a third person to act with them as arbitrator, in such case, the award of any two of such arbitrators as to the amount of the peculiar benefit, to be binding and conclusive.

3. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

CHAPTER CLXVIII.

An act to enable parties to whom awards have been made, over six years ago for damages resulting from change of grade to recover the same by suit if payment thereof is refused.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That whenever heretofore, at any time, even although more than six years have elapsed, the city council, board of aldermen or other governing body of any city in the state have confirmed the assessment of damages allowed and benefits assessed by change of grade of any street or part of street in any such city and the city treasurer or other proper financial officer has been directed to tender and pay the damages allowed on said assessment and the same have not been paid, that such city shall pay said damages to the party or parties to whom awarded and who may now be entitled thereto, and on failure to make such payment any party entitled to such damages and to whom an award has been made, may, if payment is refused, sue therefor, and in such suit shall recover so much of said award, and only so much, as the jury shall find will pay for the damages his property sustained by such change of grade; the amount of all such payment shall be raised by taxation in the next tax levy.

2. And be it enacted, That this act shall take effect immediately.

Approved March 11, 1880.

CHAPTER CLXIX.

An act limiting the time for commencing actions against the assignee of any person or persons making an assignment for the benefit of his or their creditors.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That all actions of trespass or replevin, or other action whatsoever, against the assignee, as such, of any person or persons making an assignment for the benefit of his or their creditors, under the laws of this state, in that behalf, shall be commenced and sued within nine months from and after the date of said assignment, and not afterwards.

2. And be it enacted, That all persons now having any right of action against the assignee, as such, of any person or persons who may have made an assignment for the benefit of his or their creditors, prior to the passage of this act, shall commence and prosecute such action within nine months from and after the passage of this act, and not afterwards.

3. And be it enacted, That nothing in this act contained shall be construed to affect or relate to the proceedings in the orphans' court on the filing of the final account of any such assignee, as now provided by law.

4. And be it enacted, That all acts or parts of acts inconsistent with the provisions of this act be and the same are hereby repealed, and that this shall be a public act and take effect immediately.

Approved March 12, 1880.

LAWS OF NEW JERSEY.

CHAPTER CLXX.

An act concerning proceedings on bonds and mortgages given for the same indebtedness and the foreclosure and sale of mortgaged premises thereunder.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That in all proceedings to foreclose mortgages hereafter commenced, no decree shall be rendered therein for any balance of money which may be due complainant over and above proceeds of the sale or sales of the mortgaged property, and no execution shall issue for the collection of such balance in such foreclosure proceedings.

2. And be it enacted, That in all cases where a bond and mortgage has or may hereafter be given for the same debt, it shall be lawful to proceed first to foreclose the mortgage, and if at the sale of the mortgaged premises under said foreclosure proceedings the said premises should not sell for a sum sufficient to satisfy said debt, interest and costs, then and in such case it shall be lawful to proceed on the bond for the deficiency, and that in all suits on said bond, judgment shall be rendered and execution issue only for the balance of debt and cost of suit.

3. And be it enacted, That if after the foreclosure and sale of any mortgaged premises the person who is entitled to the debt shall recover a judgment in a suit on said bond for any balance of debt, such recovery shall open the foreclosure and sale of said premises, and the owner of the property at the time of said foreclosure and sale may redeem the property by paying the full amount of money for which the decree was rendered with interest, to be computed from the date of said decree, and all costs of the proceedings on the bond; provided, that a suit for redemption is brought within six months after the entry of such judgment, or the balance of the debt.

4. And be it enacted, That in all foreclosure proceedings hereafter commenced, the sheriff or other officer who may be directed to sell any mortgaged premises, shall, after making such sale, report the same within five days thereafter to the court out of which an execution or order to sell is issued, stating the name of the purchaser or purchasers and the price obtained, and if the said court, or a judge thereof, shall approve of such sale, they shall confirm the same as valid, effectual in law, and shall, by rule of court allowed in open court, or by a judge thereof at chambers, direct the said sheriff or other officer to execute good and sufficient conveyance in law to the purchaser or purchasers for the mortgaged premises so sold; provided, that no sale of mortgaged premises shall be confirmed by the court or further proceedings had until the court, or such judge, is satisfied by evidence that the property has been sold at the highest and best price the same would then bring in cash, and such evidence may be in the form of affidavits.

5. And be it enacted, That all acts and parts of acts inconsistent with the provisions of this act, be and the same are hereby repealed, and that this act shall take effect immediately.

Approved March 12, 1880.

DEMOCRATIC PRIMARY.

The Democrats of the City of Plainfield are respectfully invited to assemble at their rooms, opposite the Post Office, upon the evening of

FRIDAY, MAY 14th, 1880,

at 7½ o'clock, to elect delegates to the Democratic State Convention to be held at Trenton, May 20th.

J. E. MARTINE, Pres.

THIRD TERM.

It argues favorably for the maintenance of free institutions, and the patriotism of the American people, that the third term conspiracy, of Grantism evokes such general and determined opposition throughout the whole land.

The Democrats are solid against any such dangerous innovation, no matter by whom engineered, and a vast number of Republicans cordially share their hostility.

A third term means an indefinite period, and that points directly to the enthronement of an Emperor or some other despotic ruler.

We can comprehend the personal ambition of Grant, and the mercenary designs of his immediate followers, but how an intelligent and impartial citizen and sincere friend of the Republic, can for a moment harbor treason to the illustrious memory of Washington by advocating the elevation of any man to the Presidency for a third term, is past finding out.

Should such a scheme be moulded into shape by Conkling and Cameron at Chicago, great will be the storm of popular indignation.

Let Cesar come forth, if he dare!

GLORY AND SHAME.

The brightest glory of England is in her prompt and impartial execution of law, and however rightfully we may scorn monarchial institutions and aristocratic customs, well would it be for us in this country did we follow more closely England's stern dispensation of justice for committed crimes.

In England the proven guilty must suffer the penalty imposed for violated law, be they rich or poor, titled or humble.

In the United States, we regret to say, the reverse often prevails. Here money or political influence, and sometimes both corruptly combined, are repeatedly found defying law, justice and good morals, by setting free the very worst kind of knaves.

The recent disgraceful action of partisan officials vested with the pardoning power in Pennsylvania is a glaring example of the evil we condemn. These men were fairly convicted of bribery and corruption and justly sentenced to imprisonment, but being leading Republican politicians, they were given almost immediate liberty.

England would have transported them as felons.

Pennsylvania sends them home to proudly strut and again ply their nefarious trade.

Our national reputation will be vastly improved when rich thieves wear prison stripes as surely as poor ones.

That they do not is America's shame.

The Ohio State Democratic Convention, held May 6th, was solid for Thurman.

Postmaster James, of New York, is strongly urged by his party friends as the successor of Postmaster General Key, resigned.

Senator Bayard carried off the gold cane voted to the most popular Presidential candidate at the Hahnemann Hospital Fair held in New York last week, and not General Grant, as stated by papers in his interest. The vote stood Bayard 143, Grant 121.

It is pleasant to the uninstructed and unpledged delegate to think that the great metropolitan journals know exactly how he will vote in Convention, notwithstanding he has never expressed that much himself. The delegate will only find it necessary to send a copy of the paper to the Secretary of the Convention, and remain at home contented and happy in the thought that his duty has been fully discharged.

The Elizabeth *Herald* urges upon the City and County Democratic Executive Committees, the urgent necessity of action in perfecting a thorough organization in every city and town in the county, and denounces the inactivity of some of these officials. The *Herald* is right in urging such organization. Plainfield Democrats started the ball rolling some months since, and now has an organization with enrolled membership and efficiently officered. Their voice and votes will be heard and felt at the approaching battle in November.

PRIMARY MEETING.

To-night (Friday) the Democratic voters of Plainfield are requested to meet at their headquarters on Front Street, opposite the Post Office, to elect delegates to attend the State Convention at Trenton in June. Let there be a full attendance and select good men for the delegates, those only who are conversant with the political situation of the day.

THE NEW BOARD OF FREEHOLDERS.

The new Board of Freeholders of Union County met at Elizabeth on Wednesday last and organized by electing the following officers:

Director—C. W. L. Martine, of Fanwood.

Clerk—John Crowell, of Rahway.

County Collector—P. Sheridan, of Elizabeth.

County Attorney—P. H. Gilhooley, of Elizabeth.

P. S.—Plainfield got nothing.

FIRE COMMISSIONERS.

It is to be regretted that such a state of affairs exist among the members of the Board of Fire Commissioners, which has thus far precluded the organization of that body. Personal feeling and party prejudice seem to be the controlling features of the case. It is the first instance of the kind happening in Plainfield since the organization of the Fire Department that a deadlock has occurred in selecting officers to control its affairs. This is all wrong and should not be so. Where the fault exactly lies it is hard to determine, but it would seem to the looker-on at the late meetings of the Board that a partizan feeling prevailed, because one of the candidates for the *Presidency, Mr. Depew, is a Democrat.* On the other hand it is urged by the friends and adherents of Mr. Jones and the older members of the Board that some one of their number should be conferred the honor.

It matters not what the personal or political reasons are causing the "dead lock." The tax-payers desire that an organization should be perfected at once.

VINDICATED.

The trial of David J. Meeker before Judge Van Syckel, at Elizabeth, on Tuesday and Wednesday, for alleged complicity with the convicted city officials, Leggett and Leeds, in conspiring against the city of Elizabeth, attracted to the Court House a large crowd of spectators. After all the evidence had been laid before the Court, Attorney-General Stockton arose and stated that the case had reached that stage when he thought, in the discharge of his official duty, he should make a suggestion to the Court. There was no doubt whatever now that the testimony is in, that the defendant was used as an instrument by Leggett and Leeds in their alleged transactions, and there is not evidence, it seemed to him, to prove that Meeker's acts were done other *than innocently.* Under all the circumstances he would therefore ask the Court to direct the jury to return a verdict of not guilty.

Judge Van Syckel replied that the Court thought the course of the Attorney-General a very proper one, and did him credit. The Attorney-General was fully justified by the evidence produced. There was a failure of evidence sufficient to justify the case to proceed and go to the jury, and under the direction of the Court the jury will render a verdict of not guilty, which was done by the jury without leaving their seats.

INDICTMENT OF THE SOMERSET COUNTY RING.

The Grand Jury of Somerset County came into court last Saturday morning with fourteen indictments. They were against John V. Veghte, County Collector, for embezzling the funds of the county during the past eighteen years, four counts for sums aggregating $5,000; T. W. Frech, ex-cashier of the Somerset Bank, for embezzling the funds of the bank to the amount of $6,350, three counts; Daniel Cory, member of the Board of Freeholders, two counts, for fraud in bridge building; William E. Jones, member of Board of Freeholders, two counts, same as Cory; Joseph McBride, ex-member of Freeholders, one count same as Cory; H. H. Garretson, and Joseph Waker, ex-members of Freeholders, one count each same as Cory. They were arraigned and pleaded not guilty and released on their own recognizance to appear next Saturday to give bail.

UNITY A NECESSITY.

By the past we ought to judge the future, and the past history of this country clearly demonstrates that our people will be unable to secure a Congressional candidate without a unanimous voice in the nominating convention for one man. Fate, by some mysterious agency that we are unable to gauge, really seems to show that unity is necessary to secure a Union county man. Twelve years ago, when we were a part of the old Third District, two or three delegates from the Second ward got somewhat "sassed" at the Convention at Somerville, bolted the county's choice, and Union lost a formidable candidate in the person of Judge Robert S. Green, who certainly would have been nominated had Union county stood by her flag unitedly, but she did not, and the prize was lost. Eight years ago the same lack of unity *produced the same result. In the present* District, the Convention being held at New Brunswick, Judge Green again secured all the Union delegates, save three from Rahway, and this exception was made the basis of a refusal to take him as the standard-bearer. It is clear to our mind that a failure to unite solidly on one man will again lose our county her right to a candidate in the coming Convention. It is equally clear to us, also, that if we fight our differences out among ourselves and ultimately agree to go into the Convention for one man, that man, whoever he may be, will be nominated. If we do not, then we deserve to be euchered.—*Elizabeth Herald.*

Mr. A. E. Gordon, of the New Brunswick *Times*, has been confirmed as Census Supervisor of the Second District. The various districts of the State are arranged as follows:

First—Bergen, Passaic, Essex, Morris, Warren and Sussex.

Second—Hudson, Union, Somerset, Hunterdon, Middlesex and Monmouth.

Each Supervisor will have the appointment of a large number of assistants, who must perform the labor in June within two weeks.

If Grant's managers don't make haste to muzzle him he will run their campaign before it can get fairly under way. He continues to talk about one flag and one country, and insists that the South is peaceable and loyal. The Grant boomers want it understood that the South is in rebellion against the government, and they give Grant the lie every day in the week.

Decay of the Teeth

Arises from various causes, but principally it may be attributed to early neglect or the indiscriminate use of tooth powders and pastes, which give a momentary whiteness to the teeth while they corrode the enamel. The timely use of that delicate aromatic toothwash, Fragrant SOZODONT, will speedily arrest the progress of decay, harden the gums, and impart a delightful fragrance to the breath. It removes those ravages which people sustain in their teeth from the use of sweet and acid articles.

Will the circus come this way this year is an oft-asked question by our citizens. We are afraid not. Circus men know Plainfield pretty well on account of the opposition offered against their showing here a few years ago, when fanatics ruled the city. They give her the go-by now.

Sunday was "children's day" among the Presbyterians. Dr. Ketcham's people observed it by securing a missionary from China, and other attractions. Dr. Bliss' morning service was made unusually interesting by the baptism of little ones in the morning, and the singing of a choir of thirty selected from the Sunday School.

How pleasant it is to have a cloud of dust and old papers spinning about your head as you walk along the public streets of our city during a lively breeze. Whose fault is it that such nuisances exist? Why, one is because the streets are not kept clean, and another that they are not sprinkled thoroughly. The evils should be remedied.

About forty members of the Saengerbund last Sunday morning took part in the observance of such ceremonies as are customary with the German nation at their "May Festival." It is a lasting shame and disgrace to the police force (?) of Plainfield, which is (not) considered the "finest in the world," that the corners of streets, the sidewalks and the fronts of stores show windows are not kept clear of the crowds of youths and loungers who infest such localities every night. Remarks are made and disgusting language used to passers-by which must shock the modesty of any virtuous woman within hearing.

A Fine Fertilizer.

Young & Huffman, tobacconists, corner of Park avenue and Second street, are selling the best fertilizer in the world; the same article is also a sure preventative against insects on shrubbery, flowers, vines, etc. The article is tobacco stems and dust of the well-known Durham, North Carolina brand, in which State the tobacco is grown and the fertilizer obtained.

To Horsemen.

Mr. J. W. Morris, the well-known horseman, of New Brunswick, writes us that he will arrive at his home in the above city from Canada about the 15th, with an extra good lot of trotters, drivers, matched teams, ladies' phaeton ponies, saddle horses, etc., which he will offer to parties desiring to purchase at low figures. Mr. Morris is well-known for his honest dealings.

Ice.

Messrs. Simpson & Co., formerly Wilson & Simpson, are now delivering ice to customers in handsome wagons, repainted by Dunning, and built by Homan. They removed from their ice houses on Wednesday the last of the meagre crop cut last winter, and will hereafter deliver the pure spring water ice cut from their pond or lake in Washington Valley the year previous, which is of fine quality. We wish the new firm success in their business.

Minstrels.

On Thursday evening of last week at Van Deventer Hall, Baird's New Orleans Minstrels gave one of the most amusing entertainments that this city has been favored with in some time. The interesting "first part" was replete with mirthful jests and true wit, and the balance of the programme tended to call forth the extraordinary ability of the company in its individual parts. It is to be regretted that so worthy an entertainment was not more extensively patronized, but the memory of larger audiences in Plainfield at previous dates, may induce this company to visit us again.

Union & Middlesex Counties' Fair Association.

The newly elected Board of Directors of the "U. & M. C. M. A. A." met at the Mansion House last Saturday evening, and organized by re-electing all the old officers as follows:

President—John I. Holly, Middlesex.
1st Vice Pres.—Chas. A. Campbell, Middlesex.
2nd Vice Pres.—Nathan Robbins, Middlesex.
3rd Vice Pres.—J. Wesley Johnson, Union.
Secretary—Jas. S. Vosseller, Union.
Treasurer—E. C. Pearson, Union.

On the 5th of July, the grounds will be the scene of the first trot of the season.

An Accident.

On Monday afternoon, during a performance in Van Deventer Hall, whereat the spectators were mostly children, a son of Mr. Alex. Warnock, named Walter, aged about 9 years, fell from the gallery to the floor below, a distance of some ten feet, striking in his descent a young girl sitting below, who however, was not injured. Young Warnock broke the small bones of his left wrist in his fall, and luckily escaped more serious injuries. He says he received a push from a companion sitting along side of him which caused him to fall. This should be a warning to other venturesome young lads who are in the habit of leaning over *the balustrade of the gallery.*

Fatal Accident at Bound Brook.

On Saturday evening between six and seven o'clock a distressing accident happened at Bound Brook to William Fellows, a lad about 14 years of age. It seems that his brother is a fireman on a freight engine which runs between Bound Brook and Philadelphia and that in the evening on the return of the train the young lad and his father were in the habit of going to the track and helping the brother and son to draw the fires. On Saturday night they were on the engine as usual when the boy asked if he could go under the engine and draw the ashes from the ash pan. Permission being given he went and in a few minutes was through and about crawling from under the engine. When just between the driving wheels his brother gave the signal to the engineer to go ahead a few feet. The great wheel passed over the boy's arms and head scattering his brains around and killing him instantly. Dr. Wagoner, the County Physician, was summoned but deeming an inquest unnecessary, gave a burial certificate.—*Unionist.*

A New Public Building.

The materials necessary to complete the new Baptist Church, on Park avenue, are now on the ground and work has been resumed on the tower, which will be pushed rapidly forward. The interior finish is well under way and furniture for the Chapel has arrived. It is expected that the entire building will be opened to the public early in September, and will then present an appearance creditable to the designer and builders, and attractive to the people of Plainfield, for whom it was intended.

The main audience room has a seating capacity of 500 persons, and the Chapel and connecting rooms 500 more, so that when the dividing doors are opened the entire building will accommodate comfortably as large a number as any church in Plainfield.

Notwithstanding the extreme youth of this organization, the depressing influence of hard times and unavoidable delays and mishaps inseparable from all building enterprises, the work thus far has been done in a comparatively short space of time, considering its character and magnitude, and the determined people who conceived such an undertaking may rightly celebrate its near accomplishment by an occasion of joy, feasting and harmony, such as they announce for next week.

Amateur Athletes at Elizabeth.

The athletic sports of the Elizabeth Club on its grounds in that city last Saturday afternoon, called together such a gathering of the finest class of people as that association can claim among its supporters over any other like organization. The expectation that many of Plainfield's young athletes would take part, induced quite a delegation from this city to attend; and, although the achievements of their friends were not overwhelmingly admirable, the competitions were of such general interest as to well repay those present. In the first trial heat of the one hundred yards run Mr. J. W. Murray Jr., of the "Independent Athletic Club," won his place most gallantly against heavy odds. In the final, however, the combination of forces brought to bear prevented his securing the medal.

Mr. J. Hervey Doane who had also entered from the same club, was by some arbitrary ruling of the managers of the sports credited to another organization, and in consequence declined to run in the quarter-mile. Mr. H. P. Moore of the "Independents" started in the mile run against a large number of opponents, and during the early part of the race showed himself conspicuously among the leaders; an unfortunate accident occurring, however, prevented the success that seemed almost within his grasp. A fellow competitor in attempting to pass him trod on Mr Moore's foot, the runner's spikes piercing the shoe and inflicting a painful wound.

The half-mile run afforded an opportunity for Plainfield to obtain a trophy—Mr. R. J. Foster of the "Independent Athletic Club" coming in second in one of the tightest contests for that position we have ever seen. Mr. Foster was entirely without training and was pitted against twelve most promising athletes, but indomitable pluck led him to victory.

There were also other entries recorded both from the P. A. C. and "Independents," but no participants.

Postscript.

As we go to press we learn of the death of Esquire James Verlon, of North Plainfield, who died about noon yesterday (Thursday) at about 80 years of age. *Further particulars next issue.* The funeral will probably take place next Sunday; the time having not yet been decided on.

Obituary—Lucy Maria Morse.

The many friends which the true christian character and loving spirit of Mrs. T. H. Morse had drawn around her, unite in heart-felt *and sincere sympathy for the* fond husband who has sustained such a sad loss by her demise. Her patient life of faithful service was brought to a close by its holy giver on Friday last, and the remains were deposited in their final resting place on the Monday following. The impressive and touching funeral services of the Rev. William Manchee took place at the late residence of the deceased on Fifth street, and the body was buried in the Presbyterian cemetery, North Plainfield. It was but a short illness that terminated so seriously—merely a few days of painless failing and then the end, calm, composed and peaceful.

An Apology.

We hate to make apologies for blunders appearing in the columns of The Constitutionalist, which happily, however, are not of frequent occurrence, but in this instance it is certainly due Mr. D. J. Marshall, the Park Avenue Liveryman, for the ridiculous manner in which his advertisement reads on our 1st page, occasioned by a compositor drawing out of it certain letters he desired to use in a job of work requiring them, and then failing to put them back again before the forms were sent to press. The state of the advertisement was not discovered until after the outside pages of this issue had been put to press on Monday. This explanation, however, has nothing to do with the fact that Mr. Marshall has just added several new and handsome carriages to his already extensive stock, and that his prices are very low for hire.

County Physician's Report.

County Physician Terrill rendered his official report of deaths occurring in Union County the past year, ending May 11, to the Board of Freeholders at its last meeting, in which it appears that the whole number of deaths recorded are 59. The places where they have occurred are: Cranford, 7; Elizabeth, 31; Fanwood, 2; Linden, 5; Plainfield, 1; Rahway, 5; Springfield, 1; Summit, 4; Union, 2; Westfield, 1. Total, 59. Causes of death—Accidental shooting, 1; alcoholism, 1; burned to death, 1; drowning, 7; diseases, 21; killed by falling from a building, 1; killed by a piece of coal, 1; killed by being caught on a revolving shaft, 2; killed by the falling of an iron shute, 1; killed by a block of ice, 1; murder, 1; manslaughter, 1; run over by wagons, 1; railroad accidents, 9; suffocation, 4; suicides, 3; still births, 3. Total, 59. The total costs for burials, recovery of bodies and inquests, $292 40. Besides the above costs there are bills rendered for personal services, amounting to $82 10, and printing, $3.

The P. A. C's Entertainment.

The confidence felt by the public in the ability of the P. A. C. to give them an enjoyable entertainment and worthy exhibition, makes it hardly necessary for us to add our voice in favor of the coming exposition. Those already managed and successfully carried out by the association, assures the complete prosperity of the proposed performances of next Tuesday evening at VanDeventer Hall. Calisthenics and acrobatic exercises will be the main features of the evening's diversion, while, *entirely new pyramid* and magic-ladder work will add to the attractions. Indian clubs, bar bells, rings and other appurtenances will be brought into use with most pleasing effect by the entire Gentlemen's Class, while the P. A. C. Glee Club and the Master's Class will lend their assistance towards making the programme one of intense gratification to the audience. To allow for the convenient performance of the many feats, and to accommodate the members in their combination exercises, the usual stage has been enlarged and extended, thereby slightly reducing the seating capacity of the Hall. In consequence, those desiring tickets should obtain them at once as their sale has been rapid, and only such number has been issued as can comfortably be provided for. Reserved seats 75 cents, at Killgore's.

A Perilous Predicament.

An accident occurred last Wednesday morning which fortunately resulted in no greater damage than the maiming of a horse and the frightening of some of the spectators. While passing through that most crowded part of Park avenue near the corner of North, the phaeton of Mr. Maltby, of Plainfield avenue, came into collision with another vehicle, startling the horse attached to the former and causing him to turn short in the road, throwing out the occupants of the phaeton (two ladies) the cushion seat and robe. The animal then sprang onto the sidewalk fronting Reynolds' Pharmacy, and was making directly for the plate glass windows of that new store, but breaking through the glass walk he was *for a moment stopped in his course.* Some boxes piled in the vault below saved the horse from going entirely through, and extricating himself from the dangerous position, he dashed across the street before being seized. It was most fortunate that the valuable store windows were not smashed, as the carriage was thrown so violently against them as to mar the black-walnut casings. The horse was frightfully cut around the legs, but how dangerously has not yet been ascertained. Those who were thrown out escaped injury, but so perilous were their circumstances for an instant, that a lady looking on from the carriage of Mr. James M. Taylor fainted with fright.

Julia Ward Howe.

As will be seen by the announcement in *another column of this paper,* Plainfield is soon to be favored by a visit from one who will be warmly welcomed by our citizens. The name of Julia Ward Howe will, we are sure, be sufficient to ensure an enthusiastic reception at Assembly Hall. She has long stood in the front rank of that distinguished social and literary circle of which America, and especially Boston, is so justly proud. The subject of the promised lecture is one of deep interest; for full of historic associations as Ancient Greece was, modern times have witnessed fierce and successful struggles for liberty on the part of this patriotic people. In these struggles Mrs. Howe's late husband bore a part and always, through his long and eventful life, retained a deep interest in Greece. When the Cretan rebellion broke out, funds were raised in America for the refugees from that unhappy island, and carried to them by Dr. and Mrs. Howe. Nor were these services forgotten; for when, about a year ago, Mrs. Howe visited Greece, the people vied with each other as to who should do her honor. It is of this visit the lecture will tell; and full as it is of personal reminiscences, it cannot fail to interest even those who hitherto have known little more of Modern Greece than is comprised in Marco Bozzaris and the Byron's "Maid of Athens." It may be well to add that Mrs. Howe has very kindly given this lecture in behalf of the Episcopal church of Scotch Plains, whose people are making an effort to provide themselves with a suitable building.

The Public School.

On Thursday of last week, Mayor Harper, who is a member of the Board of Education, and ex-City Judge Good, accompanied by Principal Gross, made a thorough inspection of the Public Schools of this city. Every class room, from the highest to the lowest grade, was visited, the various branches of instruction, the method of teaching, and proficiency in acquiring being carefully observed. The visiting gentlemen also reviewed with interest the record of each scholar, and adopted the novel idea of having the teachers call out by name those of their respective classes who were particularly excellent in study and deportment. At the Fifth Street Primary the partitions were raised and the congregated classes, after singing, went through the calisthenic exercise in a most creditable manner. Misses Hampston and Rodap were the "mistresses of ceremonies" there, with Miss Carrie Dewey at the piano. Brief remarks were made by both the Mayor and Judge.

We think such visiting examinations certainly have a beneficial result, imparting as they do correct knowledge of the real working of the schools, and inspiring laudable ambition among the teachers and the taught. We are pleased to know that Mayor Harper and Judge Good enthusiastically endorse the well directed management of Principal Gross and his very efficient body of lady assistants, all of whom deserve praise, and were gratified with the discipline everywhere maintained, and the advancement in learning even among the most youthful classes. We are confident, if the citizens of Plainfield were more practically familiar with their Public School, in all its departments and belongings, the voice of opposition, occasionally heard, would be transformed into eulogy.

What Leggett and Leeds are Doing.

Mr. Leggett is a runner in one of the corridors at the State Prison, and it is his duty to distribute meals to the convicts in the cells of the old wing.

Mr. Leeds is employed in the cook-*house. Both have plenty to do, and their* positions are good ones. They do not mix with the other convicts.—*Eliz. Herald.*

Howell Division.

There was a pleasant event in the rooms of Howell Division, Sons of Temperance, last Monday night, caused by a fraternal visit from the members of Welcome Division of New Brunswick to the number of about thirty ladies and gentlemen. The time passed happily with music, songs, speeches and refreshments. The occasion was also made interesting by Miss Conrey, of this city, who gave an instructive Temperance lesson on the black board, interspersed with appropriate remarks. W. P. James R. Perine presided with his usual ability, and enjoyment reigned supreme.

Personalia.

Mr. Albert Vuille, of Switzerland, associated with Mr. Auguste Saltzman, 15 Maiden Lane, N. Y., in the manufacture of their celebrated Swiss Watches, and who has been stopping at the residence of the latter named gentleman in this city, during his past six week's visit to this country, returned to his native home on *Wednesday last, via the* French steamer "Canada." Mr. Vuille carries with him a host of pleasant recollections experienced during his sojourn in America, and the best wishes of his many friends for his safe journey across the Atlantic.

Wm. H. Brower, Esq., has removed with his family to his former residence at Scotch Plains, having spent the past *two years in Plainfield.*

Mr. John W Murray, Mr. J. Fraley, and several other gentlemen of this city, started for the Adirondack regions on Thursday, to be absent several days. They will camp out during their sojourn there.

Ex-city Judge Good starts for Europe on the 29th.

Jacob Kirkner, Esq., arrived at his home in this city on Thursday morning, after an absence of several weeks among the silver mines of Colorado. Mr. K. looks and feels well and reports as having a delightful trip homeward, with snow one day and warm weather the next.

Laing's Hotel Under its New Management.

Since the taking possession of Laing's Hotel some weeks since by that experienced and popular landlord, Mr. George Miller, a large number of workmen have been engaged in remodelling and refurnishing the building so that it is now one of the most attractive, convenient and comfortable hotels in the State. Throughout the entire house the result of good taste and judgment is observable, and the effect of a lavish expenditure is plainly apparent. Not only is the lower floor beautified by upholsterors' and decorators' art, but the roomy chambers above rejoice in new carpets, black walnut furniture, bright paint and paper, handsome curtains, and other accessories. Besides the large parlor at the right of the main entrance, with its handsome furniture and attractive paintings, a private parlor above forms a most convenient place for the receiving of guests by the inmates. The dining room has been removed into what was formerly the public hall and an extensive kitchen built back of it; in consequence of which, this department is carried on entirely apart from the Hotel, and being reached through a covered passage, no opportunity is afforded for the transmission of apparent cooking through the living rooms. The former dining-room, which was situated in the southeast corner of the house fronting the street, has been turned into a fine bar and smoking room, and an office occupies what was previously the bar. The Hotel now possesses the ability of accommodating about 100 guests—the dining-room being capable of seating comfortably, about 150.

Violation of Fish Laws.

For years past it has been the custom of certain parties to fish for shad and other fish with seines in the Raritan River, in direct violation of strict laws on the statute book against such practice, which were enacted for the purpose of protecting the game fish, with which the river is stocked, during the spawning and other seasons. One of these laws is that prohibiting the drawing of nets in the waters of the river within nine hundred feet of the dam across the Raritan, below Bound Brook, erected by the Delaware & Raritan Canal Company to supply water to the canal through a feeder at that point. At last it became so flagrant a violation that the members of "The New Jersey Game & Fish Protective Society" whose headquarters are at Plainfield, determined to put a stop to the matter. The parties violating the law were warned that if they did not desist they would be arrested. They still continued, however, and last June four persons, named William Miller, Frederick Miller, Lewis Miller and Romaine Fisher were arrested upon complaint of Joseph C. Ohl, a member of the Society, for violating the above quoted law. When the Middlesex Grand Jury was in session last September an indictment was found against them by that body. *A trial of* the case lingered along until the present May term of Court, and last Friday, May 7th, it came up on the calendar. Prosecutor Chas. Cowenhoven moved the case for trial and Hon. Alvah A. Clark appeared for the defendants, who plead not guilty, their plea being "unconstitutionality of the law." The only witness sworn in the case on the part of the State was Joseph C. Ohl. After a short deliberation the jury found the defendants guilty, in manner and form as charged. The parties gave recognizance in $100 each to appear before the Court when wanted. The law in the case imposes a penalty of $200 in each case.

The action taken by the Society in putting a stop to netting for fish on their spawning beds, or in violating the fishery laws in any way, is highly commended by all right-thinking persons and law abiding citizens. It is the determination of the Society to vigorously prosecute all parties who violate the fish and game laws, coming within their knowledge.

FIRE MATTERS.

"Warren" Eng. Co., No. 3 visited Grove street bridge Monday evening last *for a "wash."* Everything worked smoothly and satisfactorily. This Company is a most efficient one, and is well officered.

No 2 Company tried their steamer at Crescent Avenue fire well Tuesday night. Every thing in order.

The Fire Board met pursuant to adjournment, at its headquarters, last Friday evening. Present, Messrs. Jones, Steiner, VanWinkle, Depew, Mayer and Morris. The meeting was called to order at 8:15 by the temporary chairman, Mr. VanWinkle, and on motion of Mr. Morris, Mr. Jones was appointed Secretary pro tem, the balloting for a permanent President was proceeded with, and ex-Chief Doane was requested to act as teller.

The first three ballots showed that there had been no change in the sentiments of the members—the Board remaining equally divided in its support of Mr. Jones and Mr. Depew. No prospect of an amicable understanding being attained, some discussion arose as to the effect the present stand-still would have upon the department and its property. The result of a dialogue between Messrs. Morris and VanWinkle seemed to be that the failure to provide for meeting or renewing the $2,000 note against the department, was neither unusual or condemnable. Mr. Morris thought as the property was under the care of the Chief Engineer who would do everything necessary for its protection, and as the Board was represented by the "temporary (?) chairman," there had been a great deal of fuss about nothing.

The same gentleman asked for information regarding whether a majority or plurality vote would elect. The session laws failing to cover the point, it was voted that a majority of the *full* Board was necessary to an election.

Balloting was then continued with no change in the result excepting the casting of a vote or two for Mr. Mayer at the expense of Mr. Depew. The Jones party, however, voted solidly for their candidate—as though, having made up their minds to carry out a certain purpose, any defection was a failure of duty. A recess of fifteen minutes was taken, but upon reassembling and casting five more ballots, the Board showed they had consummated nothing by the caucuses of the opposing members.

Mr. Depew then arose and stated that as it was his desire to bring the present dead-lock to a close, he was willing to draw lots with Mr. Jones to decide which of the candidates should withdraw. If he was the unfortunate one, his friends would cast their votes for the other candidate.

To this Mr. VanWinkle took a decided and personal exception. He felt he had a right to vote for and support whoever he pleased, uncontrolled by the result of any drawing of lots. If such an arrangement was entered into, he would feel it his duty to withdraw from the meeting. As to the desire of Mr. Depew to break up the dead-lock—it could be done by the new members speaking to the old ones the courtesy due the latter.

Mr. Depew replied that in his opinion some concession was due his friends from their opposers; and Mr. Jones, feeling that he was in the hands of others, refused to agree to anything of the sort.

The voting was continued and the wandering ballot, for the sake of variety, (no other result being accomplished) was cast for either Mr. VanWinkle, Mr. Steiner or Mr. Morris. The Jones party showed no disposition towards compromise or agreement. Although frequent suggestions were made by the other three that adjournment was best under the circumstances, such proposition was totally ignored by the old members. Another recess was taken and Mr. Steiner availed himself of the opportunity to replenish the Board with paper for ballots. A motion being afterwards regularly put by Mr. Depew that the Board adjourn—Mr. Steiner expressed a willingness to remain all night if a settlement of the difficulty would result. The question being put, the meeting adjourned until Wednesday evening at the same time and place.

Wednesday, May 12th.

The Board all present, and were called to order by chairman Van Winkle at 8 o'clock.

Mr. Morris moved that the balloting for President be suspended and the Board proceed to the election of a Treasurer. Carried; Mr. Steiner voting no.

Mr. Morris then nominated Mr. Jeremiah Van Winkle for Treasurer, but upon that gentleman's prompt and decisive declination it was felt by all that the voting for president might as well be continued.

Chief Voorhees was appointed teller; and the casting of five ballots showed the usual result of "Depew 3, Jones 3."

Mr. Jones thereupon arose and stated that he did not wish to stand in the way of the organization of the body, and would ask of his friends the privilege of withdrawing his own name as a candidate and substituting that of Mr. Van Winkle.

Upon the request of Mr. Van Winkle, Mr. Morris took the chair and the voting was continued. Seven ballots showed the Board to be still equally divided, and upon motion of Mr. Mayer it adjourned until the first Wednesday in June, Mr. Jones voting against the adjournment.

There being no possibility of an organization of the Fire Board before next month, and the presentation of *the Chief Engineer's* report being delayed until then, the public—who were interested and desirous of knowing just what condition the Department was in and what had been accomplished during the past year—expected us as usual to furnish the information. We have, in consequence, succeeded in securing a copy of ex-Chief Doane's report, which we present below; the very sensible suggestions and recommendations contained in which cannot fail to receive the approval of all:

PLAINFIELD, N. J. May, 1880.

To the Honorable the Board of Fire Commissioners:

GENTLEMEN: I herewith respectfully submit to you my annual report for the year ending May 7th, 1880.

The force of the Department consists of 2[illegible] men, divided into five companies. The apparatus includes 3 steamers (2 owned by the Department), 1 hook and ladder truck, 3 hose carriages and one hose cart. The steamers are all in good condition and the hose carriages in fine order, but a new set of wheels on the hook and ladder truck is very much needed.

There are 3 apparatus houses owned and one rented, besides a bell tower and alarm bell. The houses, with one exception, (No. 3 Engine house) are in excellent condition, but I would respectfully call your attention to the disadvantages of the bell tower. The only means of access to it are through the company's house upon which it is located, and should your Honorable Body decide to erect a stairway on the outside of the building, and place a striking apparatus in the observatory, which will be of great benefit to the Department.

There are 2,650 feet of hose in use of which probably 1,300 feet are good, the remainder being not quite but nearly worthless; and I would [illegible] urge upon your Honorable Body the pressing and immediate necessity of more.

There are 20 fire wells at the service of the Department located as follows: Front and Richmond streets, Front and Somerset streets, Second and Washington streets, Second and Peace streets, Second street and Park avenue, Second street and Madison avenue, Fourth and Washington streets, Fourth and New streets, Fifth street and Park avenue, Fifth street and Madison avenue, Sixth and Liberty streets, Sixth and Washington streets, Seventh street and Central avenue, Seventh and Union streets, Third Place and Crescent avenue, Plainfield avenue and Third street, Somerset and Race streets, Grove street and Holyrood place, Jackson avenue. Water may also be obtained from the bridges at Elm Place, Grove street and Washington avenue. I would respectfully recommend that wells be located and built at Third and Liberty streets, Central avenue and Ninth street, and Union and Plainfield avenues. There are *included in the above list of wells three* driven ones which might better be drawn up and sold for what they will bring, as they are entirely useless. I would earnestly call your attention to the fact that several of the most important wells are completely covered with dirt by the Street Commissioner.

There have been 12 fires and 12 alarms during the past year. The total loss being $1,5[illegible], with insurance of about $8,000.

In conclusion I would most heartily and sincerely thank your Honorable Body and the Department in general for the many courtesies extended to my assistants and myself during the year.

Very respectfully yours,
T. O. DOANE, Chief of Dept.

Shortly before noon, yesterday (Thursday), a fire broke out in the house occupied by Mr. Henry Piker, on the corner of Central avenue and Third street. It was undoubtedly ignited by a spark from a passing locomotive, and was first noticed by Dr. Lowrie and Mr. S. B. Mooney, who were passing the location at the *time. So dry had the past weather made* everything that the flames spread rapidly, and but a short time after the start of the conflagration at the corner of the front portico, it had enveloped in a sheet of flame the entire front of the building. The fire companies and their apparatus were soon on the spot, and a stubborn fight of almost two hours duration commenced between the two conflicting elements of fire and water. A more gallant struggle or harder work is seldom seen upon a like occasion, and the public have just cause to pride themselves upon an efficient organization of firemen. It was the first fire for Chief Voorhees since his late election, and although hampered and put back by the continual bursting of rotten hose, he is greatly to be complimented for the manner in which he directed the work. A false attic prevented the reaching of the flames where they were most dangerous, and until almost the whole roof was cut away it was impossible to get the fire under control. The building was entirely gutted but the adjoining ones saved. The house of Mr. Smith Garretson on the opposite corner of Third street caught several times but was promptly extinguished by the firemen. A number of coal cars on the track adjacent were drawn out of danger by a switch engine. No. 2 Eng. Co. had the honor of first water, quickly followed by "Gazelle" No. 1 steamer. Only one accident occurring during the fire, Samuel Robinson, a member of Zephyr H. & L. Co. No. 1. receiving a cut on his lip from an axe in the hands of a brother fireman who was cutting down a partition.

It is to be regretted that after the firemen had performed such valiant service *that a few turbulent spirits should engage* in a disgraceful wrangle and come to blows on the scene of their well-earned victory over their common enemy, the fire fiend. Their names should be sent to the Board for action—when that body organizes. (?)

The partially consumed dwelling was owned by Messrs. Thickston & Boice, and insured for $1,500 each in the Agriculturist of Watertown N. Y., and Fireman's Association of Philadelphia, through their agents. The tenant, Mr. Henry Piker, who kept it as a large boarding house, where many of the Schepflin, Baldwin, Tweedy & Co's operators lived, had an insurance of $300 on his furniture, in the American Mutual of this city. A portion of his household goods was rescued before the fire had spread to any extent.

There will be a "Wash" of "Gazelle" Eng. No. 1, next Tuesday evening, at 7½ o'clock, "sharp." The members of the Company are requested to be in full uniform.

SPORTSMEN'S CORNER.

Wm. Moore's celebrated trotting stallion, "Carbolic," promises to be a winning boy in many of the races he will participate in the coming season. He is in fine condition, and is entered for the Prospect Park races which come off in June.

The well-known trotting mare, "Nellie Mattison," sold last week by Mr. Wm. Moore, of this city, to a Michigan gentleman, will trot in four different States in the Western circuit this summer and fall, commencing the 26th of May. It is expected she will beat 2:20. "Nellie" is a half sister to the famous "St. Julien." Mr. Moore sold her for $2,000.

NORTH PLAINFIELD PARAGRAPHS.

Mr. William Taylor has recently had several fine photographic views taken of his beautiful residence "Edgewood," on Somerset street, near "Watamka Falls," to be given his friends.

Mr. Thomas Young has recently caused to be erected a handsome flag-staff on the lawn in front of his residence on Park Place, from which "Tom" says he intends to fly the stars and stripes in honor of the next Republican President elected. You will have to leave that task to your children or grandchildren, friend Thomas. It's all in your mind. Mr. Young, however, is to be congratulated upon the fine appearance of his property, since he purchased a strip adjoining it. He has made decided improvements in the surroundings of his house, erected new fences, etc.

Judge Magie will hold court to-morrow, Saturday, for the purpose of receiving additional indictments from the Grand Jury, if any are sent in.

The indictments against the Somerset officials will be tried before Judge Van Syckle, as Judge Magie will be obliged to hold Court in the Morris and Sussex Circuits at that time.

The Warren Mission Industrial School closes for the season May 22nd., at which time there will be interesting exercises, refreshments, etc. All friends of the School are welcome to be present.

The Board of Assessors met at Somerville on Wednesday, and held an informal meeting. No business of importance was transacted. It was left discretionary with all the assessors to make assessments uniform.

DUNELLEN ITEMS.

The request of the N. J. State Temperance Alliance was complied with by the pastor of our two churches, both of whom discoursed upon temperance Sabbath evening last.

They will have a jug-break in the afternoon—proceeds to replenish the library. The monthly meeting of the penny-a-day Society was held at the parsonage on Tuesday evening. The sum of $20 was passed over to the treasury as the month's accumulations.

Rev. T. [illegible] Brown and wife left on Monday last for their country residence in the State of New York. Mrs. Brown will not return. Mr. Brown will continue his Sabbath ministrations until the latter part of June.

An adjourned school meeting was held at the school building on Tuesday evening, at which Mr. Isaac Dunn, the former district clerk, presented his report in answer to the one furnished by a Committee who reported at a previous meeting. That Committee represented him as indebted to the district, whereas his report showed a balance in his favor. Both reports were then referred to the original Committee for reconsideration and adjustments. The meeting then adjourned for three weeks.

Thirty Reasons for Drinking.

Some drink because they're hungry,
And some because they're dry,
Some drink to keep them in good health,
And some for fear they'll die;
Some drink because they're hot,
And some because they're cold,
Some drink to strengthen them when young,
And some when they are old;
Some drink to keep them wide awake,
And some to make them sleep,
Some drink because they merry are,
And some because they weep.
Some drink when they do money gain,
And some because of loss;
Some drink when they are pleased,
And some because they're cross,
Some drink when they are hard at work,
And some when they do play,
Some think it right to drink at night,
While others drink by day;
Some drink for sake of company,
While others drink more sly.
And many drink, but never think
About the reason why;
Some drink when they a bargain make,
Some, when they money pay,
Both when they buy and when they sell,
They drink good luck to-day;
Some say they drink for pleasure,
And some they drink for pain,
Some say it's good, some say it's bad,
But never once refrain;
But all men own the proverb's right,
"When iron's hot to strike it,"
I've just found out the reason why—
They drink because they like it.

CHAPTER CLXXXI.

An act to provide for a reduction in the rate of interest on school district bonds.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That in all cases in which the corporate bonds of any school district of this state, heretofore lawfully issued, remain unpaid, and bearing by the condition of said bonds interest at the rate of seven per centum per annum, it shall be lawful for the trustees of such school district to make and issue the corporate bonds of such school district, by whatever corporate name it may be designated, bearing interest at a rate not exceeding six per centum per annum, and to an amount not exceeding the amount of the bonds lawfully issued and outstanding in the hands bona fide holders at the time of such new issue; and the proceeds of the sale of such new issue of bonds shall be used in paying off and redeeming bonds of the former issue, and for no other purpose; and such new bonds shall not be sold at less than their par value, nor shall anything in this act be construed to authorize the increase of the indebtedness of any school district, or to authorize the rescinding of existing contracts, but where school district bonds are due and payable, or the holders of the same are willing to surrender them before they are due, the provisions of this act may be availed of to secure a lower rate of interest.

2. And be it enacted, That for the purpose of providing for the payment of the interest and the principal of said bonds as they shall severally become due, the district clerk of such district shall notify the assessor or assessors having jurisdiction therein, annually before the first day of July in each and every year, of the amount of money that will be required to pay the interest and principal of such bonds as they shall severally become due, and it shall be the duty of such assessors to assess the same upon the taxable property in said district, in the same manner as other taxes are assessed; and it shall be the duty of the collector to collect the said taxes in the same manner as other taxes are collected, and pay out the same on the orders of a majority of the trustees of such district, one of whom shall be the district clerk.

3. And be it enacted, That this act take effect immediately.

Approved March 12, 1880.

MISCELLANEOUS READING.

The Elizabeth *Herald*, in a lengthy article, condemns the practice of tradesmen and others, patronizing and sustaining amateur printing establishments by giving them life and sustenance in orders for printing. The time is not far distant when the merchant, or other person, who desires printing, will forsake such "amateur" institutions on account of the miserable "jobs" turned out by them. It requires an educated and experienced person to set up and work off a correct order for printing. It is a gratifying fact to those in the profession who have large and costly establishments, to know that dealers in cards and paper begin to realize the fact that their sales and receipts for stock have depreciated within the past three years in consequence of their sales to these "amateurs" in small bulk of goods, because large buyers cannot compete with a boy who will print a few cards or circulars for a trifle over the cost of material, in order to give said boy a little spending money. It costs a considerable sum to equip a printing office with the requisite material and hire help to turn out work creditable to the "art preservative" and satisfaction of the customer who leaves his order, and therefore it is only right and just that encouragement should be given to such establishments.

* * *

A party of United States engineers recently sounded Niagara River below the falls. The approach to the falls in a small boat was made with great difficulty. Great jets of water were thrown out from the falls far into the stream, and the roar was so terrible that no other sound could be heard. The leadsmen cast the line, which told off 83 feet. This was quite near the shore. Passing down stream, the next cast of the lead told off 100 feet, deepening to 192 feet at the inclined railway. The average depth of the Swift Drift, where the river suddenly becomes narrow, with a velocity too great to be measured was 153 feet. Just under the lower bridge the whirlpool rapids set in, and so violently are the waters moved that they rise like ocean waves to the hight of 20 feet. Here the depth was computed to be 210 feet.

* * *

General Garfield is the powerful man in Congress who, more than any other is responsible for the high price of white paper, and should his opposition to the bill be withdrawn which imposes a tariff on articles which enter into its manufacture, it would soon go down. The interests of the whole country demand that the duty be removed at once. Can Garfield afford to continue his support of a most odious and oppressive tax which brings in no revenue to the Government, but which interferes very decidedly with the dissemination of knowledge among the people?

* * *

The Elizabeth *Herald*, with correctness states, that with Mr. Tilden out of the field the Democrats can unite upon any one of several candidates whose friends have placed them before the public. McClellan, Parker, Hancock, Bayard, Randall, Thurman, Hendricks, Field, Jewett, Davis, English are all good men, as are also other Democrats, the friends of whom do not deem proper to publicly advocate their claims at the present time.

* * *

Decoration Day is to be observed in New York as never before, and the entire National Guard of the city, together with visiting military from Philadelphia, will take part in a grand parade. Attorney-General Devens is to deliver an address in the evening at the Academy of Music. In New Jersey, as in New York, the day will be observed on Monday, and extensive preparations are being everywhere made.

* * *

The objective point of the New Jersey State Editorial Association on the next occasion of their Annual Excursion, is the White Mountains. The trip will occur in June and occupy the space of one week and the tickets will be $22 for the round trip.

* * *

The New York *Herald* says it has the best evidence that business men are rapidly learning that the cheapest and surest means of improving trade is by advertising in well established newspapers. This mode of reaching the people is rapidly displacing all others.

* * *

The holders of the tax arrearage bonds of the city of Elizabeth, N. J., applied to Comptroller Bower for the interest due on them, and were informed that he had no funds to pay owing to the transactions of Messrs. Leeds and Leggett.

LAWS OF NEW JERSEY.

CHAPTER CXCV.

An act concerning the proof of the descent and succession to real estate in case of intestacy.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That in the case of the death of any person intestate seized in fee or otherwise of real estate, within this state, it shall be lawful for the heir or heirs at law of such person or any of them or any person interested in such estate to make an affidavit or petition setting forth the fact of such death, the last place of residence of said intestate, the number of heirs, their names, ages and respective places of residence and relationship to the deceased, and as nearly as possible describing such real estate and the respective interest of such heirs or parties interested.

2. And be it enacted, That such application when so made shall be presented to the orphans' court of the county in which such real estate is situated or to the orphans' court of any one of such counties, where said real estate may be situated in one or more counties, and the said orphans' court shall thereupon examine any witnesses under oath or take such other proof as is usual and admissible in other legal proceedings, and in like manner and with like powers and jurisdiction, as to the truth of the matters in such application set forth, and upon being duly satisfied as to the truth of all such matters shall indorse upon such application the certificate of said court or of its then presiding officer, and thereupon the said petition or affidavit and all proofs and proceedings so taken shall be recorded in the county clerk's office of the county or counties in which said lands are situated or in the office of any register of deeds for such county, in the same books and in like manner as deeds are now recorded; and from the date of such record, such record or a copy shall be regarded and taken in all courts and legal proceedings in the state in respect to the descent and succession of said real estate as presumptive evidence of the matters and facts therein contained and by this act required to be stated.

3. And be it enacted, That the orphans' courts shall from time to time make such rules and regulations in furtherance of this act as may be deemed necessary or expedient.

4. And be it enacted, That this act shall take effect immediately and be deemed a public act.

Approved March 12, 1880.

CHAPTER CXCVI.

An act relative to the election of constables.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That all constables shall be hereafter elected for the term of three years; provided however, that at the first election held after the passage of this act when it shall be necessary to elect three constables, the ticket voted shall designate the name of one constable for one year, the name of another for two years, the name of the third for three years, and at each successive election one constable shall be elected for the term of three years.

2. And be it enacted, That all vacancies in the office of constable shall be filled for the unexpired term only.

3. And be it enacted, That constables shall be required to renew their bonds annually, and if they shall neglect or refuse so to do within thirty days after the expiration of each yearly term, the position shall become vacant, and such vacancy shall be filled as provided by law.

4. And be it enacted, That this act shall take effect immediately.

Approved March 12, 1880.

CHAPTER CXCVII.

A further supplement to an act entitled "An act to authorize the sale of lands limited over to persons, or in contingency, in cases where such sale would be beneficial," approved March seventeenth, one thousand eight hundred and seventy.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That in any sale heretofore made or hereafter to be made under the provisions of the act to which this a supplement, it shall be lawful for the chancellor to inquire into and ascertain the nature and amount of the incumbrances on the estate applied to be sold, and to ascertain the amounts of the taxes, assessments and water rents chargeable against the lands applied to be sold, and to order the lands to be sold free and clear of all incumbrances, and to order the incumbrance to be paid out of the funds realized by the sale; and if it shall appear to the satisfaction of the chancellor that the income from the property has not been sufficient to pay the taxes, assessments or water rents, and that the person owning a vested estate in said lands, whether a life tenant or otherwise, has borrowed money to pay the taxes, water rents or assessments chargeable against said premises, and said debt remains unpaid at the time of the sale, it shall be lawful for the chancellor to order said debt so created to discharge taxes, water rents or assessments to be paid out of the proceeds of the sale, if it shall appear to the chancellor that it is just and equitable that the same shall be paid; provided, that no incumbrances except for taxes, water rents or assessments shall be affected, or his lien cut off by such sale unless he is made a party to the petition and served with notice of the same, in accordance with the several sections of the act to which this is a supplement.

2. And be it enacted, That if it shall appear to the satisfaction of the chancellor that the person holding a life estate, or a vested estate of any nature created by any deed or last will and testament, is the widow of the person creating the same, and if it shall appear that the creation of such estate was for her maintenance and support, and if such estate is vacant lands which have become unproductive, or the buildings old and dilapidated, so that they cease to be of any rental value, or if the buildings should be destroyed by fire and the property, productive at the time of the making of said will or deed, should become partially or wholly unproductive, such life tenant or the person holding the vested estate shall not be liable for the payment of taxes, water rents and assessments unless the income from the property was adequate to the support of the widow and the payment of the taxes, water rents and assessments, but such taxes, water rents and assessments shall be liens upon the lands so ordered to be sold, and paid out of the fund arising from the sale of the same.

3. And be it enacted, That if the lands shall consist of different tracts and parcels, and the whole become chargeable with taxes, water rents and assessments, and that by a sale of a part of the premises all the taxes, water rents and assessments could be discharged on all the lands charged with such future and contingent estate, it shall be lawful for the chancellor to order the taxes, water rents and assessments on the whole estate to be paid out of the proceeds of the sale of that portion of the lands ordered to be sold, and to free all the balance of the lands from taxes, water rents and assessments.

4. And be it enacted, That if any tax, water rent, water charge or assessment is disputed, it shall be lawful for the chancellor to order said lands sold free and clear of such disputed tax, water rent, water charge or assessment, and to order that a sufficient sum to discharge said tax, water rent, water charge or assessment, with the interest to accrue thereon, to be deposited with the clerk of the court to abide the result of the settlement of such disputed tax, water rent, water charge and assessment, and when said tax, water rent, water charge or assessment shall have been declared a legal lien on said lands so ordered to be sold, the chancellor shall order the payment of such tax, water rent, water charge or assessment; and in case said tax, water rent, water charge or assessment shall be set aside or declared not to have been a legal lien on the lands so sold, that then said money so set apart to answer such payment shall be invested by the order of the chancellor under the provisions of the act to which this is a supplement; provided, that in setting aside any tax, water rent, water charge or assessment, if a new assessment is ordered, then said fund shall be held and applied to the payment of the new assessment; and provided further, that in ordering such sale and deposit, the chancellor may order that the interest shall cease on the tax, water rent, water charge and assessment, from the date of sale, and that the interest, after the sale, shall be the amount allowed on the deposit made with the clerk of the court.

5. And be it enacted, That if the estate is so situated that the land is composed of city lots and covered by large, old and dilapidated buildings that require to be removed before the land can be sold to advantage, it shall be lawful for the chancellor to order the buildings to be sold separate from the land, to be removed therefrom, and if, at such sale, no bidders can be found who will bid for and agree to remove said old buildings and material, it shall be the duty of the master to report the same to the chancellor, who may order the master to have the buildings torn down and the materials prepared for market and sale, and that the master shall sell the same, and if said materials cannot be sold for enough to pay for pulling down and removing the same, that then it shall be lawful for the chancellor to order the deficiency to be paid out of the proceeds of the sale.

6. And be it enacted, That this act shall take effect immediately.

Approved March 12, 1880.

CXCVIII.

An act to secure to workmen the payment of wages in lawful money.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall not be lawful for any glass manufacturer, ironmaster, foundryman, collier, factoryman, employer, cranberry grower or his agent, or company, their agents or clerks, to pay the wages of workmen or employees by them employed in either store goods, merchandise, printed, written, verbal orders, or due bills of any kind.

2. And be it enacted, That any glass manufacturer, ironmaster, foundryman, collier, factoryman, employer, cranberry grower or his agent, or company [illegible] pay the wages, or any part thereof, in either store goods, merchandise, printed, written, verbal orders, or due bills of any kind except as aforesaid, shall forfeit the amount of said pay, or any part of wages of said workman or employee given in store goods, merchandise, printed, written, verbal orders or due bills of any kind, and the same not be offset against the wages of said workman or employee, but he or they shall be entitled to recover the full amount of his or their wages, as though no such store goods, merchandise, printed, written, verbal orders or due bills had been given or paid; and no settlement made with such employee shall bar such action until after a lapse of one year from such settlement.

3. And be it enacted, That the provisions of this act shall extend to all [illegible] females and minors employed in factories or otherwise.

4. And be it enacted, That any glass manufacturer, ironmaster, foundryman, collier, factoryman, employer or company offending against the provisions of this act, the same shall be a misdemeanor, and punishable by a fine of not less than ten dollars nor more than one hundred dollars, and [illegible] imprisonment not to exceed the term of thirty days, at the discretion of the court; but nothing in this act shall apply to or affect any private individual giving orders [illegible] directly or indirectly, or to the offer of any debt due from such workman to any glass manufacturer, ironmaster, foundryman, collier, factoryman, employer or company, where the said debt is voluntarily contracted by the employee [illegible] to the payment of any debt due from such workman to any glass manufacturer, ironmaster, foundryman, collier, factoryman, employer or company.

5. And be it enacted, That this act shall take effect the fourth of July next, and all acts and parts of acts inconsistent with the provisions of this act be and the same are hereby repealed.

Approved March 12, 1880.

CHAPTER CXCIX.

An Act to regulate the practice of medicine and surgery.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That every person practicing medicine or surgery in this state in any of their branches for gain, or who shall receive or accept for his or her services any fee or reward either directly or indirectly, shall be a graduate of some legally chartered medical college or university in good standing or some medical society having power by law to grant diplomas; and each person before entering upon said practice shall append a copy of his or her diploma with the clerk of the county in which he or she may sojourn or reside, and shall pay said clerk ten cents for filing the same in his office; said copy to be a matter of record, and open to public inspection.

2. And be it enacted, That any person who shall practice medicine or surgery without conforming to the requirements of the first section of this act, shall be deemed guilty of a misdemeanor, and on conviction, shall be punished by a fine of twenty-five dollars for each prescription made or operation performed, said fine to be sued for and recovered in an action of debt, by any person who will sue for the same; and in default of payment of said fine, the offender shall be imprisoned in the county jail for a period of not less than three nor more than six months; provided always, that he or she may be liberated at any time by paying the amount of said fine and costs.

3. And be it enacted, That it shall be unlawful for any person not qualified according to the first section of this act, to collect any fees for medical or surgical services.

4. And be it enacted, That any person who shall offer for record a copy of any diploma which shall have been issued to any other person, or a diploma issued or obtained fraudulently, shall be deemed guilty of a high misdemeanor, and on conviction thereof, shall be punished by a fine of not less than three hundred dollars, nor more than five hundred dollars, or imprisonment at hard labor for not less than one nor more than three years, or both at the discretion of the court.

5. And be it enacted, That nothing in this act shall be so construed as to prevent any physician or surgeon in good standing, and legally qualified, to practice medicine or surgery in the state in which he or she resides, from practicing in this state, but all persons opening any office, or appointing any place where he or she may meet patients or receive calls, shall be deemed a sojourner in this state, and shall conform to the first section of this act.

6. And be it enacted, That this act shall take effect on the first day of June, one thousand eight hundred and eighty.

Approved March 12, 1880.

CHAPTER CC.

An Act to facilitate the arrest and punishment of violators of the law in localities beyond and adjacent to the corporate limits of the cities of this state.

Whereas, It is represented that in divers localities beyond and adjacent to the corporate limits of certain cities of this state, divers evil disposed persons do assemble on the Christian Sabbath, or first day of the week, commonly called Sunday, and then and there engage in unlawful games and sports and that they do also on other days of the week there commit divers other offences against the law and escape conviction and punishment therefor, by reason of the want of a constable or police officer to arrest such offenders; therefore in order to remedy the said evil;

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That it shall and may be lawful at any time hereafter for any persons who may own and reside on lands situated beyond and within one mile of the corporate limits of any city in this state, by writing under the hands of any three or more of them, to appoint one or more special constable or constables, for any term not exceeding one year at any one time, and for such limits within the locality aforesaid as such owners and residents aforesaid may designate; and it shall be the duty of any such special constable or constables when appointed as aforesaid, immediately to apprehend any person or persons who may, at any time hereafter be found by such special constable or constables within the locality for which he or they may be appointed as aforesaid, offending against or violating any of the provisions of the first section of the act of the legislature of this state entitled "An act for suppressing vice and immorality," approved March twenty-seventh, one thousand eight hundred and seventy-four, and such special constable or constables shall take such offender or offenders before a magistrate as soon as conveniently may be, in order that such offender or offenders may be dealt with according to law, and it shall be lawful for any such special constable or constables to detain such offender or offenders until the next day, then to be dealt with according to law, unless such offender or offenders shall give sufficient security before some magistrate, to appear, at any time and place that he may direct, to answer the charge preferred against him or them, in which case it shall be lawful for such magistrate to discharge such offender or offenders.

2. And be it enacted, That it shall be the duty of any such special constable or constables, when appointed as aforesaid, immediately to apprehend any person or persons who may at any time hereafter be found by any such constable or constables within the locality for which he or they may be appointed as aforesaid, committing any crime or misdemeanor against the laws of this state, and take such offender or offenders before a magistrate as soon as conveniently may be, in order that he or they so offending may be dealt with according to law.

3. And be it enacted, That any such special constable or constables who may hereafter perform any of the duties or services herein directed, shall be entitled to the same assistance and protection, and shall be under the same restrictions and liabilities as a constable would be on the same occasion; and further, that all such special constables shall be paid by the persons by whom they may be appointed for all services rendered by them.

4. And be it enacted, That this act shall take effect immediately.

Approved March 12, 1880.

"The clerk of any board of county canvassers, for each day's service, one dollar and fifty cents," be and the same is hereby re-enacted, and that all acts and parts of acts inconsistent herewith be and the same are hereby repealed.

3. And be it enacted, That eight hours shall constitute, with the fractional parts thereof, a day's work for the members of election boards.

4. And be it enacted, That this act shall take effect immediately.

Approved March 12, 1880.

LIBERTY AND DEMOCRACY.

To perpetuate the blessings of free representative government, or, appropriately speaking, to secure to all the people of every State the privileges and benefits of freemen, is the determined purpose of the Democratic party.

That is the true intent of the Constitution and Union, and it has ever been a living issue on the part of Democracy, uncompromisingly defended against the efforts of opponents, whether marshaled under the partisan banner of Federalism, Whigism, Know Nothingism or Radical Republicanism.

And never before was civil freedom threatened with greater danger than at the present time. Its most virulent enemy is absolutism—the centralization of unchecked power, which the uniform action of the Republican party leaders in Congress and State Legislatures clearly indicates to be their settled design.

To preserve our form of government, the principles of its adoption must be held far more sacred than the personal ambition of any man or the greed of any party. To abandon that position is to hazard the dearest rights of American citizenship.

Centralization is the deadly foe of Liberty.

The two cannot exist together, one or the other must succumb.

Centralization is Imperialism.

Liberty is Democracy.

NEEDED REFORM.

It is a painful task to chronicle the delinquency of any man, be he political friend or foe, but we insist that official rascality of every name and kind should be impartially exposed and punished.

There have been and doubtless still are Democratic knaves in office as well *as Republican. Justice demands the* ousting of all such and the substitution of honest men.

There are Republican official thieves in the State Prison of New Jersey to-day as well as Democratic, and that is just the place where all thieves ought to be.

When a man is fairly convicted of crime, official or other, he should be made to suffer the full penalty, and no partisan authority be allowed, like that Republican Board of Pardons in Pennsylvania, to outrage common decency by letting jail birds escape.

A poverty stricken fellow caught stealing something to eat, goes to prison without a show of mercy and is kept there for the sentenced term. Why should a rich Bank President and political corruptionist, found guilty of crime a hundred fold greater, go free of punishment?

Because he is a leader in the Republican party.

Had he been a Democrat, prison stripes would have surely followed conviction.

In that case no pardon—not a merciful sigh.

But being a good partisan Republican, he is clad in purple and fine linen, released before imprisonment, and sent on his way rejoicing.

Equal and exact justice, under all circumstances, is one of the reforms needed in this country.

DEATH OF CHIEF JUSTICE CHURCH, OF NEW YORK.

The State of New York has lost one of its most eminent citizens and its highest judicial tribunal one of its ablest members by the sudden death of Chief Justice SANFORD E. CHURCH, which took place at Albany on Friday last. A telegram from that place says that Mr. CHURCH was spending a three weeks' vacation *at his home*, but as was his custom at this time, was preparing opinions and attending to other matters pertaining to his duties. Friday morning he appeared on the streets in apparently sound health. In the afternoon he entered the Orleans County Bank, and shortly after complained of feeling bad. At his request he was taken home in a carriage, going up stairs to his room unassisted. He sent for a physician, to whom he complained of a severe pain in his left side. The doctor proceeded to prepare a stimulant, when, without a sign, Mr CHURCH fell back dead. Apoplexy is believed to have been the cause.

A PUBLIC HALL.

The want of a commodious, well ventilated and properly arranged Public Hall in this city is becoming more and more apparent. The Churches, with prudent care for their own properties, now decline, as a rule, to permit even ordinary lectures therein, and for the accommodation of large and promiscuous audiences Plainfield is destitute of a suitable place.

A hall of ample and comfortable seating capacity, constructed in modern style, with proper regard to safety, acoustics, ventilation and platform space, is the edifice required. We believe it would yield a satisfactory return on the investment, and it is certainly a public necessity. Who will move in the matter?

SOMERSET BOARD OF FREEHOLDERS.

The new Board of Freeholders of Somerset County met for organization at the Court House, Somerville, on Saturday, May 15th. The following officers were elected for the ensuing year:

Director—Wm. McMurtry, of Bernards.

Clerk—H. G. Cortleyou, of Hillsborough.

Collector—A. Berry, of North Plainfield.

The appointment of Attorney was left over to a future meeting.

WHAT A FRAUD!

Has the West Point colored cadet Whitaker case been proven. Claiming that masked men, presumably white cadets, entered his room at night, gagged and bound him, slit his ears, cut his hair close, and otherwise maltreated him, it now turns out, after a thorough and impartial trial of five weeks, that expert detectives engaged in the case, say that Whitaker inflicted the indignities (?) upon his person himself. And thus, is another "Democratic outrage" *squelched. Now howl, Rep. organs!*

* * *

A Democratic Congress has reduced the extravagant expenditures of the Government from THIRTY to FORTY millions of dollars annually for the past three years. And for doing this we notice that our Radical exchanges term it "harassing the working of the government." Why not be honest about it *and say* that Congress has saved the taxpayer just that much, and cancelled that much of Lincoln's "National blessing"—the Federal debt. "Harassing," indeed!—*Hunterdon Co. Dem.*

THE DEMOCRATIC STATE CONVENTION.

TRENTON, MAY 20th.—A large and enthusiastic gathering of about 1000 delegates were assembled here to day, fully two-thirds of whom arrived last night. Every hotel in the city is crowded and many were compelled to seek accommodations in private houses. It is probably the largest assemblage ever seen in this city and the greatest harmony and good feeling prevails.

The delegates at large selected this afternoon were Hon. Orestes Cleveland of Hudson County, Attorney-General John P. Stockton of Mercer, Col. C. M. Zulick of Essex and Congressman H. P. Smith of Burlington. For delegates from the third district: Hon. Robert Green of Elizabeth and Joseph J. Thompson of Burlington.

* * *

While New Jersey is of the thirty-eight States of the Union only the thirty-third in size, as has been observed, it *is the seventeenth in population*, the eighth in the value of its real and personal property, the twentieth in the value of its agricultural products, the seventh in its value of manufactured products, and the eighth or ninth in the value of its mines. In zinc ore it is the largest producer, and in the great staple, iron ore, it is the third or fourth. Its increase in population and wealth for the past thirty years has been more rapid than that of any other of the older settled States, and more rapid, too, than the average of the whole United States.

The Somerset County Indictments.

Last Saturday it was expected that the case of the indicted Somerset county officials would come up for trial before Judge Magie, at Somerville. A large crowd was in attendance at the opening of the Court, Judges Magie and associates Vosseller, Thompson and Garretson presiding. Prosecutor Bergen stated that he intended to move the trial of the indictments on Monday, May 17, and that he would first take up the case of County Collector John V. Veghte, against whom there are four indictments, charging him with embezzling public moneys. Mr. Veghte's counsel objected, on the ground that he was not ready for trial. The Court decided, after an explanation of the law in the case, that although it was desirable that all the indictments found should be tried at the earliest possible time, the Court was of the opinion that it would not be right to tax the county with the expenses until the question of *the constitutionality of the proceeding* should be determined, and it was then decided to let all the indictments against Freeholders Cory, Jones, Garretson, McBride and Waker lay over until the September term, with the understanding that they should have preference then over all other business of the Court. The bail of each indicted official was then renewed in the sum of $2,000 each, after they had been severally called to the bar. The trial of T. W. Frech, the indicted cashier of the Somerset Bank, accused of embezzlement, was set down for Wednesday, May 19th, Judge Van Syckle presiding in the absence of Judge Magie. The Grand Jury came into court about 2 o'clock, with no new indictments of public officers. The foreman said they would come into court again on Wednesday.

The "Great Boat Race." (?)

WASHINGTON, D. C. MAY 19th., Your correspondent left the hotel at 3 p. m., to make his observation from the Press Boat. On his arrival he found that the reporters were more numerous than the steamer could accommodate. Every village and town which boasted of a newspaper had a representative, but through the courtesy of Wm. L. Blaike he was invited on the referees boat where he had every opportunity of gaining official advantages.

At precisely 6:40 the third gun was fired and the referee gave the word "go". Both men were at even lengths the first half mile then Courtney fell behind. The vast multitude from the Washington and Virginia shores urged on the American favorite but to no avail. Courtney on his 2¼ mile ceased rowing and pulled for the shore.

Hanlan retained his average stroke, turned the buoy on his 2½ miles and made for his home stretch, finishing in 36:46 2-5.

Thus through indifference and cowardice to face the multitude the Canadian wins the laurels, and the American oarsman again is distrusted by his friends and backers.

A Mother's Grief.

The pride of a Mother, the life and joy of a home, are her children, hence her grief when sickness enters and takes them away. Price 10 cts, 50 cts, and $1.00. For lame Back, Side, or Chest, use Shiloh's Porous Plaster.—Price 25 cts. Sold by W. H. Voorhees and H. P. Reynolds.

The Best I Ever Knew Of.

J. G. Starey, a prominent and influential citizen of Iowa City, says: "I have had the Dyspepsia, and Liver Complaint for several years, and have used every Remedy I could hear of, without any relief whatever, until I saw your Shiloh's Vitalizer advertised in our paper, and was persuaded to try it. I am happy to state that it has entirely Cured me. It is certainly the best Remedy I ever knew of. Price 75 cts. Sold by W. H. Voorhees and H. P. Reynolds.

SHILOH'S CATARRH REMEDY, a marvellous Cure for Catarrh, Diptheria, Canker Mouth, and Head Ache. With each bottle there is an ingenious nasal injector for the more successful treatment of the complaint, without extra charge. Price 50 cts. Sold by W. H. Voorhees and H. P. Reynolds. ja9eow6m

Decay of the Teeth

Arises from various causes, but principally it may be attributed to early neglect or the indiscriminate use of tooth powders and pastes, which give a momentary whiteness to the teeth while they corrode the enamel. The timely use of that delicate aromatic tooth-wash, Fragrant SOZODONT, will speedily arrest the progress of decay, harden the gums, and impart a delightful fragrance to the breath. It removes those ravages which people sustain in their teeth from the use of sweet and acid articles.

A DENIAL!
SIMPSON & CO.,

(Late Wilson & Simpson,) respectfully announce to the public of Plainfield that they have not cut ICE off SYLVAN LAKE or RANDOLPH'S POND, in this city, for the PAST FOUR YEARS; therefore the report in circulation now that they are supplying their patrons with the ICE of said lake or pond is INCORRECT; or in broader terms, *FALSE*, as the depth of water at best of times is insufficient to allow of any being cut, independent of filthy state of the pond which is gradually filling up. All the ice harvested by them is cut off their own pond in WASHINGTON VALLEY, and made from

Pure Spring Water.

They are sorry to be obliged to take this means of correcting the false report, but do it in self-defence.

WE are pleased to see that H. S. Barnes, on Front Street, has been putting in a fine stock of artist's materials.

BEAUTIFUL sheets and lap dusters for horses for sale cheap at Vermeule's the Hatter, Front street, opposite Somerset.

THE grounds attached to the residence of Dr. W. C. Boone, on the corner of Peace and Fifth streets, have been tastefully laid out by this gentleman.

FOR choice spring butter the public should go to Moore's on Park avenue. His grades and makes are the highest and best, while his prices are the lowest.

ANOTHER new fountain for the drawing of soda and mineral waters has been erected by Killgore, the Front street pharmacist. Try the delicious waters drawn from it.

IT is time that the Board of Health turned their official attention to numerous matters in our midst that the coming warm weather will tend to develop into nuisances and disease.

THE Ladies' Society of Fanwood will hold a Strawberry and Ice Cream Festival in the Baptist church at Scotch Plains, on Thursday evening, June 3d. During the evening there will be music and Readings.

REV. JAS. S. N. Demarest, of Glasco, N. Y., son of Dr. Demarest, of the Theological Seminary at New Brunswick, N. J., will occupy the pulpit of the Trinity Reformed church, this city, next Sabbath morning and evening.

A LARGE and valuable mirror was on Tuesday last placed behind the bar of Laing's Hotel, George Miller proprietor. The frame of the glass is of ash, made by E. Davis, and is a handsome piece of work. Go look at it.

THE gas company are erecting upon their property a force pump to be worked by hand, which will be capable of throwing through 150 feet of hose a stream sufficient to flood their buildings and effectively quench any fire that may arise.

THE saloon of Mr. John Rafferty on Park avenue is being thoroughly put in order, re-painted and re-papered, under the direction of Mr. E. C. Morse. When completed many decided improvements will be noticeable about the establishment.

DURING the early part of last Wednesday afternoon the railroad between Fanwood and Westfield was blocked for a while by the wreck of a coal train. But little delay was experienced by the afternoon trains, although it was some hours before the main tracks were cleared.

ANOTHER strawberry festival is advertised on a grand scale by the Congregational church of this city. It will be held on the evenings of May 27th and 28th in Laing's Hall, and will be in charge of the Ladies' Aid Society of the organization. The admission price is put at ten cents, and there is every probability of great financial success.

LAST Monday morning Mr. Cadwallader Jones, a painter, while engaged in work on a building in the suburbs of this city, fell from his position and was seriously injured in consequence. Upon being carried to a house near by, it was found that a blow on the head had rendered the victim partially insane, and it was impossible to learn from him what had caused the fall.

PETER SCHNEIDERWIND, and Wm. Coon, the two Plainfield boys who were convicted in the Quarter Sessions of Somerset County recently for firing a pistol at a brakeman on a coal car near Dunellen, were on Monday last taken to State Prison by Deputy Sheriff Wright, of New Brunswick. The former will make the institution his home for six months and the latter one year.

THE handsome signs, in imitation of polished black marble with gilt lettering, placed on the brick building next to Van Deventer Hall by the City National and Dime Savings Banks and the German American Insurance Co., add a very attractive appearance to the edifice. The latter company have lately furnished their agents with remarkably beautiful glass office signs tastefully framed.

RUMORS having been circulated to the effect that Messrs. Simpson & Co. are furnishing their customers with ice cut from the Randolph Pond, that firm have felt called upon to publish a denial of the statements. Messrs. Simpson & Co. cut all their ice from their lakes in Washington Valley which are fed by pure springs, and have not in five years harvested a block of ice from the Pond in question.

LEWIS F. COMPTON, son of L. L. Compton, has a curiosity in the shape of a young owl of the "cat" species, which was taken from a nest in a tall tree, about six weeks ago, by Mr. Bertie Dunn, and which Mr. C. has domesticated so that his owlship eats out of his owner's hand with perfect freedom. The bird is tame and promises to make a mammoth specimen if some accident does not befall him.

MRS. E. M. GRAY, M. D., is now stopping at Laing's Hotel, where she intends staying for at least a month, for the purpose of treating magnetically such patients as desire her services. Her successful practice in Elizabeth, where she remained for two months at the Sheridan House, guarantees her ability to give entire satisfaction to all who may apply. Her terms are advertised in another column.

THE new chapel of the Park avenue Baptist church will be opened for religious service next Sunday morning at 10:30 o'clock, whereat all are cordially invited to attend. The interior of the church itself is rapidly approaching completion; the floor and walls being almost finished; and the building committee are at present discussing the advantage of furnishing the room with cushioned chairs instead of the usual pews.

MR. David P. La Rue, a well-known citizen of Somerset County, died at his residence in Bound Brook on Thursday of last week of erysipelas, after an illness of about one week. Mr. La Rue was about fifty-three years of age, and has followed the business of repairing watches and clocks in that County for the past thirty-five years. Mr. La Rue had many warm friends who will regret to learn of his sudden demise. The remains were interred at Millstone.

THIS office was favored this week with an express package containing three lemons weighing four pounds, sent by Mr. C. B. Overbaugh formerly of this city and now of Jacksonville, Fla. The fruit was raised on the St. John's river from seed and are remarkably fine specimens. The friends of Mr. Overbaugh will be glad to hear of the success he is achieving. A Florida paper publishes an order received by Mr. Overbaugh, from the U. S. Government, for 5,000 jars and tumblers of marmalade.

MR. John B. Dumont, on the corner of Seventh and Peace streets, has been having the floors of his residence laid in beautiful parquette patterns of hard wood; and to make his handsome cottage still more attractive, he has just purchased one of Haines' Bros. new grand upright pianos from A. Vanderbeek, No. 33 Chautauqua Building. Any person who wishes an elegant piano, first-class in every respect, can get one by applying to Mr. Vanderbeek, at his music store, No. 33 Chautauqua Building.

Good News for Commuters.

In order to afford additional facilities to Commuters on the C. R. R., Commutation Tickets will be issued hereafter good for fifty-four rides on a continuous train between the station named and New York, at any time during the current month for which the ticket is issued, instead of limiting their use to one trip each way per day as heretofore. In consequence of the change of form, the custom of returning fares to commuters who have left their tickets at home, will be discontinued, and tickets issued prior to June 1 will be punched by numbers instead of dates, on and after June 1, 1880.

Brinton Range.

Rifle pratice at Brinton Range commences this week, and under the management of the General Inspector of Rifle Practice, Col. Wm. H. Sterling, there is no doubt but that there will be more than usual skill displayed in marksmanship by the contestants for the handsome prizes of medals, trophies and rifles offered, an additional number of prizes being given by the State besides those already announced. Commodious new buildings will be erected for the accommodation of troops and officers. As Brinton Range is situated within easy access of Plainfield, (just beyond Elizabeth) our citizens should avail themselves of the opportunity to witness the trials of skill between the various riflemen.

The New Athletic Association.

The Independent Athletic Club of this city completed their organization on last Saturday evening by the election of the following officers; President, F. A. Pope; Vice President, Charles Everitt; Secretary, H. P. Moore; Corres. Secretary, Chas. VanWinkle; Treasurer Authur Varian. The Club have leased the rooms formerly occupied by the P. A. C., in the late Y. M. C. A. building, and all that new paint, paper, &c. can do to make them handsome quarters, is being accomplished.

Oh! I'll Pay You!

Street Commissioner Geo. Angleman, has notified ex-Chief Doane, through his Counsel, Messrs. Suydam & Jackson, that unless he (Doane) publicly retracts the statement made in his annual report that the Street Commissioner covered up some of the fire wells, he will be sued for libel. The damage is not stated, but it is supposed to range anywhere from one cent to one million dollars. Mr. Doane is too busy with carpentering work at present to write up his denial.

A Fight in the Boulevard.

Officer Hapenny arrested last Tuesday, an obstreperous husband named Welch for applying undue corporal punishment to the wife he had sworn to cherish. Some difficulty was experienced by the guardian of the law in transporting the prisoner to the "city jail," and an application of the nipper's steel grip became necessary as well as the assistance of officer Conway. The prisoner was subsequently set at liberty; no one appearing to make any charge against him.

Appeal from the Relief Association.

The ladies of the Relief Association desire to call attention to the stock of ready-made garments for sale at their rooms, 45 West Second street. Their manufacture has assisted many poor women, and their sale will aid the ladies in the prosecution of their work. Housekeepers and servants will do well to examine the stock on hand. The rooms will be open to receive orders for sewing and the sale of garments every morning, Wednesday and Thursday afternoon, and Thursday evening.

Plainfield Takes Another Medal.

Another trophy has been secured by a Plainfielder in the athletic arena, and under circumstances that add unusual glory to the winner. Mr. E. F. Foster at the games of the Scottish American Athletic Club of N. Y. city, held on their grounds last Saturday, won the first prize in the half-mile run for the club championship; beating his competitors easily in the remarkable fast time (considering the track) of 2 minutes and 13 seconds. The medal was a special one of gold, presented by A. E. Gordon, Esq.

Vote of Thanks.

At a meeting held in their quarters on Monday night, Zephyr Hook & Ladder Co. No. 1, unanimously resolved that the thanks of the Company be tendered to their late foreman, Mr. Fred. Dunn, for the manner in which he has always cared for the company's affairs and looked after its best interests, and that he be assured that he is followed to his new home and field of labor by the united good wishes of his old comrades in the Plainfield Fire Department.

JAS. NOEL, Secretary.
N. M. SEBRING, Foreman.

The Muhlenberg Hospital.

At last the efforts of those who have so persistently labored for the construction of a hospital in Plainfield, seem likely to be crowned by success. Through the generosity of Ex-Mayor Job Male, a plot of ground has been donated by that gentleman for the erection thereon of the Muhlenberg Hospital building. The lot is situated near Plainfield avenue, between Second and Third streets, and is a most desirable location. The corner stone of the proposed new edifice will be laid with appropriate ceremonies on Decoration Day, Monday, May 31, Messrs. Dean Rodman, W. R. Cock and J. W. Whiton acting as the appointed Committee on Ceremonies. The stone will be laid at 4 p. m. Success to the enterprise.

A Club on Wheels.

Notwithstanding the fact of a petitional objection to bicycle riding having been sent to the Common Council, a most prosperous Club has formed in our city. About eight members attended the meeting for organization held at the residence of Mr. George Vincent last Friday evening, and more are being enrolled every day. To night (Friday) a second meeting will be held at Mr. F. Smillie's, and probably something in the way of a protest will be drawn up and handed to the Council by way of reply to the objectors' communication. The officers of the Bicycle Club are: Mr. Joseph W. Gavett, Captain; Mr. Prescott B. Vail, sub-Captain; Mr. Fred Smillie President, and Mr. George Vincent, Secretary and Treasurer.

The P. A. C. Entertainment.

Van Deventer Hall on last Tuesday evening, was crowded with the friends of the P. A. C., for whose benefit the members had prepared a programme of entertainment most interesting. Heavy gymnastics, light calisthenics, magic ladders, human pyramids, bar work, acrobatic tumbling, balancing and statuary, composed the principal portion of the evenings exhibition; while the vocal and instrumental music interspersed, added greatly to the general attractiveness of the performance and the thorough enjoyment of the audience. To make mention of the individual ability of each of the proficient gymnasts who took part would occupy too much space in our crowded columns, and it would be an act of injustice should we specially notice a few when all were so equally perfect in their particular lines. Too much praise can not be accorded the Entertainment Committee who so successfully managed and carried on the exhibition, and like criticism is due Prof. Burnham for his efficient stage direction.

A Clever Capture.

Mr. George Pound, a dealer in hides, on East Front street, has since last March been the loser by theft of quite a considerable amount of goods from his establishment. It is the custom of his superintendent, Mr. Edward Laing, to salt down the green skins as they arrive and consequently being always aware of the number coming in, the loss of any was noticeable. As many as six at one time had been missed, and the circumstances of the case as far as known or surmised were put in possession of Captain Dodd some weeks ago. The first point gained by the officer's labors was that the goods were taken early in the evening; which belief followed up resulted in the capture of the thieves. On Friday evening last, Captain Dodd had just entered upon the scene of depredation and closed the door behind him, when he noticed a black "face at the window" gazing into the building as though reconnoitering. Springing outside the officer seized the inquisitive one, who immediately began a general denial of a theft he had not been as yet charged with. The prisoner, a negro by the name of Cuff, volunteered the information that the guilty party was another darkey by the name of Sutton. After locking up the one in hand, Dodd secured the other at his house and the next morning brought both before Justice Clark by whom the accused, after pleading guilty, were committed to the county jail at Elizabeth—there to await the action of the Court. The total loss will amount to over $100, and includes fifteen hides, a bag of fat and a barrel of tallow.

The Fast Engine.

The public being notified of the time and passage of the new locomotive over the Central R. R., by our issue of last week, were watching for it on Friday morning. The railroad as far as could be seen was spotted by expectant groups, whose disconsolate faces, as the time for the appearance of the wonder passed, may well be imagined. When it did arrive, however, its rather slow movement was greeted with "I-told-you-so" criticism, but its graceful build and easy running was universally admired. To accommodate the height of drive wheel (6 feet 9 inches) a much taller engine than usual is necessary, and in consequence the general appearance of ponderous squattiness is obviated. By an ingenious construction of mechanism the entire weight of the engine can be thrown on to the drive wheels, and taken off again after starting, to lessen the friction.

The trip to Jersey City was made in 1 hour 37½ minutes, (being a distance of 69 and a fraction miles) which was fully ten minutes slower than had been expected. From Bound Brook (about thirty miles) the time was 34½ minutes. Coming back, however, much better running was accomplished—the distance from Bound Brook to Skillman, a little over 14 miles, was made in about 10 minutes—and considering the fact of it being the first day the engineer in charge had gone over the route, it was a favorably completed trial. The entire distance run from New York to Philadelphia, was 89½ miles, and the time made, 97¼ minutes. The trial trip was, however, a success, and demonstrates the fact that with an engineer who knows the "lay of the road" which the engineer on Friday did not know, that a mile a minute will yet be the schedule time of this fast train between New York and Philadelphia.

Finis.

The publication of the State Laws enacted by the last Legislature is finished in this issue of THE CONSTITUTIONALIST. The ladies are undoubtedly glad to learn of the fact, as we shall hereafter give more readable matter for them on our outside pages.

Pfingst Montag.

Quite a large delegation from the active membership of the Plainfield Saengerbund visited Newark last Monday to take part in the German national celebration of the day. The ceremonies consisted of singing and a general good time; and the Arion Society of Newark are in possession of the sincere thanks of the Plainfield Association for the kind entertainment the latter received from the former.

Concert at Cranford.

In a week or two, probably, the inhabitants of Plainfield may avail themselves of an opportunity to enjoy again the singing of Messrs. Henry S. Brown and Fred. W. Ritter, Mrs. E. J. Grant and Mrs. J. K. Draper—which so many remember with pleasure at Westfield, last Winter. In the hands of the same gentlemen who so ably managed the former concert the coming one is sure to be successful, and a large attendance from this city may be expected.

"Help Yourself."

Before an interested audience gathered in the Seventh Day Baptist Church, the Rev. A. H. Lewis delivered, last Tuesday evening, a most enjoyable lecture. The subject "Help Yourself" was treated in a masterly manner, and the discourse contained many instructive points, and a great deal of sensible advice. The lecturer referred to the progress of the arts and sciences and the opportunities available for all to help themselves from the best thoughts and studies of the time, which would enable them to achieve a useful and honorable position in the ranks of life.

One Horse with Two Owners.

The disputed ownership of a horse has lately caused some excitement in our midst, and its settlement will remain over for a future trial. Mr. Edward Kennedy of North Plainfield, by the devious ways of trade, became the proud possessor of a handsome steed, which the future may chronicle among the noted trotters of the turf, should it not be pulled to pieces in the arisen dispute. Mr. Henry Bundy (colored) however claims that the animal belongs to him, and that the party who transferred it to Mr. Kennedy did not have a clear title. In consequence Mr. Bundy determined to gain possession of the property by fair means or foul; and one night recently he visited Mr. Kennedy's stable, while the latter and his revolver were absent, and possessed himself of not only the horse but sufficient harness to look respectable when the animal was hooked up. When morning dawned, Mr. Kennedy missed his valuable and spirited courser, and thereat smelling a large sized mice, he betook himself to Mr. Bundy's mansion with the necessary papers and constable to make an arrest. Henry Bundy, Esq., was found at home engaged in harnessing the very racer in dispute; and on being brought before Justice Nodyne, he was held in bail to the amount of $250 until trial. Henry immediately secured the necessary bondsman.

The First Festival of the Season.

The promenade concert and Strawberry festival which was arranged by the Central Baptist church to inaugurate the opening of their new chapel and to replete the resources of the furnishing fund, has been greatly enjoyed by the members of that society and their friends during the past two evenings. It was not necessary to read the word "Welcome" on the threshold as you passed through the door, or sparkling in jets of flame above the pulpit platform—all felt a kind atmosphere of grateful reception as they entered, which feeling was augmented by sweet music on the lower floor and material pleasures above. The performances of the orchestra engaged were remarkably fine and the selections judiciously made. There were sufficient classical compositions to please the cultured and highly educated, while others were favored with familiar overtures, operatic airs and marches. A bower of beauty—human and floral—was erected in the centre of the chapel, where boquets for the button-hole and flowers in holders and baskets, were retailed to fathers, husbands, brothers and——etc. The parlors were turned into refreshment rooms, where the usual festival eatables were furnished at popular prices, and the waitresses kept continually busy serving their customers. A large number of tickets have been sold, and the receipts from such in connection with the extensive patronage accorded the other attractions, will accrue greatly to the benefit of the fund. The partakers of creams and ices united in praising Mr. L. L. Compton, from whose establishment these delicacies were procured.

Delegates to Trenton.

The Democratic Association of Plainfield met at their headquarters on Front street, last Friday evening, for the purpose of electing delegates to the State convention at Trenton. A large and enthusiastic gathering was present, and the meeting was opened by the President, Mr. J. H. Martine, who stated the object of the call, the duty that would devolve upon those chosen, and the consequent necessity of selecting men of judgment and ability. Upon motion the meeting proceeded to the nomination of the following: Messrs. Jas. S. Vosseller, R. M. Stover, J. W. Yates, Nathan Harper, Wm. B. Maxson, W. L. Force, E. H. Depew, E. P. Thorn, John Rafferty, Jas. O'Neil, Gilford Mayer, D. J. Marshall. Messrs. E. C. Morse and Jonas H. Platt were appointed tellers, and the balloting resulted in the choice of the following as delegates:

Jas. S. Vosseller, R. M. Stover, J. W. Yates, W. L. Force, Nathan Harper, Wm. B. Maxson, with Messrs. D. J. Marshall, Gilford Mayer, E. Depew, E. P. Thorn, Jas. O'Neil and John Rafferty as alternates.

The President then addressed the meeting in a few eloquent and well-chosen remarks regarding the campaign that was before them. He was followed by Joseph W. Yates, Esq, who called the attention of the party to the great need there was of earnest work at the coming election; the necessity of nominating a man, who would have the sympathy and support of the Democracy of the State. Such an one would be triumphantly elected. Mayor Harper pictured the approaching victory in words forcible and irresistible, and was followed by Wm. B. Maxson Esq., to the same effect. Ex-Governor Parker's name was loudly applauded upon the frequent mention of the same. The delegates go to the Convention uninstructed for any particular candidate.

Personalia.

Thanks to Comptroller E. J. Anderson, for a copy of the proposed General Act concerning Taxes, and acts in reference to the government of Counties, Cities and Townships. Those desiring to peruse the document will find it lying upon our table, while the latch-string of the door is hanging outside.

Mrs. Elfeda Potts and daughter, residents of Nebraska City, are visiting in this city, stopping at the residence of Mrs. Potts' foster-father, A. Vanderbeek, Esq. "Van" is very, very proud of his grand-daughter, and delights in showing her the wonders of the Chautauqua Building, especially the steam printing establishment of THE CONSTITUTIONALIST.

Messrs. John W. Murray and Councilman John M. Whiton were this week elected members of sub-committees of the Board of Fire Underwriters of N. Y. City.

Mr. L. V. F. Randolph of this city is reported on May 1st, as being at Santa Monica, Cal., where he will remain a day or two. He is traveling by special car of the Illinois Central Railroad, of which he is the Treasurer.

Mr. Henry C. Squires, an elder of the Crescent avenue Presbyterian church, is a commissioner from the Presbytery of Elizabeth to the General Assembly at Madison, Wis., which convenes on Thursday, May 20th, to remain in session about two weeks.

Mr. Julian Scott has almost completed his picture of the "Village Magnates in Council," representing many of Plainfield's local celebrities discussing in a country store, the topics of the day. It is destined for the pages of *Harper's Weekly*, but it is hoped that the artist will allow its exhibition in this city for a few days before it leaves his possession.

Col. Vose, of the New York 71st Regiment, has taken the house of Mr. Ellis Posner, for the summer.

The Methodist church have again selected the Rev. John H. Vincent to take charge of their Sunday school department. Additional evidence that the Methodists are sensible.

The Tombstone (Arizona) *Nugget* speaks in glowing terms of the Dragoon Gold mine claims (twelve in number) that have been secured by Messrs. Jacob Kirkner and Fred. Knowland of this city. The writer of the article considers them the most promising, and states that they are being vigorously worked with splendid results.

The C. L. S. C.

This organization have decided to continue the meetings of their local circle here, for the present, and to devote the attention of such to a study of American history. On Thursday evening of last week, the Rev. Mr. Hurlbut delivered an instructive lecture on "The Mound Builders of America," and during an interesting hour's discourse brought forward considerable evidence in support of the theory of their existence; their possession of civilization, government and society; and their acquaintance with the beauty of the arts and sciences, and the laws of commerce.

Obituary.

DEATH OF JAMES VERDON, ESQ., J. P.

It is our painful duty to announce the death of this estimable gentleman, James Verdon. Mr. Verdon was born in the County of Louth, Carlingford, Ireland, July 25th, 1800. The family of the Verdons, or DeVerdons, are woven in with Irish History, an old and honored name. His demise took place on Thursday, 13th inst., at noon, when he calmly resigned his spirit to his Maker. The sad event has cast a gloom over the minds of all in and around the neighborhood of Plainfield, where Mr. Verdon has resided the past 32 years, acting the part of an honest magistrate, and exercising an influence, not derived from the station he occupied, but from his upright conduct and great desire to adjust in an amicable manner any differences amongst his neighbors.

Mr. Verdon took an active part in the stirring events and political contests in Somerset county since 1859, when he became a citizen of the United States.

In 1861 he was chosen by the Democratic residents of Warren Township as their candidate for magistrate. After a hot contest, he being opposed on the grounds of his nationality and religion, he was elected Justice of the Peace in May, 1861, and since that time has been re-elected four times in succession by the very party who at first opposed him, continuing to discharge his magisterial duties with great benefit to the people of Somerset county in which he lived. Esquire Verdon had a clear head and a genial and hospitable disposition. His patriotism was purified from partisanship and embraced not only his own native land, (which he fondly loved and revered) but the great family of mankind. Mr. Verdon had attained to his 80th year, and during his long life he never forfeited friendship or incurred enmity.

The funeral on Sunday last attested sincere veneration for his memory, and was largely attended by the Protestant and Roman Catholics of this place and surrounding counties. New York was largely represented at the funeral, all entertaining a cordial friendship for Esquire Verdon. The funeral services by Rev. J. P. Morris, at St. Mary's Church, were of a very impressive character. The pall bearers were Hon. Wm. B. Maxson, and Messrs. Alfred Berry, Hilliare Oblitz, S. O. Horton, Mr. Laterpie and Frank McIntyre. The mortal remains of the deceased were interred in St. Mary's R. Catholic Cemetery which he was instrumental in purchasing some 16 years ago, he always taking an active part in the welfare and growth of Catholicity in Plainfield. Mr. Verdon leaves a widow and five daughters. Peace to the ashes of the good man.

The following obituary notice of Mrs. Lucy Maria Morse, was unavoidably left out of our last issue, on account of the crowded state of our columns with other matters:

MRS. LUCIA MARIA MORSE

Was born in 1804, in Brooklyn, Conn. Here she spent the happy days of her childhood and youth, displaying in her associations the same untiring energy and loving helpfulness of disposition which have distinguished the whole of her life. Soon after her marriage, she removed with her husband to Bangor, Maine, where she resided for about thirty years. Here in 1833, she united with the First Congregational church. This association was, every way, of the most happy kind, and she became greatly endeared to her friends there. Her early church love remained strong to the last. Although she truly loved all evangelical Christians, and, in the broadest charity, maintained active relationships of benevolent service with them all, yet she was deeply attached to the simplicity and freedom of the organization in which she had been reared. A pleasing incident recently occurred in connection with this church relation. Mr. and Mrs. Morse had never transferred their membership from Bangor. A few days ago they received a letter from the old home, assuring them of the high regard in which they were still held, and that their names were still on the roll of members, and asking whether they did not wish to have their letters and unite with one of the Plainfield churches. Little did the deceased think then that so satisfactory an answer would shortly be given to this inquiry by the Lord Himself, in calling her to the high fellowship of the Heavenly temple. Mrs. Morse was by no means a merely nominal Christian. Believing firmly in evangelical truths, she also believed that her allegiance to the truths she held for the sake of the Savior she trusted, was best proven by earnest devotion in doing good to others. Her unflagging interest and efforts in the Woman's Temperance Union; her readiness to help in the service of song, for which she was remarkably fitted by her strong sweet voice; her private counsels and deeds of love; her regularity of attendance at the Ladies Union Prayer Meeting which grew out of a revival some twenty years ago; and her ceaseless activity in every good work connected with her own church, are loud testimonies to the zealous faithfulness of her life. As a pleasing instance of the esteem in which her unselfish and catholic labors were held, we may state that a few years since she was made an honorary life-member of the Woman's Baptist Missionary Society. In recognition also of her efficient help in the ladies' prayer meeting, she was presented with a beautifully bound hymn book with her name engraved on the cover.

But even such lives of patient, faithful, loving service must end. And so, all too unexpected, Mrs. Morse was called to her reward on Friday last, the 7th inst. On the previous Sabbath she was at church twice. On Monday she complained of not feeling well, and took to her bed. She lay only four days sick. During the latter part of this time she had a slight attack of pleuro-pneumonia, but not sufficiently strong to produce pain. The immediate cause of her death was apoplexy. But her end was peace, indeed, for she died without pain, and in death her features possessed the painless composure of her closing hours.

We may assure the bereaved friends of the hearty sympathy felt for them in their sorrow by the wide circle of their acquaintance, and the joy they feel in knowing there are so many blessed memories to alleviate their trial.

FIRE MATTERS.

At a few minutes before ten o'clock last Sunday evening a cry of fire near the corner of Grove and Front streets started the alarm over the brook and the fire companies of the department quickly responded. It was not, however, until after the fire bell of North Plainfield had been ringing some minutes and the apparatuses had left their houses that the Second street bell was rung; by that time the three engines, their hose carriages and the truck, were strung along Park avenue. Finding the alarm a false one the Companies turned their faces homeward again.

A very satisfactory "wash" was indulged in last Tuesday evening, by Gazelle Eng. Co. No 1. A large portion of their membership turned out in uniform, and the steamer worked as perfectly as could be desired. The Jackson avenue well was pumped dry, and it is believed that the same fate would have happened to the brook if the Company had not been ordered home.

NORTH PLAINFIELD PARAGRAPHS.

The "grand opening" of Mr. Jos. Blatz's new hotel on Somerset street took place on Thursday evening of last week, in which a large number of his friends who had received invitations participated. The furnishing of the house had been just completed and the arrangements for the convenience of the guests were perfect. The Music was under the leadership of Prof. Franze which is sufficient guarantee that it was first class. Way into the early morning hours was continued the dancing, the ball closing much to the regret of all interested.

Per call, the Democratic voters of the Township met at Demler's Hotel, Saturday afternoon last, to elect two Delegates to attend the State Convention at Trenton yesterday (Thursday). Aug. Mobus was elected chairman and Moses H. French Secretary. The Delegates elected were Stephen O. Horton and A. L. Force, with John Bodine and Aug. Mobus as Alternates. The delegates were instructed to vote for the continuance of the two-thirds rule.

Mr. John Wilson, lesse of the Johnston Dairy Farm, on Mountain avenue, has some of the finest milch cows and blooded stock on his place that may be found in this section. He is delivering pure milk to his customers at fair rates.

People passing the property of Gen. Long in North Plainfield are attracted by the many and marked improvements he has lately made to his house and grounds. Blue stone flagging forms a fine sidewalk, while a new carriage way, bright green sod and neatly bordered paths claim for the grounds much admiration. The house has been newly painted and an addition built—the entire place now being one of the handsomest of our many suburban residences.

The Township Committee through its Treasurer, Mr. F. H. Gardner, has up to to-day paid off $6,500 of Johnston Drive portion of the bonded indebtedness.

The bonds of County Collector Alfred Berry were accepted yesterday (Thursday) and he entered upon his duties.

SPORTSMEN'S CORNER.

A fisherman in the Raritan River last week caught a large sturgeon in his net about one mile below New Brunswick. The fish weighed 130 pounds and sold for 10 cents per pound.

Mr. Percy Ohl, residing on Central avenue, one morning recently fed his kennel of 20 valuable dogs as was his custom. In the food given them was some old cheese, immediately after eating which the animals were thrown into violent convulsions. Only judicious treatment and great care saved the dogs; and it should serve as a warning to others.

We notice with pleasure that Mr. Chas. Hallock, late of the *Forest and Stream*, has obtained a proprietary interest in the angling and fish paper known as the *Sea World and Fishing Gazette*, and trust that he will continue uninterruptedly his friendly and business connections with the former journal's patrons. The office of the new paper is located at the old stand, 113 Fulton street, and the subscription price $2 per year in advance.

DUNELLEN ITEMS.

Mr. John Huff of this place, on Monday morning last, met with an accident that promised to result disastrously. While crossing the C. R. R. track at Prospect avenue at the time of the passing of the Philadelphia express, he failed to observe its approach, and the train striking the rear of the wagon he was driving, threw the vehicle and its contents into an unrecognizable heap. Otherwise than a few slight bruises, Mr. Huff escaped all injury as did also the horse. The wagon was considerably broken up.

Very Sincerely Yours,

DR. A. E. BURR,

Dear Sir:—I have had the Neuralgia for eighteen years and have consulted the best Physicians in New York; I never found any relief until I got a bottle of your Neuralgia and Sick Headache Pills. They relieved me in a few minutes, also my daughter. I cannot say enough in favor of this remedy to the public.

Coughs and Colds.

Speer's Horehound, Rye and Rock. Horehound, Old-Port Rye and White Rock Crystal Candy. A simple and effective remedy for Coughs, Colds, Hoarseness, Influenza, Sore Throat and all Lung and Bronchial Complaints. Highly recommended for Consumption and General Debility. This is no patent medicine mixture but the pure extract of Horehound combined with an extract of Rye, made near Lexington, Ky. Sold by W. H. Voorhees and E. J. Shaw. Prepared only by Alfred Speer, Passaic, N. J., and 34 Warren street, N. Y. Price 25 cents per bottle.

Wines for Medicine.

Some time since we stopped at Passaic, N. J., and were really surprised to see the amount of Mr. Speer's stock of Port Grape Wine on hand—it is almost fabulous. Four storehouses are filled, and tiers upon tiers of casks, up and down stairs, and in some cases huge vats occupy every available space, leaving only little alley ways through which to walk. It is an illimitable quantity of wine. None is sold until it has acquired the age of four years, and the buildings 1, 2, 3 and 4, are of the first, second, third and fourth years' vintage. Our druggists have some of the oldest of the above wine direct from Mr. Speer.—[Paterson Guardian.

This wine is now in demand for communion purposes. It is excellent for weakly persons before retiring. For sale by all druggists.

Last week was memorable for destructive conflagrations. In addition to the vast forest fires which swept over extensive tracts in this State and Pennsylvania, consuming immense quantities of timber, two villages of considerable importance,—Stuyvesant, in New York, and Milton, in Pennsylvania—were almost completely reduced to ashes. Notwithstanding all the modern appliances for battling the fiery element its ravages seem to increase. The frequency of fires might, perhaps, be lessened if we had in this country the French system under which every fire, great or small, is rigidly inquired into with a view of punishing criminally those whose carelessness or negligence destroys their own and endangers their neighbor's property.

NEURALGIA cured by Dr. Burr's Neuralgia and Sick Headache Pills. These Pills are a special preparation, solely for the cure of Special diseases as named, and for these diseases they are worthy of a trial by all intelligent sufferers. These Pills are prepared expressly for the cure of Neuralgia, Sick-Headache, Nervous Headache, Dyspepsia, Constipation, Vomiting of Food, Morning Sickness, Sleeplessness, Paralysis, Palpitation of the Heart and Headache arising from over stimulating either by opium or alcoholic stimulants. Pleasant to take (they dissolve in the mouth,)—diminishes and effectually cures all diseases arising from a deranged Nervous System, loss of Nervous Energy and premature decay. Sent by mail on receipt of Price, 50 Cents. Prepared by A. E. BURR, M. D., Scranton, Pa.

THERE IS A BALM IN GILEAD.

The success which has marked the introduction here of Cream Balm, a Catarrh remedy, prepared by Ely Bros., Owego, N. Y., is indeed marvelous. Many persons in Pittston and vicinity are using it with most satisfactory results. A lady down-town is recovering the sense of smell, which she had not enjoyed for fifteen years, through the use of the Balm. She had given up her case as incurable. Mr. Barber, the druggist, has used it in his family, and commends it very highly. In another column, a young Tunkhannock lawyer, known to many of our readers, testifies that he was cured of partial deafness by the Balm. It is certainly a very efficacious remedy.—[From the Pittston (Pa.) Gazette, August 15, 1879.

Nothing Short of Unmistakable Benefits conferred upon tens of thousands of sufferers could originate and maintain the reputation which AYER'S SARSAPARILLA enjoys. CHAPTER CCXX.

A supplement to an act entitled "An act to establish a state board of health," approved March ninth, one thousand eight hundred and seventy-seven.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That in addition to the powers conferred by the act to which this is a supplement, said board shall have full power and authority to examine and determine whether pleuro-pneumonia, rinderpest, or any other contagious or infectious disease exist among animals in any county in this state; and that the sum of five hundred dollars is hereby appropriated to defray the actual necessary expenses of said board while making such examinations.

2. And be it enacted, That in event of any contagious or infectious disease as aforesaid, breaking out or being suspected to exist in any locality in this state, it shall be the duty of all persons owning or having any interest whatever in said cattle, immediately to notify the said board of health, or any one of them, of the existence of such disease, and thereupon it shall be the duty of said board of health, or any member thereof, to immediately proceed to the place or places where said disease is reported to exist, and to quarantine said animal or animals, and take such precautionary measures as shall be deemed necessary; to prescribe such remedies as in their judgment will be conducive to the recovery of such animal or animals, and to enforce such regulations as may be adopted by said board of health.

3. And be it enacted, That the board of health aforesaid, and all such assistants as they may appoint, whenever in their judgment and discretion it shall appear in any case that the disease is not likely to yield to any remedial treatment, or whenever it shall seem that the cost or worth of any such remedial treatment shall be greater than the value of any animal or animals so afflicted, or whenever in any case such disease shall threaten its spread to other animals, to cause the same to be immediately slaughtered, and their remains to be buried not less than four feet under ground, and all places in which said animals shall have been kept to be cleansed and disinfected.

5. And be it enacted, That any person or persons refusing or neglecting to notify said board of health, or any of them, of the existence of pleuro-pneumonia, rinderpest, or any other contagious or infectious disease among cattle, shall be deemed and adjudged guilty of a misdemeanor, and upon conviction shall be punished by a fine of not more than two hundred dollars, or by imprisonment not exceeding one year, or both, at the discretion of the court.

6. And be it enacted, That all bills for money expended under this act shall be audited by the comptroller of this state and then submitted to the governor for his approval, and after being thus audited and approved by the governor, shall be paid by the state treasurer upon warrant of the comptroller.

7. And be it enacted, That said board shall keep a full record of their proceedings and shall publish the same in the annual report of the state board of agriculture, yearly and every year during the existence of this law.

8. And be it enacted, That if any person or persons shall knowingly either buy or sell or cause to be bought or sold any animal or animals affected with the pleuro-pneumonia, rinderpest, or any other contagious or infectious disease, all such person or persons shall be deemed and adjudged guilty of a misdemeanor, and upon conviction thereof shall be punished by a fine not exceeding two hundred dollars or imprisonment not exceeding one year, or both, at the discretion of the court.

9. And be it enacted, That in case an emergency shall arise and a larger sum shall be deemed necessary, that the amount appropriated by the preceding sections of this act, said state board of health shall present the facts in evidence to the president of the state agricultural society, and the president and executive committee of the state board of agriculture, who shall authorize such additional expenditure as in their judgment they may deem the exigency of the occasion to demand; provided that in no case shall the amount of money thus authorized to be expended exceed the sum of five thousand dollars in any one year.

10. And be it enacted, That all acts and parts of acts inconsistent with this act be and the same are hereby repealed, and that this act take effect immediately.

A supplement to an act entitled "An act constituting courts for the trial of small causes" (Revision), approved March twenty-seventh, one thousand eight hundred and seventy-four.

1. Be it enacted by the Senate and General Assembly of the State of New Jersey, That section eighty-seven of said act, which is in the following words, to wit: "87. And be it enacted, That in all cases of appeal from the judgment of any justice of the peace not rendered on the verdict of the jury, it shall and may be lawful for either party to appeal, upon giving notice in writing to the clerk of the court of common pleas of the county at least ten days previous to the first day of the term to which the appeal shall have been sent up if the trial be had at that term, or if not, then at least ten days previous to the first day of the term next succeeding, to demand a trial of said appeal by jury, and upon receiving such notice said clerk shall file the same in his office, and said appeal shall be tried by a jury in the same manner as jury appeals are now tried and determined; otherwise, such appeal shall be heard and determined by the court," be and the same is hereby repealed.

2. And be it enacted, That section eighty-eight of the act to which this is a supplement, and which is in the following words to wit:

"88. And be it enacted, That every appeal from the judgment of any justice of the peace founded on the verdict of a jury, shall be heard and determined by the court to whom such appeal is or shall be made, unless either of the parties to the said appeal shall demand a trial by jury, in which case the sheriff shall return a jury either immediately or at such future time as the said court shall direct, and that by order of the court and without writ," be and the same is hereby amended to read as follows:

88. And be it enacted, That every appeal from the judgment of any justice of the peace founded on the verdict of a jury, where the judgment appealed from shall not exceed, exclusive of costs, the sum of thirty dollars, shall be heard and determined by the court to whom such appeal is or shall be made; and all appeals from the judgment of any justice of the peace founded on the verdict of a jury, where the judgment appealed from shall exceed, exclusive of costs, the sum of thirty dollars, shall be heard and determined by the court to whom such appeal is or shall be made, unless either of the parties to the said appeal where the judgment appealed from shall exceed, exclusive of costs, the sum of thirty dollars, shall demand a trial by jury, in which case said appeal shall be tried by jury, and the sheriff shall return a jury either immediately or at such future time as the said court shall direct, and that by order of the court and without writ.

3. And be it enacted, That this act shall take effect immediately.

Approved March 12, 1880.

JOINT RESOLUTION, NO. II.

Joint Resolution in reference to the protection of public records from destruction by fire.

Whereas, It is represented by the heads of certain departments of the state government that many valuable records and papers are exposed to danger from fire by reason of the offices of said departments having no fire-proof vaults connected with them; and whereas, the destruction of said records and papers would prove an irreparable loss to the state; therefore,

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That the governor of the state is hereby authorized and requested to consult with the state officers, and if in his judgment it be practicable to alter or change rooms in the state house so as to furnish the necessary protection, he is authorized to cause the said work to be done as speedily as practicable; provided, that the cost thereof shall not exceed two thousand dollars, and he is farther authorized to assign and cause to be suitably fitted up such rooms for the accommodation of the public officers of this state as he may deem necessary to facilitate the public business.

2. And be it resolved, That the comptroller shall draw his warrant upon the treasurer for the bill of expenses incurred in making the said alteration; provided, the said bills are approved by the governor.

3. And be it resolved, That this joint resolution shall take effect immediately.

Approved March 11, 1880.

JOINT RESOLUTION, No. III.

Joint Resolution to authorize the payment of the expenses of the New Jersey State Rifle Team and to pay the instructor of rifle practice.

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That the comptroller of this state be and he is hereby authorized and empowered to draw his warrant for and the treasurer is authorized to pay the expenses incurred by the Military State Team that represented this state at the late fall meeting of the National Rifle Association at Creedmoor, and that he pay the instructor of rifle practice according to his rank for the number of days actually on duty, on the approval of the governor.

2. And be it resolved, That this resolution shall take effect immediately.

Approved March 11, 1880.

JOINT RESOLUTION No. IV.

Joint Resolution in relation to the soldiers, sailors and marines of the Mexican War.

Whereas, The people of the United States owe a debt of gratitude to the gallant men who fought under their flag, on sea and land, in the Mexican War, a contest which has secured to the American Union territories of great value, which have yielded precious metals and cereal products in such abundance as to develop, in an extraordinary degree, our material interests and promote our moral welfare; and whereas, since the termination of that glorious contest, over thirty years have elapsed, leaving many of the participants therein, aged, infirm or poor, while the general government has collected, on the soil acquired by their valor, immense revenues in the past, which will increase in an extraordinary ratio in the future; therefore,

1. Be it resolved by the Senate and General Assembly of the State of New Jersey, That our representatives in congress and our senators are requested to use their best efforts to procure the passage of an act granting pensions to the soldiers, sailors and marines of the Mexican War of eighteen hundred forty-six, seven and eight.

2. And be it resolved, That his excellency the governor, be requested to forward a copy of these resolutions to each of our senators and representatives in congress.

Approved March 12, 1880.
